PIFSC Report on the American Samoa Limited-access Longline Fishery from 1 July to 31 December 2015¹

Fisheries Research and Monitoring Division, National Marine Fisheries Service, Pacific Islands Fisheries Science Center, NOAA Inouye Regional Center, 1845 Wasp Boulevard, Building 176, Honolulu, HI 96818

The following tables represent effort, retained catch (kept) and discard as reported on longline log sheets for the American Samoa limited-access longline fishery. Effort and catch-effort statistics are based on date of longline haul. Effort and catch statistics are based on logbook data submitted to the PIFSC, FRMD and represent an Oracle table LLDS_REPORT_STATS_AS database extraction done on 21 June 2016. When a statistic (number of vessels, trips) can involve dates of haul in 2 summary periods (i.e. years, semi-annual, quarters) the item is counted in both summary periods. Thus, a trip total is for "partial and completed" trips. As such, these are not additive statistics (i.e. sum of 4 quarters is not the total for the year, etc).

¹PIFSC Data Report DR-16-046. Issued 19 September 2016.

Table 1.Six-month summary report of fishing effort and catch statistics for U.S. longline vessels based in American
Samoa as derived from NMFS Western Pacific Daily Longline Fishing Log records. Catch-and-effort
statistics are based on date of longline haul. Data Source: PIFSC Information Management System,
Longline Logbook Data.
