INTRODUCTION

Phase III of the "Establishment of an Ongoing Sea Grant Program in Marine Problems as they relate to Industrial and Socio-Political Development of the Gulf Coast Region" proposed a program to compile and categorize previous research on the Coastal region. The proposal involved contact with all agencies sponsoring research within the counties as well as thorough examination of the holdings of libraries, archives, and other installations. The purpose of the inventory was to identify, categorize, index, and generally bring together research relative to the Mississippi Gulf Coast Region.

The responsibility for the inventory was divided between the participating universities--University of Mississippi, Mississippi State University, and the University of Southern Mississippi--with each university responsible for identifying research pertaining to the Coastal Region at their respective institutions. Additionally, Dr. Robert McArthur, University of Mississippi, was responsible for contacting research sponsoring agencies in Harrison County, Mississippi Employment Security Commission offices, Mississippi Agriculture and Industrial Board, Mississippi Highway Department, Mississippi Governor's Emergency Council, and the Mississippi Research and Development Center; Dr. D. C. Williams, Jr., University of Southern Mississippi, was

responsible for contacting the agencies in Hancock County, Pat Harrison Waterway District Office, Southern Mississippi Planning and Development District Office, U. S. Army Corps of Engineers, and the Mississippi Test Facility Office; and Dr. Brian Rungeling, University of Mississippi, was responsible for contacting the agencies in Jackson County. The Bureau of Business Research, University of Southern Mississippi, was responsible for compiling, categorizing and publishing the inventory report.

The inventory report was divided into three distinct sections with Sections II and III indexed to Section I. Section I contains publications listed by subject matter. Each publication is listed in bibliography form, alphabetically by title, and followed by a short synopsis. As the publications are listed by subject matter, an individual publication may appear more than once within this section, e. g., the publication "Conditions Affecting the Economic Climate of the Industrial Seaway of Harrison County Development Commission" is listed under two subject headings--Industrial Development and Population and Economics. Section II contains publications listed alphabetically under the sponsoring, contracting or controlling agencies and indexed to Section I. Although an extensive effort was made to determine the sponsoring, contracting, or controlling agency for each publication, these data could not be determined for several publications. In these cases, the publication was placed under an agency where a logical choice could be made or under the "miscellaneous" heading. Section III contains an author index listed in alphabetical order and referenced to the publications in Section I.

INDEX BY SUBJECT

Comprehensive Plans, Hancock County*

1. "Comprehensive Plan, Hancock County, Mississippi." Ware, Lewis and Eaton, and General Electric Co. Bay St. Louis: 1970.
 - "Goals, Objectives, and Standards." (Hancock County, Bay St. Louis, Waveland).
 - "Short Range Program, Long Range Program, Public Improvements Program."
 - "Population and Economic Study." (Hancock County, Bay St. Louis, Waveland).
 - "Existing Land Use Study, Neighborhood Analysis, Initial Housing Element."
 - "Zoning Ordinance."
 - "Public Utilities Plan, Land Use Plan, Community Facilities Plan, Major Thoroughfare Plan."
2. "Comprehensive Plan, Bay St. Louis, Mississippi." Ware, Lewis and Eaton, and General Electric Co. Bay St. Louis: 1970. (Three Volumes listed under Hancock County).
 - "Existing Land Use Study, Neighborhood Analysis, Initial Housing Element."
 - "Commercial District Development Plan."
 - "Public Utilities Plan, Land Use Plan, Community Facilities Plan, Major Thoroughfare Plan."
 - "Subdivision Regulations."
 - "Zoning Ordinance."
 - "Short Range Program, Long Range Program, Public Improvements Program."

* Titles of volumes of Comprehensive Plans describe content.

3. "Comprehensive Plan, Waveland, Mississippi." Ware, Lewis and Eaton, and General Electric Co. Bay St. Louis: 1970.

"Existing Land Use Study, Neighborhood Analysis,
Initial Housing Element."

"Public Utilities Plan, Land Use Plan, Community
Facilities Plan, Major Thoroughfare Plan."

"Short Range Program, Long Range Program, Public
Improvements Program."

"Zoning Ordinance."

"Subdivision Regulations."

"Commercial District Development Plan."

Comprehensive Plan, Harrison County

4. "Comprehensive Plan, Harrison County, Mississippi." Planning Services, Inc. New Orleans, LA: 1970-1971.

"Beachfront Exposed Area Study." 1970.

"Proposed Zoning Ordinance." 1970.

"Community Facilities." 1970.

"Population and Economic Study." 1971.

"A Ten Year Interim Thoroughfare Plan." 1971.

"A Ten Year Interim Land Use Plan." 1971.

5. "Comprehensive Plans, Biloxi, Mississippi." Planning Services, Inc. New Orleans: 1969-1972.

"Scope of Services, Comprehensive Plan." (Thomas Seabrook & Associates). 1969.

"Public Improvements Program." 1971.

"Community Facilities Plan." 1971.

"Initial Housing Element." 1971.

"Scope of Services, Additional Planning Work." 1972.

6. "Comprehensive Plan, Long Beach, Mississippi." Ware, Lewis and Eaton, and General Electric Co. 1970.

"Short Range Program, Long Range Program, Public Improvements Program."

"Public Utilities Plan, Land Use Plan, Community Facilities Plan, Major Thoroughfare Plan."

"Subdivision Regulations."

"Existing Land Use Study, Neighborhood Analysis, Initial Housing Element."

"Community Appearance Plan and Program, Parking and Commercial Area Sketch Plan."

"Zoning Ordinance."

"Goals, Objectives, and Standards." (Pass Christian and Long Beach).

"Population and Economic Study." (Pass Christian and Long Beach).

7. "Comprehensive Plan, Pass Christian, Mississippi." Ware, Lewis and Eaton, and General Electric Co. 1970. (Two Volumes included under Comprehensive Plan, Long Beach, Mississippi).

"Public Utilities Plan, Land Use Plan, Community Facilities Plan, Major Thoroughfare Plan."

"Subdivision Regulations."

"Community Appearance Plan and Program, Parking and Commercial Area Sketch Plan."

"Short Range Program, Long Range Program, Public Improvements Program."

"Zoning Ordinance."

"Existing Land Use Study, Neighborhood Analysis,
Initial Housing Element."

Comprehensive Plans, Jackson County

8. "Comprehensive Plan, Jackson County, Pascagoula, Mississippi."
Ware, Lewis and Eaton. Jackson: 1972.

"Major Thoroughfare Plan, Community Facilities Plan,
and Future Land Use Plan."

"Community Appearance Plan and Commercial Area
Study."

"Existing Land Use and Neighborhood Analysis."

"Population and Economic Study."

9. "Comprehensive Plan, Moss Point, Mississippi." J. L. Paulk and
Associates, Inc. Jackson: 1970.

"Inventory and Analysis of Neighborhoods, Community
Facilities, Public Utilities, and Existing Land Use."

[Program of Development Planning].

"The Design Element."

"Zoning Ordinance and Subdivision Regulations."

10. "Comprehensive Plan, Ocean Springs, Mississippi." Continental
Consultant, Inc. 1971.

"Comprehensive Development Plan."

"Economic and Population Study."

"Community Goals--Objectives and Standards."

"Historic Preservation Plan."

"Public Improvements Program."

"Initial Housing Element."

"Inventory and Analysis."

Comprehensive Plans, Pearl River County

11. "Comprehensive Plans, Picayune, Mississippi." Dan S. Martin and Associates. New Orleans: 1960.

"Major Street Plan."

"Population and Economic Study."

12. "Comprehensive Plan, Poplarville, Mississippi." Michael Baker, Jr., Inc. Jackson: 1971.

"Comprehensive Plan Elements."

"Subdivision Regulations."

"Population and Economic Study."

"Zoning Ordinance."

"Inventory and Analysis."

13 through 27 not used.

HEALTH, EDUCATION, AND SOCIAL DEVELOPMENT

28. "Child Developmental Services Proposal." Harrison County Community Action Agency. April, 1972.

A proposal submitted for the development of child developmental services.

29. "Community Attitude Survey." Public Affairs Operation, Mississippi Test Support Department, General Electric Company. Bay St. Louis: March, 1966.

Survey sampled attitudes toward industry, schools, local government, business, and industry. This was the first General Electric community attitude survey conducted in the area.

30. "Gulf Regional Planning Commission Educational Survey." Gulf Regional Planning Commission. Gulfport: January, 1972.

This document contains an area-wide survey conducted for the purpose of determining the need for education beyond the junior college level in the Mississippi Coastal Area, and to assist the Region in obtaining a college of degree granting status.

31. "Health Facilities Survey and Report for Singing River Hospital and Jackson County Board of Supervisors." Kiene, Paul C. and Associates. Baton Rouge: February 17, 1969.

32. "Plan for Action for Older American, Areawide Model Project: Support Services for the Vulnerable Elderly." Southern Mississippi Planning and Development District. November, 1971.

A proposal to provide the elderly group with needed support services in order to enable them to live independent and meaningful lives.

33. "Proposal for a Mississippi Gulf Coast Research and Education Park and Related Activities." Mississippi Research and Development Center. Jackson: August, 1968.

This report discusses the feasibility and justification for a Gulf Coast Research and Education Park. A course of action, directed toward activation of the Park and Center, is outlined; and advantages and disadvantages are discussed.

34. "A Self Study and Evaluation of Pearl River Junior College, Poplarville, Mississippi." Pearl River Junior College. April, 1964.

A self study of Pearl River Junior College including an analysis of the financial resources, organizational structure, the educational program, library, faculty, physical plant, and student personnel.

35. "Survey: Biloxi Separate School District, 1956." Associated Consultants in Education. 1956.

Statistics and related discussion on all aspects of the educational physical environment, including recommendations.

36. "Survey: Hancock County Public Schools, 1955." Associated Consultants in Education. 1955.

Statistics and related discussion on all layouts of the educational physical environment, including recommendations.

37. "Survey: Harrison County Public Schools." Associated Consultants in Education." 1956.

Statistics and related discussion on all aspects of the education physical environment, including recommendations.

HISTORIES AND DESCRIPTIONS

38. "The City of Bay St. Louis: Commemorating 100 years of Incorporation." Bay St. Louis Centennial Corporation. Bay St. Louis: 1958.

Centennial description of the economic, social, and political growth of Bay St. Louis.

39. "Facts and Fictions about the Queen City of the Mississippi Gulf Coast: Biloxi, Harrison County." Press of Daily Herald Printers: 1904.

A general history of Biloxi with particular attention to current (1904) economics and resources.

40. Four Centuries on the Pascagoula. Cain, Cyril E. (Two Volumes) 1953, 1962.

Vol. I History of the area and biographical sketches of the area and biographical sketches of major figures. Early problems are discussed in detail.

Vol. II History and lists of officials from 1800 to 1960.

41. "Golden Opportunity in Hancock County in Coastal Mississippi." Hancock County Chamber of Commerce. Bay St. Louis: n. d.

Public relations brochure on the past, present, and future of Hancock County. Illustrated.

42. The Gulf Coast of Mississippi. Oliver, M. N. New York: 1941.

A brief description of towns along the coast centering on prominent buildings and homes.

43. "Gulfport, Heart of the Mississippi Gulf Coast." Dixie Press. Gulfport: 1930.

Brief pamphlet showing fine points of the city. Almost all pictures and advertisements.

44. "Historic Preservation Plan, Ocean Springs, Mississippi." Continental Consultants, Inc. Jackson: September, 1970.

Study includes a history of Ocean Springs, an Historic Sites survey (with illustrations), and a description of sources of federal assistance funds.

45. "The History of Beauvoir--Jefferson Davis Shrine." Bassett, Martha B. University of Southern Mississippi: August, 1970.

The history of the Beauvoir property from the original patent of the land in 1832 to its use in 1970 as the Jefferson Davis Shrine.

46. History of Harrison County, Mississippi. Lang, J. H. Gulfport: 1936.

General history of the area including many individual names, short biographical sketches of important persons, and short sketches of events and issues.

47. "A History of the Mississippi Gulf Coast from November 11, 1918 to November 11, 1928." James, Thomas G. June, 1935.

A recount of area history as presented in The Daily Herald of Biloxi, Gulfport.

48. "The Ingalls Story in Mississippi, 1938-1958." Couch, Robert Fairfax. University of Southern Mississippi: August, 1960.

The locating of Ingalls Shipbuilding Corporation in Pascagoula, Mississippi.

49. Mississippi Gulf Coast, Yesterday and Today, 1649-1939. Federal Writers Project in Mississippi, Work Progress Administration. Gulfport: Women's Club of Gulfport, 1939.

General social and economic summary of the area with short, more detailed sections on Bay St. Louis, Biloxi, Gulfport, Ocean Springs, Pascagoula, and Pass Christian, a detailed chronolog is enclosed. The book was once a Guide Book.

50. Next Door To Heaven. Thigpen, S. G. Kingsport, TN: 1965.

The book consists of 27 old tales, stories, on events covering the social history along the Pearl River between 1850-1910. An earlier similar book was Pearl River, Highway to Glory Land.

51. "Old Biloxi, The First Settlement in Mississippi." Rowland, Dunbar. 1920.

An address delivered at the dedication of a monument, commemorating the settlement of Old Biloxi and Fort Maurepds. General facts on the first settlement and the biography of Pierce le Mogne de Iberville who came to Mississippi in 1682.

52. Pascagoula: Singing River City. Higgenbotham, Jay. Mobile: 1967.

A general history of the area through specific chronological events and people.

53. "Pat Harrison: The Formative Years, 1911-1919." Coker, William Sidney. University of Southern Mississippi: June, 1962.

The life of Pat Harrison during his years as Representative in the U. S. Congress.

54. Pearl River: Highway to Glory. Thigpen, S. G. Kingsport, TN: 1961

A collection of old stories, legends, and events centered around the Mississippi Gulf Coast from the early 1800's to the early 1900's.

55. "Ship Island in the Civil War." Burns, Zed H. University of Southern Mississippi: August, 1970.

History of Ship Island and Fort Massachusetts during the Civil War

56. "This is Biloxi, Mississippi." Gollotte, Gwen H. and Fountain, Walter F. Biloxi. n. d.

General information on the Biloxi Community.

HURRICANE AND HURRICANE PROBLEMS

57. "Beach Erosion & Hurricane Protection in Hancock, Harrison and Jackson Counties, Mississippi." U. S. Army Corps. of Engineers. (In progress).

58. "Camille Feasibility Survey Application for the Mississippi Gulf Coast Area." Gulf Regional Planning Commission. Gulfport: October, 1969.

Application to U. S. Department of Housing and Urban Development for Survey and Planning grant in coastal area ravaged by Hurricane Camille.

59. "Camille: One Year Later." Dav-Mac Publishing Company. (Commemorative Souvenir, First Anniversary, August 17, 1970). Batesville, Arkansas: 1970.

This booklet is a collection of photographs showing damage resulting from Camille, together with restoration efforts.

60. "Exposed Beachfront Area Study, Harrison County, Mississippi." Planning Services, Inc. New Orleans: April, 1970.

A study of the damage done to the beachfront area of Harrison County, Mississippi and recommendations for improving this area. Included in this study is a delineation of the areas suffering major damage and the areas flooded by Hurricane Camille. Recommended land use plans and recommended zoning plans are included as aids in the rebuilding of this coastal area.

61. "Hurricane Betsy." U. S. Army Corps. of Engineers. Mobile, Alabama: Sept., 1965.

62. "Hurricane Camille." U. S. Army Corps. of Engineers. (2 separate reports). Mobile, Alabama: 1969.

63. "Hurricane Camille: Background Information." Office of Emergency Preparedness, Executive Office of the President. Gulfport: September, 1969.

This report describes the extent of Camille's damage and catalogues the agencies and programs involved in the immediate attempts at recovery. The report is preliminary and many figures may have been revised in later reports.

64. "Hurricane Camille--17-18 August 1969 - After-Action Report." U. S. Army Corps of Engineers. Mobile, Alabama: February, 1970.

This report on the activities of the U. S. Army Engineer District, Mobile, during and after Hurricane Camille, summarizes those emergency activities accomplished under Public Laws 875/81 and 99/84 as well as those under the various Corps of Engineers statutory authorities. It is intended to describe the program of relief and rehabilitation operations undertaken by the Mobile District.

65. "Hurricane Camille Feasibility Survey Area: Biloxi, Mississippi." Candeub, Fleissig and Associates, Consultants. (Final Report). March, 1971.

The purpose of this report was to identify a financially feasible development program for rebuilding the hurricane-devasted sections of Biloxi. Existing planning concepts and studies were utilized to prepare a plan concept and plan proposals for which action programs were identified to implement the proposals. The previously submitted Interim Reports covered survey findings, the extent of municipal facilities damage, economic base and marketability.

66. "Hurricane Critical Exposure Zone Maps: Hancock, Harrison and Jackson Counties, State of Mississippi." Diversified Consultants, Incorporated. Jackson: 1971.

This manual is designed to satisfy the requirements set forth in the Emergency Building Code. The Code was adopted by the political jurisdictions of the three Mississippi counties bordering the Mississippi Sound after Hurricane Camille devastated the area. This Code, which is primarily an

amendment to the Southern Standard Building Code, sets forth special requirements for a zone bordering the Coast known as the "Critical Exposure Zone."

67. "Hurricane Plan." Harrison County Civil Defense Council. Gulfport.

This plan is promulgated to minimize loss of life and property within the political jurisdiction of the County government and authority has been delegated to the County Civil Defense Director to implement this plan. Public information plans and shelter maps are provided.

68. "Hurricane Problems of the Mississippi Coast." House Document, No. 99, U. S. 90th Congress, 1st Session.

69. "The Mississippi Gulf Coast Comprehensive Development after Camille." Mississippi Governor's Emergency Council. 1970.

The report concerns the counties of Hancock, Harrison, Jackson, George, Pearl River, and Stone. The damage is summarized and a strategy for development is advanced. The Gulf Coast Development and Service Corp. is decreased and programs for the following are presented: water resources, industrial development, tourism development, public services financing, utilities, housing and residential development, transportation, and regional land use planning.

70. "The Need for Hurricane, Tidal Surge, and Flood Protection." Hancock County Port and Harbor Commission. n. d.

Presents the affects of a hurricane on the area in an effort to point out the need for protection from hurricane, tidal surge, and floods.

71. "Report on Hurricane Camille, 14-22 August 1969." U. S. Army Corps of Engineers. Mobile: May, 1970.

The report covers the meteorological history of Hurricane Camille and its effect on those counties in Mississippi and Alabama within the Mobile Engineer District that were declared to be disaster areas by the President. A comprehensive

survey was conducted within the areas of tidal inundation to collect data on damages and meteorology for use in the Corps of Engineers mission with respect to hurricane protection projects. Areas not flooded were covered in less detail.

72. "The Story of Camille." Gulf Publishing Company, Inc. Gulfport, Mississippi: 1969.

A story is told through short texts, newspaper editorials and photographs of damage caused by August 17, 1969, Hurricane Camille, and the determination of residents of the Gulf Coast of Mississippi to restore their homes and businesses. Includes an area listing of loss of lives and damaged or destroyed homes and businesses.

INDUSTRIAL DEVELOPMENT

73. "Bayou Casotte and Jackson County Master Industrial Development Plan: Tentative Master Plan for Industrial Development - East Pascagoula River Area." Baker, Michael Jr., Inc. November, 1964.

The study determined the feasibility of developing the East Pascagoula River Area. The dependence of the county's economic growth upon its deep water facilities was shown.

74. "Conditions Affecting the Economic Climate of the Industrial Seaway of Harrison County Development Commission." Bureau of Business and Economic Research. Mississippi State University: 1964.

75. "A Cordial Invitation from the People of the Mississippi Gulf Coast to Harrison Industrial Seaway." Harrison County Development Commission. n. d.

A high-quality public relation brochure which offers thumb-nail sketches of coastal life, together with a description of the Harrison Seaway.

76. "Feasibility of Locating Pulp or Paper Mills in the Pascagoula River Basin." Ross Engineering Associates, Inc. Gulfport, Mississippi: May, 1965.

The study consolidated supporting data regarding the feasibility of locating pulp and paper mills on rivers and streams in the area encompassed by Pat Harrison Waterway District.

77. "General Electric Presents a Study of Hancock County." General Electric Company, Management and Technical Services Dept. Bay St. Louis: 1970.

This study was concerned with the future of Hancock County. An effort was made to predict population and economic changes likely to occur in the next 30 years and the corresponding public service demands generated by these changes. Based upon these forecasts, existing governmental systems were examined to see if improvement was possible and if changes could be recommended.

78. "Hancock County-Port and Harbor Commission." Port and Harbor Commission, Hancock County. n. d.

A monograph brochure outlining the Intermodal Industrial Development Opportunity within the County of Hancock.

79. "Master Plan for the Bayou Casotte Industrial Area." Baker, Michael Jr., Inc. Jackson, Mississippi: August, 1956.

Analyzes the history of the area, together with a master plan for its development.

80. "The People of Harrison County Invite You to Evaluate our Industrial Seaway Parks and the Mississippi Gulf Coast." Harrison County Development Commission. Gulfport, Mississippi. n. d.

General public relations brochure showing the advantages of the Industrial Seaway and social and economic services along the Gulf Coast. Provides an overall summary of the location's climate, economy, etc.

81. "A Re-evaluation of the Economic Impact of Litton's 'Shipyard of the Future.'" Mississippi Research and Development Center. Jackson, Mississippi: 1969.

82. "Report to Board of Supervisors on the Industrial Development of Harrison County, Mississippi." Brown and Root, Inc. Houston, Texas: August, 1958.

The purpose of this report is to present to the Board of Supervisors an analysis of the economic, engineering and financial problems pertaining to the industrial development of Harrison County and to recommend a procedure for their solution.

83. "Rural Areas Development Plan for Pearl River County, Mississippi." Pearl River County Rural Areas Development Committee. n. d.

This report was prepared by a committee of representatives of farming enterprises in the County and provides a summary of the history and socio-economic activities of Pearl River County.

84. "Some Factors Inhibiting Industrial Growth and Development in Mississippi." Daniel, Donnie L., and Williams, D. C. Jr. University of Southern Mississippi, Hattiesburg, Mississippi: June, 1968.

The study resulted in an identification of factors preventing new industries from locating in Mississippi and existing industries from expanding.

85. "Think, Plan, Build." Hancock County Port and Harbor Commission. n. d.

A presentation to industry of the advantages of locating in Hancock County.

86. "Use Demonstration Program for Mississippi Gulf Coast Area (Critical Path Major Element Description)." Paulk, J. L. and Associates, Inc. Jackson, Mississippi. n. d.

Projected research program, including an Economic Study, Population Study, Transportation Study, Area-Wide Water System, Water System Analysis, Area-Wide Sanitary Sewer System, Solid Waste Disposal, Storm Drainage System.

LAND USE

87. "Comprehensive Land Use Plan and Interim Sketch Plan." Planning Services, Inc. New Orleans, Louisiana: December, 1970.

An analysis of the existing and proposed land use developments in the Biloxi Planning Area. Also included is an analysis discussion and projection of population distribution, major thoroughfares, and community facilities, all of which have been grouped into a future land use plan which also serves as an interim sketch plan.

88. "Existing Land Use Map Hancock, Harrison, Jackson, and Pearl River Counties, Mississippi." Continental Consultants, Inc. Jackson, Mississippi: December, 1970.

Delineation of land uses in the four-county area.

89. "Existing Land Use Study - Jackson County, Mississippi." Ware, Lewis & Eaton. Research & Development Center, Jackson, Mississippi: October, 1971.

Study of the need for, and basis for planning land use, zoning ordinances, etc. for Jackson County.

90. "Future Land Use - Hancock County, Bay St. Louis, Waveland, Mississippi (Preliminary Report)." Ware, Lewis & Eaton. Jackson, Mississippi: 1971.

The report analyzes current land use in the county and recommends that (1) this Future Land Use Plan be followed as closely as possible in future development, (2) the Future Land Use Maps be used to zone uses in areas considered for annexation by Bay St. Louis and Waveland, and (3) future fringe-area growth be controlled through proper enforcement of the proposed county zoning order.

91. "Future Land Use Maps: Hancock, Harrison, Jackson, and Pearl River Counties, Mississippi." Continental Consultants, Inc. Jackson, Mississippi: April, 1971.

Delineation of future land uses in specified four-county area.

92. "Land Use Plan - Long Beach and Pass Christian, Mississippi (Preliminary Report)." Ware, Lewis and Eaton. Jackson, Mississippi: 1971.

This study proposes land use patterns for the twenty-year period (1970-1990) and is based on the concept that land uses function most effectively and with less blighting or depreciating influences upon adjacent uses, when confined to specific protected areas.

93. "Future Land Use - Jackson County, Mississippi, 1971 (Preliminary Report)." Ware, Lewis & Eaton. Research and Development Center, Jackson, Mississippi: 1972.

Projection of type of land use by acreage for the future residential, commercial, and industrial growth of Jackson County.

94. "Future Land Use - Pascagoula, Mississippi and the Pascagoula Separate School District (Preliminary Report)." Ware, Lewis & Eaton. Research & Development Center, Jackson, Mississippi: 1971.

Pattern of current land use and prepared plans for zoning and division of land for future between residential, commercial, and industrial.

95. "Regional Land Use Plan for Hancock, Harrison, Jackson, and Pearl River Counties, Mississippi." Gulf Regional Planning Commission. Gulfport, Mississippi: 1971.

The Regional Land Use Plan presents land use objectives that are considered both desirable and feasible for the Region and provides a functional guide for growth of the planning area. The systematic approach assures a proper balance of space for living, working and recreation. The Plan is not intended to serve as a rigid pattern for development but as a flexible guide that may be modified as required by changing conditions.

96. "A Ten Year Interim Land Use Plan for Harrison County." Cook, Theodore S. January, 1970.

The primary purpose of this plan is to serve as a basis for the zoning of land in Harrison County. The major concern of the plan was that part of the county which is not incorporated.

97. "A Ten Year Interim Land Use Plan for Harrison County." Cook, Theodore S. Vol. I. January, 1971.

This report provides an analysis of existing land use patterns and development trends in Harrison County, necessarily coordinating with patterns of development within incorporated cities. The plan provides standards and makes allocations of lands for various use categories on a ten-year basis, anticipating that the interim plan will provide a basis for decision making by Harrison County interests pending completion of various elements of the regional plan which will be for a longer period.

98. "A Ten Year Interim Land Use Plan for Harrison County." Cook, Theodore S. Vol. II. January, 1971.

MANPOWER AND MANPOWER TRAINING

99. "Area Wage Survey: Biloxi-Gulfport and Pascagoula, Mississippi." (Bureau of Labor Statistics, U. S. Dept. of Labor). Washington, D. C. July, 1971.

Straight-time earnings information covering selected plant and office occupations common to a variety of manufacturing and nonmanufacturing industries.

100. "Manpower Survey: Hancock County." Mississippi Employment Security Commission. September, 1969.

The survey analyzed the labor supply and the general characteristics of the labor available for potential industry in Hancock County.

101. "Report of the Committee on Manpower and Training to the Jackson County Presidential Task Force." Committee on Manpower and Training, Jackson County. March, 1971.

A report on manpower and training in Jackson County.

102. Deleted.

103. "Smaller Communities Program--Part II Manpower Resource Report." Mississippi Employment Security Commission. Jackson, Mississippi: October, 1968.

Data on occupations, labor force participation, education, and other quantitative and some qualitative data on the labor force. Little analysis. Second part of a report.

104. "Vocational-Technical Training Needs: Pearl River Junior College District, Projections 1971 - 1980." McClendon, Thurrell O. and D. C. Williams, Jr. University of Southern Mississippi, Hattiesburg, Mississippi. 1972.

The study projects the vocational and technical training needs in the Pearl River Junior College District and recommends training programs to be offered by the Junior College.

MISSISSIPPI TEST FACILITY

105. "Environmental Conditions and Resources of Southwestern Mississippi." U. S. Department of the Interior. February, 1970.

The study provides a broad range of information relative to alternative uses of the Mississippi Test Facility after the phase out of the Saturn testing. Potential uses in relation to environmental factors are considered.

106. "The Future Use of NASA's Mississippi Test Facility: A Preliminary Study of Alternatives for Economic Growth." General Electric Company. Santa Barbara, California, 1969.

This study looks at the various uses of the Mississippi Test Facility following the Saturn phasedown.

107. "George C. Marshall Space Flight Center--Mississippi Test Facility." National Aeronautics and Space Administration. (Prepared by General Electric Company). March, 1969.

This document describes the multi-faceted capabilities of the laboratory areas within the NASA Mississippi Component Test Facility. Equipment, physical facilities and capabilities of the Test Facility are extensively illustrated with photographs and graphs.

108. "George C. Marshall Space Flight Center Master Plan: Mississippi Test Facility." National Aeronautics and Space Administration. 1968.

The document is in atlas format showing the location, land use, transportation networks, telecommunications, drainage, soils and other environmental conditions.

109. "Mississippi Test Facility, Bay St. Louis, Mississippi." National Aeronautics and Space Administration. n. d.

A description of the physical and equipment facilities located at NASA's Mississippi Test Facility and their value for potential future uses.

110. "Mississippi Test Facility, Computer Center Capability." National Aeronautics and Space Administration.

This document describes and evaluates for potential future uses the equipment and physical facilities at the NASA Mississippi Test Facility, Slidell Computer Center.

111. "Mississippi Test Facility - Electronic, Instrumentation and Materials Laboratory." National Aeronautics and Space Administration. n. d.

This document lists and describes the technical facilities and equipment available at the Electronics, Instrumentation and Materials Laboratory at the NASA Mississippi Test Facility.

112. "NASA Marshall Space Flight Center, Mississippi Test Facility." U. S. Army Corps of Engineers. 1967.

This report outlines a land management plan which was developed with a view toward obtaining the maximum utilization of the Mississippi Test Facility lands and equipment which are no longer required by NASA for its operations.

113. "The New Mississippi Test Facility." National Aeronautics and Space Administration. n. d.

The study looks at a new role for the NASA Mississippi Test Facility after the phase out of the Saturn testing program.

114. "Public Information Fact Sheet on General Electric--Mississippi Test Support Department." ♦General Electric. Bay St. Louis: April, 1966.

This is a brief report on General Electric's role in MTF operations.

115. "Space Activity in an Agrarian Economy." National Aeronautics and Space Administration (ed. Michael Kent). Huntsville, Alabama: May, 1963.

This is a study of changes in socio-economic conditions in the vicinity of the Mississippi Test Facility (MTF) in Hancock County. The first phase of a projected overall study, the report is primarily a record of local conditions and mention of possible solutions to the problems encountered by local residents and governments.

116. "Welcome to Mississippi Test Facility, Bay St. Louis, Mississippi." National Aeronautics and Space Administration, Public Affairs Office. n. d.

A collection of pamphlets and brochures which describe the physical surroundings, the origin and mission of the NASA Mississippi Test Facility.

NEIGHBORHOOD ANALYSIS, COMMUNITY DEVELOPMENT
AND URBAN RENEWAL

117. "Annual Consulting Engineers Report on Conditions, Operation, Maintenance and Finances of Utility Systems, Bay St. Louis, Mississippi." Richard, J. G., Jr. and Associates. Baton Rouge: September 1, 1968.

Presents results of an annual inspection, review, and analysis of the utility systems made between August 8, 1968, and September 1, 1968, Bay St. Louis, Mississippi.

118. "Biloxi, Mississippi, Central Business District Revitalization Plan." Planning Services, Inc. New Orleans: February, 1968.

Extensive analysis of the Central Business District revitalization in Biloxi, Mississippi.

119. "Central Business District Revitalization--Urban Renewal." Biloxi Housing Authority. [1972].

A description of revitalization of downtown Biloxi.

120. "Commercial Area Study, Pascagoula, Mississippi." Ware, Lewis & Eaton. Jackson, Mississippi: Research and Development Center. 1971.

Study of existing conditions pertaining to land use for commercial area--recommendations for development.

121. "Community Appearance Plan and Commercial Area Study, Pascagoula, Mississippi." Ware, Lewis & Eaton. Jackson, Mississippi: Research and Development Center. April, 1972.

An overview of Pascagoula's environmental appearance and commercial areas. Proposals for changes.

122. "Community Facilities Plan--Harrison County, Mississippi." Planning Services, Inc. New Orleans: November, 1970.

A study of existing community facilities with recommendations for improvements and plans for the development of new facilities needed to serve the growth of the county during the next 20 years. Included is information concerning schools, parks and playgrounds, medical facilities, libraries, postal services, and other important community facilities.

123. "Comprehensive Plan, Neighborhood Analysis, City of Biloxi." Planning Services, Inc. New Orleans: November, 1971.

This report examines the causes of blight, the existing neighborhood development patterns as well as the socio-economic conditions of the study area, and attempts to set an environmental quality index by which neighborhoods may be rated and recommendations made for their improvement through conservation methods, rehabilitation, and clearance.

124. "Demand for Housing in Jackson County, Mississippi." Mississippi Research and Development Center. Jackson: July, 1970.

125. "An Experimental Design in Unique Growth Center Service Concepts." Southern Mississippi Planning and Development District. Hattiesburg: n. d.

The study outlines the opportunities and problems besetting Southern Mississippi Planning and Development District and particularly its Growth Center of South Jackson County.

126. "Hancock County, Mississippi Community Profile." U. S. Department of Health, Education, and Welfare. Office of Economic Opportunity. 1968.
127. "Harrison County, Mississippi Community Profile." U. S. Department of Health, Education, and Welfare. Office of Economic Opportunity. Economic Opportunity Office, 1968.
128. "Harrison County Proposed Zoning Ordinance." Planning Services, Inc. New Orleans: December, 1969.

A comparative analysis of zoning controls, land use development characteristics, and a recommended zoning ordinance and district maps.

129. "Jackson County, Mississippi Community Profile." U. S. Department of Health, Education, and Welfare. Office of Economic Opportunity. 1968.
130. "Neighborhood Analysis: Hancock County, Bay St. Louis, Waveland, Mississippi (Preliminary Report)." Ware, Lewis & Eaton. Jackson: 1971.

The overall goal of this report is the presentation of guidelines for the creation of a physical, economic, and social environment which will continue to improve. The study recommended short-range projects to be undertaken by county agencies without State or Federal assistance, long-range projects requiring such assistance, and specific recommendations on a city-by-city basis.

131. "Neighborhood Analysis, Ocean Springs, Mississippi." Continental Consultants, Inc. Jackson: September, 1970.

A study to determine the nature, extent, location, and cause of blight and deterioration conditions within the planning area, and to recommend appropriate programs of action to correct these conditions.

132. "Neighborhood Analysis Report, Biloxi, Mississippi." Planning Services, Inc. New Orleans: April, 1963.

"This study is an introduction to a Neighborhood Analysis and is general in nature. . . The purpose of the survey is to create an awareness by the general public and city officials of the existence of blight in the city and the problems which must be freed prior to the preparation of a program for remedial action."

133. "Neighborhood Inventory and Analysis for Gulfport, Mississippi." Gulfport City Planning Commission. Gulfport: 1968.

This part of the comprehensive planning program for the City of Gulfport consists of a detailed study of each of the functional areas of the city. Its purpose is to determine the nature and extent of conditions which contribute to deterioration, blight and to suggest a program of public and private action aimed toward the systematic accomplishment of the needed improvements.

134. "The Plan for the Future Development of the Gulfport Urban Area." Gulfport City Planning Commission. Gulfport: 1968.

"It is to introduce the element of order in the organization of activities and the circulation systems that link them that this comprehensive plan has been devised. It is not offered as a quick remedy for city ills. Rather, it is intended to provide a basic aim for bringing order into the city's activities. This aim, in turn, leads to a practical program. Remodelling cannot be achieved instantly. It will be accomplished gradually, as opportunity is offered and as resources permit."

This study discusses such matters as economic position, transportation, and public services, and is illustrated with numerous maps.

135. "Community Facilities Plan, Jackson County, Mississippi (Preliminary Report)." Ware, Lewis & Eaton. Jackson: 1972.

The study presents guidelines for the creation of a physical, social, and cultural environment which will continue to provide residents with better recreational, education and public services and facilities and which will reserve land for future needs generated by population growth.

136. "Proposed Subdivision Regulation's, Biloxi, Mississippi." Planning Services, Inc. New Orleans: March, 1963.

"These regulations are submitted in an effort to assure the logical and sensible division and improvement of land in Biloxi."

In process of updating.

137. "Planning Analysis of Annexation of Northern Growth Area, Biloxi, Mississippi." Planning Services, Inc. New Orleans: December, 1970.

This is a report on the feasibility of the City's annexation of the area north of the present city. This study contains a detailed analysis of the land use development of both the present city and the proposed annexation area and an in-depth study of the financial aspects of annexing this important growth area.

138. "Preliminary Subdivision Regulations, Harrison County, Mississippi." Harrison County Planning Commission. n. d.

This is a detailed proposal for subdivision regulations in Harrison County, with articles and sections, for ordination by the Board of Supervisors of Harrison County.

139. "Review of Subdivision Regulations for Ocean Springs, Mississippi." Continental Consultants, Inc. Jackson: November, 1970.

In accordance with the updating of the Comprehensive Plan for Ocean Springs, the contract called for a review of the existing Subdivision Regulations which were adopted in July, 1970. This report recommends desired changes and improvements for updating the present ordinance.

140. "South Jackson County Positive Action Program." Southern Mississippi Planning and Development District. April, 1969.

A proposal to designate South Jackson County as a growth center.

141. "Subdivision Regulations for Ocean Springs, Mississippi." Bateman, Robert S. and Associates. Mobile: April, 1964.

This is a recommended ordinance for subdivision regulations for the City of Ocean Springs, Mississippi.

142. "Suggested Guide to be used in the Preparation of Subdivision Regulations." Mississippi Research and Development Center, (Preliminary Report). Jackson: December, 1967.

Recommended ordinance requiring the filing of plots and data of subdivisions, setting subdivision standards, requiring enforcement by Jackson County, and prescribing penalties for violations.

143. "Zoning Ordinance Review, Ocean Springs, Mississippi." Continental Consultants. Jackson: October, 1970.

Report recommends certain revisions in the August 1966 Zoning Ordinance of the City of Ocean Springs.

OCEAN RESOURCES

144. "Coastal Zone Management Program." Mississippi Marine Resources Council. January, 1972.

This proposal presents a conceptual framework of how Mississippi intends to initiate its effort to manage its coastal resources, through implementation of the designed research of the Mississippi Marine Resources Council and the Universities Marine Center.

145. "Current Fishery Statistics and Fishery Products Report." U. S. Department of Commerce. Washington, D. C. annually.

146. "An Economic Survey of the Mississippi Seafood Industry." Guess, R. C. 1962.

147. "Mississippi and the Ocean." Marine Resource Consultants, Inc. Santa Monica, California: April, 1969.

This was an effort to study the benefits which might accrue to the State of Mississippi should the State decide to enter on a comprehensive basis into the field of oceanography. This is a summary of an oral report made at the Governor's conference on April 10, 1969, in Jackson, Mississippi.

148. "A Preliminary Evaluation of Redevelopment Alternatives for the Seafood Industry on the Mississippi Gulf Coast." Taylor, Calvin L. and Hosemann, Paul C., Jr. Jackson: Mississippi Research and Development Center, May, 1970.

This report is a part of the effort to redevelop the Mississippi Gulf Coast following Hurricane Camille. It contains a proposal for the relocation of the seafood industry which would allegedly result in two special benefits: first, it would provide precessors with a better location which would open up new growth opportunities; second, it would release land now occupied by the industry for more productive use as a tourist development area.

149. "Social and Economic Aspects of Sea Food Industry." Longest, H. B. 1934.

General information on the area and industry. Detailed analysis of working conditions, education, social, political, religious activities, homes, food, health, ownership of factories, sea food laws and provisions of fishery code. Small details are frequently included.

POPULATION AND ECONOMICS

150. "Analysis of Retailing, Biloxi, Mississippi." Mississippi Research and Development Center. Jackson: May, 1970.

At the request of the Biloxi Chamber of Commerce, this survey was undertaken to identify problems in the retail field in Biloxi. The survey consists of four major information sources: (1) Consumer Survey. (2) Retail Merchant Survey. (3) Estimated Retail Sales Data. (4) Shopper's Audit.

151. "Comprehensive Overall Economic Development Program for Hancock County, Mississippi." Hancock County Development Organization. Bay St. Louis: 1962.

This is a report on the economy, community facilities, education, transportation, communication, problems, goals, and plans for Hancock County.

152. Deleted

153. "Comprehensive Overall Economic Development Program, Jackson County, Mississippi." Jackson County Rural Areas Development Committee. March, 1963.

154. "Conditions Affecting the Economic Climate of the Industrial Seaway of Harrison County Development Commission." Bureau of Business and Economic Research, Mississippi State University. State College: July, 1964.

The purpose of this study is to examine conditions affecting the economic climate of the site. Major conditions are presented and projections are made.

155. "Conditions Affecting the Economic Climate of the Industrial Seaway of Harrison County Development Commission." Associated Research Consultants. (A Revision of an earlier MSU Report.) State College: July, 1967.

The purpose of this study was to examine conditions affecting the economic climate of the industrial seaway. The report is similar to the one of the same title, submitted in 1964 by Mississippi State University, Bureau of Business and Economic Research.

156. "County Development Plan (OEPD), Jackson County, Mississippi." Jackson County Resource Development Committee. Pascagoula: 1967.

This is a report on the economy, community facilities, education, transportation, communication, problems, goals, and plans for Jackson County, Mississippi.

157. "County Development Plan, Pearl River County, Mississippi." Pearl River County Area Development Committee. Poplarville: 1967.

This is a report on the economy, community facilities, education, transportation, communication, problems, goals, and plans for Pearl River County, Mississippi.

158. "Economic Base Study of the Pascagoula, Pearl and Big Black River Basins, (Vol. 1, General Characteristics)." Baker, Michael Jr., Inc. Mobile, Alabama: U. S. Army Corps of Engineers, December, 1964.

Contains general descriptive analysis of the area including data on employment, population, income, and wages and salaries.

159. "Economic Base Study of the Pascagoula, Pearl and Big Black River Basins, (Vol. 2, Detailed Characteristics)." Baker, Michael Jr., Inc. Mobile, Alabama: U. S. Army Corps of Engineers, December, 1964.

Contains detailed data and some analysis for the study areas on population, households, labor force, employment, personal income, educational level, and wage and salaries.

160. "Economic Development in Mississippi: An Analysis of Historic Factors in Mississippi Economic Development." Eason, Thomas R. 1968.

Chronolog of Mississippi's Economic history; economic theory and its effect on Mississippi history; review of Mississippi's present economy; resource use in Mississippi; summary of recent and future problems. Extension Statistics.

161. "An Economic Handbook for Gulfport, Mississippi." (and Supplement) Gulf Coast Research Association. [1965].

General report on almost all aspects of the city's operation, broken into specific components. Substantial statistics are included. Data is usually through 1965, and often goes back to 1950.

Supplement agreements in favor of developing a proposed industrial harbor and ship channel. Summary of what the area has to offer the manufacturer at the new industrial park.

162. "The Economic History of Jackson County in the 20th Century." Gill, Virgil Clifton. 1944.

The thesis contains a general introduction and geographic description of the area and detailed history of the following industries; (1) Lumber and allied industries, (2) Fishing (3) Agriculture, (4) Shipbuilding. Many statistics and general information are included in the report proper and in the appendicies.

163. "Gulf Coast Socio-Economic Study." Gulf Regional Planning Commission. Gulfport: October, 1970.

This is part of the input of a transportation study covering 320 small sub-areas designated by the Highway Department.

164. "Hancock County Development Plan (OEDP)." Hancock County Development Organization. 1967.

The study presents a detailed picture of the county. Included are facts about the area, history, geography, economic base, facilities (private and public), and human resources. Several maps and tables are included.

165. "Hancock County, Mississippi, 1970, OEDP Progress Report." Hancock County Community Planning and Development Committee. 1971.

The study is a progress report on the overall economic development program in Hancock County.

166. "The Harrison County Development Commission: Conditions Affecting the Economic Climate." Flewellen, W. C. and Peden, G. T. Jr. Mississippi State University: July, 1967.

167. "The Harrison County Development Commission: Conditions Affecting the Economic Climate." Economic Research Associates. State College: March, 1970.

Economic and historical analysis of the Mississippi economy, the economy of Harrison County, physical and operating characteristics of the Harrison County Seaway, and factors influencing the plant location along the seaway.

168. "Harrison County Development Plan (OEDP) 1967." Harrison County Area Development Organization. Gulfport: 1967.

The study presents a detailed picture of the county organization and facts about the area, including history, geography, economic base, public and private facilities, and human resources. Several maps and tables are included.

169. "Harrison County Overall Economic Development Plan." Harrison County Development Organization. 1964.

170. "Mississippi Gulf Coast Progress Report." Bureau of Business Research, University of Southern Mississippi. Gulfport: Hancock Bank, Quarterly.

In the quarterly report is a look at the trends of the national economy. The report then narrows down to Harrison County, Mississippi and examines such economic indicators as total sales, employment and payroll, bank deposits, port activity, building permits, electrical connections, natural gas connections, and telephone connections.

171. "Jackson County, Overall Economic Development Program--Economic Conditions." Jackson County Community Planning & Development Committee. Pascagoula, Mississippi: 1967.

Selected economic, social, and demographic data based primarily on 1960 Census.

172. "Jackson County Development Plan (OEDP) 1967." Jackson County Resource Development Committee. 1967.

The study presents a detailed picture of the county organization and facts about the area, including, history, geography, economic base, public and private facilities. Several maps and tables are included.

173. "Jackson County, Mississippi, Overall Economic Development Program Progress Report 1970." Jackson County Community Planning & Development Committee. Pascagoula, Mississippi: 1970.

An updating of the 1967 OEDP Plan.

174. "Mississippi Power Company Community Survey." Industrial Development Department, Mississippi Power Company. Gulfport: n. d.

The Mississippi Power Company prepares surveys on the population, employment, transportation, taxes, government, utilities, community services, climate, education, housing, natural resources, sites, industry, and location services of various communities in the Company's service area. Surveys are available for Long Beach, Pass Christian, Biloxi, Gulfport, Pascagoula--Moss Point, Ocean Springs, Bay St. Louis, Wiggins, Picayune, Poplarville, and Lucedale.

175. "Pearl River Comprehensive Basin Study." U. S. Army Corps of Engineers. Vol. III, Appendix D, Economic Base Study. Mobile: February, 1968.

The purpose of this study was to project the economic growth of the basin to 2015 for guidance in the preparation of a plan of development for the water and related land resources of the basin and for use in the evaluation of benefits that would accrue from such development. Major parameters of the general economic activity included in this economic base study are population, households, labor force, employment, personal income, and value added by manufacturing. The agricultural economy of the basin is broken down into agricultural production, forest production, and cash receipts from farm marketings.

176. "Population and Economic Study for Hancock, Harrison, Jackson, and Pearl River Counties, Mississippi." Wilbur Smith and Associates. March, 1969.

This report contains an analysis of the factors which have contributed to the rapid growth and development of the Mississippi Gulf Coast and the four county planning area. The components of population change and characteristics and distribution of population were investigated concurrently with the examination of the economic structure and the manner in which the economy responded to the resource pattern and locational advantages. Independent assumptions were developed and projections made for population and growth in economic activities using initially unrelated criteria. The emphasis in the economic growth was upon employment. Inter-industry shifts in employment in the study were related to national growth, industrial mix, and regional share. From these relationships assumptions were formulated on the relationship of future local and national growth in each industry group. Potential labor force from each projection was compared. The basic or export sector of employment was identified in the current and future employment pattern, and considerations in maintaining a satisfactory export sector were evaluated.

177. "Population & Economic Study, Jackson County, Mississippi." Ware, Lewis & Eaton. Jackson: Mississippi Research and Development Center. October, 1971.

Study of growth trends and industrial development potential of Jackson County.

178. "Population and Economic Study, Ocean Springs, Mississippi." Continental Consultants. Jackson: June, 1970.

A study to determine the existing economic position of the community of Ocean Springs and to provide a realistic forecast of potential economic and population trends.

179. "Population & Economic Study, Pascagoula, Mississippi." Ware, Lewis & Eaton. Jackson: Mississippi Research and Development Center, October, 1971.

Study of growth trends and industrial development projections for Pascagoula. Particular attention is given to the effect of Ingalls Shipyard expansion.

180. "A Proposal to Conduct a Population-Economic Survey of Jackson, Hancock, Harrison, and Pearl River Counties." Williams, D. C. Jr., Grubbs, Kenneth R., and Daniel, Donnie L. Hattiesburg: July, 1967.

A proposal for a survey and analysis of the population and economy of the four-county area.

181. "Proposed Methodology for the Projection of Economic and Demographic Changes in the Pascagoula, Pearl, and Big Black River Basins Study Area." Baker, Michael Jr., Inc. Jackson: 1963.

The purpose of this report is to describe the methods to be used in making the demographic and economic projections of the future growth of the Base Study Area.

182. "Revised Proposal for Conducting Population and Economic Studies of Hancock, Harrison, Jackson, and Pearl River Counties." Wilbur Smith and Associates, Inc. Columbia, South Carolina: 1967.

A proposal for a planning element which would consider the relationship between the regional population and the regional economy, and the manner in which each influences and affects the other.

183. "Smaller Communities Program, Economic Base Report, George County, Mississippi." Mississippi Employment Security Commission. Jackson, Mississippi: October, 1968.

An economic base report containing economic and business data from 1920-1960. Much data from Census reports and State Employment Service. Part I of Smaller Communities Program.

184. "Smaller Communities Program, Economic Base Report, Hancock County, Mississippi." Mississippi Employment Security Commission. Jackson: August, 1970.

An economic base report containing economic and business data from 1920-1960. Much data from Census reports and State Employment Service. Part I of Smaller Communities Program.

185. "Technical Proposal: Population and Economic Study for the Mississippi-Louisiana Regional Planning Commission." Ralph M. Parsons Company. Pass Christian: June, 1967.

Proposal for a population and economic study.

PORTS AND HARBORS

186. "The Bayou Casotte Story." Baker, Michael Jr., Inc. Second Edition. Jackson: 1957.

This is an engineering report which summarizes the advantages of the site: inexpensive industrial sites on a deep water harbor with room to expand; ample fresh water supply; excellent rail, water, air and highway transportation; good foundation conditions; a mild and healthful climate; inexpensive housing for workers; available labor supply; public endorsement of industrial enterprises.

187. "Detailed Project Report on Cadet Bayou, Mississippi." U. S. Army Corps of Engineers, Mobile District. Mobile, Alabama: 1969.

The purpose of this study is to develop a plan and to determine the need and economic feasibility of providing a small craft navigation channel from Mississippi Sound to and up Cadet Bayou, Mississippi.

188. "Financial Analysis of an Industrial Area Port for Harrison County, Mississippi." Brown and Root, Inc. Houston, Texas: 1967.

This is a report to exhibit the magnitude and possible means of financing the project, to show the possibilities for repayment of indebtedness incurred in construction and development, operation, and collection of revenues in order that proper organizational procedures may be developed.

189. "Greater Port of Pascagoula: Public Terminal Facilities and Industrial Development." Jackson County Port Authority. Pascagoula, Mississippi: n.d.

This is a collection of photographs and maps showing the greater Port of Pascagoula. Although no publication data are given, the material seems to have been prepared after 1967.

190. "Growth Potentials for The Port of Gulfport." Wade, F. John and Fleming, T. Raymond Jr. Research and Development Center, Jackson: December, 1970.

This report, one of a series of four reports which together make up an analysis of the economic development, engineering, and management aspects of the Port of Gulfport, focuses on the economic potential which exists for the Port. The document uses the other reports as inputs for the overall analysis of growth potentials. It indicates the possibilities for future growth and the limitations which must be considered as plans for that growth are made.

191. "Gulf Coast Deep Water Port Facilities." U. S. Army Corps of Engineers. Mobile, Alabama, and Vicksburg, Mississippi: In Progress.

192. "Hancock County Port and Harbor Development Program, Hancock County, Mississippi, Preliminary Planning Report." (Phase A) Baker, Michael Jr., Inc. Jackson, Mississippi: April, 1964.

The Hancock County Port and Harbor Development Program, Phase A report contains an analysis and evaluation of existing conditions and contemplated improvements which may tend to influence the scope of facilities to be included in the development program and the general type of industry which is most likely to locate in the County; an evaluation of the County waterways to determine locations most feasible for construction and maintenance of channels and harbors; an evaluation of sites suitable for development of ports and industry areas; and evaluation of the County's financial condition and a projection of its anticipated revenues; and, conclusions, recommendations, and planning criteria.

193. "Hancock County Port and Harbor Development Program, Hancock County, Mississippi, Master Plan Report." (Phase B) Baker, Michael Jr., Inc. Jackson, Mississippi: July, 1965.

The Hancock County Port and Harbor Development Program, Phase B report includes a long range plan for the development of channels, ports, harbors, waterside industrial area, public dock facilities and other improvements which may be deemed

proper within the confines of Hancock County; a long range plan for the development of a fresh water supply system, land transportation facilities, and utilities to secure such water-side developments; a staged development plan for scheduling the improvements by increments in accordance with recommended priority and a tentative schedule for complementing the long range plan.

194. "Hancock County Port and Harbor Development Program, Hancock County, Mississippi, Feasibility Report." (Phase C) Baker, Michael Jr., Inc. Jackson, Mississippi: July, 1964.

The Hancock County Port and Harbor Development Program, Phase C report includes the estimated cost of the contemplated improvements; and examination of the county's ability to finance such improvements; a tentative schedule for financing; and a determination of the feasibility of the contemplated initial stage of development. The project was determined feasible.

195. "Hancock County Port and Harbor Development Program, (1968) Regulations." (Phase D) Baker, Michael Jr., Inc. Jackson: 1969.

Recommendations for protective covenants, zoning resolution, and airport zoning regulations.

196. "Harrison County Port Authority Annual Reports." Harrison County Port Authority. Gulfport: annually.

Miscellaneous general economic data.

197. "Jackson County Port Authority Annual Report." Jackson County Port Authority. Pascagoula: 1966.

Miscellaneous general economic data.

198. "Jackson County Port Authority Annual Report." Jackson County Port Authority. Pascagoula: 1967.

A summary of the port traffic, 1968 predictions, and related financial report.

199. "Long Range Planning for Waterways, Harbors, Port Facilities, and Water Front Industrial Areas (Preliminary Report and Sketches)." Baker, Michael Jr., Inc. Jackson: April, 1967.

This preliminary report contains maps and sketches indicating apparent feasible developments at several locations throughout Jackson County. These are not necessarily recommended developments; however, they are submitted for review and study as the first step toward assigning priorities for actual planned developments to meet the urgent current and future need for additional industrial areas.

200. "Master Plan for the Proposed Harrison County Industrial Waterway." Baker, Michael Jr., Inc. Jackson: December, 1959.

This is a Master Plan for industrial parks located along an industrial waterway (at least 12 feet deep, with provisions for deepening to 30 feet, and wide enough to accommodate two-way seagoing barge tows) extending through the Bay of St. Louis and across the Bay of Biloxi.

201. "Navigation Study of Gulfport Harbors." U. S. Army Corps of Engineers. Mobile, Alabama: In Progress.

202. "Port of Gulfport, Mississippi: Master Plan for the Development of Port Facilities." Reid, R. L. Inc. Houston: May, 1970.

This report, prepared under the general direction of the Mississippi Research and Development Center, is the first of three being undertaken for the Mississippi State Port Authority at Gulfport to assist the Port's management in long-range planning. The study summarizes the recent growth of traffic through the Port and projections made by the Research & Development Center on the Port's future traffic, income, and economic impact. There are also estimates of the cost and recommended sequence of acquisition and development of certain additional land.

203. "Statement of Objection, Prepared in Response to Public Notice No. 8-7-70, issued by Department of Transportation." Jackson County Port Authority and Board of Supervisors. Pascagoula: September, 1969.

204. "Statement in Objection to Proposed Low Level Fixed Bridges Over East Pascagoula and Escatawpa Rivers (at Public Hearing in Pascagoula, October 5, 1967)." Baker, Michael Jr., Inc. Jackson: October, 1967.

This statement in objection to the proposed low level fixed bridges is based on engineering and economic forecasts that, if the Pascagoula and Escatawpa are left unrestricted by man-made obstructions, the banks of the rivers will be lined with deep water shipping oriented industries within two decades. Useful maps and illustrations.

205. "A Technical Assistance Grant to Design and Expedite a Master Rebuilding Plan for the Port of Gulfport, Mississippi, to Restore the Damage Caused by Hurricane Camille." (Final Report on Technical Assistance Grant Project No. 04-6-09170) Mississippi Research and Development Center. Jackson: April, 1971.

This is compendium of three monographs on Gulfport redevelopment. This collection of reports developed a master plan for the restoration of the Port of Gulfport, Mississippi; performed an economic study of the role of the Port of Gulfport in waterborne commerce on the Gulf Coast; and reviewed methods used in management of the port and made recommendations for improvement.

206. "A Technical Assistance Grant to Design and Expedite a Master Rebuilding Plan for the Port of Gulfport, Mississippi, to Restore the Damage Caused by Hurricane Camille." (Final Report on Technical Assistance Grant Project No. 04-6-09170) Mississippi Research and Development Center. Jackson: April, 1971.

This is a compendium of two studies:
 Volume IV: Costs of Developing Mississippi's Coastal Waterways and Ports, by R. L. Reid, Inc., Consulting Engineers.
 Volume V: Port of Gulfport, Mississippi: Master Plan for the Development of Port Facilities, by R. L. Reid, Inc.

RECREATION AND TOURISM

207. [Data on Gulf Coast Tourist Industry.] Mississippi Research and Development Center. (loose-leaf file) June, 1969.

Miscellaneous information on Gulf Coast tourist attractions.

208. "Deer Island, Biloxi, Mississippi, A Preliminary Engineering Report." DeLaureal Engineers, Inc. New Orleans: January, 1967.

It is the intent of this report to provide a plan by which Deer Island, Biloxi, Mississippi, can be developed into a facility providing substantial areas for recreational facilities, a residential area permitting a substantial increase in the population of the city, and a resort area that will broaden and strengthen the economic base of the community. The plan as presented herein provides for the orderly and economic growth of the island consistent with these objectives.

209. "Enjoy Your Leisure . . . Go Fishing!" Mississippi Cooperative Extension Service.

A brochure listing all fishing camps and marinas on the Gulf Coast and facilities and supplies available at these camps and marinas.

210. "The Feasibility of Centralized Management of Water Recreation Facilities in Mississippi." Williams, D. C. Jr., Cartee, Charles P., and Malchow, Mary H. Bureau of Business Research, University of Southern Mississippi. Hattiesburg: Mississippi: August, 1971.

The study considered the feasibility of centralized management of agencies in Mississippi involved in planning, construction, maintaining and operating public water-based recreation facilities.

Centralized management was found feasible with the main advantages being greater over all efficiency in managing recreational facilities and a better use of resources allocated to recreation.

211. "The Importance of Water Related Activities at State Parks in Mississippi." Daniel, Donnie L. and Williams, D. C. Jr. Bureau of Business Research, University of Southern Mississippi. Hattiesburg, Mississippi: June, 1970.

The study provides useful data on the relative use of park facilities at the Mississippi State Parks and more specifically determines the relative importance of different water related activities at the State Parks.

The information was presented for each individual park and for the State Park System as a whole.

212. "Mississippi State Parks and Historic Sites." Mississippi Park System. n. d.

A map and review of the state park facilities.

213. "Plan for Open Space, Recreation, and Environmental Appearance for Harrison County, Mississippi." Gulfport, Mississippi: Gulf Regional Planning Commission, 1971.

This report is from the Regional Plan for Open Space, Recreation, and Environmental Appearance of the Gulf Regional Planning Commission. It is an inventory of the existing, proposed, and programmed recreational facilities in Harrison County. It includes a city by city analysis with recommendations for bringing the overall county up to accepted standards. It makes recommendations concerning historical site and natural resource preservation. It is designed to point out the environmental features of the county which need improvement.

214. "Plan for Open Space, Recreation, and Environmental Appearance for Pearl River County, Mississippi." Gulfport, Mississippi: Gulf Regional Planning Commission, 1972.

This report is from the Regional Plan for Open Space, Recreation, and Environmental Appearance of the Gulf Regional Planning Commission. It is an inventory of the existing, proposed and programmed recreational facilities in Pearl River County. It includes a city by city analysis with

recommendations for bringing the overall county up to accepted standards. It makes recommendations concerning historical site and natural resource preservation. It is designed to point out the environmental features of the county which need improvement.

215. "Recreational Facilities, Harrison County Sand Beach, Harrison County, Mississippi." (Preliminary Engineering Report) Brown & Russell, Inc. Gulfport, Mississippi: December, 1971.

A study to develop areas along the Harrison County sand beach for better utilization of its recreation facilities.

216. "Preliminary Evaluation of Potential for Community Facilities to be Located in Biloxi-Gulfport, Mississippi." Economic Research Associates. Los Angeles: December, 1971.

This report was commissioned by the Harrison County Coliseum Commission to determine the support for a coliseum-convention fine arts complex to be located in the Biloxi-Gulfport Area of Mississippi.

217. "The Regional Plan for Open Space Recreation, and Environmental Appearance--Hancock, Harrison, Jackson, and Pearl River Counties, Mississippi." King, John M. and Associates. Gulfport, Mississippi: Gulf Regional Planning Commission, April, 1971.

The study presents in general a description of the regional character; the identification and analyses of the trends, opportunities, and problems associated with the various functions of open space; and for each function a number of recommendations primarily for local and regional implementation. The five major functions of open space given emphasis are: (1) parks and recreation, (2) conservation of natural resources and protection of the environment, (3) environmental appearance, (4) historical and archaeological resources, and (5) urban shaping. The plan is not intended for rigid application, but is offered as a flexible guide to proper open space protection, development, and use, and may be modified as required by changing conditions and need.

218. "A Study of the Impact of Tourism and Interstate 10 in the Planning Process." Williams, D. C. Jr., Cartee, Charles P., and Murray, Nell. University of Southern Mississippi. To be completed in May, 1973.

The study will examine the tourist industry and its relative importance in the Gulf Regional Planning Commission District.

219. "Survey of Motel/Hotel, Restaurants, and Tourist Attractions on Mississippi Gulf Coast After Hurricane Camille." Mississippi Research and Development Center. (unpublished), 1970.

This collection of materials describes the tourist facilities on the Coast and the damage caused by Hurricane Camille.

220. "Travel Trends In Mississippi." Cartee, Charles and Williams, D. C. Jr. Hattiesburg, Mississippi: Bureau of Business Research, University of Southern Mississippi, July, 1972.

The study estimates the expenditures of travelers in Mississippi and the economic significance of the travel industry.

221. "Tourist Activities Reporting and Analysis System." Murray, Nell O. and Williams, D. C. Jr. Hattiesburg, Mississippi: Bureau of Business Research, University of Southern Mississippi, July, 1969.

The study resulted in developing a system for collecting data on the Mississippi traveler that would provide the necessary basis on which to build the travel industry.

The system for tabulating, processing, analyzing, and interpreting these data was also developed. The study dealt with the entire State.

REGIONAL PLANNING

222. "Evaluation and Updating of the 1967 Study Design." Associated Consultants: Reginald R. Issacs and Nach-Vigier, Inc. Gulfport: April, 1971.

This report reviews the activities and accomplishments of the Mississippi Gulf Regional Planning Commission during the period 1967-1971 and recommends goals, objectives, policies, and programs for the comprehensive planning of the Gulf Region for the period 1971 to 1975. The historical, political and environmental context in which the Commission functions is outlined. Of prime importance was the unforeseen planning constraints and opportunities which followed Hurricane Camille.

223. "Gulf Regional Planning Commission Initial Housing Element." Gulf Regional Planning Commission. Gulfport: September, 1970.

This document seeks to identify major problems in housing for the Counties of Hancock, Harrison, Jackson, and Pearl River in the State of Mississippi, along with a listing of obstacles to realizing adequate housing for all groups in the society. An analysis of the socio-economic background of the entire Region is presented plus implementing activities being undertaken to remedy housing shortcomings. Housing goals have been established and plans formulated for meeting the needs of the counties of this report. Special emphasis has been placed upon the needs and problems of low-income and minority groups.

224. "Gulf Regional Planning Commission: A Profile." Gulf Regional Planning Commission. Gulfport: September, 1971.

A concise statement about the Gulf Regional Planning Commission as to what it is, how it has been performing, the accomplishments and the unfinished tasks ahead.

225. [Gulf Regional Planning Commission Scrapbook] Gulf Regional Planning Commission.

Newspaper clippings of planning developments in the coastal region from January, 1964, to January, 1970.

226. "Housing Element, 1972." Gulf Regional Planning Commission. Gulfport: May, 1972.

This report sets forth all new housing data that has been developed since the 1970 Initial Housing Element. It reflects the 1970 Census information on housing; identifies new housing problems, obstacles, and objectives; and presents a statement of planning activities and implementation.

227. "Mississippi Gulf Coast: Comprehensive Development After Camille." Meta Systems, Inc. Cambridge, Massachusetts: 1970.

The study analyzes the resources and relation to strategies for economic development after Hurricane Camille, including studies of physical environment, human resources, housing, education, transportation, marine resources and industrial development.

228. "Pascagoula River Comprehensive Basin Study." U. S. Army Corps of Engineers. Mobile: February, 1968.

Vol. I Summary Report

II Appendix

A. Views of Federal and State Agencies on Comprehensive Plan

B. Assurance of Local Cooperation

C. Digest of Public Hearings

III D. Engineering Studies for Major Reservoirs

IV E. Economic Base Study

V F. Agricultural Requirements and Upstream Watershed Development

VI G. Municipal and Industrial Water Supply and Water Quality Control Study, Mississippi and Alabama

H. A Report on the Recreation Aspects of the Pascagoula River Basin, Mississippi and Alabama

I. A Report on the Fish and Wildlife Aspects of the Pascagoula River Basin, Mississippi and Alabama

J. Appraisal of Archeological and Historical Resources of the Pascagoula River Basin

K. Geology and Groundwater Resources of the Pascagoula River Basin

- L. Mineral Resources and Industry of the Pascagoula River Basin, Mississippi and Alabama
- VII M. Some Health Aspects of Water and Related Land Use of the Pascagoula River Basin
- VIII N. Role of the States of Mississippi and Alabama in the Planning and Development of the Water and Related Land Resources in the Pascagoula River Basin.

229. "Pearl River Comprehensive Basin Study." U. S. Army Corps of Engineers. Mobile: February, 1968.

Vol. I Main Report

- II A. Views of Federal and State Agencies on Comprehensive Plan
 - B. Assurances of Local Cooperation
 - C. Digest of Public Hearings
- III D. Economic Base Study
- IV E. Plan Formulation
- V F. Engineering Studies for Main Stem and Major Tributaries
 - G. Agricultural Requirements and Upstream Watershed Development
- VII H. Municipal and Industrial Water Supply and Water Quality Control
 - I. Outdoor Recreation
 - J. Fish and Wildlife Resources of the Pearl River Basin
 - K. Archeological, Historical and Natural Resources of the Pearl River Basin
 - L. Geohydrologic Summary of the Pearl River Basin
 - M. Mineral Resources and Industry of the Pearl River Basin
- VIII N. Public Health Aspects of the Pearl River Basin
- IX O. Role of the States of Mississippi and Louisiana in the planning and Development of the Water and Related Land Resources in the Pearl River Basin

230. "Planning Report (on the Mississippi Gulf Coast)." Center for Environmental Design Planning and Development. San Francisco: October, 1969.

This report was a response to a two day investigative trip to the Mississippi Gulf Coast region. The trip was the result of a request by the Mississippi State

Office of Economic Opportunity to review devastation created by Hurricane Camille and prepare planning studies for immediate and long range development of the area. This report was prepared for the Gulf Regional Planning Commission. With only two days to study and review existing conditions, plans and area geography, this report cannot be considered comprehensive. The report presents a series of statements, comments and suggestions relating to the vehicular circulation system, use potentials and possible areas of control and methods of implementation.

231. "Preliminary Analysis of Needs and Opportunities for the Gulf Regional District." General Electric-TEMPO. January, 1971.

The study provides background information and analysis that will help to demonstrate the benefits of the proposed Gulf Regional District and thus help support the legislation creating the District consisting of Stone, George, Pearl River, Harrison, Hancock, and Jackson Counties.

232. "A Regional Plan for the Mississippi Gulf Coast." Cook, Theodore S. September, 1970.

The purpose of this plan is to provide a general plan, scheme, or concept, into which more detailed plans may be fitted. The author includes several interesting recommendations including four new cities, expansion and consolidation of nine existing cities, and a new regional government.

233. "Study Design: Comprehensive Planning for the Mississippi-Louisiana Region." Marcou, O'Leary and Associates. Washington, D. C.: May, 1967.

The study presents a blue print for the future work and functions of the Mississippi-Louisiana Regional Planning Commission.

TRANSPORTATION--AIRPORTS

234. "Airport Master Plan for Hancock County-Bay St. Louis, Mississippi." (Preliminary Engineering Report) Baker, Michael Jr., Inc. Jackson: January, 1966.

The study is to be used as a tentative guide for airport development in Hancock County. The scope and character of the facilities required to accomodate the aeronautical demands of the Area are defined and an orderly and feasible development plan that will achieve the ultimate purpose of providing a comprehensive plan for the community is presented. The economic impact of the aircarrier airport facilities to Hancock County is pointed out.

235. "Airport Site Selection Study." Baker, Michael Jr., Inc. Jackson: October, 1966.

The study looks at factors pertaining to the aeronautical demands of the area in an effort to determine the extent of airport facilities required to adequately serve the area. Sites were examined and specific site was recommended.

236. "Biloxi Major Thoroughfare Plan." Planning Services, Inc. New Orleans: January, 1971.

An analysis of the existing circulation system in Biloxi and the presentation of a thoroughfare and arterial highway plan needed to serve the future transportation needs of the city and surrounding planning area.

237. "Gulf Coast Urban Area Transportation Study." Smith, Wilbur and Associates. Columbia, South Carolina: [1968].

238. "Joint Upper Gulf Coast Regional Air Transportation Study." Speas, R. Dixon Associates, Inc. Vol. II. Atlanta: July, 1970.

This report is Volume II of a two volume report required to develop a regional air transportation plan for the ten-county Upper Gulf Coast study area. Volume II presents a synopsis of the various demands and capacities presented in Volume I.

Volume II presents the system-wide alternatives available and identifies more closely the major areas of airspace conflict. The recommended plan provides for the overall system of airports as well as identifying the role of each airport in overall system. New Airports are recommended as reliever airports and to serve areas now remote from air service.

239. "Major Thoroughfare Plan, Biloxi." (Phase six of Comprehensive Plan) Planning Services, Inc. New Orleans: July, 1962.

This report reviews transportation developments in Biloxi, indicates a significant increase in traffic volume for the Biloxi region in the next 20 years, and proposes a plan for the continued development of major thoroughfares.

240. "Major Thoroughfares Plan: Pascagoula, Mississippi, and Pascagoula Seperate School District." (Preliminary Report) Ware, Lewis & Eaton. Jackson: Mississippi Research and Development Center, 1972.

Current Traffic patterns, anticipated problems, plans for future traffic control.

241. "Survey Data Processing and Comparisons." Wilbur Smith and Associates. (Technical Report No. 2, Mississippi Gulf Coast Transportation Study). August, 1970.

This is the second technical report documenting the conduct and findings of the Mississippi Gulf Coast Area Transportation Study. This study is being made to determine current area travel patterns, to project travel demands to 1990, and to develop a transportation plan capable of serving these future demands. This report includes the procedures used to translate the field data collected in the surveys described in Technical Report No. 1 into a numeric code form compatible with electronic processing. The study then describes and lists results of the various procedures utilized to check the completeness and accuracy of the survey data. Also recorded are brief summaries of the socio-economic and travel data obtained during the origin-destination study.

242. "Transportation Inventories." Wilbur Smith and Associates. (Technical Report No. 1, Mississippi Gulf Coast Area Transportation Study). August, 1970.

This report, the first in a series, describes the design of field studies, the techniques of data collection, and the methodology employed in conducting the various types of interviews.

WATER RESOURCES, DRAINAGE, FLOOD CONTROL

- h-
on
243. "An Appraisal of Plans to meet the Fresh Water Requirements of the Mississippi Gulf Coast Area." Malchow, Mary, and Williams, D. C. Jr. Hattiesburg: Bureau of Business Research, University of Southern Mississippi, July, 1972.

This study determines if adequate plans have been prepared to meet the fresh water needs of the three county Coastal Area.

244. "Areawide Storm Drainage Systems." (Volume IV, Urban Systems Engineering Demonstration Program for the Mississippi Gulf Coast Area). Diversified Consultants, Inc. Jackson: 1972.

A study which describes and analyzes the entire coastal region in relation to flood plain management and storm drainage, with recommendations for staged development through 1990.

245. "Comprehensive Area Water and Sewer Plan for Pearl River County, Mississippi." Broadway and Seal, Engineers. Picayune: 1968.

In addition to offering area water and sewer plans, this study also provides interesting information on the County's general features, population, and economic bases.

246. "Development of Ground-Water Supplies at Mississippi Test Facility, Hancock County, Mississippi." Newcome, Roy Jr. U. S. Geological Survey, 1967.

This report, which was prepared in cooperation with NASA, describes ground water explorations, testing, and development at the NASA Mississippi Test Facility.

247. "Engineering Report, Extensions to Existing Water, Sewerage, and Natural Gas Systems for Bay St. Louis." Richard, J. G. Jr., and Associates. Baton Rouge: December, 1968.

On the basis of studies, surveys, inspections, designs, and cost estimates made in and for the city of Bay St. Louis, the conclusions of this report are that the extensions to the water, sewer, and natural gas systems are necessary to

the public health and welfare and are feasible when financed with grants from the federal government in the estimated amount of \$383,700

248. "First Annual Operating Report, Jackson County Industrial Water Supply System, July 1, 1963--June 30, 1964." Baker, Michael Jr., Inc. Jackson: August, 1964.

249. "Flood Plain Information, Pascagoula-Gautier Coastal Area." U. S. Army Corps of Engineers. Mobile: June, 1970.

The report covers two significant phases of the tidal flood problem in the Pascagoula area: (1) it brings together a record of the most severe known storms and tides of the past, and (2) it discusses probable future floods: namely, the Intermediate Regional Tidal Flood and the Standard Project Tidal Flood. The report does not include plans for the solution of flood problems.

250. "Flood Plain Information Report, Old Fort Bayou." U. S. Army Corps of Engineers. Mobile: n. d.

251. "General Soils Study, Pearl River, Hancock, Harrison Counties, Mississippi." Soil Conservation Service, U. S. Department of Agriculture. n. d.

General soils study of the three counties, including soil association groups, wildlife suitability, and soil series tables.

252. "Geohydrologic Summary of the Pearl River Basin (Abstract)." Lang, Joseph W. Mobile: U. S. Geological Survey, 1966.

Description of the Pearl River Basin, with conclusion that "the data necessary to provide the needed water development and management generally are inadequate except for most of the Jackson area and a small area in the lower reach of the basin."

253. "Geohydrologic Summary of the Pearl River Basin." U. S. Geological Survey, Water Resources Division and Department of the Army Corps of Engineers. Mobile: 1967.

The availability of fresh water in the Pearl River Basin Area is studied.

254. "Goals, Objectives and Standards for Waterworks, Sanitary Sewerage, Solid Waste Management, Storm Drainage and Flood Plain Management." (Vol. I, Urban Systems Engineering Demonstration Program). Elliott, James A., Waters, Ralph L., and Desmarais, A. Paul. Jackson: Diversified Consultants, Inc. 1972.

255. "Harrison County, Mississippi, Water Supply." (Interim Report). U. S. Geological Survey, Water Resources Division. July, 1965.

This report provides a statement of the findings resulting from the first year's activity in the Harrison County Water-Resources Investigation. It also outlines the work to be accomplished during fiscal year 1966.

256. "Inventory and Analysis." (Vol. II, Urban Systems Engineering Demonstration Program). Diversified Consultants, Inc. Jackson: 1971.

Included are reports on:

The Mississippi Gulf Region, Overview: (population and land use, economy, waterworks, water supply and demand, quality of raw water, water distribution systems, summary of waterworks systems, sanitary sewerage systems).

The Community Systems: (Hancock County Water Systems, Harrison County Water Systems, Jackson County Water Systems, Pearl River County Water Systems, Hancock County Sanitary Sewer Systems, Harrison County Sanitary Sewer Systems, Jackson County Sanitary Sewer Systems, Pearl River County Sanitary Sewer Systems).

257. "Jackson County Industrial and Municipal Water Supply System."
Baker, Michael Jr., Inc. January, 1970.

The study looks at the expansion of the Jackson County industrial water supply system.

258. "Jackson County, Mississippi--Floods." U. S. Army Corps of Engineers. Jackson: 1970.

Flood plain information.

259. "The Marshes of Mississippi." Eleuterius, Lionel N. Ocean Springs: n. d.

This analysis of the marshes of Mississippi indicates by maps and charts the nature and extent of areas. No real consideration is given to the industrial/socio-political development aspects of the marshes. The report was connected with the Cooperative Gulf of Mexico Estuarine Inventory and Study, Mississippi, Phase IV, Biology, Gulf Coast Research Laboratory.

260. "National Shoreline Study, Regional Inventory Report, South Atlantic-Gulf Region, Puerto Rico and the Virgin Islands."
U. S. Army Corps of Engineers. Atlanta, Georgia:
August, 1971.

The study assesses the nature and extent of erosion; develops conceptual plans for needed shore protection; develops general order of magnitude estimates of cost for the selected shore protection; and identifies shore owners.

261. "Preliminary Engineering Report on the Master Development Plan for the Jackson County Industrial Water Supply System."
Baker, Michael Jr., Inc. Jackson: September, 1965.

This is a preliminary report intended to illustrate the need for additional water storage facilities in Jackson County to accommodate and attract new industry. The tentative plans to fulfill this need are outlined, supported by appropriate data, drawings, cost estimates, and recommendations.

262. "A Proposed 100 Million Gallon Per Day Water Supply System With Multi-Purpose 3,800 Acre Reservoir." Baker, Michael Jr., Inc. Jackson: August, 1970.

A project summary of a regional public works improvement project and multi-agency participating development in Jackson and George Counties to provide, among other things, a reliable and economical supply of fresh water to meet municipal and domestic needs resultant from rapidly increasing population and declining ground water supply.

263. "The Relation of Water Resources to the Industrial and Recreational Potential of the Mississippi Gulf Coast." Water Resources Institute. 1968.

264. "Report of Committee on Water and Sewer Requirements." Jackson County Committee on Water and Sewer Requirements. March, 1971.

A report on the committee's activities to assess the needs for water and sewer services in Jackson County.

265. "Report on Eligibility Requirements for the National Flood Insurance Program-Biloxi, Mississippi." Planning Services, Inc. New Orleans: December, 1971.

The principle purpose of these regulations is to prescribe the minimum requirements for adequate land use and control measures for flood-prone areas that a community must adopt in order to obtain or to retain flood insurance eligibility after December 31, 1971.

266. "Soil Interpretations for the Mississippi Gulf Coastal Flatwoods." Soil Conservation Service, U. S. Department of Agriculture. n. d.

This report interprets information provided by soil surveys of the Gulf Coastal Flatwoods in Harrison, Hancock and Jackson Counties, Mississippi.

267. "Soil Survey of Hancock County, Mississippi." U. S. Department of Agriculture. 1930.

The report describes the Hancock County Area, climate, agriculture, and soil types. A folded map depicts soil types, drainage, dams, state, county and community boundaries, roads, trails, railroads and cemeteries.

268. "Soil Survey of Jackson County, Mississippi (Series 1960, No. 18)." Soil Conservation Service, U. S. Department of Agriculture. Washington: June, 1964.

This is a detailed description of soil conditions in Jackson County. There is an extensive collection of maps.

269. "Special Flood Hazard Information Report: Hobolochitto Creek, East and West Hobolochitto Creeks (Picayune, Pearl River County)." U. S. Army Corps of Engineers. Mobile: December, 1970.

The brief report relates to the flood situation of the Hobolochitto Creek system in and near Picayune, Pearl River County. The report was prepared at the request of the City of Picayune for the purpose of providing information and data for the safe and orderly development of lands along the streams. Findings are based on rainfall, runoff, known flood heights, and other technical data bearing upon the occurrence and size of floods in the Picayune area.

270. "Special Flood Hazard Information Report, Old Fort Bayou, Ocean Springs, Jackson County, Mississippi." U. S. Army Corps of Engineers. Mobile: August, 1970.

This brief preliminary report is intended to provide flood information to be used as a basis for planning land use along Old Fort Bayou near Ocean Springs, so that development along the bayou could proceed in an orderly and safe manner.

271. "A Study of Managerial Practices in Rural Water Systems." Cartee, Charles, and Williams, D. C. Jr. Bureau of Business Research, University of Southern Mississippi. To be completed June, 1973.

This study will examine the organizational structure, management procedures and operating efficiency of rural water systems of selected communities and explore the possibilities for economics and improvements in operations through suggested changes in the structure, operation and management practices.

272. "Tidal Flooding in Pascagoula and Gautier, Mississippi." Jackson County Planning Commission. Pascagoula: June, 1970.

Description of tidal flooding and possible solutions.

273. "Water for the Growing Needs of Harrison County, Mississippi." Newcome, Roy, et al. (abstract) U. S. Geological Survey. 1966.

An evaluation of the potential of streams and aquifers to satisfy the growing industrial and municipal water needs of a rapidly expanding economy.

274. "Water Level and Water Quality Trends in Aquifers Along the Mississippi Gulf Coast." Shattles, D. E., and Callahan, J. A. 1970.

275. "Water Resources Development in Mississippi." U. S. Army Corps of Engineers. Vicksburg: January, 1971.

Description and facts on the various rivers and basins in the State of Mississippi.

MISCELLANEOUS

276. [Clippings Archive, George County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in George County between 1964 and 1970.

277. [Clippings Archive, Harrison County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in Harrison County between 1964 and 1970.

278. [Clippings Archive, Hancock County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in Hancock County between 1964 and 1970.

279. [Clippings Archive, Jackson County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in Jackson County between 1964 and 1970.

280. [Clippings Archive, Pearl River County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in Pearl River County between 1964 and 1970.

281. [Clippings Archive, Stone County.] Mississippi Research and Development Center.

The Research and Development Center Library maintains an extensive collection of clippings on various activities in Stone County between 1964 and 1970.

282. "Coast Lines." Crown Publishing Company, Inc. Gulfport, Mississippi: Monthly.

A review of the Gulf Coast activities.

283. "Down South." Hamill, C. C. Biloxi, Mississippi: Bi-Monthly.

The periodical gives an account of happenings on the Gulf Coast.

284. "A Guide to Codes of the Mississippi Coast." Coast Code Administration. Gulfport: November, 1971.

This document contains a summary of regulations affecting the contractor working in the three Coastal counties of Mississippi. It includes a general discussion of the relationship of these regulations, their legal basis in state statutes and the local ordinances which govern the development of property, construction thereon and maintenance of the property.

285. "Hancock County Chamber of Commerce News Bulletin." Hancock County Chamber of Commerce. Bay St. Louis: periodically.

The bulletin outlines the news of the Hancock County Chamber of Commerce.

286. "1970 Mississippi Manufacturers Directory." Mississippi Research and Development Center. Jackson: September, 1971.

A cross-referenced index to manufacturers in Mississippi.

287. "Mississippi Monitor." Mississippi Monitor Publications, Inc. Bay St. Louis, Mississippi: periodically.

A review of Jackson, Harrison, Hancock, Pearl River, and George Counties and important industry activities in the area.

288. [Miscellaneous Newspaper Articles on Jackson County Industries.] (Vertical file). Pascagoula Public Library.

289. "Regional Apartment Directory." Gulf Regional Planning Commission. Gulfport: August, 1971.

This document is a complete listing of all apartment complexes (complexes of three or more units) for the Counties of Hancock, Harrison, Jackson and Pearl River in the State of Mississippi. Also, it is an analysis of the type of apartment housing available, how many units there are and the general flow of people in and out of the planning area.

290. "A Survey of Computer and Computer Personnel Availability within the State of Mississippi." Etzold, David J., and Williams, D. C. Jr. Hattiesburg: Bureau of Business Research, University of Southern Mississippi. May, 1969.

The study assessed the impact of computer utilization in the State of Mississippi. Firms that are presently utilizing computers in their business operations are listed and those that have computer time available for rental to other firms are specified.
