Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 483(g) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance for determining if sales of land between related persons qualify for a lower imputed rate of interest. More specifically, the regulations would provide for a definition of land and for rules to compute the maximum dollar limitation on which the lower imputed rate of interest is to apply.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 483 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide for the semiannual compounding of the test rate of interest used to determine if a deferred payments contract contains unstated interest. Thus, in the case of a contract for the sale of property that provides for no interest or an unreasonably low rate of interest that does not satisfy the test rate of interest compounded semiannually, interest will be imputed under the contract.

Abstract: These temporary regulations provide taxpayers with a list of loan transactions that are not subject to section 7872. If a loan is subject to section 7872, the below-market loan is recharacterized as a market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. Taxpayers who are parties to a loan listed in these regulations are not subject to section 7872 with respect to that loan.

Semiannual Regulatory Agenda

ACTION**ACTION****45 CFR Ch. XII****Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations****AGENCY:** ACTION.**ACTION:** Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency

in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Robert C. MacKichan, General Counsel, ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION:

In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the Federal Register semiannual regulatory

agendas in April and October of each year.

The regulations being considered by ACTION are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Donna M. Alvarado,
Director.

ACTION (ACTION)**Prerule Stage****2585. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS**

Legal Authority: 42 USC 2000(d)(1); 42 USC 5057; 42 USC 5060

CFR Citation: 45 CFR 1203

CFR Citation: 36 CFR 800

Legal Deadline: None

Abstract: In order to streamline and increase the effectiveness of the Council's regulations at 36 CFR Part 800 the Council is in the process of preparing revisions to its regulations. The reason for the revisions is to implement new regulatory authorities set forth in PL 96-515, and to improve the efficiency of the historic preservation review process. The alternative to revision of the regulations is to leave them as they are, which would not achieve the goals the Council seeks. The revisions are expected to reduce the cost of complying with the regulations.

Abstract: Specific provisions of the ATBCB Minimum Guidelines and Requirements for Accessible Design have been reserved until such time as sufficient research, information, and/or field experience is obtained. In addition to these reserved provisions, the Board has indicated that additional

information would be useful on other provisions contained in the regulation and on other access issues. As materials and experience become available in these areas, the Board plans to take the appropriate action to complete or revise these requirements. For example, this year the Board may issue proposed rules in the areas of signage and detectable tactile surface treatments. Information on alternatives being considered for addressing a particular provision, and the potential costs and benefits of the action being proposed will be provided during the rulemaking process. Semiannual Regulatory Agenda

EPA

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Ch. I****(FRL #2990-9)****Regulatory Agenda****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Regulatory agenda.

SUMMARY: EPA revises the Regulatory Agenda semiannually and it appears in the *Federal Register* each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The Agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: For specific information on any item in the Agenda, please contact the person listed with each entry.

If you have any suggestions for improving this publication, or need general information about the Agenda, please call or write to Angela Tyler, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, D.C. 20460, (202) 382-7205.

If you want to be on the mailing list for future Agendas, please call or write to Penelope Parker, Regulation and Information Management Division, Environmental Protection Agency, PM-223, Washington, D.C. 20460, (202) 382-5480.

FOR FURTHER INFORMATION CONTACT: Angela Tyler, (202) 382-7205.

SUPPLEMENTARY INFORMATION:**Organization of the Agenda**

The Agenda is organized by statutory area -- generally by the titles of the major legislation authorizing EPA's pollution control programs. In a few cases, the Agenda combines regulations with differing statutory authorities that have closely-related subject matter. For example, the Fuel Economy Data regulation under the Energy Policy and Conservation Act appears together with mobile source regulations under the Clean Air Act.

The statutory areas appear in the following order:

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

Federal Food, Drug, and Cosmetics Act (FFDCA)

Toxic Substances Control Act (TSCA)

Clean Water Act (CWA)

Marine, Protection, Research, and

Sanctuaries Act (MPRSA)

Atomic Energy Act (AEA)

Safe Drinking Water Act (SDWA)

Resource Conservation and Recovery Act (RCRA)

Hazardous and Solid Waste

Management Act (HSWA)

Clean Air Act (CAA)

Comprehensive Environmental

Response, Compensation, and

Liability Act (CERCLA)

General -- Other Acts (including general grant and procurement regulations and regulations that cut across several program areas)

Within each statutory area the entries are divided into four categories: (1) Prerulemakings; (2) proposed rules; (3) final rules; and (4) regulations that EPA is deleting from the Agenda because the Agency has completed, withdrawn, or postponed them indefinitely. Detailed information on each of these sections is presented below.

Appendix A includes a list of abbreviations of terms used in this document.

I. Prerulemakings

Prerulemaking actions are those activities underway at EPA that are intended to determine whether, or how, to initiate rulemaking. These activities would occur prior to proposed rulemaking, and includes anything that influences or leads to rulemaking. These activities include advance notices of proposed rulemaking; significant studies or analyses of the possible need for regulatory action; requests for public comment on the need for regulatory action; or important regulatory policy proposals.

This section also includes existing EPA regulations: (1) that are now under review, or (2) whose review will begin before EPA publishes the next Agenda. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, these reviews will appear in the completed section of the Agenda. If EPA decides to review or rescind the regulation, the action will appear in the following Agenda with an entry in the proposed rule section, and will state the timetable for completing the revision or rescission.

For each regulation under review, the Agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which in many cases is different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to establish annually the Administration's Regulatory Program. It defines priority activities that the Agency will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities across different agencies and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that EPA should review its regulations to ensure that the costs of these regulations are justified by their benefits.

The Regulatory Flexibility Act requires that EPA review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA invites public comment on the need to revise the list of regulations EPA is reviewing under the Regulatory Flexibility Act.

Reviews under the RFA are identified by a "Yes" in the "small entity" category. When the Agency completes reviews of regulations with a significant impact on small entities, the Agenda entry includes an abstract that announces the Agency's decision of whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981 plan (46 FR 36930) for reviewing regulations under the Act.

The Paperwork Reduction Act requires EPA to review its information collection activities to determine that the Agency needs and will actually use all of the information that will be collected. The Agency should make sure that it will manage the information as efficiently as possible. EPA must also ensure that the information to be collected is of high quality, appropriate

EPA

for its intended use, and does not already exist at EPA or at some other Federal agency. In addition, the Act requires EPA to review the cost of collecting the information, so that it will be held to a minimum for both the respondent and EPA.

Proposed and Final Rules

Regulations are generally listed in the Agenda once they are within a year of scheduled publication as a notice of proposed rulemaking (NPRM) or final action. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Proposed and final rules appear as: (a) Actions that will create new CFR parts, subparts, or subsections; or (b) actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the Agenda for the first time are marked with bullets (●).

The regulations are ordered numerically, by section number of the authorizing legislation. For example, all air regulations under section 109 of the Clean Air Act will appear before those under section 111.

This section includes all "significant" EPA regulations. Some are top priority regulations under development that:

- Are subject to Executive Order 12498; or
- The Agency has designated for priority development or revision.

However, the listings exclude: (a) Specialized categories of actions (such as EPA approvals of state plans and other actions that do not apply nationally); and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each proposed and final regulation, the Agenda includes:

- The title
- The priority classification (if applicable)

- The legal authority
- The CFR reference
- A short abstract
- An analysis section (if the Agency is preparing a Regulatory Impact Analysis [RIA] and/or a Regulatory Flexibility Analysis [RFA])
- A timetable of existing and scheduled actions
- A reference to small entity impacts
- An Agency contact, and
- An additional information section

The additional information section includes the FTS phone number for the Agency contact. It also includes the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes.

III. Completed Actions

These are actions that appeared in the last Agenda, but which EPA is deleting because they are completed or are no longer under consideration. The information given on these regulations and reviews of regulations is less detailed than for those that are still under consideration. Generally, entries include: (1) The date and Federal Register citation, if any, of the last action on the regulation, and (2) an explanation of why the Agency is deleting the regulation from the Agenda.

DATED: March 13, 1986.

John M. Campbell,

Deputy Assistant Administrator for Policy, Planning, and Evaluation.

**2594. ● TOXICOLOGY DATA
REQUIREMENTS FOR
ANTIMICROBIAL PESTICIDES**

Significance: Regulatory Program

Legal Authority: 7 USC 136 /FIFRA 3

CFR Citation: 40 CFR 158

Legal Deadline: None

Abstract: EPA will propose a policy to require toxicology data requirements for certain antimicrobial pesticide products. At present, virtually all antimicrobials are registered by EPA on the basis of only acute toxicity data because exposure is not considered to be repeated or long term. The only exception is the category of swimming pool chemicals because exposure of swimmers is whether exposure to additional antimicrobial pesticides is significant and/or repeated and whether expanded toxicology data, as described in Part 158, the Data Requirements for Pesticide Registration, should be required for certain antimicrobials.

CLASSIFICATION FOR CERTAIN
ACTIVE INGREDIENTS USED IN
TERMITICIDES**

Significance: Regulatory Program

Legal Authority: 7 USC 136 /FIFRA 3

CFR Citation: 40 CFR 162.31

Legal Deadline: None

Abstract: FIFRA requires that pesticides be classified for either general use or restricted to trained, certified pesticide applicators. This rule would classify certain active ingredients in termiticides for restricted use based on criteria concerning toxicity, persistency and quantity used per application. Classification for restricted use permits the continued use of certain pesticides which, if used without restrictions, may have adverse effects on human health and the environment.

CFR Citation: 40 CFR Not applicable

Legal Deadline: None

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. Regulatory development will be coordinated with the review of state plans FIFRA Section 4 to determine both need and compatibility with State authorities and programs.

Legal Authority: 7 USC 136 /FIFRA 12, 18

CFR Citation: 40 CFR 153.12; 40 CFR 166.7

Abstract: EPA is proposing to treat as unlawful under FIFRA section 12 or restrict the advertising of certain uses of pesticides authorized for experimental use, emergency use, and special local needs. The proposed policy will also address advertising of other unregistered pesticides and pesticide use patterns. This policy is intended to prevent misuse of pesticides which could cause unreasonable adverse effects on humans or the environment.

Abstract: Under the authority of the Independent Offices Appropriation Act (IOAA) of 1952, the Agency is proposing to establish user fees for processing pesticide registration actions which constitute special services to registrants. The Agency is also considering establishing fees for other special services such as re-registration. The proposed registration fee system would place all or part of the burden of payment for the Agency's services on those who benefit from the service rather than on the Agency.

Abstract: New microorganisms developed through advanced techniques of genetic engineering and used for FIFRA commercial purposes will be subject to EPA requirements. OPTS is now developing a policy for handling genetically engineered pesticides, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments were due on April 1, 1985. The policy will be revised, as appropriate, and a final statement will be prepared. In addition, OPTS is participating in an inter-Agency Working Group on Biotechnology to ensure that the overall Federal approach is integrated and consistent.

CFR Citation: 40 CFR 153

Legal Deadline: None

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6 (a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is revising it to clarify the types of information which registrants must report to EPA.

2608. ● RESTRICTED USE CLASSIFICATION FOR CERTAIN ACTIVE INGREDIENTS USED IN GRANULAR INSECTICIDES

Legal Authority: 42 USC 136 /FIFRA 3

CFR Citation: 40 CFR 162.31

Legal Deadline: None

Abstract: FIFRA requires that pesticides be classified either for general use, or restricted to trained, certified pesticide applicators or people under their direct supervision. In August 1979, EPA proposed to classify as restricted use several pesticide active ingredients used in granular insecticide formulations. Since then the granular formulations of all of these pesticides, except fenamiphos, have been reclassified through Registration Standard review. Since a Registration Standard review of fenamiphos is not expected to be completed in 1986, EPA is making final its proposal to restrict the use of fenamiphos in granular formulations. Classification for Restricted use permits the continued use of certain pesticides which, if used without restrictions, may have adverse effects on human health or the environment.

Abstract: The following table lists chemicals for which EPA will initiate rulemaking to require testing or publish a notice which provides the reasons for not doing so. The list includes chemicals which have been designated

for priority testing consideration by the Interagency Testing Committee as well as those chemicals (i.e., recommended and non-designated chemicals) for which the 12 month statutory requirement does not apply. The list also includes chemicals or categories of chemicals which have been identified for testing consideration by other EPA program offices and through TSCA review processors.

2617. STRATEGIES FOR CONTROL/INFORMATION COLLECTION FOR CHEMICAL CATEGORIES

Significance: Regulatory Program

Legal Authority: 15 USC 2625(c) / TSCA 4; 15 USC 2625(c) / TSCA 5; 15 USC 2625(c) / TSCA 6; 15 USC 2625(c) / TSCA 8; 15 USC 2625(c) / TSCA 9

CFR Citation: 40 CFR 700

Legal Deadline: None

Abstract: EPA is currently evaluating the utility of a categorical approach to regulating new and existing chemicals.

EPA—TSCA

Proposed Rule Stage

A categorical approach would permit EPA to put new and existing chemical categories of interest on a more equal footing. The actions considered for the categories include requirements for testing under Section 4 of TSCA, requirements to provide more information on the manufacture and use of the chemicals under Section 8, requirements to limit some aspect of the manufacture or use of a chemical under Section 5, and potential action under Section 6 or 9 to limit the manufacture or use of the chemicals. Consideration will also be given to voluntary approaches to the development of data and the control of category members. Outputs of this action calls for specific categories; those rules are separately in the Regulatory Agenda once a decision has been made to develop a specific rule.

Legal Authority: 15 USC 2604 / TSCA 5; 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under TSCA section 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Individual proposed or final rules will be published on at least the chemicals listed below: 4,4'-Methylene bis (2-chloroaniline); Hexamethylphosphoramide; Urethane; Methyl Butyl Ketone; 11-Aminoundecanoic Acid; Hexachloronorborene;

Pentachloroethane; Polybrominated Biphenyls and Tris(2,3-Dibromopropyl Phosphate, and p-tert-Butyl Benzoic Acid (PTBBA), p-tert-Butyl Benzaldehyde (PTBB), and p-tert-Butyl Toluene (PTBT).

2619. FOLLOW-UP RULES ON NON-5(E) NEW CHEMICALS

Legal Authority: 15 USC 2604 / TSCA 5; 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA has instituted a program to follow the commercial development of selected new chemicals that have completed premanufacture notice review. EPA will issue rules on new chemicals of concern as they are identified to require follow-up reporting under TSCA Section 5 or 8, by the manufacturers and processors of the chemicals. Individual proposed and final rules will be published at different

times throughout the period of April 1986 to April 1987.

2620. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture or process the substance without controls. Therefore EPA, by rule, designates manufacture or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur

2621. ● GENERIC SIGNIFICANT NEW USE RULE FOR ACRYLATE COMPOUNDS

Legal Authority: 15 USC 2694 /TSCA Section 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of a significant new use. The significant new use rule will apply to a subset of

acrylates and methacrylates added to the inventory after the effective date, it will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

2622. ● SIGNIFICANT NEW USE RULE FOR PATHOGENS AND MICROORGANISMS CONTAINING GENETIC MATERIAL FROM PATHOGENS

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA Section 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: EPA believes that if a microorganism subject to TSCA is a pathogen or contains genetic material from a pathogen(s), then any new environmental use of the microorganism should be considered a "significant new use" and a significant new use notification should be required. EPA will propose a rule consistent with this policy under TSCA section 5(b). EPA will try to exclude unaltered pathogens used on fewer than 10 acres from this SNUR. EPA will consider whether it should include provisions to review all nonindigenous pathogens. EPA will announce in an FR notice its expectation that anyone using such products will report to EPA between now and the time that the pathogen SNUR is final.

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 720

Legal Deadline: None

Abstract: EPA believes that living microorganisms used in small scale field tests are not "small quantities for research and development" and are therefore not exempt from PMB reporting under section 5(h)(4). EPA will amend the PMN rule to clarify this. Under the amended rule, persons wishing to field test "new" microorganisms have to submit a PMN prior to field testing.

2624. REGULATORY INVESTIGATION OF METALWORKING FLUIDS

Legal Authority: 15 USC 2605 / TSCA 6

CFR Citation: 40 CFR 747

Legal Deadline: None

Abstract: The formulation of water-based metalworking fluids with nitrite in combination with alkanolamines may present an unreasonable risk to machinists due to the formulation of nitrosamines, particularly in n-nitrosodiethanolamine (NDELA). Recent studies indicate that NDELA is a potent animal carcinogen. EPA may propose to prohibit the intentional addition of inorganic nitrites to water-containing metalworking fluids that contain amines.

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for the reduction of three categories of exposure to formaldehyde: 1) residents exposed to formaldehyde emissions from wood products used in the construction of mobile homes; 2) similarly exposed residents of conventional homes; 3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. Because OSHA proposed a standard in December 1985 that applies to all occupational exposure, EPA has terminated its investigation with respect to apparel manufacturing employees. Investigation is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

Legal Authority: 15 USC 2605/ TSCA 6; 15 USC 2608/ TSCA 9

CFR Citation: 40 CFR 764

Abstract: MBOCA is a curing agent used in the manufacturing of elastomers and surface coatings. It has been shown to cause cancer in laboratory animals. Risks are primarily to workers, many of whom work for small businesses. The Agency will close out the ANPR and refer these risks to the Occupational Safety and Health Administration under the consultation provision of TSCA Section 9(d).

EPA—TSCA

Proposed Rule Stage

2627. ASBESTOS ABATEMENT BUILDING OCCUPANT PROTECTION RULE**Significance:** Regulatory Program**Legal Authority:** 15 USC 2605/TSCA 6**CFR Citation:** 40 CFR 764**Legal Deadline:** None

Abstract: This rulemaking may set standards to ensure that building occupants and visitors are protected during asbestos abatement. Approaches being considered include (1) a rule requiring that asbestos abatement contractors undergo certain training in order to ensure that they are competent to conduct asbestos abatement work, and (2) non-regulatory approaches based on programs EPA has started or is expanding that would assist States in establishing programs that ensure persons performing abatement work are "certified" as competent to perform such work.

In addition, OSHA is now revising its asbestos rule and intends to issue new asbestos standards for the construction industry in the near future. These OSHA standards may contain a provision requiring employers to institute a training program for employees. Such a provision could obviate the need for all or part of this rule, although amendments to the EPA worker protection rule would be necessary.

Abstract: Under EPA's regulations on the disposal of PCBs, spills, leaks and other uncontrolled discharges of PCBs constitute the illegal disposal of PCBs. Because such discharges of PCBs are considered to be violations of the PCB disposal regulations, EPA requires the cleanup of contamination resulting from such discharges. This action is directed toward establishing nationwide standards under TSCA for the cleanup of PCB spills. Abstract: This rule adds chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule - (40 CFR Part 712). Chemicals not designated by the Interagency Testing Committee (ITC) for test rules, and not subject to EPA's one year priority consideration are also included for reporting under Section 8(a). These include chemicals identified by OTS; other EPA offices and other Agencies. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test-rule decisions. Reporting rules may be issued on specific chemicals.

Abstract: New microorganisms developed through advanced techniques of generic engineering and used for TSCA commercial purposes will be subject to EPA requirements. OPTS is now developing general policies concerning the scope of PMN requirements for genetically engineered organisms, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments were due on April 1, 1985. The policy will be revised, as appropriate, and final statement will be prepared. PARTIAL UPDATING OF CERTAIN TSCA INVENTORY DATA****Legal Authority:** 15 USC 2607 / TSCA 8(a)**CFR Citation:** 40 CFR 710, Subpart b**Legal Deadline:** None

Abstract: This rule would update, under the authority of section 8(a) of TSCA, the production volume and plant site data for certain substances reported for the TSCA Chemical Substances Inventory. The information is needed by EPA to perform a number of activities associated with the implementation of TSCA. The current Inventory data base was compiled in 1979, based on 1977 data. The obsolescence of the Inventory data base and the lack of an alternative source that can fully satisfy EPA's requirements have formed the basis for the proposed action. EPA has proposed that certain manufacturers/importers of certain substances report current production volume, plant site location, and site-limited status. After the initial reporting, follow-up reporting will be required on a regular basis.

BILLING CODE 6560-50-T**ENVIRONMENTAL PROTECTION AGENCY (EPA)—Clean Water Act (CWA)****Prerule Stage****2652. ● REGULATIONS TO IMPLEMENT RECOMMENDATIONS OF THE DOMESTIC SEWAGE STUDY****Significance:** Regulatory Program**Legal Authority:** 42 USC 6939 / Sec. 3018(b) RCRA**CFR Citation:** 40 CFR 400ff; 40 CFR 122**Legal Deadline:** Statutory, August 1987. Eighteen months after submission to Congress of the Domestic Sewage Study required by RCRA Sec. 3018(a). Submitted 2/8/86.

Abstract: Regulations are to be promulgated to ensure that hazardous wastes discharged to publicly owned treatment works are adequately controlled to protect human health and the environment. The ANPRM will present a spectrum of possible approaches and solicit the best ways to implement the recommendations of the Congressionally-mandated study of the RCRA domestic sewage exclusion. The study supports primary reliance on the CWA pretreatment program for

regulation of aqueous hazardous waste discharged to sewers.

Abstract: Section 301(c) of the Clean Water Act provides for variances on economic grounds of the strict requirements of BAT controls for non-toxic, non-conventional pollutants. The Agency is considering providing a guidance document which would set out ground rules and national criteria for granting variances from BAT requirements.

GUIDELINES FOR CLASSIFYING GROUNDWATER UNDER THE EPA GROUNDWATER PROTECTION STRATEGY****Significance:** Regulatory Program**CFR Citation:** Not applicable**Legal Deadline:** None

Abstract: In August 1984, EPA issued Groundwater Protection Strategy to provide clear objectives to guide the Agency's efforts to protect groundwater. The strategy incorporated views of State and local governments, industry, a broad-cross section of public-interest groups, and other Federal agencies who

had been invited to comment on the development of the strategy. One of the major factors toward the development of the strategy was the need to achieve greater consistency among the many EPA programs in protecting groundwater and the need to take into account its value and vulnerability in

EPA-CWA

Proposed Rule Stage

developing protection and cleanup approaches. Some EPA programs tended to factor in groundwater considerations to a greater extent than other programs. These differences were creating confusion among those subject to these regulations, and among State and local officials who were implementing EPA programs. Now EPA is looking at a rational basis for decisionmaking through these guidelines. The Agency plans to publish both draft and final guidelines.

CFR Citation: 40 CFR 463

Legal Deadline: None

Abstract: The Agency promulgated BPT, BAT, and BCT limitations, and NSPS for the plastics and molding and forming industry on December 17, 1984, with the exception of three phthalates in two subcategories. Limitations were reserved for the phthalates because the Agency does not have treatability data for the technology identified to control those pollutants (i.e., activated carbon absorption). The Agency plans to obtain those data through a treatability study and then to propose and promulgate limitations for phthalates, if appropriate. The phthalates are: 1) bis(2-ethylhexyl) phthalate, 2) di-n-butyl phthalate, and 3) dimethyl phthalate. The Agency is planning to withdraw the phthalates portion of the rule under paragraph 8 of the NRDC consent decree.

Significance: Regulatory Program

Legal Authority: 33 USC 1251 /CWA 402

CFR Citation: 40 CFR 122

Abstract: EPA intends to evaluate categories of industrial dischargers of hazardous or toxic pollutants; identify subcategories based upon production processes, pollutants, and applicable technologies; and determine the extent of the environmental problem and the practicality and efficiency of issuing effluent guidelines. Potential industrial categories for analysis would be selected based on requests from the EPA regional offices, States, and municipalities and from results of internal studies. Regulations for these industries would be based on complex engineering and economic studies to determine wastewater characteristics and treatment capabilities of each industrial category and subcategory.

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 220 to 229

Legal Deadline: None

Abstract: These amendments are necessary to clarify the existing regulations, incorporate program experience, and respond to statutory amendments and the results of two lawsuits. Those lawsuits are the City of New York decision (543 F. Supp.), which involved the consideration of the need for ocean dumping and availability and impacts of land-based alternatives, and NWF v. Costle decision (629 F. 2d 118), which involved dredged material issues. These regulations will involve multi-media issues, such as how to compare impacts of ocean disposal and land-based alternatives. Significant impacts on small entities (i.e., small business and small governmental jurisdictions) seem unlikely. The potential for such impact will be further considered as regulations are developed.

Proposed Rule Stage

Legal Authority: 33 USC 1401 / MPRSA 201(c)

CFR Citation: 40 CFR 234

Legal Deadline: None

Abstract: In response to the need to provide for the safe disposal of hazardous wastes, the Agency has proposed regulations governing at-sea incineration of hazardous wastes (50 FR 8222, February 28, 1985). Incineration of liquid wastes at-sea is a potential method to help solve the nation's hazardous waste problem. Designation of sites for incineration-at-sea is a

necessary step in making this technique for waste disposal available. An incineration-at-sea site for the Gulf of Mexico was designated in 1976 and redesignated in 1982. The Agency is planning to designate additional sites in the North Atlantic and Pacific.

Abstract: EPA promulgated effluent limitations and standards for BPT, BAT, NSPS, PSNS and PSES for the Pulp, Paper and Paperboard and the Builders' Paper and Board Mills point source category. BCT limitation will not be established until promulgation of the general methodology for BCT. The Agency proposed BAT and NSPS regulations that would limit the discharge of polychlorinated biphenyls (PCBs) into waters of the United States from mills in this industry where fine and tissue papers are made from deinked wastepaper. In response to a court remand of the final 1977 BPT regulation, EPA has also proposed a revised BPT limitation for BOD5 in acetate grade production in the dissolving sulfite pulp subcategory. The Agency intends to promulgate BCT limitations, PCB regulations and the BOD5 limitation for acetate grade production in the dissolving sulfite pulp subcategory.

Abstract: The Agency is promulgating BAT and NSPS for mines and mills that beneficiate gold ores by gravity separation methods. These methods include mining of placer deposits, dredge mining, and hydraulic mining operations. These limitations will apply to wastewater generated by these operations and are an addition to those subcategories for which final regulations were issued on December 3, 1982.

Abstract: EPA is revising the cost reasonableness test for BCT effluent guidelines. EPA is making these revisions in response to a 1981 court decision. EPA proposed a revised BCT methodology and new BCT limitations on October 29, 1982 for 16 industries, including pulp and paper, inorganic chemicals, metal finishing, seafood processing, and meat products. EPA issued a notice of data availability on September 20, 1984, requesting comment on new information that is being considered for use in the final BCT methodology. Following analysis of the comments on this notice, EPA will publish a final BCT methodology and BCT effluent guidelines for certain industries identified in the CFR citations listed.

Abstract: This regulation's purpose is to prevent spills of hazardous substances into navigable waters. It sets forth requirements for the Spills Prevention Control and Countermeasure Plans for facilities which (a) are not related to transportation, (b) which store, manufacture or otherwise handle hazardous substances at their facilities, and (c) are subject to NPDES permits. The Agency will likely exempt any small facilities which store less than ten times the reportable quantities of spilled, hazardous substances.

These VOCs have been most commonly found in drinking water drawn from groundwater sources. These chemicals include such compounds as trichloroethylene, tetrachloroethylene, and vinyl chloride. Aeration and granular activated carbon (GAC) systems are treatment technologies that can reduce these contaminants to a low level. Preliminary estimates show that average residential monthly bills for affected systems could rise from \$1-\$14 depending on the size of the drinking water system and the type of technology selected.**Timetable:**

Significance: Regulatory Program

Legal Authority: 42 USC 6924; 42 USC 6926 / HSWA 206

CFR Citation: 40 CFR 264; 40 CFR 271

Abstract: HSWA requires corrective action for releases of hazardous wastes and constituents at hazardous waste management facilities seeking RCRA permits. Issues concerning the applicability of the HSWA corrective action requirement to Federal facilities specifically recognition of subdivisions of Federal agencies as facility "owners," limitations on Federal agency responsibility at facilities operated by private parties and policies for establishing priorities for correcting releases at Federal facilities, will be covered by EPA's rules.

CFR Citation: 40 CFR 261

Legal Deadline: None

Abstract: These actions announce EPA's decision whether or not to list a waste as hazardous under RCRA. If a waste is listed as hazardous it will be subject to those requirements contained in 40 CFR Parts 262-266 and Parts 270, 271 and 124. A listing decision is an internal determination which is based on extensive waste characterization studies and toxicological evaluations. As a result of this determination, a regulatory package is prepared which then goes through Agency regulatory review procedures. The Agency can decide either to list or not to list and will justify this decision in the rulemaking package.

CFR Citation: 40 CFR 260; 40 CFR 262; 40 CFR 263; 40 CFR 271.

Legal Deadline: Statutory, November 8, 1986

Abstract: The primary purpose of the Exports regulation is for EPA to; formally notify foreign governments of exports of hazardous waste to their country, receive confirmation of approval or disapproval and formally notify the U.S. exporter. A notification of approval by EPA must accompany each waste shipment. Only a few hundred shipments of hazardous waste are exported annually, none by small entities.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004, 3005

CFR Citation: 40 CFR 264

Legal Deadline: Statutory, November 8, 1986

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish acceptable situations for use of hazardous waste fuel in industrial boilers and certain industrial furnaces. It will also establish prohibitions, operating parameters, and permit procedures.

Abstract: These amendments to the Agency's interim status and permitting rules may include requirements pertaining to double liner and leachate collection systems for certain units which are currently singularly lined, leak detection systems, leak response and repair construction quality assurance plans, removable coupons and leachate level monitoring. These amendments are considered to assure better design, construction, and operation of hazardous waste land disposal facilities and, thus, enhance

Significance: Regulatory Program

Legal Authority: 42 USC 6901 /RCRA 3004, HSWA 206

CFR Citation: 40 CFR 264

Legal Deadline: Statutory, November 8, 1985

Abstract: The current RCRA regulations require owners/operators of hazardous waste management facilities to demonstrate financial responsibility for the costs of closure and post closure (if applicable) activities. The HSWA require that owners/operators seeking a RCRA permit also demonstrate financial responsibility for completing corrective actions for prior releases. Legal Authority: 42 USC 6924 / RCRA 3004 / HSWA 208

CFR Citation: 40 CFR 264H; 40 CFR 265H

Legal Deadline: None

Abstract: This rule would require owners and operators of hazardous waste disposal facilities to demonstrate financial responsibility for corrective action. Failures to undertake corrective action by owners or operators will result in increasing degradation of groundwater resources and increased clean-up costs to the public. Firms with low net worth may not be able to obtain or afford other financial assurance mechanisms as they are currently structured in 40 CFR Part 264, Subpart H. CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Legal Deadline: Statutory, November 8, 1986

Abstract: The purpose of this rule is to expand and elaborate on specific

portions of the Final Codification Rule which was effective on July 15, 1985. The Final Codification Rule codified those requirements specified by the 1984 amendments to RCRA which were effective immediately or shortly after enactment. More specifically, this rule addresses such areas as minimum technology requirements for land disposal facilities; corrective action for prior releases at solid waste management units; research, demonstration and development permits and permit modifications and post-closure permits.

CFR Citation: 40 CFR 264.18

Legal Deadline: None

Abstract: Section 3004(a) of RCRA requires EPA to promulgate additional standards for the location of hazardous waste treatment, storage, and disposal facilities. Two location standards (floodplain and seismic restrictions) already exist at 40 CFR Part 264.18. These additional standards are planned to be proposed in September 1987.

2722. AMENDMENT TO STATE PROGRAM CAPABILITY REQUIREMENTS

Legal Authority: 49 USC 6926 / RCRA 3006

CFR Citation: 40 CFR 271.16

Legal Deadline: None

Abstract: This action will amend 40 CFR 271.16 to require a State either to have administrative penalty authority or to request that EPA use its administrative penalty authority when warranted. The new requirements would apply to States that have received final authorization by operation of the "money target" rule, which will provide that a State has a

year (two years of a statute must be changed) to comply with federal regulations promulgated after the State obtained final authorization.

2724. LEAKING UNDERGROUND STORAGE TANKS: REGULATIONS FOR TANKS

Significance: Regulatory Program

Legal Authority: 42 USC 6993 /RCRA 9003

CFR Citation: 40 CFR Not yet determined

Legal Deadline: Statutory. 02/08/87, 08/08/87, 08/08/88

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for leak detection, prevention, and closure of all underground storage tanks holding petroleum and other regulated substances. Because of the large size of the regulated community, this rule could impact a significant number of small business entities and a Regulatory Flexibility Analysis would be conducted by EPA. Promulgation of this rule, will, for the first time, establish national requirements for the storage of regulated substances, including, petroleum products in underground tanks. It will not apply to underground tanks storing hazardous wastes, which are currently regulated under Subtitle C of RCRA. These regulations will also include performance standards for new tanks; addressing the design, construction, installation, compatibility and leak detection.

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for taking corrective action in response to releases from underground storage tanks, and requirements for the reporting of such releases and the corrective action taken. The requirements will apply to corrective action for releases of "regulated substances," including petroleum and those substances defined under Section 101(14) of the Comprehensive Response, Compensation, and Liability Act. The requirements will not apply to underground tanks storing hazardous

Significance: Regulatory Program

Legal Authority: 42 USC 6921 to 6925 / RCRA 3001 to 3005; 42 USC 6930 / RCRA 3010

CFR Citation: 40 CFR 260; 40 CFR 261; 40 CFR 266; 40 CFR 270; 40 CFR 271

Legal Deadline: Statutory, November 8, 1986

Abstract: Pursuant to the requirements of the Used Oil Recycling Act (incorporated into RCRA by amendments in 1980 and 1984), the Agency proposed standards to define and control recycled used oil. These standards include controls over the generation, transportation, storage, and reuse of recycled used oil. Legal Authority: 42 USC 6921 to 6925 / RCRA 3001 to 3005

CFR Citation: 40 CFR 261

Legal Deadline: None

Abstract: This action updates the RCRA manual of approved test methods (test methods for Evaluating Solid Waste, SW-846) with respect to methods for ground water and incinerator monitoring. This action would codify the guidance given to the regulated community by requiring that these methods be used in all aspects of the RCRA program. At present the tests are required, as appropriate, for hazardous waste definition and for incinerator stack monitoring (for example, ground water monitoring and petitions for exclusion from regulation).

Abstract: The Agency proposed revisions to the existing Subpart G and H regulations in accordance with the terms of the American Iron and Steel Institute (AISI) litigation. In addition, the revisions will clarify ambiguous language in the current regulations. Failure to promulgate these revisions directly violates the AISI settlement agreement. Under the AISI settlement agreement, failure to promulgate these revisions may lead to a direct legal challenge of the existing Subpart G and H regulations. Failure to clarify ambiguous language will create problems as the Agency implements those closure and post closure requirements.

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: Through this action, EPA will consider the establishment of more stringent hydrocarbon emission standards for light-duty trucks based upon the belief that very cost-effective hydrocarbon control is available from these vehicles. The new standards would be no more stringent than the

existing passenger car standard for lighter light-duty trucks and an equivalently stringent standard for heavier light-duty trucks.

Abstract: The scope of the SOCM1 reactor processes NSPS includes all reactor processes (other than air oxidation reactor processes) used to manufacture 173 synthetic organic chemicals produced in quantities of at least 100 million lb/yr. These large-volume chemicals account for about 90 percent of the total domestic chemical production from the SOCM1. Furthermore, production of these large-volume chemicals is expected to have the greatest impact on nationwide VOC emissions, since the magnitude of emissions from reactor process units are generally proportional to chemical production rates.

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. The primary reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. This rule will consider options to deal with this problem including control of commercial fuel volatility and a change to certification test fuel volatility.

2776. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7401 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will result in rules to provide for certification of emissions compliance for commercial importers and individuals importing vehicles into the United States. By a separate action, the Manufacturers Operations Division is revising its rules for individual vehicle importation. This action is necessary to provide an appropriate mechanism to import vehicles into the United States under certification regulations and assure their compliance with the exhaust emission standards. Current rules for small-volume manufacturers were not intended to apply to conversion of previously manufactured but uncertified configurations. However, increasingly large numbers of manufacturers who import vehicles for resale have applied for EPA certification as an alternative to individual vehicle importation. This will primarily impact small business organizations involved in importing motor vehicles. The likely impact of these changes will be increased costs to these organizations.

2777. EMISSION PERFORMANCE WARRANTY REGULATIONS (REVISION)

Legal Authority: 42 USC 7541(b) / CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This rulemaking will address the issue of establishing: (1) test procedures and standards for heavy-duty gasoline vehicles, (2) new standards for light-duty vehicles and light-duty trucks, and (3) alternative dynamometer loadings for the loaded short tests. These amendments are necessary so that owners of heavy-duty vehicles will have emissions warranty protection and additional owners of light-duty vehicles and trucks will be entitled to warranty protection.

2778. VOLUNTARY AFTERMARKET PARTS CERTIFICATION REGULATIONS (REVISION)

Legal Authority: 42 USC 7541 / CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: The U.S. Court of Appeals for the D.C. Circuit has directed EPA to amend the aftermarket parts certification regulations. There were four specific areas which the Court directed EPA to revisit. EPA was directed to develop better procedures for determining adequate grounds for

manufacturer denial of a warranty claim; reconsider inclusion of specialty parts into the identification system, and improve the procedure for arbitration of warranty cost claims by vehicle manufacturers' against certified parts manufacturers.

CFR Citation: 40 CFR 80.22; 40 CFR 80.23

Legal Deadline: None

Abstract: This action will develop a "Preventative Action Program" to be used by gasoline retailers to help prevent self-serve fuel switching. Retailers will be afforded an affirmative defense to allegations of "allowing" fuel switching if they have effectively implemented this program. This action would also change the language of the fuel switching regulation to prohibit fuel switching in all vehicles designed to use unleaded gasoline, and not just those that still have an "unleaded only" label or fuel inlet restrictor.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I,J,K,L,M,N

Legal Deadline: Statutory, May 1987

Abstract: The purpose of this action is to investigate to magnitude of the area (non-combustion) source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter specific toxic substances or a combination, under RCRA is to protect human health and the environment.

CFR Citation: 40 CFR 58

Legal Deadline: None

Abstract: This action will revise Part 58 to clarify and incorporate changes to the regulations deemed appropriate as a result of the past four years of experience. One of the principal

revisions will propose allowing 120 days after the end of each quarter instead of the current 90 days for the submittal of National Air Monitoring System (NAMS) air quality and precision data to EPA. The 90 days were too short a time period to properly validate the air quality data. Another revision will propose to use the 1980 census data and urbanized area boundaries instead of the 1970 values for network design and evaluation purposes.

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60, Subpart FF

Legal Deadline: None

Abstract: These regulations will require the application of best available demonstrated technology to control nitrogen oxide emissions from stationary diesel and dual-fuel internal combustion engines. Some small oil drilling companies and municipal electric generation facilities may be affected by this standard. EPA will issue separate standards for gas and gasoline-fueled stationary I.C. engines later. The Agency is considering exempting engines with a displacement of less than 560 cubic inches per cylinder.

Abstract: This action proposes to revise the "Guideline on Air Quality Models" (issued in April 1978) to reflect changes to the state-of-the-science of modeling and changes to current practice and policies. Revisions to the Guideline were developed in 1980 and public hearings were held. Based on public comments, EPA has conducted studies to resolve some issues. Additional evaluation studies of models, suggested by commenters and performed in accordance with the recommendations of the American Meteorological Society, are underway. Early results of both are now available and should become part of EPA's guidance. The revised guideline should greatly reduce inconsistencies in the development and revision of emission limitations and in the determination of PSD increment consumption. New modeling procedures allow potentially greater accuracy in modeling results and the attainment of clean air goals at less cost.

Abstract: EPA is considering various options for improving the effectiveness and Administration of EPA's present regulation assessing the importation of

nonconforming vehicles. Nonconforming vehicles are ones which have not been demonstrated to conform with Federal emission requirements. The regulatory revision options range from requiring that only certificate holders may import the vehicles (such entitles to bear responsibility for their emission performance) to continuing the approach in the current regulation with various improvements, to elimination of importation of such vehicles (with any minor exceptions). EPA is also considering elimination of any personal use exceptions.

Abstract: EPA will propose these amendments to require the use of unleaded gasoline in all emissions and fuel economy testing of gasoline fueled light-duty vehicles, light-duty trucks, motorcycles and heavy-duty engines. Abstract: Section 102 of CERCLA establishes a statutory reportable quantity (RQ) for all designated hazardous substances and directs the EPA Administrator to promulgate regulations establishing RQ's adjusted from the statutory quantity if appropriate. Radionuclides are hazardous substances under CERCLA because they are designated as a hazardous air pollutant under section 112 of the Clean Air Act. Abstract: The National Contingency Plan (NCP) is the primary regulation directing government and responsible party response to and cleanup of discharges of oil, and releases of hazardous substances, pollutants and contaminants. EPA anticipates that reauthorization of Superfund, currently being debated in a Congressional Conference Committee, will necessitate further revisions to the NCP. It will establish the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. Prior to 1983, we have taken only

one 404(c) action. Since that time, we have initiated nine such actions. In the preamble to the 404(c) regulations, we indicated that we would do an evaluation of these regulations within four years of the effective date. We delayed this evaluation in order to carefully consider our recent experiences with these regulations. This review is completed, and we plan to revise the regulations to reflect our findings.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION**29 CFR Ch. XIV****Semiannual Regulatory Agenda**

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3

CFR Part 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Richard V. Roscio, Assistant Legal Counsel, Legal Services, Office of Legal Counsel, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20507; telephone (202) 634-6592.

SUPPLEMENTARY INFORMATION: The Commission has identified sixteen

current and projected rulemakings for inclusion in the agenda. Also listed are five regulatory items which are under review. No new items have been added to the agenda as current and projected rulemaking since the last semiannual agenda was published.

Signed in Washington, D.C. this 27th day of February, 1986.

For the Commission.

Clarence Thomas,
Chairman, Equal Employment Opportunity Commission.

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under E.O. 12067.

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Abstract: The Department of Labor on January 9, 1969, published an interpretative guideline which provided that apprenticeship programs were not covered by the ADEA. On July 1, 1979, the Commission assumed responsibility and authority for enforcement of the

ADEA. On September 29, 1981, the Commission republished the Department of Labor's guideline, 29 CFR 1625.13. After an exhaustive review of the ADEA and its legislative history, the Commission proposes to rescind 29 CFR 1625.13, as it presently exists, and promulgate a substantive rule providing that apprenticeship programs are covered by the ADEA. The extension of ADEA coverage to apprenticeship programs is consistent with the purpose of the Act. It will allow those forty years of age and older the same opportunities to participate in apprenticeship programs as are currently enjoyed by younger individuals.

Semiannual Regulatory Agenda

FEMA

FEDERAL EMERGENCY
MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 ("Federal Regulations") the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1986 to April 1, 1987.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street, S.W., Washington, D.C. 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact William

L. Harding, Office of General Counsel, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 646-4096. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, "Federal Regulations," directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 et seq.

In fulfillment of requirements imposed by the Executive Order and 5 U.S.C. 601, et seq., this agenda describes current

and projected regulations, and regulations which will be under review during the period April 1, 1986 to April 1, 1987. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published October 29, 1985 at 50 FR 44718.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations.

DATED: February 25, 1986.

Spence W. Perry,
Acting General Counsel.

2892. DISASTER ASSISTANCE: THE DECLARATION PROCESS

Legal Authority: 42 USC 5201

CFR Citation: 44 CFR 205, Subpart C

Legal Deadline: None

Abstract: This document describes several proposed regulation changes, most of which are intended to implement the requirement in the Disaster Relief Act of 1974 that Federal disaster assistance be supplemental to the efforts and resources of State and local governments. The policy would require that for each major disaster and emergency the Governor of the affected State make a commitment, on behalf of the State and local governmental and eligible private nonprofit entities to assume a portion of otherwise eligible "public assistance" costs as a part of the non-Federal effort to respond to Presidentially-declared major disasters or emergencies. This proposed rule change includes the establishment of a declaration decision-making system that would incorporate the use of "capability indicators" upon which a public assistance recommendation for a declaration could be made. This proposed rule also includes changes to the current FEMA regulations relating to FEMA policy on preliminary damage assessments, the Consolidated List of Debarred, Suspended, and Ineligible contractors, and the FEMA-State Agreement with regard to certain Indian tribes and Alaskan Native villages.

2911. FEDERAL PROPERTY MANAGEMENT REGULATIONS; REVISES THE REPORTING REQUIREMENTS FOR REAL PROPERTY**Legal Authority:** EO 12411**CFR Citation:** 41 CFR 101-3**Legal Deadline:** None

Abstract: This regulation revises FPMR 101-3 with changes and additions to the data elements currently collected as part of the World-Wide Real Property Inventory System. It also displays the revised forms to be used when supplying this information. These changes are necessary to monitor government-wide space reduction initiatives mandated by Executive Order 12411 - Government Work Space Management Reforms and Temporary Regulation D-70-Work Space Management Plans.

The General Services Administration has determined this is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of \$100 million or more; a major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and the consequence of this rule; has determined that the potential benefits to society from this rule outweigh the potential (cont)

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs, biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title, passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; (9) establish an informal appeals procedure; and (10) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). Its intent is to increase the efficiency and effectiveness of the donation program. There should be no significant costs to the public as a result of this regulatory action. It has been determined that potential benefits to (cont)

Abstract: This rule would emphasize that all forfeited distilled spirits, wine, or malt beverages donated to eleemosynary institutions are to be used only by their inpatients for medicinal purposes. Allegations of misuse of these donated spirits have created a need for this regulation. There should be no significant costs to the public as a result of this rule. Abstract: This project revises FIRM Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will update GSA policies and provisions impacting Government-wide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA

is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

2935. COLLECTION OF CLAIMS OWED THE UNITED STATES

Legal Authority: PL 97-365, Sec 10**CFR Citation:** 41 CFR 105-55, (New)**Legal Deadline:** None

Abstract: The regulations will
implement the Debt Collection Act of
1982 within the General Services
Administration. The regulations are
required by Section 10 of the Act and
by means of these regulations GSA will
be better equipped to pursue claims
owed to the Government arising out of
GSA activities. Although the benefit
will be improved claims collections,
there is no way to precisely quantify
the costs or benefits at this time.

Abstract: In considering cost effectiveness, the effects of Gram-Rudman will be evaluated with respect to resource impact both on GSA and other Federal agencies. The potential effects of delegating procurement and/or logistics support authority to any agency will be carefully balanced against the Government's need for quality products and services at the lowest cost (price and other factors considered), delivered in a timely manner. Heads of potentially affected agencies will be consulted and made a part of the decision-making process before a determination is made by GSA to redelegate to an agency any functions assigned by law to the Administrator of General Services.

Regulatory Agenda Semiannual
Summary**

AGENCY: Agency for International
Development, IDCA.

ACTION: Agency regulations agenda.

SUMMARY: The Agency for International
Development (A.I.D.) is publishing this
Agenda as required by section 5(a) of

Executive Order 12291, Federal
Regulation (46 FR 13193, February 19,
1981) and by the Regulatory Flexibility
Act (Pub. L. 96-354, September 30, 1980).
This agenda reports the status of those
regulations currently under review and
gives A.I.D.'s plan for the issuance of
proposed regulations during the next
twelve months. It is expected that the
information provided in this agenda will
enable the public to be more aware of
and more effectively participate in
A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the
agenda or the review list, in general,
contact: Mr. Fred D. Allen, Office of
Information Resources Management,

Agency for International Development,
Washington, D.C. 20523, Telephone (202)
632-3378.

Specific: For further information about
any particular item on the agenda,
contact the individual listed as the
contact for that item.

Regulatory Flexibility Act (RFA)

The Agency does not have any
rulemaking activity that falls within the
requirements of RFA and does not
anticipate any during the next reporting
period.

FEDERALLY ASSISTED PROGRAMS
OF THE AGENCY FOR
INTERNATIONAL DEVELOPMENT --
EFFECTUATION OF TITLE VI OF THE
CIVIL RIGHTS ACT OF 1964**

Legal Authority: 22 USC 2402

CFR Citation: 22 CFR 209

Legal Deadline: None

Abstract: The regulation will address
the problem of discrimination on the
basis of race, color, or national origin in
any program or activity receiving
assistance from the Agency for
International Development. The
regulation provides that no person in
the United States on the ground of race,
color or national origin, be excluded
from participation in, be denied the
benefits of or be subjected to
discrimination under any program or
activity receiving Federal financial
assistance from AID. The regulation
provides procedures for 1) assuring that
such discrimination does not occur and
2) effecting compliance. The Agency is
not considering any alternatives for
addressing the problem. There will be
some minor costs in administering the
regulation; there are potential benefits
to individuals who might otherwise be
discriminated against.

PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)**Legal Authority:** 7 USC 1431; PL 97-253, Sec 110**CFR Citation:** 22 CFR 210, (New)**Legal Deadline:** None

Abstract: This regulation sets forth provisions of the Agency for International Development (A.I.D.), acting as an Agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, Pub. L. 83-480. The

Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records
Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since October 1985. This agenda was developed under the guidelines in OMB Bulletin No. 86-4, dated December 23, 1985. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory

plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291, Federal Regulation.

FOR FURTHER INFORMATION CONTACT:
John A. Constance, Acting Chief,
Information Management and Directives
Branch, (202) 523-3214.

Frank G. Burke,
Acting Archivist of the United States.

3035. ADEQUATE AND PROPER DOCUMENTATION

Legal Authority: 44 USC 2104(a) as added by Sec. 102 of PL 98-497; 44 USC 2901 to 2909; 44 USC 3101; 44 USC 3102; 44 USC 3105; 44 USC 3106

CFR Citation: 44 CFR 101-11.202; 36 CFR 1220.20

Legal Deadline: None

Abstract: The head of each Federal agency is required to make and preserve records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency. The introduction of modern technology into Federal records systems presents problems in meeting this requirement because of the erasable storage media and complex storage formats. The Archivist of the United States is required to provide guidance and standards to agencies. Thus, the National Archives and Records Administration is reviewing the regulations regarding proper and adequate documentation to determine if

they are sufficient to insure proper retention and retrievability of the information until its authorized disposition under an approved records control schedule. If this review determines agencies need different or new guidance, consideration is being given to providing such information through the Bulletin structure.

Legal Authority: 29 USC 794; PL 95-602, Sec 504

CFR Citation: 45 CFR 606, (New); 45 CFR 86

Legal Deadline: None

Abstract: This regulation provides for the enforcement of Section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap, as it applies to

education programs and activities receiving Federal financial assistance from the National Science Foundation. Costs, if any, should be nominal since most NSF recipients are also covered by HHS regulations. Potential benefits are to ensure that any educational program or activity receiving financial assistance from NSF does not, on the basis of sex (1) exclude any person from participation in, (2) deny any person the benefits of, or subject any such person to discrimination under that program or activity.

3065. PATENTS

Legal Authority: 42 USC 1870(a) The Natl. Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Legal Deadline: None

Abstract: The Bayh-Dole Act (34 USC 200 et seq) was amended by title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce is preparing a Government-wide implementing regulation. When that regulation is completed, the Foundation's Patents regulation (45 CFR 650) will be conformed to it. Because the revision to the NSF Patents regulation will merely echo a Government-wide regulation on which the public will have had an opportunity to comment, the Foundation

expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Final Action	00/00/00	

Small Entity: No

Additional Information: The notable changes to be made in the revision of the NSF Patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and

elimination of the Foundation's authority to waive the Government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Directives Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office

of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB directives are issued under authority derived from several sources including: Subtitles I, II, and V of Title 31, "United States Code," Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not regulations, but which are of public interest.

OMB Circulars and OFPP Policy Letters are directives that communicate significant government-wide policy of a continuing nature. For purposes of this agenda, we have included Circulars and Policy Letters which are designed to

implement, interpret, or prescribe law or policy, or describe the procedure or practice requirements of an agency. Excluded are directives that outline procedures to be followed in connection with the President's budget and legislative programs, and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, D.C. 20503. On the overall agenda, contact Darrell A. Johnson at the above address.

3066. POLICIES ON CONSTRUCTION OF FAMILY HOUSING (CIRCULAR NO. A-18)

Legal Authority: Budget and Accounting Act of 1921; See preamble

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: OMB Circular A-18, last revised in August 1967, sets forth policies for budgeting, planning, and undertaking the construction of federally-owned housing (exclusive of military barracks) for Federal personnel and for employees of Government contractors. Housing standards, concepts of living space requirements, the housing market and economic factors bearing on it have changed significantly since the Circular was last issued; and updating and revision may be appropriate.

3076. ● OMB CIRCULAR A-21 COST PRINCIPLES FOR EDUCATIONAL INSTITUTIONS

Significance: Agency Priority

Legal Authority: See Preamble

CFR Citation: Not applicable

Legal Deadline: None

Abstract: OMB Circular A-21 establishes Governmentwide accounting principles for the direct and indirect (allocated overhead) costs of Federal grants and contracts with colleges and universities. The Circular divides allocated overhead costs into seven "cost pools" that form the basis of a university's indirect cost rate. Four of these pools are for administrative costs.

In Fiscal Year (FY) 1984 estimated Federal payments for university overhead were about \$1.7 billion or 46% of an estimated \$3.7 billion for direct scientific research. The problem of rising overhead costs has been the subject of continuing and extensive debate. A fixed rate for administrative costs will go a long way towards solving the problem of rising indirect costs and at the same time reduce paperwork for the institutions.

3085. PAY UNDER THE GENERAL SCHEDULE; PAY ADJUSTMENTS FOR SUPERVISORS

Legal Authority: 5 USC 5333(b)

CFR Citation: 5 CFR 531, Subpart C

Legal Deadline: None

Abstract: Under current regulations, General Schedule supervisors of wage employees may receive an adjustment in basic pay to exceed the rate paid wage employees under their supervision. This adjustment, however, is permanent. No reduction is permitted even if the conditions prompting the adjustment no longer exist. OPM is reviewing the current regulations to determine whether revisions are appropriate.

3094. PROTECTION OF PRIVACY AND PERSONNEL RECORDS

Legal Authority: 5 USC 552a

CFR Citation: 5 CFR 297

Legal Deadline: None

Abstract: The Privacy Act (5 U.S.C. 552a) requires agencies to issue regulations to implement the Act. OPM's regulations also require that agencies follow OPM's rule for those records maintained by them that are under OPM's control. These regulations have remained unchanged since 1979 and thus need revision to reflect any changes resulting from case law or OPM policy and to remove unnecessary material.

3095. EMPLOYMENT (GENERAL); EMPLOYMENT PRACTICES

Legal Authority: 5 USC 3301; 5 USC 3302; 5 USC 3304

CFR Citation: 5 CFR 300

Legal Deadline: None

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

3110. PAY UNDER THE GENERAL SCHEDULE; DETERMINING RATE OF BASIC PAY

Legal Authority: 5 USC 5305(a); 5 USC 5334(a); 5 USC 5338; EO 11721

CFR Citation: 5 CFR 531, Subpart B**Legal Deadline:** None

Abstract: Under current regulations, agencies may use an employee's highest previous rate as a Federal employee, updated to account for intervening pay adjustments, as the basis for paying a higher rate than otherwise would be required by law or regulation upon promotion, demotion, reassignment, transfer, or reemployment -- without regard to the recency of the employee's previous Federal work experience. Proposed regulations would limit the use of an employee's highest previous rate by establishing a reasonable relationship between the recency of an employee's previous work experience and the current employment situation. In addition, proposed regulations would revise the current regulations to conform to the principles of the Performance Based Incentive System and correct certain longstanding basic pay administration problems. Abstract: Under current regulations, numerous pay administration problems exist in movements between Federal pay systems. For example, the method of determining entitlement to grade retention in movements between pay systems results in unnecessary expenditures of Federal funds and false expectations for affected employees. Proposed regulations would revise definitions of "promotion" and "demotion" to improve pay administration and minimize the number of employees entitled to grade retention in movements between pay systems. 3123. ABSENCE AND LEAVE; ANNUAL AND SICK LEAVE

Legal Authority: 5 USC 6311

CFR Citation: 5 CFR 630, Subparts A to E

Legal Deadline: None

Abstract: Revision of annual and sick leave regulations is necessary to update, improve, and refine the current regulations to ensure appropriate and consistent application of leave administration policies within all Federal agencies. Proposed rules would (1) add new rules to improve leave administration, (2) revise the current rules for clarification and consistency, and (3) reorganize the sections with the subparts in a more logical sequence. These and other changes, such as regulating a consistent and equitable method of liquidating leave indebtedness and revising the requirement to forgive leave indebtedness, would resolve some troublesome leave issues, improve leave administration, and result in cost savings.

Final Rule Stage

3155. ORGANIZATION OF THE GOVERNMENT FOR PERSONNEL MANAGEMENT; PERSONNEL MANAGEMENT IN AGENCIES

Legal Authority: 5 USC 1104; 5 USC 1302; 5 USC 3301; 5 USC 3302; EO 10577

CFR Citation: 5 CFR 230; 5 CFR 250

Legal Deadline: None

Abstract: Deletes Part 230 and transfers its regulations to Part 250, to maintain parallel structure with 5 U.S.C. Combines material formerly in Part 230 with regulations now found in Part 250 to present all regulations on agencies' authorities for personnel management in a single part of the Code of Federal Regulations. Changes improve the technical integrity of the CFR by eliminating redundancies and improving the efficiency of OPM's regulations. No change in the coverage or substance of affected regulations.

3167. PAY ADMINISTRATION, ADJUSTMENT OF WORK SCHEDULES FOR RELIGIOUS OBSERVANCES

Legal Authority: 5 USC 5550a

CFR Citation: 5 CFR 550, Subpart J

Legal Deadline: None

Abstract: Under current law, Federal employees may request adjustment of work schedules if personal religious beliefs require abstention from work. The interim regulations published in 1978 are too broad and do not provide agencies with the authority and guidance necessary for proper administration of the law. Final regulations will (1) define key terms in the law, (2) establish administrative procedures for processing employee requests and for adjusting employee work schedules, and (3) provide administrative procedures for the proper payment and/or crediting of compensatory overtime work and compensatory time off for religious observances.

Abstract: The regulation published in 1984 would be amended to conform to Executive Order 12404, Charitable Fund-Raising, recently upheld in *Cornelius v. NAACP Legal Defense and Educational Fund, Inc.*, No. 84-312 (U.S., July 2, 1985). The new regulation simplifies campaign administration and

should enable charitable solicitation to be conducted efficiently in the Federal workplace.

Semiannual Regulatory Agenda

PANAMA**PANAMA CANAL COMMISSION****35 CFR Ch. I****Unified Agenda of Federal Regulations****AGENCY:** Panama Canal Commission.**ACTION:** Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street, N.W., Suite 550, Washington, D.C. 20036, (202) 634-6441; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. require that executive agencies publish

in the Federal Register a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 86-4.

DATED: February 24, 1986.

Michael Rhode, Jr.,
Secretary, Panama Canal Commission.

Abstract: The Panama Amendments Act of 1985 added a subsection to

section 1411 regarding injuries to a vessel or its cargo when the navigation or movement of the vessel is not under the control of a Panama Canal pilot. A distinction needs to be made between a canal pilot and a transit advisor who might be put aboard the vessel. No additional costs to the agency will result from this regulation, but the statute sets a ceiling of \$50,000 on claims where there is not a pilot on board, and does not provide for judicial review. Thus, the definition is critical for the agency's administrative process in adjudicating claims and assessing possible lawsuits.

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulations, Semiannual Agenda of Regulations**AGENCY:** Peace Corps.**ACTION:** Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from April 1, 1986 through March 31, 1987. The purpose for publishing this agenda is to give notice of any

regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 806 Connecticut Avenue, N.W., Washington, D.C. 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulations, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the

Federal Register semiannual regulatory agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Semiannual Regulatory Agenda

PBGC

PENSION BENEFIT GUARANTY CORPORATION**29 CFR Ch. XXVI****Agenda of Regulations Under Development**

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months and regulations that are currently under review for possible amendment. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Corporate Policy and Regulations Department, Code 35100, Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Renae R. Hubbard, Special Counsel, Corporate Policy and Regulations Department, 202-956-5050. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal

Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive Order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive Order. The Regulatory Flexibility Act, 5 U.S.C. 601, Pub. L. 96-354, 94 Stat. 1164, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 86-4) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. Most of the items on this agenda are current or projected rulemakings. One item is an existing regulation currently under review pursuant to the Executive Order.

The guidelines also require an indication of whether or not an item is included in the Administration's Regulatory Program for 1985 and, if not, whether the agency considers it a priority item. The PBGC believes that each of the regulatory activities listed in this agenda is necessary to the effective implementation of the insurance program. However, the PBGC has determined that certain of the items have priority status and has designated them as such. None of the items is

included in the Administration's Regulatory Program for 1986.

Finally, the guidelines require a description of the potential costs and benefits of each regulation. The regulations listed on the agenda fall into three general categories. Some lessen statutory requirements, thereby lowering costs to the public and minimizing burden on plans and plan sponsors. Others simply implement statutory requirements and, although costs may be imposed because of these statutory requirements, the public is benefited by clear and unambiguous rules that lessen the probability of disputes, litigation and public confusion. Others of the regulations in the agenda reallocate costs necessarily imposed by the statute so that, although certain contributing employers may experience greater costs, others will experience an equivalent reduction in costs resulting in a net effect of zero. Where applicable, additional costs and benefits are stated separately in the item relating to the particular regulation.

Unless otherwise indicated, all citations in the agenda are to sections of the Employee Retirement Income Security Act of 1974, Pub. L. No. 93-406, 88 Stat. 829, as amended by the Multiemployer Pension Plan Amendments Act of 1980 ("the Multiemployer Act"), Pub. L. No. 96-364, 94 Stat. 1208 ("ERISA"), 29 U.S.C. 1001 et seq. (1982).

Abstract: The PBGC's regulation on Employer Liability prescribes rules for

the determination and payment of employer liability that is due under ERISA if a plan lacks sufficient assets to pay for guaranteed benefits. Employer liability is due as of the date of plan termination, but often is not paid in a timely fashion. The PBGC has initiated a review of this regulation in order to determine what, if any, amendments could be adopted to provide employers with greater incentive to make timely payments of employer liability owed to the PBGC.

3219. RULES UNDER SECTIONS 4041A AND 4281 FOR PLANS TERMINATED BY MASS WITHDRAWAL

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341a ERISA; 29 USC 1441(d) ERISA

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. will be to establish rules that encourage the efficient administration of these plans. By thus helping to preserve plan assets, these rules will, in the first instance, benefit plan participants and beneficiaries and secondarily, the multiemployer insurance system and premium payers. PBGC lacks adequate data to be able to quantify these benefits.

Abstract: Sections 4232 and 4234 of ERISA prescribe rules governing the transfer of liabilities and assets from a multiemployer plan to a single-employer plan and prohibit certain transfers unless approved by PBGC. The regulation will establish procedures for requesting and criteria for PBGC approval of transfers which require approval and guidelines for satisfying the statutory requirements pertaining to other transfers. The regulation will also establish standards for the PBGC's waiver of a multiemployer plan's contingent liability arising from the transfer of unfunded vested benefits to a single-employer plan.

Significance: Agency Priority

Legal Authority: 29 USC 1302(b)(3); 29 USC 1388(e)(3)

CFR Citation: 29 CFR 2646

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans' double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan.

This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

Significance: Agency Priority

Legal Authority: 29 USC 1302(b)(3); 29 USC 1387(b)

CFR Citation: 29 CFR 2647, (Amendment)

Abstract: Under section 4207(a) of ERISA, the PBGC is required to issue a regulation providing for the reduction or waiver of an employer's liability for a complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. (The PBGC expects this regulation to be issued shortly.) The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a

specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

3224. ● DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Agency Priority

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642, (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(c) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to

PBGC

Proposed Rule Stage

establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

Abstract: This rule would amend PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619. That regulation sets forth the rules for valuing benefits in terminating plans that are covered by the insurance program under ERISA, which valuation is needed to determine if plan assets are sufficient to provide for plan benefits and to properly allocate assets to those benefits. After review of this regulation pursuant to Executive Order 12291, the PBGC is amending the rules for valuing benefits payable as lump sums upon termination. The effect of this amendment is to prescribe the range of

interest rates that may be used to value lump sums that are paid in lieu of annuities. The amendment, in the form of an interim final rule, is needed to protect recipients of lump sum distributions from loss of benefit value resulting from the use of inappropriate interest rates to compute the lump sum amounts.

Abstract: On May 23, 1984, the PBGC announced that it, along with the Treasury Department and the Department of Labor, had adopted implementation guidelines for processing defined benefit pension plan terminations involving asset reversions to the plan sponsor. This regulation will implement those principles and provide more detailed rules concerning the requirements that certain types of transactions must satisfy in order to be recognized as valid terminations under Title IV of ERISA. The regulation also will detail rules concerning the use of participating annuity contracts to close out a plan that has residual assets at the time of its termination, and the circumstances under which a plan is a "successor" to a terminated plan.

Abstract: The PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619, prescribes actuarial assumptions and methods to be used in valuing benefits in terminated single-employer pension plans. The PBGC intends to amend this regulation to adopt the approach to valuation employed in proposed regulation on valuation of benefits in multiemployer plans terminated by mass withdrawal, 29 CFR Part 2676 that was published on February 19, 1985 (50 FR 6956), in order to conform more precisely to generally accepted actuarial practice. The proposed amendment would enable PBGC valuations to more accurately reflect interest and other assumptions that underlie the insurance annuity market place.

Abstract: Title IV of ERISA established rules for the allocation and distribution of plan assets to provide benefits in a terminating pension plan. Those rules are interpreted in the PBGC's regulations on Guaranteed Benefits, 29 CFR Part 2613, Determination of Plan Sufficiency and Termination of Sufficient Plans, 29 CFR Part 2617, and Allocation of Assets in Non-Multiemployer Plans, 29 CFR Part 2618. The Retirement Equity Act of 1984 ("REA") provides that certain early retirement benefits or retirement-type subsidies, or optional benefit forms, will be treated as accrued benefits, and that their elimination will be treated as an impermissible reduction in accrued benefits under certain circumstances.

REA also revised the rules governing mandatory distributions from pension plans. These amendments will conform PBGC's regulations to the provisions of REA. The amendments will impose no new costs on plans and may alleviate administrative burdens by providing definitive rules.

Abstract: On January 19, 1981, PBGC issued an interim regulation dealing with alternative methods for allocating unfunded vested benefits in multiemployer pension plans. PBGC now plans to re-promulgate that regulation in order to correct ambiguities that have arisen under it; to conform the procedures contained in it to other PBGC regulations, and to reduce the information reporting requirements in the regulation. The regulation will impose no new costs on the public and may reduce costs for plans adopting certain alternative allocation rules by reducing the reporting requirements.

Abstract: This amendment to the existing PBGC regulation on valuing plan assets, 29 CFR Part 2620, will set forth rules for valuing group insurance contracts as plan assets. This regulation applies to single-employer plans. This rule is necessary to provide uniform

Abstract: Section 4207(a) of ERISA requires the PBGC to establish rules for reducing or waiving the liability of an employer who has completely withdrawn from a multiemployer plan and subsequently resumes covered operations or renews the obligation to contribute under the plan. This regulation will prescribe the circumstances under which an employer's liability will be reduced or waived and the rules for computing the employer's liability for a complete or partial withdrawal after it has reentered the plan. This regulation will benefit multiemployer plans by encouraging some employers who have withdrawn from these plans to renew their participation in the plans. By the same token these employers will benefit by having some or all of their withdrawal liability waived. While the plans will incur the cost of foregoing collection of some of the withdrawal liability owed them, the assumption underlying this statutory provision is that these costs will be offset by the contributions employers will make to the plans after their reentry. PBGC is unable to quantify these benefits and costs, because it cannot predict the number of employers who will avail themselves of this rule.

Abstract: The rules for determining an employer's withdrawal liability do not necessarily allocate a plan's total unfunded vested benefits because of the rules reducing or eliminating withdrawal liability, such as the de minimis rule. Therefore, if all or substantially all the employers in a plan withdraw, there may be large unallocated amounts that would constitute a potential claim on the insurance system. In order to avoid this result, section 4219(c)(1)(D) requires the determination or redetermination of withdrawal liability, in order to fully allocate a plan's unfunded vested benefits, upon either the termination of the plan through the withdrawal of every employer, or the withdrawal of substantially all the employers pursuant to an agreement or arrangement to withdraw. This regulation will set forth rules implementing this requirement. This regulation primarily benefits the multiemployer insurance program and the plans that are required to pay premiums under it, by insuring that in the event of a mass withdrawal (or the withdrawal of substantially all the employers pursuant to an agreement to withdraw), the liability for all unfunded vested benefits is allocated to the (cont)

Abstract: A plan that has terminated by mass withdrawal is required under section 4281(b) of ERISA to perform an annual valuation of the plan's nonforfeitable benefits and assets (including outstanding claims for withdrawal liability). This valuation is to be done in accordance with PBGC regulations. In addition, when a plan experiences a mass withdrawal, section 4219(c)(1)(D) requires the plan sponsor to allocate fully the plan's unfunded vested benefits to all withdrawing employers. In order to do this allocation, the plan sponsor must first value the plan's benefits and assets. This regulation will prescribe the rules for these valuations. The regulation on valuing outstanding claims for withdrawal liability listed on previous PBGC agendas (RIN 1212-AA17) has been merged into this regulation.

Abstract: This regulation will set forth alternative approaches that multiemployer plans may use in reallocating otherwise nonassessable withdrawal liability to employers in the plan. Plans currently using the presumptive method or the modified presumptive method must reallocate certain of these amounts because of the provisions in the Deficit Reduction Act of 1984 (DEFRA) concerning retroactive withdrawal liability. Under this regulation, a plan using the presumptive method will be permitted to adopt an amendment either to allocate, in the plan year in which DEFRA was effective, the unamortized balance of amounts otherwise allocable to employers that withdrew before DEFRA, or to treat the last plan year ending before DEFRA's effective date as the initial year for purposes of computing annual changes. The regulation also will permit a plan using the modified presumptive method to adopt an amendment that maintains the allocation fraction that the plan used

before DEFRA. This regulation is intended to ease the administrative costs that the recomputations required by DEFRA would otherwise impose on affected multiemployer plans.

Abstract: On May 23, 1984, the PBGC announced that it, along with the Treasury Department and the Department of Labor, had adopted implementation guidelines for processing defined benefit pension plan

terminations involving asset reversions to the plan sponsor. The PBGC has initiated a review of its regulations on Guaranteed Benefits (formerly RIN 1212-AA28), 29 CFR Part 2613, Allocation of Assets in Non-Multiemployer Plans, 29 CFR Part 2618, Determination of Plan Sufficiency and Termination of Sufficient Plans, 29 CFR Part 2617, and Limitation on Guaranteed Benefits, 29 CFR Part 2621, in order to determine what amendments may be needed to reflect the conclusions of the May 23, 1984 guidelines concerning the legal effect of certain transactions that result in reversions of pension plan assets to the sponsors of terminated plans. The review also covers the types of annuity contract that may be purchased to close out a plan that has residual assets at the time of its termination.

Proposed Rule Stage

3237. PART 220 DISABILITY DETERMINATIONS**Legal Authority:** 45 USC 231f(b)(5)**CFR Citation:** 20 CFR 220**Legal Deadline:** None

Abstract: The Board's regulations with respect to disability determinations have not been updated for several years and they are, in certain respects, obsolete. When revised, this regulation should ease the administration of disability benefits and result in greater consistency in disability determinations.

Abstract: The Board's regulation setting forth the procedures to be followed in rendering initial decisions and in requesting and handling reconsiderations and appeals from these decisions has been reviewed and a proposal to make certain revisions in Part 320 is being developed. The proposed regulation would conform the procedures more closely to those applicable under the Railroad Retirement Act. The proposed amendment to Part 340 explains when and under what circumstances waiver of recovery of erroneous payments may occur.

Abstract: The Railroad Retirement Board proposes to amend 20 CFR 200 to provide for assessment of interest, penalties, and collection costs, as authorized by the Debt Collection Act of 1982, in connection with the collection of certain debts arising from erroneous benefit payments under the several Acts administered by the Board. Section 11 of the Debt Collection Act of 1982 (Pub. L. 97-365) amended section 3(e) of the Federal Claims Collection Act of 1966 to provide that the head of an agency shall charge interest on claims owed the agency, assess penalties on delinquent debts, and assess charges to cover the costs of processing delinquent claims. Section 11 imposes a mandatory requirement that interest, penalties, and charges be

assessed except as specifically provided in that section.

Semiannual Regulatory Agenda

SBA

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations;
Semiannual Agenda**AGENCY:** Small Business Administration.**ACTION:** Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 14th semiannual agenda of regulations. Although not a regulatory Agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291 and the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT:

For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416, 202/653-6642.

SUPPLEMENTARY INFORMATION: The SBA agenda will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific

contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the six-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn, and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

DATED: February 5, 1986.

James C. Sanders,
Administrator.

Regulatory Agenda

AGENCY: Tennessee Valley Authority.

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations and thus does not ordinarily have agenda items to announce. However, TVA has one regulation under development and is therefore publishing a regulatory

agenda in voluntary compliance with Executive Order No. 12291.

FOR FURTHER INFORMATION CONTACT: For further information please contact the person listed.

3308. PROTECTION OF
ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources

through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

VETERANS ADMINISTRATION

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Veterans Administration.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Veterans Administration will have under review, development or revision during the 12 month period from April 1986 to April 1987. The purpose in publishing this Agency's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations

listed in the agenda by contacting the individual agency contact listed for each regulation, or by writing to: Paperwork Management and Regulations Service (731), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420.

FOR FURTHER INFORMATION CONTACT: Celia Winter (202) 389-2340.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the Federal Register in April and October of each year, an agenda of regulations under development and review.

The Veterans Administration has no regulations considered major under the terms of Executive Order 12291; however all of this agency's proposed rules and current rules under review

except those considered to be internal agency policy management or routine regulations have been listed in accordance with section 5.(a) of the Executive Order. This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) (Regulatory Flexibility Act).

The Veterans Administration has found that all rules listed in this agenda, if promulgated, will not have a significant economic impact on a substantial number of small entities as they are defined in 5 U.S.C. 601-612.

The agenda has been prepared in accordance with OMB Bulletin 86-4.

DATED: February 14, 1986.

Everett Alvarez, Jr.
Acting Administrator.

Significance: Regulatory Program

Legal Authority: 38 USC 610; 38 USC 622

CFR Citation: 38 CFR 17

Legal Deadline: None

Abstract: Legislation is pending in Congress which would amend 38 U.S.C. 610 and 622 to provide authority for an income means test for certain nonservice-connected veterans, linked to an applicant's ability to demonstrate with evidence that his/her gross annual family income is below a certain level. Under proposed legislation, these individuals would be considered unable to defray the costs of needed medical care.

3310. EXTENSIONS TO COMMUNITY NURSING HOME CARE

Legal Authority: 38 USC 620

CFR Citation: 38 CFR 17.51a

Legal Deadline: None

Abstract: Existing regulations that permit an extension to an approved 6-month period of Community Nursing Home Care at VA expense are not definitive enough regarding the circumstances of an unusual nature which provide the impetus for granting such extensions. The proposed change will correct that deficiency.

Abstract: This law authorizes the VA to furnish assistive devices to overcome the handicap of deafness, including telecaption television decoders, to any veteran who is profoundly deaf and is entitled to compensation on account of hearing impairment. As for telecaption TV decoders, VA policy previously limited the provision of this device to veterans who suffered an aberrant or

morbid mental condition as a result of deafness. The law specifically authorizes the VA to provide this device but limits the provision to profoundly deaf veterans who are entitled to compensation for a hearing impairment.

3316. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON STATION UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON STATION

Legal Authority: 38 USC 210c

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical

care at a VA facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any VA facility or any hospital, while being furnished care or treatment therein by the VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

VA

Proposed Rule Stage

CFR Citation: 38 CFR 17**Legal Deadline:** None

Abstract: Legislation is pending in the Congress which would amend 38 USC 629 to allow the VA to recover the cost of medical care furnished to nonservice-connected veterans from third party health insurance policies carried by these veterans and would prohibit such insurance policies from containing clauses disallowing reimbursement to Federal (VA) hospitals. No attempt will be made by the VA to collect deductibles or co-insurance payments from the veteran.

Abstract: The Veterans Administration is developing regulations for the establishment of minimum standards for the accreditation of education programs for, and certification of, persons who administer radiologic procedures. This will ensure that medical and dental radiologic procedures are consistent with rigorous safety precautions and standards. These regulations are required by (PL 97-35). They will improve the quality of patient care by reducing the need for retakes of diagnostic radiologic procedures. They will also provide for the elimination of unproductive screening programs and for optimum diagnostic information with minimum radiologic exposure. They will also assure the appropriate application of radiation to patients undergoing therapeutic treatment of disease, including nuclear medicine applications.

Legal Authority: 38 USC 3305; 38 USC 4151; 38 USC 4152

CFR Citation: 38 CFR 17, (Revision)

Legal Deadline: None

Abstract: Final regulations implementing 38 USC 3305 were made effective Oct. 22, 1982. Those regulations govern the VA's QA (quality assurance) program activities and records and documents which are made confidential and privileged. Sec. 3305 prohibits the VA from designating any QA program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. PL 99-166 amends 38 USC 4151 and 4152 to require that QA program activities include an evaluation of the quality of surgical care in DM&S, as evidenced by outcome measures of mortality and morbidity; a report to Congress indicating deficiencies in the quality of care is required. 38 USC 3305 was amended to clarify that aggregate statistical data is not to be made confidential provided individuals are not identified. The definitions and descriptions of the QA program are outdated; unreflective of a systems' approach, and too restrictive to

accommodate periodic policy developments or redirections within DM&S. No alternatives are being considered. There are no potential costs to the action. The benefits would be in the form of programmatic improvements.

Significance: Regulatory Program

Legal Authority: PL 98-543, Sec 301

CFR Citation: 38 CFR 21.6000, series (new)

Legal Deadline: None

Abstract: The pilot program is directed to evaluating the effectiveness of vocational training and related services in restoring veterans to gainful employment and realizing cost benefits. During the period February 1, 1985, through January 31, 1989, veterans awarded pension may be eligible for up to 24 months or more of vocational training to prepare for and enter employment. Under this program every veteran under age 50 who begins to receive a pension award on or after February 1, 1985, will participate in a vocational evaluation to be arranged by the VA. Veterans who are age 50 and older and are awarded pension after February 1, 1985, may apply for an evaluation of their ability to profit from vocational training. Vocational training for up to 24 months or more and up to 18 months of employment services will be provided for program participants. A veteran will continue to receive pension during the period of training and employment services. Pension will be reduced or terminated following adjustment in employment when work income exceeds the annual income limitation applicable to pension.

Legal Authority: 38 USC 210(c); 38 USC 1803(c)(1)

CFR Citation: 38 CFR 36

Abstract: Public Law 97-253, the Omnibus Budget Reconciliation Act of 1982 (38 U.S.C. 1829) establishes that a funding fee will be collected on VA loans but the law does not establish any time limits within which it must be paid to the VA. Current VA Loan Guaranty procedures allow lenders up to 60 days from the loan closing date to remit loan funding fees and this delay in their collection and deposit has resulted in a significant amount of potential interest lost to the Federal government. The proposed regulation would require lenders to submit the fees to the VA within a 15 day period from the loan closing date and would implement penalty charges and interest assessments on delinquent submissions. Adoption of this regulation should improve collection timeliness and result in the collection of the interest income that is currently being lost as well as income from interest and penalty charges.

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

Legal Deadline: None

Abstract: The Omnibus Budget Reconciliation Act of 1981 provided that people eligible for educational assistance under VEAP could not enroll in flight training for the first time after Sept. 30, 1981. Those people who enrolled in flight training during September 1981 could receive educational assistance only during that month. A person who enrolled in flight training before September 1, 1981 could receive educational assistance only if the continuity of his or her enrollment was not broken. No one has received educational assistance for flight training under VEAP during fiscal year 1985. Consequently, the continuity of everyone's enrollment has been broken. Educational assistance may no longer be paid for flight training under VEAP. This proposal eliminates all reference to flight training under VEAP.

Abstract: OMB Circular A-129 requires agencies managing Federal credit programs to obtain credit reports for all new applicants, when refinancing, and when loans are rescheduled in order to verify the information presented in the

application. The circular further provides that rescheduling or reamortization shall be permitted only when it is in the best interest of the Government and where the agency has determined that recovery of all or a portion of the amount owed is reasonably assured. Credit reports must also be required in connection with claims on defaulted guaranteed loans to facilitate agency determinations of the next collection steps to be pursued. These revisions will enable VA to better determine whether a proposed loan reamortization is in the best interest of the government and will facilitate improvements in debt collection practices.

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by the VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

Abstract: Under affiliation agreements between VA Medical Centers and local Colleges or Universities, VA employees and University employees are sometimes coinventors. Universities have requested VA to assign its interest in any such inventions to the University. Pub. L. No. 96-517 authorizes the VA to so assign its interest in certain circumstances, provided the invention was made under a funding agreement between the agency and the coinventing entity. These regulations will set forth the procedure and criteria for determination of patent right ownership in these situations. No costs will be imposed on the public. The public will benefit from consolidation of patent rights on one entity because this facilitates licensing and marketing of the invention, and thereby makes the invention available for public use.

Abstract: The pilot program is directed at evaluating the effectiveness of a program of employment and/or vocational rehabilitation services in enabling veterans in receipt of disability ratings by virtue of individual unemployability to become employed. During the period from February 1, 1985, through January 31, 1989, the veteran with a total disability rating due to IU (Individual Unemployability) who wishes to return to work will be protected for 12 consecutive months of employment. The VA will provide vocational rehabilitation and/or employment services to assist veterans to train for or to secure employment. A veteran with an IU rating prior to February 1, 1985, may choose to use these employment services or be considered for training under the VA vocational rehabilitation program. In either case, the veteran's IU rating remains protected for 12 months if he or she secures employment. For veterans receiving an IU rating from February 1, 1985, and through January 31, 1989, an evaluation to determine if a vocational goal is feasible is required, and if it is, lack of participation will be considered in the veteran's next review of eligibility.

Abstract: This proposal will set forth the responsibility State approving agencies have regarding implementation of the nation's equal opportunity laws. State approving agencies have been carrying out their responsibilities in regard to Title VI, Civil Rights Act of 1964 under contract with the VA. The VA intends to modify the contract to cover other equal opportunity laws.

3377. ● VETERANS EDUCATION; NONMATRICULATED STUDENTS

Legal Authority: 38 USC 1652

CFR Citation: 38 CFR 21.4252

Legal Deadline: None

Abstract: The law forbids payment of GI Bill benefits to veterans who are not in a program of education. For several years the VA has had rules for determining whether or not veterans are in a program of education if they are planning on taking courses at two colleges or universities sequentially, but have not matriculated at either one. The VA has found that these rules are too restrictive. This proposal will liberalize those rules.

Unified Agenda of Federal Regulations

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency

Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291, Federal Regulation. This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions, however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DOD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FAC's). None of the regulations listed in this agenda are considered major under Executive Order 12291, Federal Regulation.

DATED: March 8, 1986.

Lawrence J. Rizzi,
Director, Office of Federal Acquisition and Regulatory Policy.

Semiannual Regulatory Agenda

CFTC

COMMODITY FUTURES TRADING COMMISSION**17 CFR Ch. I****Regulatory Flexibility Agenda**

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others upon the subject area of the agenda.

ADDRESS: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT: Harold L. Hardman, Esquire, Office of the General Counsel, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 (202) 254-9880.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601,

et seq. ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of October and April of each year, each agency shall publish in the *Federal Register* a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year. The agenda lists all significant rules which may be considered by the Commission within

the next year, irrespective of their potential impact on small entities.¹

The Commission's agenda represents its best estimate at this time of significant rules which will be considered sometime over the next twelve months.² In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda, or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its April 1986 Regulatory Flexibility Agenda as part of the April 1986 "Unified Agenda of Federal Regulations." The "Unified Agenda of Federal Regulations" is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's April 1986 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, D.C., on March 6, 1986, by the Commission.

Jean A. Webb,
Secretary of the Commission.

¹ The Commission has published its definitions of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (Apr. 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. See 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain

items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless

of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

² In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar listing rules that the Commission intends to consider that month.

3475. REGULATIONS GOVERNING THE OFFER AND SALE OF FOREIGN FUTURES AND OPTION CONTRACTS IN THE UNITED STATES

Legal Authority: 7 USC 2; 7 USC 6(b); 7 -
USC 6c

CFR Citation: Not yet determined

Abstract: The Division of Trading and Markets will prepare for Commission consideration proposed rules governing the domestic offer and sale of futures contracts and options traded on or subject to the rules of a foreign board of trade. The proposed rules are intended to implement the provisions of Sections 2(a)(1)(A), 4(b) and 4c of the Commodity Exchange Act which invest the Commission with exclusive jurisdiction over the offer and sale of such instruments in the United States.

Legal Authority: 7 USC 12a; 7 USC 12c

CFR Citation: 17 CFR 9

Abstract: The Division of Trading and Markets ("Division") intends to propose amendments to the Commission's Part 9 rules governing Commission review of exchange disciplinary, access denial,

and other adverse actions to facilitate the review of such actions. The proposed amendments are intended to (1) streamline the procedures, (2) clarify the types of actions for which the Commission will accept review and (3) establish standards pursuant to which the Commission will affirm, reverse or otherwise affect an exchange action.

CFR Citation: 17 CFR 1; 17 CFR 3; 17 CFR 32

Abstract: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell so-called "dealer options" on certain physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe. At present, the only persons who may lawfully grant dealer options are United States domiciles who, on May 1, 1978, were in the business of buying, selling, producing or otherwise using that commodity. The Commission has repropoed rules, principally concerning registration of dealer option grantors, requirements for the segregation of customer funds, disclosure to customers and prospective customers, and minimum financial requirements. The Commission intends to re-evaluate the proposed rules in light of regulatory changes that have occurred since 1980.

Abstract: The Commission has revised the proposed amendments to the Commission's minimum financial and related reporting requirements which had been pending final action. As revised, the proposed amendments would: (1) clarify the treatment to be accorded to securities in current assets, whether or not such securities are subject to repurchase agreements; (2) require FCMs to calculate a concentration charge in computing their adjusted net capital; (3) change the treatment of debit/deficit accounts; and (4) clarify the requirements for and the treatment of a guaranteed account.

CFR Citation: 17 CFR 1; 17 CFR 33

Abstract: The Commission is proposing to amend Commission regulation 33.4(a)(2), which currently provides that a contract market applying for designation to trade commodity option contracts must require full payment of option premiums by the contract market's clearing organization. Under the proposed rule amendment, a contract market could choose instead to adopt rules permitting its members to make a deposit with respect to the option premium, subject to certain proposed requirements. In addition, the Commission is proposing to amend regulations 1.3, 1.12 and 1.17 to reflect in its minimum financial requirements for futures commission merchants the margin treatment which may be

accorded option positions under proposed amendments to regulation 33.4(a)(2).

Abstract: The Commission has requested comment on whether it should propose rules requiring each contract market and its related clearing association to adopt regulations governing the procedure pursuant to which the open commodity contracts carried by a clearing member futures commission merchant ("FCM") which has defaulted on a margin obligation are transferred or liquidated. The Commission also has requested comment on whether it should amend its rules relating to liquidation of open positions in the event of a commodity broker bankruptcy. Comments will assist the Commission in determining whether it should propose rules which would provide express general guidelines to contract markets and their related clearing organizations for addressing similar default situations and thereby eliminate ad hoc procedures.

Legal Authority: 7 USC 2; 7 USC 6c(a); 7 USC 6c(c); 7 USC 12a

CFR Citation: 17 CFR 33.4

Abstract: On January 17, 1984, the Commission adopted rules establishing a three year pilot program for the trading of options on futures contracts in domestic agricultural commodities. 49 FR 2752 (Jan. 23, 1984). This pilot program provides that a board of trade may be designated as an option contract market on not more than two domestic agricultural futures contracts. In the spring of 1985, the Commission received two petitions to amend Commission rule 33.4(a)(6)(i) in order to expand the pilot program for options on futures contracts on domestic

agricultural commodities from the current level of two per exchange to five per exchange. The Commission published for comment the substance of the rule suggested by the petitioner as a proposed rule amendment on April 15, 1985. 50 FR 14178. The Commission now is considering the comments received, and whether to adopt the proposed rules as final.

Abstract: In late 1981 the Commission published final rules governing a three-year pilot program for exchange-traded commodity options. Options trading began on October 1, 1982 following the designation of the first option contract markets. That three-year period expired on October 1, 1985. The Commission is reevaluating the option rules, including whether to make permanent exchange trading of options on non-agricultural futures contracts or to retain the program's current pilot status.

Legal Authority: 7 USC 4a(j); 5 USC 552; 5 USC 552a

CFR Citation: 17 CFR 145; 17 CFR 146

Abstract: The Commission has proposed to revise its regulations governing requests for Commission records under the Freedom of Information Act ("FOIA") and petitions for confidential treatment of records submitted to the Commission. These revisions are designed to clarify the procedures for submitting and processing FOIA and confidential treatment requests and to reflect recent developments in federal case law. The Commission also is proposing to make one amendment to its Privacy Act regulations.

3486. ● TRANSFER OF REGISTRATION PROCESSING FUNCTIONS

Legal Authority: 7 USC 12a(10); 7 USC 12a(5)

CFR Citation: 17 CFR 3

Abstract: The Commission previously has issued Orders authorizing the National Futures Association ("NFA"), pursuant to section 8a(10) of the Commodity Exchange Act ("Act"), to perform various portions of the Commission's registration functions and responsibilities under the Act. 49 FR 39518 (Oct. 9, 1984), 50 FR 34885 (Aug. 28, 1985). The Division of Trading and

Markets ("Division") now intends to develop a plan for the transfer of the Commission's registration processing functions with respect to floor brokers to one or more self-regulatory organizations in order to convert Commission registration activities in this regard to oversight and review of certain administrative actions. The Division has identified alternatives for the transfer of these registration processing functions to the National Futures Association and, in connection therewith, has forwarded to NFA a proposed plan for its consideration before seeking the views of the several contract markets. Upon approval of the transfer plan, the Division will proceed with its implementation.

Semiannual Regulatory Agenda

CPSC

CONSUMER PRODUCT SAFETY COMMISSION**16 CFR Ch. II****Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas**

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing for a 12-month period rules expected to be proposed or promulgated which may have a significant economic impact on a substantial number of small entities. In this document, the Commission publishes its eleventh semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions under development or review during the succeeding 12 months by the agency and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments from small entities, including small businesses, small organizations, and small governmental units, upon each subject area of the agenda. Written comments concerning the agenda should be received in the Office of the Secretary by June 30, 1986.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission,

Washington, D.C. 20207, telephone (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauning, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (301) 492-6980. All inquiries from the press and broadcast media should be directed to Lou Brott, Office of Public Affairs, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7780. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act (5 U.S.C. 602) requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of any rule expected to be proposed or promulgated which may have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the objectives and legal basis for each agenda item and a schedule for acting on each item, as well as the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, President Reagan's Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of

proposed regulations under development or review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The eleventh semiannual regulatory flexibility agenda, published below, lists for a 12-month period anticipated regulatory activities under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, D.C. 20207.

The Commission received one comment in response to the regulatory agenda published in the *Federal Register* of October 29, 1985 (50 FR 44882). That comment concerned the review of a rule exempting certain toy caps from classification as "banned hazardous substances" under provisions of the Federal Hazardous Substances Act if specified conditions are met. The staff is preparing a briefing package on its review of this rule for consideration by the Commission, and will include this comment in the briefing package.

DATED: March 21, 1986.

Sadye E. Dunn,
Secretary, Consumer Product Safety Commission.

3491. UPHOLSTERED FURNITURE CIGARETTE FLAMMABILITY STANDARD

Legal Authority: 15 USC 1193 FFA; 15 USC 1194 FFA

CFR Citation: 16 CFR 1633

Abstract: The Commission continued cooperative efforts with the upholstered furniture industry to improve the cigarette ignition resistance of upholstered furniture. In 1981, the Commission voted to defer mandatory regulatory action on upholstered

furniture in order to work with manufacturers participating in the Voluntary Action Program (VAP) of the Upholstered Furniture Action Council (UFAC) on improvements in the cigarette ignition resistance of upholstered furniture. A 1984 evaluation of upholstered furniture produced by UFAC participating companies indicated that these changes can be expected to result in a significant improvement in the cigarette ignition resistance of upholstered furniture. These tests also indicated that furniture

without box welts and furniture covered with predominantly cellulosic fabrics ignited relatively easily, and represented a continuing problem. A new fire retardant treatment for polyurethane foam currently under evaluation may provide the needed improvement.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act; 15 USC 2058 Consumer Product Safety Act

CFR Citation: Not yet determined

Abstract: The Commission staff completed a study on consumer exposure to formaldehyde emissions from pressed-wood products in February 1986. The Commission will consider this study in determining whether any further action by the Commission is warranted to address any hazard to consumers which may be associated with exposure to formaldehyde from pressed-wood products. The Commission will also consider this study in deciding whether to grant or deny a petition from Consumer Federation of America requesting the Commission to issue a mandatory consumer product safety standard to limit the amount of formaldehyde which can be released from pressed-wood products made with urea-formaldehyde resin. A decision is anticipated in April 1986.

Abstract: Hazard information shows that asbestos presents a risk of cancer and respiratory disease. The staff is compiling information for the use of the Commission in deciding whether additional regulatory action with regard to asbestos in consumer products may be appropriate. The staff is scheduled to brief the Commission on this topic in May 1986. The Commission has tested several consumer products for release of asbestos fibers, and is a charter member of the Federal Asbestos Task Force.

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPR) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a motorized machine intended

to be ridden by one person and designed for off-road use for recreational and other purposes. ATVs are manufactured in three-wheel and four-wheel designs. The ANPR solicited written comments concerning risks of injury which may be associated with ATVs, rulemaking and other actions authorized by the Consumer Product Safety Act and the Federal Hazardous Substances Act to address such risks of injury; and alternatives to regulatory action, including voluntary standards. The ANPR also announced that the Commission would conduct public hearings to obtain information related to the safety of ATVs. Hearings were conducted in five cities during the months of May through October 1985. A sixth hearing is scheduled for March 25, 1986 in Anchorage, Alaska.

Legal Authority: 15 USC 1471 et seq. PPPA

CFR Citation: 16 CFR 1700.14(a)(1)(i)

Abstract: By letter dated March 25, 1985, Miles Laboratories, Inc. petitioned the Commission to amend existing

provisions of 16 CFR 1700.14(a)(1)(i) which exempt certain effervescent tablets containing aspirin from requirements for child-resistant packaging. The amendment requested by this petition would increase the percentage of aspirin allowed in products eligible for the exemption from 10 per cent to 15 per cent and would specify the required carbon dioxide content in terms of the quantity per tablet rather than the quantity per grain of aspirin. The staff expects to transmit a briefing package concerning the petition to the Commission in April, 1986. If the Commission grants this petition, it will publish a proposed amendment in the Federal Register to solicit written comments from all interested parties.

Legal Authority: 15 USC 1471 et seq. PPPA

CFR Citation: Not yet determined

Abstract: On May 3, 1985, the Commission received a petition from Diane L. Denton, R.N., requesting the Commission to initiate a rulemaking proceeding to establish requirements applicable to disposable lighters to make those products child-resistant. Information available to the Commission staff indicates that a significant number of young children die each year from fires involving disposable lighters. However, this information is not adequate to determine what action, if any, could be taken to reduce this hazard. In February, 1986, the Commission directed the staff to acquire information about possible means of addressing risks of death and injury to young children associated with disposable lighters. When the staff obtains this information, the Commission will consider the petition.

CFR Citation: 16 CFR 1500

Abstract: On September 3, 1985, the Consumer Federation of America (CFA) petitioned the Commission to begin a proceeding for issuance of a rule under provisions of section 3(a) of the Federal Hazardous Substances Act (FHSA) to declare that household products containing methylene chloride are hazardous substances. By letter dated December 20, 1985, CFA amended the petition to request initiation of a proceeding to declare household products containing methylene chloride to be "banned hazardous substances" under provisions of section 2(q)(1)(B) of the FHSA upon issuance of the rule to classify such products as hazardous substances. Methylene chloride is a solvent used in paint strippers, spray

paints, and other consumer products. On February 27, 1986, the Commission voted to propose a rule to declare household products containing methylene chloride to be hazardous substances. This decision has the effect of granting CFA's request of September 3, 1985. If the Commission grants the remainder of the petition, it will publish an advance notice of proposed rulemaking under provisions of the FHSA.

CFR Citation: 16 CFR 1500.3(b)(10); 16 CFR 1500.3(c)(6); 16 CFR 1500.43

Abstract: On April 26, 1984, the Commission published in the Federal Register a proposal to amend its regulations for classifying extremely flammable, flammable and combustible hazardous substances which release ignitable vapors. The staff has completed its analysis of issues raised by comments on the proposal and a briefing package for the Commission. The staff briefed the Commission and presented options for final action on April 3, 1986. If issued on a final basis, the proposed amendments would bring the Commission's test method and flammability classification procedures into general conformity with the practices of other federal agencies and voluntary standards setting organizations.

3507. FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS FOR FIRST AID LABELING OF PRODUCTS CONTAINING MORE THAN 5 PERCENT OF BENZENE OR 10 PERCENT OF TOLUENE, XYLENE, OR PETROLEUM DISTILLATES

Legal Authority: 15 USC 1261(p)(1) FHSA

CFR Citation: 16 CFR 1500.14(b)(3)

Abstract: On December 13, 1985, the Commission proposed a regulation to amend the FHSA regulations for first aid labeling of products containing more than 5 per cent of benzene or 10 per cent of toluene, xylene, or petroleum distillates by eliminating the current requirement that such labeling must contain the direction "if swallowed, do not induce vomiting." Current expert opinion is that the decision of whether to induce vomiting as a first aid treatment should be made

on a case-by-case basis, depending on the toxicity of the individual product and the amount ingested. In May, 1986, the staff expects to send a briefing package to the Commission with an analysis of comments on the proposed amendment.

Abstract: On November 7, 1985, the Commission proposed a regulation to define the term "strong sensitizer" to supplement the the definition of that term set forth in the Federal Hazardous Substances Act. The supplemental definition explains how the statutory definition will be applied, and provides criteria to be used by the Commission in designating substances as "strong sensitizers" for purposes of the FHSA. The Commission received no comments on the proposed amendment. The staff anticipates that the draft of a final amendment will be transmitted to the Commission in April, 1986.

Legal Authority: 15 USC 2064

CFR Citation: 16 CFR 1115

Abstract: On December 28, 1984, the Commission published a notice in the Federal Register to invite written comments on a statement of enforcement policy concerning substantial product hazard reports which the Commission had published on April 6, 1984. The policy statement clarified the Commission's interpretation of requirements for reporting substantial product hazards

established by section 15 of the Consumer Product Safety Act. The staff has completed an analysis of issues raised by the comments, and has drafted a Federal Register notice to respond to comments. In March 1986, the staff briefed the Commission on issues presented by the comments. In April, 1986, the Commission is expected to decide whether to approve publication of the draft Federal Register notice.

Legal Authority: 15 USC 1261 FHSA; 15 USC 1262 FHSA

CFR Citation: 16 CFR 1500.12(a)(2)

Abstract: On February 27, 1986, the Commission decided to propose a rule

declaring household products that contain methylene chloride to be hazardous substances under the Federal Hazardous Substances Act. These products include some paint strippers and spray paints. The Commission's concern arises from animal tests showing that methylene chloride is a carcinogen by inhalation, and studies indicating a significant human exposure as a result of reasonably foreseeable use of products containing methylene chloride. If issued on a final basis, this rule would resolve uncertainty about whether these products are hazardous substances. The Commission directed the staff to prepare a draft of a proposed rule for consideration by the Commission. The initiation of this rulemaking proceeding grants one part of a petition (HP 85-1) from the Consumer Federation of America. The Commission has not yet acted on a second part of that petition which requests a ban of household products containing methylene chloride. A rule declaring the products in question to be hazardous substances would have the effect of requiring cautionary labeling under provisions of the Federal (cont.)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department Unified Agenda of Regulations and review list.

SUMMARY: The Farm Credit Administration, as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations which it will have under development and review during the period of April 1986 through October 1986.

FOR FURTHER INFORMATION CONTACT: Kenneth L. Peoples, Office of General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, VA 22102-5090, (703-883-4020).

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. Farm Credit Administration ("FCA") regulations which apply to Farm Credit System banks and associations do not and will not have a substantial impact on small entities. None of the entities regulated by the FCA fall within the definition of small entities in the Regulatory Flexibility Act. While many associations through which banks lend are smaller in size than their banks, they are not independently operated, as they are closely supervised by the banks, which must approve most of their operating policies. The associations rely exclusively on their supervising banks for their source of funds. Furthermore, the associations do not compete with each other since, as with their

supervising banks, each serves only a particular geographic area.

While FCA is an independent Agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

On December 23, 1985, the President signed Pub. L. 99-205, the Farm Credit Amendments Act of 1985, which will require an extensive reorganization and rewriting of a major portion of the regulations of the FCA. The FCA is at the very beginning stages of this process. Therefore, many anticipated changes are not fully reflected in this submission but will be reflected in the October agenda.

Semiannual Regulatory Agenda

FCC

**FEDERAL COMMUNICATIONS
COMMISSION****47 CFR Ch. I****Unified Agenda of Federal
Regulations; April 1986****AGENCY:** Federal Communications
Commission.**ACTION:** Publication of the Unified
Agenda of Federal Regulations.

SUMMARY: The Commission publishes in the "Unified Agenda of Federal Regulations" to provide the public with adequate notice of major and other significant proceedings under development or review. The agenda also provides the CFR Citations and Legal Authorities which govern these proceedings. Because we are in the process of developing a more efficient way of disseminating FCC agenda information to the public, we have reduced submission of the agenda to the Federal Register to include only those items that pertain to the Regulatory Flexibility Act, as amended by 94 Stat. 1167, 5 U.S.C. 605. We will shortly make a decision as how best to disseminate FCC agenda information other than that pertaining to the Regulatory Flexibility Act. Any information required on previously submitted items can be obtained by contacting Miss Claudette Pride on (202) 632-3906.

ADDRESS: Federal Communications
Commission, 1919 M Street, N.W.,
Washington, D.C. 20554.**FOR FURTHER INFORMATION CONTACT:**
Claudette Pride, Management Planning
and Program Evaluation Office, (202)
632-3906.**SUPPLEMENTARY INFORMATION:****Unified Agenda of major and other
significant proceedings**

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the Federal Register in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g., Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the

docket number, as in "Docket 79-164." When a docket number consists of only five digits (e.g., Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking, but before the Commission has taken action on the petition.

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

*Secretary, Federal Communications
Commission.*

Semiannual Regulatory Agenda

FDIC

FEDERAL DEPOSIT INSURANCE CORPORATION**12 CFR Ch. III****Semiannual Agenda of Regulations**

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is hereby publishing items for the April 1986 Regulatory Agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT:

Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

Interested persons may petition the FDIC for the issuance, amendment or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

DATED: March 3, 1986.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

CFR Citation: 12 CFR 344

Legal Deadline: None

Abstract: After several years of experience with Part 344, the FDIC believes that some changes to these regulations are desirable. Part 344 requires insured State nonmember banks effecting securities transactions for customers to maintain chronological and account records of transactions and provide customers with timely specified information, and establish written policies and procedures applicable to the securities activities performed for customers. The regulation serves to assure that customers are provided with adequate information about their securities transactions effected by the bank and that banks are maintaining adequate business records. It was issued through the Federal

Financial Institutions Examination Council on an interagency basis in 1979.

Legal Authority: 12 USC 1819; 12 USC 1828(g); 12 USC 1832(a)

CFR Citation: 12 CFR 329

Legal Deadline: None

Abstract: The Federal Deposit Insurance Corporation has proposed revising and simplifying Part 329 of its regulations, 12 CFR 329. The proposed

regulation reflects changes made in the Federal Deposit Insurance Act, 12 USC 1811-1831d. The changes are being proposed due to the expiration of the Depository Institutions Deregulation Committee (DIDC) and its rules on April 1, 1986. Both the FDIC and the Federal Reserve Board must substitute appropriate rules by that date. The FDIC rules will apply only to state-chartered banks that are not members of the Federal Reserve System.

3582. NONDISCRIMINATION ON THE BASIS OF HANDICAP

Legal Authority: 29 USC 504 Rehabilitation Act of 1973; 12 USC 1819 Federal Deposit Insurance Act

CFR Citation: 12 CFR 352

Legal Deadline: None

Abstract: This proposed regulation implements the spirit of section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap, as it applies to the programs or activities conducted by various Executive agencies. Although the FDIC does not believe that Congress contemplated coverage of non-appropriated, independent regulatory agencies such as the FDIC, it has chosen to promulgate this proposed regulation to ensure that, to the extent practicable, handicapped persons are provided with equal access to FDIC programs and activities.

The FDIC gave notice on January 17, 1986 (51 FR 2519), that it was extending the period for publishing the final rule to March 31, 1986.

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1828

CFR Citation: 12 CFR 353

Legal Deadline: None

Abstract: The FDIC is proposing to add Part 353 to its regulations to require insured nonmember banks to report, on a prescribed form, criminal violations of the United States Code that involve or affect such banks to the appropriate investigatory and prosecuting authorities, as well as to the FDIC. Robberies, burglaries and nonemployee larcenies, which are subject to the requirements of 12 CFR 326.5(c), are exempt from the requirements of the proposed rule. The central purpose of the report form requirement is to assure that the information needed by the investigators and prosecutors for effective law enforcement is provided in an orderly and timely fashion. Also, the FDIC, by receiving a copy of the reports, will be better able to monitor, and to act to reduce, losses to insured nonmember banks as a result of criminal activity. The proposed rule also requires, in the interest of reducing losses, that an insured nonmember bank notify the FDIC if its fidelity bond against defalcations and similar losses is cancelled or if the coverage is changed significantly.

Abstract: The FDIC has proposed amendments to its regulations to provide greater public disclosure of information relating to change in Bank Control Notices. One amendment would permit disclosure, upon request, of the fundamental elements of the proposed acquisition of control upon acceptance of a Notice of Acquisition of Control by the FDIC. Another amendment would require the acquiring parties to publish.

Legal Authority: 12 USC 1813; 12 USC 1817; 12 USC 1821; 12 USC 1822; 12 USC 1823

CFR Citation: 12 CFR 330

Legal Deadline: None

Abstract: The FDIC is proposing to amend certain recordkeeping requirements affecting the manner in which insurance coverage on brokered deposits is determined. The amendments would require disclosure in the account records of the bank of the identity of each person having a beneficial ownership interest in such accounts in order for those persons to obtain insurance coverage. The primary purpose of the amendment is to enable

the FDIC to determine quickly and efficiently the extent of insurance coverage on brokered deposits for supervisory and regulatory reasons and to make informed decisions regarding the costs of alternatives considered in handling insured banks which are failing.

Abstract: The FDIC has amended its Fair Housing regulation, 12 CFR 338, to revise the recordkeeping exemption threshold. The rule ended the log sheet requirement for log sheet banks that have \$50 million or less in assets and have received fewer than 25 home loan applications in the prior calendar year. Raising the threshold improved the efficiency and effectiveness of consumer affairs examiners through more productive use of examination time and, additionally, reduced the recordkeeping burden on banks.

Abstract: On June 20, 1984, the United States District Court for the District of Columbia entered an Order declaring the Final Rule published by the FDIC at 49 FR 13003 (April 2, 1984) on limiting insurance coverage for brokered deposits to be unlawful, enjoining the Rule's implementation and directing that the Order be published. The FDIC published the Order, as directed by the Court, at 49 FR 27294 (July 3, 1984). On January 30, 1985, the U.S. Court of Appeals upheld the U.S. District Court's ruling that the FDIC did not have authority to limit insurance coverage on brokered deposits. The FDIC gave notice on January 8, 1986 (51 FR 731), that it has withdrawn its final rule published at 49 FR 13003 (April 2, 1984).

3603. CALCULATION OF CASH WORKING CAPITAL ALLOWANCE FOR PUBLIC UTILITIES

Significance: Agency Priority

Legal Authority: 16 USC 79 to 828c

CFR Citation: 18 CFR 35

Legal Deadline: None

Abstract: Proposed rule would provide that a public utility that files electric rate schedules may include in rate base no cash working capital allowance, unless it is demonstrated that the payment of certain current operating expenses by that utility is not, on the average, closely timed with the receipt of revenues from ratepayers, producing a significant "lead" or "lag" in revenue collection in relation to the payment of expenses. The new section would prescribe the expense elements includable in cash working capital, the parameters of the presumption against a cash working capital allowance, and the nature of the studies that may be submitted in support of, or in opposition to, any request for a cash working capital allowance. Significance: Agency Priority

Legal Authority: 15 USC 3301 to 3432 Natural Gas Policy Act; 42 USC 7101 to 7352 Doe Organization Act; 15 USC 717 to 717w Natural Gas Act; EO 12009

CFR Citation: 18 CFR 271

Legal Deadline: Statutory, June 1, 1986

Abstract: The Secretary of Energy proposed, under section 403 of the DOE Organization Act, that the Commission exercise its authority: 1. Under sections 104 and 106 of the NGPA, to establish just and reasonable prices for "flowing" old gas; and 2. Under section 107 of the NGPA, to establish incentive prices for certain categories of old gas.

Under the Secretary's proposal, the Commission would also act to eliminate vintaging and replace the different old

gas ceiling prices with a single ceiling price. According to the Secretary, adoption of its proposal would establish incentive prices for certain categories of old gas, in order to increase significantly the production of old gas and to encourage long-term investment in natural gas exploration, development, and production. Significance: Agency Priority

Legal Authority: 42 USC 7101 to 7352 DOE Organization Act; EO 12009; 15 USC 717 to 717w Natural Gas Act; 15 USC 3301 to 3432 Natural Gas Policy Act

CFR Citation: 18 CFR 154

Legal Deadline: None

Abstract: The Commission seeks additional comment on its block billing procedures. In the original notice, the Commission proposed: -A three-part gas rate for pipeline gas sales, to preserve the benefits of "old" gas for existing firm sales customers and to mitigate competitive distortions resulting from the lingering effects of existing wellhead price controls; -A first block containing "old gas" under sections 104, 106(a) and 109 of the NGPA; -That after a pipeline permitted its firm sales customers to reduce 100 percent of their contract demands and offered those customers non-discriminatory self-implementing transportation, then the sales price assigned to the second block was presumed to be just and reasonable. The revised proposal is as follows: -Eliminating "Block 3" with revisions to clarify that the "as-billed" principle continues to apply to fixed costs; -Extending the base period to include the period between December 1,

1978, to December 31, 1984; -Including interruptible purchases for purposes of determining block 1 allocation factors; -Clarifying that the presumption of justness and reasonableness for block 2 gas; -Various clarifications regarding implementation.

3620. ● VOLUNTARY SUPERVISORY CONVERSIONS AND MODIFIED CONVERSIONS

Legal Authority: 12 USC 1464(i) (1) to (2); 12 USC 1464(o); 12 USC 1464(p); 12 USC 1725(j); PL 99-120, Sec 6

Legal Deadline: None

Abstract: The Board proposes to adopt technical amendments to its regulations governing voluntary supervisory conversions and modified conversions of mutual insured institutions to stock form. The purposes of the proposed amendments are to clarify several of the policies and interpretations of the Federal Home Loan Bank Board relating to the voluntary supervisory conversion process, to expedite the processing of voluntary supervisory conversion and modified conversion applications, and to facilitate the voluntary supervisory conversion and modified conversion procedures and encourage their use by insured institutions as capital-raising tools. In addition, the Board is proposing to remove the requirement that the offer and sale of capital stock in a voluntary supervisory conversion must constitute a non-public offering. The Board believes that by allowing insured institutions the option to publicly offer conversion stock, the use of the voluntary supervisory conversion procedure as a means of capitalizing and rehabilitating insolvent and financially troubled insured institutions will be encouraged.

Abstract: The Board is proposing extensive revisions to its regulations governing the conservatorship and receivership of associations chartered

by the Board or the accounts of which that are insured by the Federal Savings and Loan Insurance Corporation. The Board will unify the appointment of receiver procedures for state and federal institutions; adopt procedures for appointment of receivers under section 406(c)(1)(B) of the National Housing Act; and address the priorities in liquidation and participation interests in liquidation, which are absent from or inadequately covered in the present regulations. The Board is also proposing that its regulations cover topics such as the effect of the receivership appointment on executory contracts, employment agreements, certain "Golden Parachute" agreements, participation agreements, repurchase agreements, and on agreements relating to secured and unsecured borrowings by an insured institution, including agreements providing for prepayment or default penalties. The proposed regulations provide for new rules of general applicability in the areas previously mentioned, clarify existing provisions, and reorganize and recodify all the (cont)

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) the Commission anticipates having under consideration during the period from April 1, 1986, to March 31, 1987, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning

Commission rulemaking proceedings or the status of any matter listed below, contact: John Robert Ewers, Secretary, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on regulatory activities being conducted or

reviewed during the succeeding 12 months by the Commission.

The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include petitions for rulemakings which are under staff review.

In addition, the Commission is publishing a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda (October 29, 1985, 50 FR 44942). This list will be made available to the press and interested groups.

Legal Authority: 5 USC 553; 46 USC app 801 et seq

CFR Citation: 46 CFR 558 to 569

Legal Deadline: None

Abstract: The Shipping Act, 1916, after amendment by the Shipping Act of 1984, applies only to domestic operations. In order to properly implement the 1984 Act, the Commission made the essential, limiting changes to its domestic regulations of agreements within the deadline established by the 1984 Act. This review will now determine what further, substantive changes in the domestic agreements may be desirable.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this Agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from April 1 through October 1,

1986. The next Semiannual Agenda will be published in October 1986.

DATE: Comments about the form or content of the Agenda may be submitted any time during the next six months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its April 1986 Agenda as part of the April 1986 "Unified Agenda of Federal Regulations," which is coordinated by the Office of Management and Budget under Executive Order 12291.

Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's Agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next six months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous Agenda, and which the Board has not completed.

Barbara R. Lowrey,
Associate Secretary of the Board.

Proposed Rule Stage

**3661. ● REGULATION: E -
ELECTRONIC FUND TRANSFERS**

Legal Authority: 15 USC 1693 et seq
Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Abstract: The Board will consider issuing for comment proposed amendments to Regulation E to address issues that have arisen regarding the responsibilities of persons that issue access devices and provide electronic fund transfer services to consumers absent an agreement with the financial institution holding the consumers' accounts. The amendments would clarify the responsibilities of these service-providers and the institutions holding the consumer accounts with respect to electronic fund transfers initiated through the service-providers. The amendments may (1) eliminate the requirement that service-providers furnish periodic statements to consumers; (2) require service-providers to provide detailed transaction identification that would allow the account-holding institutions to comply with the periodic statements requirements of Regulation E; and (3) require account-holding institutions to identify electronic fund transfers initiated through the service-provider on periodic statements in accordance with Regulation E.

If the Board proposes these amendments to Regulation E, it is not expected that the amendments would (cont)

MEMBERSHIP OF STATE BANKING
INSTITUTIONS IN THE FEDERAL
RESERVE SYSTEM**

Legal Authority: 42 USC 4001 et seq

CFR Citation: 12 CFR 208.8(e)

Abstract: The Board will consider issuing for comment two amendments to the flood insurance provisions of Regulation H. The proposals are designed to provide a decrease of 20,000 burden hours in paperwork, as required by OMB. The regulation would be amended to delete the requirements that: (1) state member banks maintain compliance records; and (2) a borrower acknowledge in writing receipt of the notification required to be made by state member banks under the flood insurance regulations. Banks, however, would continue to be required to make these notifications. This action would diminish burdens on all sizes of state

member banks; therefore, it is not expected that the proposals would have a significant adverse effect on small banks.

HOLDING COMPANIES AND CHANGE
IN BANK CONTROL**

Legal Authority: 12 USC 1843 Bank Holding Company Act; 12 USC 1844(b) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: A provision of Regulation Y permits a state bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under state law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the

Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

The Board plans to review this provision of the regulation in the near future. A determination to reverse the rule could have an adverse impact on many small banks that are subsidiaries of holding companies because they might be required to (cont)

Legal Authority: 12 USC 1841 Bank Holding Company Act; 12 USC 221 Federal Reserve Act; 12 USC 3901 International Lending Supervision Act of 1983

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested comment regarding whether, and to what extent, the Board should exercise its authority under the Bank Holding Company Act, the Federal Reserve Act, and the International Lending Supervision Act to authorize or limit the conduct of real estate investment activities by bank holding companies and their nonbank subsidiaries (50 FR 4519, January 31, 1985). The Board has not proposed a specific regulation at this time, and has only requested comment on the general question of whether, and in what direction Board regulation in this area is appropriate. If the Board determines to propose a regulation, the public will

be invited to comment. Comment in this area was requested in response to enactment of a number of state laws that have recently authorized state banks to conduct a broad array of nonbanking activities that previously were not authorized for state banks or bank holding companies, including real estate investment activities. Until the Board reviews the comments, it is unclear whether the Board will act in this area or what specific action it may take. Therefore, the effect on small entities cannot be (cont)

3665. ● REGULATION: D - RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS

Legal Authority: 12 USC 248(k); 12 USC 461(a)

CFR Citation: 12 CFR 204

Abstract: In February 1986, the Board proposed to clarify the definition of "deposit" in Regulation D to include the interest or liability associated with a borrowing in the form of certain sales of assets and related transactions by a depository institution (FR cite unavailable). These transactions include a sale of assets that involves a full guarantee by the institution that, in effect, substitutes the institution's credit standing for that of the ultimate borrower and in which the institution retains the risk of borrower default after the asset is sold. Further, the regulation currently treats obligations of

an affiliate as deposits of the depository institution to the extent the proceeds are provided to the depository institution. The Board proposes to exclude proceeds received from a sale of assets without recourse to the affiliate.

The proposal also would clarify the application of Regulation D to certain of these transactions involving organizations effectively controlled by the depository institution even though not formally affiliated. (cont)

Additional Information: ABSTRACT CONT: Finally, the proposal would clarify how the Board measures the "maturity" of an obligation for the purposes of Regulation D.

The proposal requests comment on any alternatives that the public believes may be preferable to the Board's proposed amendments. Suggested alternatives will be considered when comments are analyzed.

The proposed rule would apply to all depository institutions. It is not anticipated that the proposal will have a negative impact on the ability of small depository institutions to attract deposits.

The Board will review the comments and take further action within the next six months.

Legal Authority: 12 USC 371b; 12 USC 461(b)

Abstract: On March 31, 1986, the authority transferred to the Depository Institutions Deregulation Committee expires, and interest paid on deposits will generally no longer be subject to regulation. The Board, therefore, in January 1986 proposed for comment amendments to its Regulations D and Q to reflect this expiration and to make other technical changes (51 FR 27, January 2, 1986). It is expected that any changes in the regulations will not have a significant adverse effect on small entities.

Legal Authority: 12 USC 611 et seq

Abstract: In August 1985, the Board published for comment proposed regulations that would restrict lending by an Edge Corporation to its affiliates where the Edge Corporation is not subject to the restrictions of section 23A of the Federal Reserve Act (12 USC 371c) because it is owned by a U.S. insured bank (50 FR 35238, August 30, 1985). In taking this action, the Board noted the increasing number of owners of Edge Corporations that are not subject to federal banking supervision and the potential adverse effects that might result from such affiliations, such as the impairment of the Edge's ability

to act as an impartial arbiter of credit. The Board requested comment on the effect of the proposal on existing Edge Corporations, especially those owned by foreign banks and whether any exemptions from the restrictions are appropriate.

It is not expected that the proposal would have a significant economic impact on a substantial number of small businesses, because it applies only to organizations involved in international banking.

CFR Citation: 12 CFR 225

Abstract: In March 1984, the Board proposed for comment an amendment to Regulation Y that would list certain additional nonbanking activities as generally permissible for bank holding companies under section 4(c)(8) of the Bank Holding Company Act and in which they may seek Board approval to engage (49 FR 9215, March 12, 1984). The activities proposed to be included in Regulation Y for the first time include: (1) commodity trading advisory services; (2) check guaranty services; (3) consumer financial counseling; (4) armored car services; (5) tax planning and tax preparation; and (6) operating a credit agency and credit bureau.

Consumer financial counseling, check guaranty services and limited types of tax preparation have been permitted previously by Board order on individual applications.

In addition the Board has proposed to expand the activities of property appraisal and providing advice in connection with future commission merchant activities. These activities have been included previously in the list of permissible activities (cont)

Legal Authority: 12 USC 1843(c)(8) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In November 1983, the Board published for comment a proposal to eliminate the requirement in Regulation Y that bank holding companies engaging in credit life and credit accident and health insurance underwriting provide rate reductions or increased policy benefits in order to engage in this activity (48 FR 53125, November 25, 1983). The Board took this action as a result of the suggestions of several commenters to the Board's recent revision of Regulation Y, who advocated elimination of the rate reduction requirement from the regulation because, in their view, the requirement puts bank holding companies at a competitive disadvantage with other providers of this service, and because the potential adverse effects on the public that prompted the Board to impose this requirement in 1972 have not been realized.

This proposal, if adopted, would relax the regulatory requirements on bank holding companies that engage in this activity.

The Board will review the comments and is expected to take further action within the next month.

Legal Authority: 12 USC 1841 et seq Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested comment as to whether it should permit bank holding companies that own nonbank banks to provide them with internal administrative services and to establish management interlocks with them (50 FR 2057, January 15, 1985). ("Nonbank banks" are institutions that are chartered as banks but either do not accept demand deposits or do not make commercial loans.) The Board took this action to resolve a number of questions that had been raised regarding the appropriate scope of relationships between nonbank banks and their affiliates. It is likely that any action the Board might take would primarily affect larger bank holding systems and would relax a requirement or prohibition. Therefore, it is expected that any Board action would not have a significant economic impact on a substantial number of small entities.

In view of recent litigation involving the legality of nonbank banks, the Board has suspended further consideration of nonbank bank applications by bank holding companies pending a definitive resolution of the status of nonbank banks. Final action on the proposal for comment thus is not likely until this issue (cont)

Legal Authority: 12 USC 3907; 12 USC 3909 International Lending Supervision Act of 1983

CFR Citation: 12 CFR 225, Appendix A

Abstract: In November 1985, the Board proposed for comment an amendment to its Capital Guidelines that would define as primary capital perpetual debt securities issued by state member banks and bank holding companies (50 FR 47754, November 20, 1985). To qualify as primary capital, such perpetual debt securities would have to meet specific criteria intended to make perpetual debt the functional equivalent, for capital purposes, of preferred stock.

The Board also proposed to limit the amount of preferred stock, perpetual debt, and mandatory convertible securities that could qualify as primary capital to 33-1/3 percent of primary capital exclusive of such instruments.

The proposal is not expected to have a significant effect on small banking organizations that do not rely on preferred stock to any significant degree and that are not likely to issue perpetual debt.

The Board will review the comments and is expected to take further action within the next six months.

Legal Authority: 12 USC 3907; 12 USC 3909 International Lending Supervision Act of 1983

CFR Citation: 12 CFR 225, Appendix A

Abstract: In January 1986, the Board proposed for comment an amendment to its Capital Guidelines that would provide for a supplemental adjusted capital measure designed to be more systematically and explicitly sensitive to the risk exposure of individual banking organizations (51 FR 3976, January 31, 1986). This measure would be based on a ratio of primary capital to total assets adjusted to account for certain types of risks, including many kinds of off-balance-sheet risk. The Board is considering replacement of the total capital zones in its current Guidelines with zones based upon the proposed supplemental adjusted capital ratio.

These new zones would apply only to large banking organizations with assets in excess of \$1 billion. Consequently the proposal is not likely to have a significant impact on smaller banking organizations.

The Board will review the comments and is expected to take further action within the next six months.

3677. REGULATION: Z - TRUTH IN LENDING (DOCKET NUMBER R-0545)

Legal Authority: 15 USC 1604, as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Abstract: Regulation Z currently requires that creditors provide information to consumers regarding variable rate features in credit transactions. Concern has been expressed in Congress and elsewhere as to whether Truth in Lending disclosures adequately convey to consumers the terms and potential costs of adjustable rate mortgages.

The Board has proposed that creditors make more extensive disclosure of the variable rate feature in transactions secured by the consumer's home (50 FR 20221, May 15, 1985). The proposal would amend the regulation to require that creditors make available to consumers general descriptive material about adjustable rate mortgages as well as provide a more detailed description of their variable rate feature along with an example showing the effect of a rate increase of two percentage points for each of the first three years of the transaction. Finally, the proposal would eliminate a provision of the regulation that currently permits creditors to substitute the disclosures required by other federal agencies for those required by Regulation Z. The Board is concerned about (cont)

If the Board adopts this proposal, mortgage creditors, including small businesses engaged in mortgage lending, could incur some costs in revising and reprinting forms, and changing certain procedures to comply with the requirement. Before any final action, the Board would consider appropriate actions to minimize the burdens and costs of compliance.

The Federal Financial Institutions Examination Council (FFIEC) is considering the proposal in an effort to seek uniformity among the agencies' disclosure requirements. The Board is

expected to take further action after the next meeting of the FFIEC in March.

3678. FURTHER PROPOSALS TO REDUCE RISKS ON LARGE-DOLLAR WIRE TRANSFER SYSTEMS (DOCKET NUMBER: R-0515A, R-0515B, R-0515C)

Legal Authority: 12 USC 221 et seq

CFR Citation: 00 CFR None

Abstract: In May 1985, the Board adopted a statement of its policy on reducing risks on large-dollar wire transfer systems (50 FR 21120, May 22, 1985). The Board determined, however, that certain aspects of this topic require further study and issued the following three requests for comments: (1) Book-entry securities transfer (R-0515A). In formulating its policy on risk reduction, the Board has been concerned about the impact that overdraft restrictions could have in the U.S. government securities market, which is vital to the conduct of monetary policy and the funding of the federal debt. Consequently, the Board has exempted daylight overdrafts resulting from the transfer of such securities from these restrictions. Instead, the Board is seeking comment on a proposal to reduce risks associated with transfers of book-entry securities that would require institutions to choose between treating book-entry related overdrafts the same as funds overdrafts or pledging collateral to secure book-entry overdrafts. (2) Automated Clearing Houses (R-0515B). The Board has previously regarded automatic clearing houses (ACHs) as low-dollar networks. Recently, however, ACHs have begun (cont)

same risks as large-dollar networks. Accordingly, the Board is requesting comment on risks associated with ACH payments and how such risks can be controlled. (3) Net Settlement Arrangements (R-0515C). The Board did not consider risks associated with the many net settlement services offered by the Federal Reserve (ATM, POS, check, and credit cards). The Board has

determined to consider these risks, and requested comment on various aspects of these services, and the risks they entail, to aid it in its study.

It is not expected that these proposals, if adopted, would have a significant economic impact on a substantial number of small entities, because small entities do not usually participate in large-dollar wire transfer systems.

The Board will review the comments and take further action within the next six months.

Legal Authority: 15 USC 1691b Equal Credit Opportunity Act

CFR Citation: 12 CFR 202

Abstract: In March 1985, the Board published for comment proposed revisions to Regulation B (50 FR 10890, March 18, 1985). The proposal stems from the Board's commitment to review its regulations every five years. The review of Regulation B focussed on how the regulation could be clarified, and whether any burdens on creditors could be reduced without diminishing consumer protections.

After considering the comments, the Board adopted the proposal with some changes (50 FR 48018, November 20, 1985). The final revisions include a streamlined procedure dealing with incomplete applications and a broader selection of sample forms for informing applicants of the reasons for credit denial. The revisions also change the data notation requirements applicable to residential mortgage transactions and revise the definition of "applicant" to give a guarantor (who already has certain protections under Regulations B) legal standing in the courts when there is an alleged violation of the regulation. The Board also published an official staff commentary that replaces existing staff and Board interpretations. (cont)

Abstract: In the October Agenda the Board indicated that it might review a proposal submitted by a bank calling for an amendment to Regulation U that would permit banks to extend credit for options transactions in the same manner permitted brokers-dealers under Regulation T (Credit by Brokers and Dealers). The proposal was viewed as tentative because of litigation involving Securities and Exchange Commission (SEC) Rule 3b-9 (17 CFR 240.3b-9), which would require banks to conduct the activities involved through a broker-dealer subject to Regulation T. The courts allowed the SEC Rule 3b-9 to become effective on January 1, 1986 and the petitioner, therefore, has withdrawn the request. It is not expected that the Board will consider the subject further.

Legal Authority: 12 USC 3501 Financial Regulation Simplification Act of 1980; 5 USC 605 Regulatory Flexibility Act

CFR Citation: 00 CFR None

Abstract: The Board's Regulatory Planning & Review Section, formerly the Regulatory Improvement Project, coordinates the substantive, zero-based review of all Federal Reserve regulations that affect the public. Each review determines: (1) the fundamental objectives of the regulation and the extent to which it is meeting current

policy goals, (2) nonregulatory alternatives that would accomplish the objectives, (3) costs and benefits of the regulation, (4) unnecessary burdens imposed by the regulation, and (5) the clarity of the regulation. Because of a change in format of the Unified Agenda, each Federal Reserve regulation that will be subject to a zero-based review during the upcoming year will be listed as a separate entry under section 1 of this agenda.

The Section also participates in the development of other proposals listed in this agenda to ensure that the objectives of the Regulatory Flexibility Act and the Board's Policy Statement on Expanded Rulemaking are met.

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected event reflects the FTC staff's assessment of events that it expects will occur in the listed proceedings during the coming year. No Commission determination on the need for or the substance of a trade regulation

rule or any other procedural option should be inferred from the projected events included in this agenda.

Several agenda items concern proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding will result in a rule which is likely to have a significant economic impact on such entities depends upon final Commission determinations on the need for or on the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents judgments of the FTC staff, based upon information now available. These views should not be regarded as a final staff position, nor should they be attributed to the Commission itself. The

Commission will address the issues presented on the rulemaking record in the final consideration of each proceeding.

Agenda items include the projected timing of any future Commission action. In most instances the dates of future events are listed by month, not a specific day. Further details may be obtained from the agency contact responsible for a particular proceeding. Discovery of new information, changes in circumstances, or in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT:

Further details may be obtained from the agency contact responsible for a particular proceeding.

By direction of the Commission.

3683. COOLING-OFF PERIOD FOR DOOR-TO-DOOR SALES**Legal Authority:** 15 USC 41 et seq Federal Trade Commission Act**CFR Citation:** 16 CFR 429

Abstract: The rule states that sellers of consumer goods or services with a purchase price of \$25.00 or more who sell away from their place of business must furnish to the buyer certain information regarding the buyer's right to cancel sales within three business days and must give the buyer a full refund of any down payment upon the buyer's cancellation. The rule requires a seller to furnish the buyer with a complete receipt or copy of a contract, along with a notice informing the buyer of the right to cancel the transaction, to furnish the buyer with a completed Notice of Cancellation. The rule is intended to benefit consumers by permitting them to reflect on their purchase and the terms of any contract, to compare the purchase with offerings of other sellers, and to ascertain the accuracy of any representations made. The resulting costs to sellers include the costs associated with cancellation (processing cancelled orders, returning downpayments, retrieving delivered goods, and returning traded-in merchandise) and the additional cost of printing the required cancellation notices. Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping date or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. Abstract: The franchise trade regulation rule was adopted in response to evidence of deceptive and unfair practices in connection with the sale of the types of businesses covered by the rule. In some instances prospective franchisees lack a ready means of obtaining essential and reliable information about their proposed business investment. This lack of information reduces the ability of prospective franchisees either to make an informed investment decision or otherwise verify the representations of the business' salespersons. The rule attempts to deal with these problems by requiring franchisors and franchise brokers to furnish prospective franchisees with information about the franchisor, the franchise business and the terms of the franchise agreement. Franchisors and franchise brokers must furnish additional information if they have made any claim about actual or potential earnings, either to the prospective franchisee or in the media. Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 703

Abstract: The Magnuson-Moss Warranty act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who voluntarily choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. In accordance

with Section 610 of the Regulatory Flexibility Act, The Commission has begun a review of the rule to examine whether the rule has had a significant economic impact on a substantial number of small entities and to assess whether any changes are needed. As part of that review, the Commission is considering whether to begin a negotiated rulemaking, in which all affected interests would have an opportunity to agree to recommend to the Commission revisions to the rule that would facilitate the Congressional (cont)

Legal Authority: 15 USC 41 Federal Trade Commission Act

CFR Citation: 16 CFR 425

Abstract: The Trade Regulation Rule concerning negative option plans was promulgated on February 15, 1973. The rule imposes specific requirements concerning procedures that must be followed in the operation of negative option methods of merchandising. The rule requires that all covered advertisements clearly disclose the material terms of the plan; that the subscriber be given a minimum of 10 days in which to instruct the seller not to mail a selection; and that the seller must give full credit, and guarantee

return postage, for merchandise returned by subscribers who were not obligated to receive it. The rule is designed to address a number of significant consumer problems described in the record of the rulemaking proceeding, including denying subscribers sufficient time to respond to the negative option cards sent under these plans, thereby denying subscribers the opportunity to make an informed decision; delivering unordered merchandise without prior consent of subscribers; and placing the burden and expense of correcting "errors" on the subscriber.

CFR Citation: 16 CFR 423

Abstract: The Trade Regulation Rule concerning care labeling of textile wearing apparel and certain piece goods used to make wearing apparel was promulgated on December 16, 1971. The rule requires manufacturers and importers to provide labels for covered items which disclose information for cleaning and care of the product. The rule is intended to assist consumers in making informed purchase decisions concerning the care characteristics of competing products and to enable

FTC

consumers and cleaners to avoid product damage caused by the use of improper cleaning procedures. The rule was amended on May 20, 1981. The amendments require a more complete statement of the same procedures and establish a standard for the accuracy of each care procedure on a label. The amendments also provide a glossary of standardized care terminology that can be used. With the clarification of the rule's requirements provided by the amendments, manufacturers and importers will be able to minimize inadvertent violations and avoid unnecessary compliance costs.

To assess the possible impact of the rule on such small entities, the Commission has scheduled a review of the rule during fiscal 1986, in accordance with Section 610 of the Regulatory Flexibility Act.

3689. OPHTHALMIC PRACTICE RULES (FORMERLY EYEGLASSES II)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 456, (Revision)

Abstract: The staff of the FTC's Bureau of Consumer Protection has identified several state and private restrictions on the delivery of eye care goods and services which may decrease consumer access to vision care services, increase the cost of those services, and impede the growth of alternative methods of organizing eye-care practices. The principal question the Commission is exploring is the impact of such restrictions on the price, quality and availability of vision care. The Commission's investigation has sought, through the development of empirical market research, to determine whether higher prices result from these restrictions and, if so, whether offsetting consumer benefits also result. The primary impact of a rule on small businesses could stem from the increased competition in the vision care industry which can be anticipated as a result of deregulatory effect of the rule. Rule provisions removing certain restraints on commercial ophthalmic practice could enhance competition by permitting small entities (i.e., optometrists and opticians) to engage in alternate modes of practice; or to expand, should they desire to do so. The affirmative requirements of a rule could impose additional (cont)

The alternatives to an FTC trade regulation rule include: a formal complaint against a professional association or an ophthalmic board alleged to have engaged in illegal acts or practices; a voluntary guide defining unfair acts or practices; legislative recommendations to Congress or to the States; or the release of a public report setting forth the findings of the staff. The Commission is postponing the Regulatory Flexibility Act review of the existing Advertising of Ophthalmic Goods and Services Trade Regulation Rule (Eyeglasses Rule) because that Rule will be modified by the current rulemaking. The Eyeglasses Rule requires eye doctors to furnish copies of

spectacle prescriptions to consumers after eye examinations. The advertising portions of the Eyeglasses Rule are not in effect, pursuant to the decision in *American Optometric Association v. FTC*, 626 F. 2d 896 (D.C. Cir. 1980). The court in that case remanded the Eyeglasses Rule's advertising provisions for further consideration in light of the Supreme Court decision in *Bates v. State Bar of Arizona*, 433 U.S. 350 (1977).

3690. AMENDMENT TO TRADE REGULATION RULE CONCERNING PRESERVATION OF CONSUMERS CLAIMS AND DEFENSES ("HOLDER-IN-DUE COURSE RULE")

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The objective of the proposed amendment is to ensure that a purchaser's duty to pay is not separated from sellers' duty to perform when consumer sales are financed by third party creditors or purchase money lenders. The original rule requires sellers to ensure that credit contracts used in consumer installment sales and

FTC

purchase money loans contain a provision that makes any holder of the contract subject to all legal claims and defenses related to the sale transaction which the buyer may have against the seller. The proposed amendment would extend to creditors the obligation to ensure that credit contracts contain the required provision. Benefits from the proposed amendments may include improvement in the retail market due to increased scrutiny by creditors of the sellers with whom they do business and availability to consumers of additional claims and defenses against creditors. Some creditors may have increased costs associated with screening contracts and monitoring the reputations of retailers with whom they deal. Alternatives considered by the Commission include: rejection of the amendment; postponement of decision pending additional information on (cont)

CFR Citation: 16 CFR 460.10; 16 CFR 460.18; 16 CFR 460.19; 16 CFR 460, Appendix B

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. Among other things, it requires advertisers to disclose specific additional information in advertisements or other promotional materials when they make energy savings claims about an insulation product or refer to the product's thickness, R-Value or price. The Commission temporarily stayed the effective date of those disclosure requirements as they applied to television ads pending completion of these amendment proceedings. The Commission has announced its intention to reopen the rulemaking proceeding to consider whether it should amend the rule's disclosure requirements insofar as they apply to television advertising. (ANPR, 46 FR 47236, Sept. 25, 1981.) The TV ad disclosure requirements in the rule benefit consumers by ensuring that they have an opportunity to understand and evaluate claims that may otherwise lead to misguided purchasing decisions. The major cost to consumers is the possible displacement of other valuable information in advertisements by the required disclosures. The major cost to industry members is the (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 47(a) Federal Trade Commission Act

CFR Citation: 16 CFR 441, (New)

Abstract: Almost all mobile homes are sold with a manufacturer's warranty but many buyers may not receive adequate and timely service under the warranty. The rule would address possibly inadequate performance of mobile home warranties through a number of possible remedies: setting specific service deadlines, prohibiting exclusion of set-up and transportation from warranty coverage, requiring written service agreements between warrantors and their service agents, and requiring maintenance of service records. Compliance costs estimated by staff will be approximately \$145 per home for most firms affected, and could

FTC

Proposed Rule Stage

be less, depending on what provisions are actually adopted. An estimated 20% of buyers would benefit by saving about \$242 for warranty repairs they would otherwise not get; another 15% of buyers would have service time cut by an estimated 4 months. The incidence of warranted defects could be reduced, increasing the useful life of homes. Buyers could also receive better financing terms due to lowering the incidence of defects that diminish resale value. Consumers might benefit from better information, if warranties accurately reflected what service is included (cont)

Instead of specific time deadlines for warranty repairs, manufacturers and dealers could set their own deadlines as long as they are disclosed in their warranties; instead of requiring manufacturers to disseminate consumer questionnaires, to monitor effectiveness of factory and dealer warranty repairs, manufacturers could select their own monitoring devices; some responsibilities and duties of the manufacturers may not be needed (e.g., pre-occupancy inspection, set-up and transportation damage).

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 438, (New)

Abstract: In 1979, the Second Circuit Court of Appeals set aside the rule as originally issued by the Commission, citing problems with some of the remedies that the rule provided to purchasers of proprietary vocational training. The Staff has prepared recommendations as to how the Commission should respond to the Court's decision. Alternatives under consideration include a rule that would give schools the option of providing either a strict pro rata refund remedy or a track record disclosure, a rule requiring some refunds but not on a strict pro rata basis, and a rule with no refund requirements at all. Alternatives to rulemaking include case-by-case enforcement, and FTC intervention before other state and federal agencies having jurisdiction over vocational schools to prevent deceptive practices. The rule may benefit consumers by enabling them to avoid expenditures on inappropriate courses and increasing the effectiveness of the vocational school industry in training and placing people in productive jobs. The cooling-off, track record disclosures, and refund components of the rule variations under consideration would impose real social costs on schools covered (cont)

The rule seeks to deter deceptive sales practices by requiring schools to provide material information to prospective students, and to provide students with contractual remedies which they can use to protect themselves when necessary. Most of the 6,000 schools that would be affected by the rule are small businesses.

Legal Authority: 15 USC 2302(b)(1)(A); 15 USC 2309(a) Magnuson-Moss Warranty-FTC Improvements Act

CFR Citation: 16 CFR 702

Abstract: The Magnuson-Moss Warranty Act (15 U.S.C. 2302(b)(1)(A)) requires that the Federal Trade Commission promulgate a rule to require that the terms of written warranties for consumer products be made available to consumers prior to purchase. The Rule modifications approved by the Commission currently being considered are intended to achieve the Congressional objective more effectively by making the Rule requirements more flexible and thus lessening the costs and burdens of compliance while still ensuring consumers access to warranties prior to purchase. The rule previously required that retailers of consumer products costing more than \$15 make warranty texts available to consumers prior to purchase by placing the warranty text in one or a combination of four specified locations; (1) on the product, (2) in a binder, (3) on the package, or (4) on a sign. Both the former and the amended versions of the Rule require manufacturers to provide materials sufficient for retailers to meet their obligations. The Rule modifications will reduce retailers' obligations by requiring only that warranties

3695. RETAIL FOOD STORE ADVERTISING AND MARKETING PRACTICES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 424

Abstract: The Commission's Rule on Retail Food Store Advertising and Marketing Practices states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. If a store runs out of advertised products, it is in violation of the rule even if the store noted the limitations on availability in its advertisement and even if the store provides rainchecks or substitute items. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertising-induced purchasing trips are not fruitless, and that store prices

accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand, and costs associated with the monitoring of price changes, changing marked prices, training employees to comply with the rule and keeping records to prove compliance. Additional Information: ABSTRACT CONT: The rule may also discourage the advertising of certain kinds of products, such as perishables or goods that are available to the store only in limited supply. The staff has concluded from a careful review of the rule's effects that the costs the rule imposes on consumers in the form of higher grocery prices significantly exceeds its benefits. Consequently, staff has recommended that the rule be modified in such a way that a store could comply with the rule by clearly and adequately disclosing in its advertisements that there are limitations on availability, or by offering rainchecks or substitute items if supplies run out. Staff has concluded that modifying the rule in this way will maintain any benefits it provides to consumers while substantially reducing or eliminating its costs. The Commission has authorized publication of a Notice of Proposed Rulemaking to begin the amendment process.

3696. REVIEW OF THE PREMERGER NOTIFICATION RULES AND REPORT FORM

Significance: Agency Priority

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, Appendix

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. Review of these rules and the Form focuses on reducing the paperwork burden imposed on the business community. On July 29, 1981, the Commission proposed several changes in the current premerger rules (46 Fed. Reg. 38710). These proposed changes, with some modification, were adopted in July 1983. On July 2, 1982, the Commission requested comments on several approaches to reduce further the burden imposed by the premerger rules and the Form. (cont)

A firm must have sales or assets of at least \$10 million to be subject to any reporting obligation. Moreover, any transaction is exempt under the rules if it is valued at less than \$15 million and will not result in the acquiring person's holding 50% of the voting securities of a corporation with sales or assets of \$25 million or more.

ABSTRACT CONT: On September 24, 1985 the Commission proposed amendments to the Premerger rules that pertain for the most part to the burden reduction initiative and that affect the scope of the reporting requirement. In January, 1986, the staff submitted to the Commission a recommendation to promulgate a final rule amendment requiring persons filing notification to submit revenue data for 1982 rather than 1977 in response to certain questions on the Form relating to product lines.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419.1

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in

broadcast and print advertisements, as well as in point of sale information. During January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requests public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

Legal Authority: 42 USC 6294 National Energy Conservation Policy Act; PL 94-163 Energy Policy and Conservation Act, Sec 324, 1975

CFR Citation: 16 CFR 305

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator-freezers; (2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. Following DOE's adoption of final test procedures for central air conditioners (and heat pumps), the Commission initiated a rulemaking to consider including these products. The Commission is also considering including two new types of furnaces in the rule's current coverage of furnaces.

The rule mandates that specific energy costs or efficiency information for covered products be disclosed in catalogs and on a label (fact sheets are required for furnaces). The label must include a highlighted energy cost or efficiency disclosure, a range indicating the highest and lowest energy costs or (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 443, (New)

Abstract: The rule originally proposed would have required that health spa membership contracts provide consumers with a right to cancel and receive a full refund during a three-day cooling-off period. If a seller's facilities were not yet fully operational, the consumer would have had 10 days to cancel after notice that the spa facilities were fully operational. After this period, the consumer would have had a right to cancel by paying up to a 5% cancellation fee plus a pro-rated portion of the contract price. Other provisions of the proposed rule prescribed the form of cancellation notices, limited contracts to two years, and prohibited the receipt of more than 5 percent of the contract price from consumers if a spa were not fully operational and available for use at the time the contract was signed. All industry members would have incurred costs for printing new contracts to comply with the proposed rule. Membership cancellations due to the requirements of the proposed rule would have adversely affected the cash flow of health spas. Consumers would have benefited from the proposed rule's unlimited cancellation rights to the extent (cont)

Legal Authority: 15 USC 2801 et seq Petroleum Marketing Practices Act

CFR Citation: 16 CFR 306

Abstract: The Federal Trade Commission, in accordance with the Regulatory Flexibility Act and publication of a Plan for the Periodic Review of Commission Rules, 46 FR 35118 (July 7, 1981), is soliciting comments and data on whether the

Octane Certification and Posting Rule, 16 CFR Part 306 ("the Rule"), has had a significant economic impact on small entities, and if it has, whether the Rule should be amended to minimize any such significant economic impact on small entities.

The Rule establishes standard procedures for determining, certifying and posting (by means of a label on the fuel dispenser) the octane rating of automotive gasoline intended for sale to consumers. In addition, the Rule contains recordkeeping requirements that require gasoline refiners and importers to retain octane rating test records and gasoline distributors and retailers to retain octane certification records pertaining to the gasoline they sell in commerce for one year.

The Rule is intended to enable consumers to buy gasoline with an octane rating that is high enough to prevent (cont)

INTERSTATE COMMERCE COMMISSION**49 CFR Ch. X****[Ex Parte No. 420 (Sub-No. 10)]****Semiannual Regulatory Agenda****AGENCY:** Interstate Commerce Commission.**ACTION:** Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 86-4, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive Order concerning Regulatory Agendas, the Commission is publishing an agenda of (1) current and projected rulemakings, and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the

regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: A list of proceedings appears below, containing information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda also identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements

of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a "Unified Agenda of Federal Regulations" compiled by the Office of Management and Budget which is to be published in a single issue of the **Federal Register** in April 1986. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: February 21, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

James H. Bayne,
Secretary.

Legal Authority: 49 USC 10505

CFR Citation: 49 CFR 1039

Legal Deadline: None

Abstract: 49 USC 10505 requires that the Commission exempt from regulation the movement by rail of traffic for which it finds continued regulation no longer necessary to serve the Nation's transportation policy objectives and to protect shippers from abuse of market power by the railroads. In examining the transportation characteristics and markets of various commodities moving by rail, there appear to be many products for which sufficient competition exists among transportation alternatives so that regulation may no longer be necessary. Exemption of such commodities should provide increased rate and service flexibility for railroads to meet shippers' needs and to compete more effectively for the subject traffic. Anticipated benefits include lower rates and improved service, at a possible "cost" of increased price instability and competition to alternative transport firms.

Abstract: In a decision published at 49 FR 18490 (May 1, 1984), the Commission adopted a major revision of its user fee regulations. On review the District of Columbia Circuit Court of Appeals affirmed the Commission's user fee regulations in most respects. See Central & Southern Motor Freight Tariff Ass'n, Inc. v. ICC 777 F 2nd 722 (D.C. Cir 1985). However, the court did remand the proceeding for further explanation of certain costing issues. This decision will reopen the May 1, 1984 decision. In this decision the Commission will provide further explanation to the Court and make any necessary adjustment to the fee regulations.

Significance: Agency Priority

Legal Authority: 49 USC 11142; 49 USC 11145

CFR Citation: 49 CFR 1206; 49 CFR 1249

Legal Deadline: None

Abstract: This rule would eliminate the Uniform System of Accounts and revise the periodic reporting requirements for Class I motor common and contract carriers of passengers. The Commission believes these provisions are no longer necessary for Commission oversight of the ratemaking process. The Commission is proposing a new condensed report, applicable only to Class I motor carriers of passengers, to

replace the current comprehensive annual and quarterly report forms. These changes should significantly reduce the carriers' accounting and reporting costs and burden.

Significance: Agency Priority

Legal Authority: 49 USC 10321

CFR Citation: 49 CFR 1201

Legal Deadline: None

Abstract: This rule would modify the accounting rules for recognizing the costs of dismantling, removing and retiring depreciable assets. The objective is to assure that all operating expenses associated with long term depreciable assets are recognized and written off during the useful lives of the assets. The proposal would require the separate maintenance of three components: (1) the usual write-off of the cost of the asset, (2) the write-off of the estimated cost of removing the asset from service, (3) the recognition of the estimated salvage value of the asset when removed from service.

Semiannual Regulatory Agenda

NCUA

**NATIONAL CREDIT UNION
ADMINISTRATION****12 CFR Ch. VII****Semiannual Agenda of Regulations****AGENCY:** National Credit Union
Administration (NCUA).**ACTION:** Semiannual agenda of
regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of pending and recently completed actions as of January 16, 1986. NCUA will also include this Agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of
January 16, 1986.**ADDRESS:** National Credit Union
Administration, 1776 G Street, N.W.,
Washington, D.C. 20456.**FOR FURTHER INFORMATION CONTACT:**
On a particular regulation, contact the
person(s) named in the listing for that
regulation at the above address.**SUPPLEMENTARY INFORMATION:** The
purpose of this Agenda is to enable
credit unions and the public to track
regulatory development and review at
NCUA and to enable interested parties
to more effectively participate in that
process. This year, NCUA has added
Interpretive Rulings and Policy
Statements to its Agenda.The Agenda is published pursuant to
the Regulatory Flexibility Act (5 U.S.C.601, et seq.) and NCUA's statement of
policy concerning development and
review of regulations (IRPS 81-4, 46 FR
2948).

NCUA will voluntarily include this
Agenda in the Office of Management
and Budget's next publication of its
"Unified Agenda of Federal
Regulations." The NCUA Board believes
that participation in this joint
publication will further the public
interest by including NCUA in a single
source of information concerning current
and projected rulemaking and reviews
of existing regulations.

Approved by the NCUA Board this
16th day of January, 1986.

Rosemary Brady,
Secretary of the Board.

Abstract: NCUA does not presently have a comprehensive regulation on conservatorship and liquidation procedures. NCUA was granted conservatorship authority in 1982. An Involuntary Liquidation Manual exists, but has not been updated for several years. A task force has been formed to evaluate what measures should be taken to assure that uniform conservatorship and liquidation procedures are in place.

3760. REQUIREMENTS FOR INSURANCE

Legal Authority: 12 USC 1781 to 1790

CFR Citation: 12 CFR 741

Legal Deadline: None

Abstract: These regulations set forth criteria for determining the insurability of a credit union which makes application for insurance of its accounts pursuant to Title II of the Federal Credit Union Act. The rule also prescribes requirements for continuing implementation of the capitalization of the National Credit Union Share Insurance Fund through credit union deposits and, if necessary, insurance premiums. The review of this regulation will determine the need to update, revise and simplify these requirements. This regulation will be reviewed in conjunction with Parts 740 and 745. Semiannual Regulatory Agenda

NRC

NUCLEAR REGULATORY
COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual Regulatory Agenda in accordance with Pub. L. 96-354, "the Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations." The Agenda is a compilation of all rules on which the NRC has recently completed action or has proposed, or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual Agenda on October 29, 1985 (50 FR 44992).

ADDRESSES: Comments on any rule in the Agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to Room 1131, 1717 H Street, N.W., Washington, D.C. between 8:15 a.m. and 5:15 p.m. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the Agenda.

The Agenda and any comments received on any rule listed in the Agenda are available for public inspection, and copying at a cost of five cents per page, at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. Single copies of

the NRC Quarterly Agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, D.C. 20013-7082. Customers may call (202) 275-2060 or (202) 275-2171.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this Agenda, contact John D. Phillips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone (301) 492-7086. Persons outside the Washington, D.C. metropolitan area may call toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the Agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the Agenda is only required semiannually in April and October, the NRC has chosen to update and publish its Agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual Agenda on October 29, 1985 (50 FR 44992).

Organization of the Agenda

The information in this Agenda has been updated through March 14, 1986. The date included under the heading "timetable," for next scheduled action indicates the date the rule is scheduled to be published in the **Federal Register**. The date is considered tentative and is not binding on the Commission or its staff. This Regulatory Agenda is intended to provide increased notice and opportunity for public participation in the NRC rulemaking process. The NRC may, however, consider or act on any rulemaking even if it is not included in the Regulatory Agenda.

*Rulemakings Approved by the
Executive Director for Operations
(EDO)*

The Executive Director for Operations (EDO) initiated a procedure for the review of the regulations being prepared by staff offices that report to him to ensure that staff resources were being allocated to achieve most effectively NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

Rules that have received EDO approval to date are identified by the symbol (+) at the beginning of the title. As additional rules receive EDO approval, they will be identified in subsequent editions of this Agenda. Those unpublished rules whose further development has been terminated will be noted in this edition of the Agenda and deleted from subsequent editions. Rules whose termination was directed subsequent to publication of a notice of proposed rulemaking will be removed from the Agenda after publication of a notice of withdrawal.

The NRC Agenda lists rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291.

Nine rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act. Dated at Bethesda, Maryland this 14th day of March 1986.

For the Nuclear Regulatory Commission.

Donnie H. Grimsley,

Director, Division of Rules and Records,
Office of Administration.

NUCLEAR REGULATORY COMMISSION (NRC)

Prerule Stage

3779. + DEFINITION OF HIGH-LEVEL RADIOACTIVE WASTE (HLW) IN 10 CFR PART 60**Legal Authority:** 42 USC 10101**CFR Citation:** 10 CFR 60

Abstract: This advance notice of proposed rulemaking (ANPRM) seeks to revise the definition of HLW in Part 60 to reflect certain changes in the legal definition of HLW contained in the Nuclear Waste Policy Act of 1982. Because of the complex issues involved in revising the definition of HLW, which affects virtually the entire radioactive waste management system, the staff is proposing an ANPRM rather than a proposed rule. A revision of the definition of HLW would affect DOE's

plans for a geologic repository, State plans for regional compacts to manage low-level waste, Federal vs. State responsibility for some above Class C wastes, costs of waste disposal for certain waste generators, and the development of new technologies and facilities to dispose of certain types of wastes. A definition of HLW which reduces uncertainty about responsibility for different types of wastes would benefit the radioactive waste management system. NRC staff time for processing this rule is estimated to be 4 staff years. Alternatives to rulemaking would be to take no action or request Congress to amend the NWPA. The rulemaking would eliminate uncertainty

and reduce costs for the public, industry, and NRC.

Abstract: The proposed rule would amend the Commission's regulations dealing with ex parte communications and separation of adjudicatory and nonadjudicatory functions in formal adjudicatory proceedings to update the agency's rules of practice and to incorporate requirements imposed by the Government in the Sunshine Act. Changes are proposed in both the form and the substance of the existing rules to clarify their meaning and to aid agency adjudicatory officials to maintain effective communication with NRC staff personnel and persons outside the agency while at the same time ensuring that proceedings will be conducted fairly and impartially. This proposed rule would supersede a prior proposed rule entitled, "Ex Parte Communications and Separation of Adjudicatory and Non Adjudicatory Functions," (3150-AA00) published March 7, 1979 (44 FR 12428).

Abstract: The Nuclear Regulatory Commission is proposing an amendment that would revise its procedural rules governing the conduct of all adjudicatory proceedings, with the exception of export licensing proceedings. The proposed rule would comprehensively restate current practice, retitle the hearing office, and revise and reorganize the Commission's procedural rules. The changes set out in this proposed rule are intended to enable the Commission to render decisions in a more timely fashion and reduce the burden and expense to the parties participating in the proceedings.

Abstract: This proposed rule would amend thirty-three sections of two parts affecting the hearing process associated with the issuance of all NRC licenses. Streamlining the hearing process would ultimately provide cost savings to all participants in the process. However, intervenors may initially be required to provide more information than is now required at some added expense.

In the screening process, the most significant changes would (1) establish a screening Atomic Safety and Licensing Board (ASLB) to act as a clearinghouse for all requests for hearings, petitions for leave to intervene, and proposed contentions, (2) require a participant in a hearing to show that he or she has an interest to protect in the proceeding, and (3) require evidence of a factual dispute for a contention to be admitted.

NRC

Proposed Rule Stage

During the conduct of hearings, the most significant changes would (1) not hear discovery requests requiring the staff to support positions other than its own, (2) permit the ASLB to decide the case on the basis of written material, (3) permit the ASLB to appoint a panel of technical experts if needed; (cont)

Additional Information: ABSTRACT CONT: (4) allow presiding officers to raise issues on their own motion (sua sponte) only in unusual cases, (5) allow summary disposition motions to be filed at any stage of the proceeding, (6) allow the Commission to designate a hearing examiner in lieu of a three-member ASLB, and (7) require the filing of cross examination plans.

During the decision-making process, the most significant changes would (1) remove the ASLB as an independent appeal board but place it organizationally directly under the Commission to review, as before, ASLB decisions, and give its recommendations to the Commission, (2) allow any genetic issue resolved in an initial licensing proceeding to be codified, allowing a 45 day comment period (3) allow an intervenor to participate in discussing only those items he or she introduced, and (4) reinstate the immediate effectiveness of an ASLB decision on an operating license, construction permit, or work authorization. The proposals, submitted by the Commission's Regulatory Reform Task Force suggest ways to improve the reactor licensing process.

3783. RULES OF PRACTICE FOR DOMESTIC LICENSING. PROCEEDINGS: ROLE OF NRC STAFF IN ADJUDICATORY LICENSING HEARINGS

Legal Authority: 42 USC 2201; 42 USC 2231

CFR Citation: 10 CFR 2

Abstract: The role of the NRC staff in initial proceedings was among the issues discussed in an enclosure to a January 2, 1985, memorandum to the Chairman of the House Subcommittee on Energy and Water Development from Chairman Palladino. This discussion stated that the Commission has decided that the NRC's role in these proceedings should not be changed. Therefore, the action proposed by this advance notice of proposed rulemaking will be terminated.

The Commission is considering amending its Rules of Practice concerning what role the NRC staff should have in adjudicatory licensing hearings to most effectively contribute to the protection of the public health and safety. This notice invites public comments and suggestions on four options and related questions, briefly described below. Option 1 would limit staff participation in contested initial licensing proceedings to only those controverted factual issues it disagrees with on a technical basis or rationale. Option 2 would require (cont)

Additional Information: ABSTRACT CONT: the NRC staff to supply the Commission and the Licensing Board with its view and analyses on every substantive issue raised in an initial licensing proceeding but would prohibit the staff's participation in any procedural matter. Option 3 would retain status quo; i.e., the NRC staff would participate as full party on all issues. Option 4 would expand public involvement in the prehearing stage of initial licensing proceedings, and this option could be used in conjunction with any of the first three options. The staff would subsequently address each substantive issue raised in the Safety Evaluation Report.

Alternatives to rulemaking could include a policy statement or no action,

depending on the option chosen. The possible means of addressing this issue through rulemaking are discussed above. The effects of the rulemaking, including benefits and costs, will depend on the option chosen. NRC resources needed for this rulemaking are estimated at 500 staff hours.

Abstract: The proposed rule will revise existing regulations to cover specific licensing requirements for the storage of spent nuclear fuel and high-level radioactive waste in a monitored retrievable storage installation (MRS). This revision, required by the Nuclear Waste Policy Act, is intended to ensure that the Commission has in place the appropriate regulations to fulfill the requirements contained in the Nuclear Waste Policy Act of 1982 concerning the licensing of facilities which could be part of the MRS program.

Paragraph (d) of Section 141 of the NWPA provides that any monitored retrievable storage installation pursuant to Section 141 shall be subject to licensing by the Commission. The Commission could await further development of the MRS option before proposing its MRS rules. However, this approach could result in unnecessary delay in reviewing a license application if congress authorizes construction of an MRS. The Department of Energy (DOE) is required to complete a detailed study of the need for and feasibility of a MRS installation. In a proposal to be submitted to Congress on or before June 1, 1985, DOE must (cont)

Abstract: The proposed amendment would conform the NRC's regulations pertaining to the availability of official records to existing case law and agency practice. The purpose of the amendment is to reaffirm that the terms of 10 CFR 2.790 (c) provide submitters of information a qualified right to have their information returned upon request. This amendment informs the public of three exceptions to the right to withdraw pursuant to 10 CFR 2.790 (c) of the NRC's regulations, i.e., information submitted in a rulemaking proceeding that subsequently forms the basis for the final rule, information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a pending Freedom of Information Act request.

3786. ● SECURITY REQUIREMENTS FOR CATEGORY II MATERIAL AT FIXED SITES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 70; 10 CFR 73

Abstract: The proposed rule would amend the physical protection requirements for special nuclear material of moderate strategic significance (Category II) at fixed sites. Since the publication of Category II safeguards regulations in 1979, there have been several terrorist acts which involved coordinated actions against separate targets, showing an ability and willingness by at least some adversary groups to plan their attacks in advance and to closely coordinate and execute simultaneous acts by geographically separated parties. While there is no available evidence of such acts being directed against US nuclear facilities, multiple thefts of Category II material could result in the accumulation of a quantity of material of high strategic significance.

The proposed amendments would increase physical protection requirements for those Category II licensees who possess SSNM, including those licensees who possess a formula quantity but implement only Category II requirements because their fuel is irradiated to at least 100 rem/hr at three feet. The amendments also limit the use of the 100 rem/hr exemption to a (cont)

Additional Information: ABSTRACT CONT: reduction of one physical protection category with no reduction below the requirements of low strategic significance (Category III). In addition, minor conforming amendments are also being proposed for Parts 2 and 70.

The alternatives considered were requiring improvements for only one or two of the three major functions of the security system and continuing with status quo.

The benefit of the proposed rule is that it is designed to make the measures used to protect Category II quantities of high enriched uranium, plutonium, and uranium-233 more resistant to attempted theft of material by external adversaries as well as by a single internal adversary. The proposed requirements will result in an estimated cost of \$6,700 to \$11,600 to each affected licensee initially and \$1,600 to \$2,900 annually thereafter. About 0.8 staff years will be expended in completing the proposed rule.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The Nuclear Regulatory Commission (NRC) is proposing amendments to its rules of practice which address the following aspects of the hearing process: admission of contentions, discovery against NRC staff, use of cross examination plans, timing of motions for summary disposition and limitations on matters and issues that may be included in proposed findings of fact or conclusions of law or in an appellate brief submitted by a person who does not have the burden of proof or who has only a limited interest in the proceeding. These proposals were initially developed by the Regulatory Reform Task Force and published for public comment. The NRC is also proposing related amendments on the process of intervention that were developed by Commissioner Asselstine.

Abstract: This proposed rule would establish a specific retention period for certain NRC-required records. It would also provide a uniform standard acceptable to the NRC for the condition of a record throughout a specified retention period. Further, the rule would establish throughout NRC regulations, with some exceptions, uniform retention periods of three years, five years, ten years, and the life of a license. This rule would bring NRC regulations into compliance with the Office of Management and Budget's (OMB) regulation (5 CFR 1320.6) that requires a specified retention period for each required record. It also implements NRC's 1982 commitment to OMB to establish a record retention period of determinable length for each required record.

Amending twenty one parts of NRC regulations to specify clearly what records to retain, how long to retain them, and the condition of a record useful for NRC inspection, will be mutually beneficial to applicants and licensees and to the NRC.

Recordkeeping labor for NRC's approximately 6,700 licensees who would be affected by the rule can be divided into four functions: (1) preparing the report, (2) storing the report, (3)

The principal savings to the licensee, dispersed over the period licensed, would be in physical storage space and associated storage equipment and materials. The burden of recordkeeping would be reduced approximately 10 percent annually for these licensees by the proposed rule. An estimated 466,323 hours associated with recordkeeping or \$28,000,000 annually would be saved. Preparing and publishing this rule would cost NRC approximately 500 hours of staff time at \$60 per hour for an estimated total of \$30,000.

CFR Citation: 10 CFR 20

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation which are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated, most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to provide better assurance of protection against radiation; establish a clear health protection basis for the limits; reflect current information on health risk, dosimetry, and radiation protection practices and experience; provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; be consistent with recommendations of world authorities (ICRP); and apply to all licensees in a consistent manner.

Alternatives to the complete revision considered were no action: delay for further guidance; and partial revision of

the standards. They were rejected as ignoring scientific (cont)

Benefits would include updating the regulations to reflect contemporary scientific knowledge and radiation protection philosophy; implementing regulations which reflect the ICRP risk-based rationale; reducing lifetime doses to individuals receiving highest exposures; implementing provisions for summation of doses from internal and external exposures; providing clearly identified dose limits for the public; providing understandable health-risk base for protection; and placing constraints on collective dose evaluations at levels where risks are trifles.

Initial estimates of the cost of implementing the revision is about \$23 million the initial year and about \$7 million in subsequent years. This cost does not include any savings which might also be realized by the revision.

3791. RESIDUAL RADIOACTIVE CONTAMINATION LIMITS FOR DECOMMISSIONING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 20

Abstract: The proposed rule would establish residual radioactive contamination limits (including induced and other volumetric radioactivity as well as removable and fixed surface contamination) which must be met before structures and lands can be released on an unrestricted, unregulated basis. Structures and lands with residual radioactive contamination below these limits would be eligible for unrestricted release without regulatory restrictions from a radioactivity standpoint.

The proposed amendments are necessary to provide licensees with quantitative criteria to use during decommissioning relative to cleanup of structures and lands intended to ensure that structures and lands used in NRC licensed facilities and activities will be decontaminated in a manner that adequately protects public health before being released on an unrestricted, unregulated basis.

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e) both of which require the reporting of safety defects by licensees. This effort was prompted by TMI Action Plan Task II.J.4 and has as its main objectives: (1) elimination of duplicate reporting among all requirements, (2) consistent reporting among all reporting requirements, (3) establishment of uniform and clear definitions for defects which need to be reported, (4) establishment of uniform time limits within which a defect must be reported and evaluated and, (5) establishment of uniform content for reporting of defects.

Approximately 450 to 500 reports are issued annually under Part 21 and sec. 50.55 (e) respectively. The reports identify plant-specific safety concerns and potential generic safety concerns for further NRC followup. These reports form the basis for numerous NRC bulletins and information notices.

This proposed rulemaking will reduce the potential for duplicate reporting and evaluation that now exists and will establish a more coherent regulatory framework that is expected to reduce industry and NRC burden in this area without(cont)

Additional Information: ABSTRACT CONT: sacrificing safety effectiveness.

Alternatives to this approach varied from establishment of a single rule for all reporting to maintaining a status quo for defect reporting. All alternatives were rejected since they would not result in any substantial improvement to the present regulatory framework.

Current costs of reporting under Part 21 and section 50.55 (e) are estimated at \$12,400,000 annually for industry and \$2,900,000 annually for NRC evaluations. It is anticipated that industry reporting burden with the proposed rulemaking will be reduced by 36,800 hours or \$2,208,000 while NRC burden should be increased by \$100,000. Additional burden to industry and NRC, while minimal, is anticipated in the areas of adherence to time schedules, and enforcement, recordkeeping respectively.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2071; 42 USC 2092

CFR Citation: 10 CFR 30; 10 CFR 32; 10 CFR 40; 10 CFR 70

Abstract: The NRC regulations clearly provide for pre-marketing approval of certain sealed sources of radioactive material and devices which incorporate those sources. Examples are: smoke detectors used under an exemption from regulations, gauges used under a general license, and certain medical devices used under specific license. The regulations are less clear with respect to pre-marketing approval of other products, e.g., industrial radiographic devices and in-plant gauging devices which are used under specific license. The proposed rule would clarify and formalize the procedures for manufacturers and distributors of sealed sources and devices to obtain pre-marketing approval of these other products. Consistent with present practice, the rule would require the applicant for approval to submit specified radiation safety information about the product for NRC's consideration. The proposed rulemaking would assure that all manufacturers/distributors (vendors) are informed of NRC's program for pre-marketing approval of sources and devices used under specific license. Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking (ANPRM) seeks comments on the advisability of having NRC require a mechanism to assure financial capability on the part of certain NRC materials licensees (e.g., fuel fabricators and users of sealed radiation sources) to undertake prompt cleanup of accidental releases or contamination, both on and off site. Estimates for cleanup costs in the recent past have ranged up to \$2 million for a single event. To date, cleanup has been conducted by the State or Federal government, but frequently public monies are used only after lengthy delays.

Use of an alternative, i.e., the 1980 Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), is effectively blocked by EPA policy. CERCLA provides funds for cleanup if the owner or operator is unable to do so and if the release is not covered by "Price-Anderson" provisions, which address liability and do not provide funds for cleanup per se. EPA maintains that NRC has full authority to require cleanup of accidental releases by licensees; thus,

Abstract: This proposed rule, being prepared at Commission direction, would provide comprehensive treatment of hearing procedures to be implemented by the Commission for materials licensing proceedings. In addition, the proposed rule would encompass the objective of the proposed rule, "Jurisdiction of Adjudicatory Boards," identified as 3150-AA53 which is being deleted from OMB's Unified Agenda. There are no reasonable alternatives to rulemaking for implementing these informal hearing procedures. The procedures are expected to reduce the economic burden imposed on a participant in a proceeding.

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The proposed rule would require licensees to notify the appropriate regional office of the NRC within a certain time period in the event of a bankruptcy proceeding involving the licensee. There is no action required of a licensee by these amendments unless and until a bankruptcy petition is filed. Notification of the NRC in cases of bankruptcy would alert the Commission so that it may deal with potential hazards to the public health and safety posed by a licensee that does not have the resources to properly handle licensed radioactive material or clean up possible contamination. Cases have occurred in which materials licensees have filed for bankruptcy and NRC has not generally been aware of this.

The net overall impact on industry of this rule should be negligible since this rule only consists of one additional notification beyond that already required by the United States Code and that is simply a notification of NRC by mail. The net effect on NRC should be a reduction in staff resources since it would put NRC in a better reactive mode for proceeding with(cont)

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 34

Abstract: The proposed rule would amend the present regulations to establish performance standards for industrial radiography exposure devices. Overexposures of radiographers (and occasionally the general public) are more than double that of other radiation workers and have been a concern to the NRC for some time. Approximately 25-35% of the radiography overexposures are associated with equipment malfunction. The issue of safety requirements for these devices is a primary concern since the devices use relatively high intensity, high energy gamma-ray emitting sources with the potential for serious overexposures. Although a consensus standard for radiographic exposure devices was published in 1981, (American National Standard. N432) it is not clear that all manufacturers are adopting the standard. The alternatives considered were to take no action at this time, adopt the consensus standard in the regulations, endorsing the consensus standard by a regulatory guide, and endorsing the consensus standard by reference in the regulations along with such other performance standards deemed necessary (cont)

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 7901 Note

CFR Citation: 10 CFR 40

Abstract: The advance notice of proposed rulemaking seeks comment on NRC's tentative approach to making further amendments to its uranium mill tailings regulations. The contemplated rulemaking proceeding is intended to incorporate groundwater provisions and other requirements established by the Environmental Protection Agency for similar hazardous wastes into NRC regulations. This action is necessary to make NRC regulations consistent with EPA standards as required by the Uranium Mill Tailings Radiation Control Act. Alternatives to this action involve timing and scope.

Comments on the ANPRM will help define the nature and scope of the action. EPA has estimated that compliance with their groundwater standards and with the stability, radon release, and other requirements recently promulgated will cost the industry from about \$310 million to \$540 million for all tailings generated by the year 2000. The range depends on the eventual cost of groundwater protection for future tailings. The EPA regulations are binding on NRC licensees in the interim. Estimates of NRC resources are still being developed.

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend regulations concerning acceptance criteria for emergency core cooling systems (ECCS) by changing the methods used to demonstrate that an ECCS would protect the nuclear reactor core during a loss-of-coolant accident. This action is proposed because research has shown that calculations performed under current requirements result in estimates of cooling system performance are significantly worse than estimates based on the improved knowledge gained from this research and because the operation of some nuclear reactors is being unnecessarily restricted. This results in increased cost of electricity generation. The proposed rule would allow use of the best information currently available to demonstrate that the ECCS would protect the reactor core during a loss-of-coolant accident. The proposed rule would apply to all applicants for and holders of construction permits for light water reactors.

Because the proposed rule represents a significant change in a regulatory requirement, the staff is currently preparing a summary of ECCS research performed over the last 10 years which will serve as the technical basis for the proposed rule (cont)

Abstract: This rulemaking is intended to review and revise the Commission's siting regulations to reflect experience gained since the Commission's current reactor siting regulations were published on April 12, 1962 (27 FR 3509). Many developments in this period including work to establish a Commission safety goal and the ongoing review of reactor accident source terms, have brought into question both the existing regulations and their technical support. This rulemaking will resolve those questions.

In the present circumstances a lack of applications for new plants argue that these changes are not needed. However, the new information that is being developed and the lead time between the decision to site and the time when a reactor begins producing power commercially make it prudent for the Commission to address these changes in a timely manner.

The alternatives to rulemaking in this case are restricted to no action. If action is taken based on the new and

An advance notice of rulemaking was published seeking public comment on various approaches to this rulemaking. A proposed rule will be structured to achieve resolution of these comments and reflect information from the reactor accident source term review and the trial implementation period for the Safety Goal. These revised regulations will make the siting and review of power plants more predictable through application of clearer requirements.

There is no indication that the criteria would increase costs or have a significant adverse affect on safety. On the contrary, clear requirements will allow for more informed and more efficient siting decisions. This rulemaking would require additional NRC resources of approximately two staff years and minimal contract support. This rulemaking is presently on hold pending completion of the reactor accident source term review. A schedule for resumption of this activity is to be developed upon completion of the accident source term review.

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors. Problems have

developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized. It is proposed to revise the rule as noted to make it current and improve its usefulness.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations, current regulatory practice which is no longer being reflected accurately by the existing rule, and endorsement in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss of coolant accident conditions. Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: In a Federal Register notice published on April 14, 1979, the Commission deleted the radon-222 value from Table S-3 because it was recognized to be underestimated. Pending rulemaking action to provide a new estimate for radon-222 in Table S-3, the environmental effects of radon are subject to litigation in individual nuclear power plant licensing proceedings. The purpose of the proposed rule would be to deal with this question generically for all nuclear power plants, thus saving the time and cost of repetitive consideration of the effects of radon-222 in individual power plant licensing proceedings.

The only alternative to generic treatment of the environmental impact of radon-222 is to continue to allow these environmental impacts to be brought into litigation in individual licensing cases. By the proposed rulemaking action, new estimates for the environmental releases of radon-222 will be added to Table S-3 and the narrative explanation of Table S-3 will be modified accordingly. By memorandum from the Secretary dated August 23, 1985, the Commission directed the staff to combine this rulemaking with the final rule to add the narrative explanation.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: NRC is proposing to amend its regulations to require light water nuclear power plants to be capable of withstanding a total loss of alternating current (AC) electrical power, called Station Blackout, to the essential and nonessential switchgear buses for a specified duration. A proposed regulatory guide, to be issued at the same time as the proposed rule, would provide guidance on how to determine the duration.

The proposed requirements were developed in response to information generated by the Commission's study of Unresolved Safety Issue A-44, Station Blackout. The proposed rule is intended to provide further assurance that a loss of both off-site and emergency on-site electric AC power systems will not adversely affect the public health and safety.

A regulatory analysis has been prepared for the proposed rule. The estimated public risk reduction is 80,000 person-rem over 25 years, and the estimated total cost for industry to comply with the proposed rule is \$40 million. This results in an overall cost benefit ratio of about 2,000 person-rem per million dollars.

Legal Authority: 42 USC 2133; 42 USC 2234; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would delete the "Unusual Events" emergency class from the Commission's emergency classification scheme. The current emergency classifications are: (1) notification of unusual events, (2) alert, (3) site area emergency and (4) general emergency. This emergency classification scheme has been used by the NRC, FEMA, licensees and State and local governments for at least four years. During this time, the Commission has noted that the reporting of unusual events not only significantly strains the NRC resources, but tends to establish a "cry wolf" syndrome with State and local governments. The NRC emergency operations center receives approximately 20 notifications of unusual events per week. The purposes of the unusual events offsite notifications are to (1) assure that the first step in any response later found to be necessary has been carried out, (2) bring the operating staff to a state of readiness, and (3) provide systematic handling of unusual events information and decision-making. All of these

purposes are redundant to the purposes and required licensee actions associated with the "alert" classification. (cont)

Additional Information: ABSTRACT CONT: One alternative to the proposed rule would be to not remove the unusual events classification. Another alternative simply would be to delete the unusual event from NUREG-0654. These alternatives would not satisfactorily accomplish the staff's objectives. The staff believes that the deletion of the "unusual events" classification would not impair or decrease the state of preparedness at nuclear power plants. The proposed change would require the NRC to approve revised emergency plans. However, the staff believes that the deletion of "unusual events" will represent a substantial savings to the industry both in dollars and in human resources, approximately one-half staff year per plant. The NRC resources expended through 1985 in order to develop this rulemaking will be approximately two staff-years, or \$120,000 per year.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The Nuclear Regulatory Commission proposes to clarify its regulations on the use of the terms "important to safety" and "safety related" by adding two new definitions to 10 CFR Part 50 and by discussing how these definitions will be applied in NRC licensing reviews. Significant issues concerning the meaning of these terms as they are used in this part have arisen in Commission licensing proceedings. This proposed rule would define these terms and clarify the nature and extent of their effect on

NRC

quality assurance requirements, thereby resolving these issues. The rulemaking should not impact licensees or the public because it clarifies existing requirements. The additional burden on NRC to prepare and implement this rule will be very nominal because current practices will not be changed.

3809. BROAD SCOPE MODIFICATION OF GENERAL DESIGN CRITERION 4 REQUIREMENTS FOR PROTECTION AGAINST DYNAMIC EFFECTS OF POSTULATED PIPE RUPTURES

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed broad scope modification of General Design Criterion 4 (GDC 4) would allow demonstration of piping integrity by analyses to serve as a basis for excluding consideration of dynamic effects associated with pipe ruptures. A proposed rule published July 1, 1985 (50 FR 27006) was limited to the primary loops of pressurized water reactors (PWRs), whereas this proposed rule would cover all high energy piping in all light water reactors (LWRs). The modification will permit the general but selective removal of pipe whip restraints and jet impingement shields from operating plants, plants under construction and future plant designs, but will not impact other design requirements.

The only alternatives to rulemaking would be the granting of partial exemptions to GDC 4 or reinterpretation of the text of the existing rule. The staff has, however expressed that extensive use of exemptions to authorize the elimination of pipe whip restraints is inappropriate. Therefore, it appears most appropriate to undertake rulemaking at this time.

3810. PART 51; CONFORMING AMENDMENTS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 51; 10 CFR 60

Abstract: The proposed rule would provide procedures for performing an environmental review of High Level Waste geologic repositories. Part 51 contains no provisions for the environmental review of a license application for a HLW repository. The Nuclear Waste Policy Act of 1982 established requirements for environmental reviews which are at variance with the environmental review which NRC perform in licensing other types of nuclear facilities. This issue must be addressed in order to avoid delay in the U.S. HLW Program. The proposed rule would benefit the public, industry, and NRC by clarifying licensing procedures, thus avoiding case determinations and possible litigation during HLW geologic repository licensing. Minor revisions to Part 60 will be necessary to conform to the environmental requirements of the NWPA. Alternatives are to take no action, issue an ANPRM, or ask Congress for additional legislation.

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Abstract: The Nuclear Waste Policy Act of 1982 directs NRC to promulgate criteria for the licensing of HLW geologic repositories. By section 121 (c), these criteria must not be inconsistent with standards to be developed by EPA for the disposal of HLW in deep geologic repositories. This proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement. The EPA Standard is scheduled to be promulgated in August, 1985. The alternative is to ask Congress to amend the NWPA. The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations.

CFR Citation: 10 CFR 71

Abstract: The proposed rule would define two classes of LSA materials with specified shipping or packaging requirements. The two classes represent a consolidation of five classes of LSA materials and surface contaminated objects (SCO) now in the 1985 regulations of the International Atomic Energy Agency (IAEA). In addition, the proposed rule provides special consideration for the inherent safety

associated with the shipment of solid, nonflammable objects which are not dispersible in water. A new requirement of the amended rule would impose a dose rate limit on LSA materials. This requirement, which is philosophically consistent with the proposed IAEA regulations, is considered necessary to keep current and future LSA shipments within the envelope of safety originally conceived for such materials. This proposed rule would be responsive to PRM-71-1, PRM-71-2 and PRM-71-4. A new regulatory analysis is currently being developed by the staff which evaluated the financial impacts of having to close heavily traveled roads as a result of a large spill of LSA material.

Abstract: The advance notice of proposed rulemaking was published to solicit public comment on the need for a reassessment of the Commission's criteria for the siting of nuclear power plants. The Commission determined that this action was necessary as a result of experience gained with application of current criteria and the rapid advancement in the state of the art of earth sciences. The NRC staff was particularly interested in finding out about problems that have arisen in the application of existing siting criteria. The public was invited to state the nature of the problems encountered and describe them in detail. The public was also asked to submit proposed corrective actions. Two petitions for rulemaking filed with the Commission, PRM-50-20 and PRM-100-2 will be addressed as part of this rulemaking.

Proposed Rule Stage

Abstract: The proposed rule, which is in partial response to a petition filed by Edison Electric Institute and Utility Nuclear Waste Management Group (PRM-20-15) would amend NRC regulations to specify the criteria and limits to allow on-site incineration of waste oil. Currently, the only approved disposal method for low-level radioactively contaminated waste oil from nuclear power plants involves absorption or solidification, transportation to, and burial at a licensed disposal site. There is an urgent need for alternative disposal methods which are most cost-effective from a radiological health and safety standpoint and, at the same time, conserve limited disposal capacity at

low-level waste burial sites. Both the public and industry, increased savings to ratepayers without undue risk to the public health, and conservation of limited disposal capacity at low-level waste burial sites. Alternatives to rulemaking are to maintain the status quo or to wait until the Environmental Protection Agency develops Federal guidance on acceptable levels of residual radioactivity which may be released on an unrestricted basis. 3818. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The proposed rule provides new provisions intended to implement the Equal Access to Justice Act (EAJA). The provisions would provide for the payment of fees and expenses to certain eligible individuals and businesses that prevail in adjudications with the agency when the agency's position is determined not to have been substantially justified. The basis for these proposed regulations is a set of model rules issued by the Administrative Conference of the United States (ACUS) that have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent by insuring the development of government-wide "uniform" agency regulations and by providing NRC procedures and requirements for the filing and disposition of EAJA applications. A final draft rule was sent to the Commission in June 1982, but Commission action has been suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. The decision from the Comptroller General has been rendered and is currently the subject of litigation.(cont)

3819. SEPARATION OF FUNCTIONS AND EX PARTE COMMUNICATIONS IN ON-THE-RECORD ADJUDICATIONS

Legal Authority: 5 USC 554; 5 USC 557

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the Commission's rules of practice regarding the separation of functions and ex-parte communications in on-the-record adjudications. The proposed rule would allow the

Commission greater flexibility in communicating with its staff by relaxing the restrictions on Commission-staff communications in initial licensing cases. The proposal would permit Commissioners to consult with staff members who were not personally involved in the proceeding and who did not consult privately with interested persons outside the agency. The proposed rule is intended to provide the Commission with better access to the expertise of its staff. It would conform the Commission's rules to those of the Administrative Procedures Act. It would also supersede a prior proposed rule entitled "Ex Parte Communications and Separation of Adjudicatory and Non-Adjudicatory Functions" published in the Federal Register on March 7, 1979 (44 FR 12428).

The issues encompassed in this rule were considered in the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698). As a result of staff evaluation of comments (cont)

Legal Authority: 42 USC 2201; 42 USC 4332; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50; 10 CFR 51

Abstract: The proposed rule would focus on six major issues associated with alternative site selection for nuclear power plants; (1) information requirements, (2) timing, (3) region of interest, (4) selection of candidate sites, (5) comparison of the proposed sites with alternative sites, and (6) reopening of the alternative site decision. The proposed rule would provide procedures and performance criteria for reviewing alternative sites for nuclear power plants under the National Environmental Policy Act of 1969 (NEPA). The proposal is intended to stabilize alternative site review of a license application by codification of the lessons learned in past and recent review of nuclear power plant sites into an environmentally sensitive rule. The proposed rule would develop understandable written NRC review and decision making criteria to permit a rational and timely decision concerning the sufficiency of the alternative site analysis.

Alternatives to this rulemaking would include publishing a policy statement or regulatory guide or withdrawing the proposed rule. Each of these alternatives would be less efficient than completing the rulemaking. The provisions of the proposed (cont)

Confusion and controversy over this issue would be reduced. There would be no significant impact on costs other than savings that would result from greater certainty regarding the Commissions requirements. NRC resources necessary to complete this rulemaking are minimal. Approximately two-man months of staff time will be required to finalize this rule if the Commission decides to complete the rulemaking.

After considering the comments on the proposed rule, the Commission published a final rule on May 28, 1981 (46 FR 28630). That final rule addressed the sixth issue, reopening the construction permit or early site review stages insofar as it relates to operating license proceedings. 3821. POSSIBLE AMENDMENTS TO "IMMEDIATE EFFECTIVENESS" RULES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule indicates that the Commission is considering five alternative amendments to the "immediate effectiveness" rule for construction permit proceedings. Under the original "immediate effectiveness" rule (36 FR 828, January 19, 1971) construction of a nuclear power plant could begin on the basis of an initial decision by the Atomic Safety and Licensing Board (ASLB) even though that decision was subject to further review by the Commission. The Commission is concerned that the rule often prevented it from reviewing a case until construction was well underway and that this might have (1) allowed commitment of large sums of money to altering sites before a final decision was made on site-related

issues and (2) promoted piecemeal review rather than promoting early resolution of all licensing issues to be considered. Present rules provide for limited review of ASLB decisions by the Atomic Safety and Licensing Appeal Board (ASLAB) and the Commission prior to issuance of construction permits.

This proposed rule would help to determine whether NRC should return to the former "immediate effectiveness" rule or adopt one of the following alternatives: (1) require the ASLAB (cont)

The public comment period on the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698) closed June 11, 1984. As a result of staff evaluation of these comments and further staff review of the "immediate effectiveness" issues, a rule is being proposed that will supersede this proposed rule and another entitled, "Commission Review Procedures for Power Reactor Construction Permits; Immediate Effectiveness Rule."

Legal Authority: 42 USC 2239

Final Rule Stage

CFR Citation: 10 CFR 2

Abstract: The proposed rule would expedite conduct of NRC adjudicatory proceedings by requiring intervenors in formal NRC hearings to set forth the facts on which contentions are based and the sources or documents used to establish those facts and limit the number of interrogatories that a party may file in an NRC proceeding. The proposed rule would expedite the hearing process by, among other things, requiring intervenors to set forth at the outset the facts upon which their contention is based and the supporting documentation to give other parties early notice of intervenor's case so as to afford opportunity for early dismissal of contentions where there is no factual dispute. Expediting the hearing process should ultimately provide cost savings to all participants in the process. The content of this rule is being considered as part of the regulatory reform rulemaking package.

3823. COMMISSION REVIEW PROCEDURES FOR POWER REACTOR CONSTRUCTION PERMITS; IMMEDIATE EFFECTIVENESS RULE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the immediate effectiveness rule with regard to rules of practice for granting a power reactor construction permit to conform to those for granting an operating license. It (1) would retain the requirement that the Commission conduct a limited review of an Atomic Safety and Licensing Board's decision to grant a construction permit pending completion of administrative appeals and (2) would delete the requirement that an Atomic Safety and Licensing

Appeal Board conduct a similar review. The proposed rule would not affect the separate Appeal Board and Commission appellate reviews of the merits of Licensing Board decisions. It would reduce somewhat the time required for administrative review of construction permit decisions while retaining direct Commission oversight prior to permit issuance.

The comment period closed November 24, 1982. Nine comments were received. Half of the comments favored the proposed rule while half opposed it. This proposed rule does not preclude further action on five alternatives for amending the "Immediate effectiveness" rule presented in an earlier notice on (cont)

Abstract: The proposed rule would implement the provisions of Title IX of the Education Amendments of 1972, as amended, that prohibit discrimination on the basis of sex in programs and activities receiving Federal financial assistance from the Nuclear Regulatory Commission. The proposed rule sets out the requirements necessary to comply with the legislation and the procedures to be followed by appropriate officials within the NRC in enforcing the requirements. The requirements of the proposed rule would apply to each recipient of Federal financial assistance from the NRC.

Abstract: The notice of proposed rulemaking seeks comment on a proposal to add amendments to 10 CFR Part 20 that would improve the accuracy and consistency of reported occupational radiation dose measurement by requiring proficiency tests of dosimetry processors who perform dosimetry for NRC licensees. The proposed amendments would require NRC licensees to have personnel dosimeters (devices carried or worn by each radiation worker to measure radiation exposure received during work) processed by a dosimetry service that is accredited by NBS/NVLAP. The Commission considered five alternatives for establishing a regulatory program intended to improve personnel dosimetry processing. These alternatives included: no change in current requirements; requiring licensees to participate in performance testing without specifying a testing laboratory; requiring licensees to participate in performance testing conducted by an NRC-specified testing laboratory; a request from Congress for the authority for NRC to license personnel dosimetry processors directly; and requiring licensees to obtain dosimetry services from an NRC-

Additional Information: ABSTRACT CONT:

An evaluation of estimated annual costs to the dosimetry processing industry resulting from an NRC rule requiring licensees to utilize dosimetry processors accredited under an NBS/NVLAP program was projected to be about \$717,000. This would result in an estimated net annual increase in the cost of providing monitoring for each worker per year of \$0.51, a 2.1% annual increase. The major benefit of the proposed rule would be increased accuracy and reliability of dose measurement to workers in licensed installations. Other benefits include continued assurance of personnel dosimeter processor competence with minimal NRC staff and resource allocation; formulation of a program that can easily be utilized by other agencies; value to the industrial licensee through legal credibility of a nationally-recognized accreditation program; and value to the worker through more accurate assignment of dose. The staff is currently analyzing the comments received on the NPRM.

Abstract: The final rule revises current regulatory requirements regarding the frequency of formal publication of changes to the Access Authorization Fees charged by NRC. Currently, section 25.17 states that revised fees

will be published in the Federal Register during July of each year. A more accurate and efficient regulatory requirement would be to revise the access authorization fee schedule concurrent with the Office of Personnel Management's (OPM) notification to NRC of its background investigation rate changes since NRC's fees are wholly dependent on the rate charged by OPM.

Abstract: The proposed rule would exempt from licensing and regulatory requirements technetium-99 and low-enriched uranium as residual contamination in any smelted alloy. The proposed rule would remove the Commission's present specific licensing requirement that has the effect of inhibiting trade in and recycling of metal scrap contaminated with small amounts of these radioactive materials. This requirement also prevents recycling by the secondary metals industry of smelted alloys containing these two radioactive materials. The NRC issued the proposed rule in response to a Department of Energy request. A draft environmental statement for this action has been prepared.

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 51; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking sought comment on a proposal to develop a more explicit policy for decommissioning nuclear facilities. The proposal would provide more specific guidance on decommissioning criteria for production and utilization facility licensees and byproduct, source, and special nuclear material licenses. This action is intended to protect public health and safety and to provide the applicant or licensee with appropriate regulatory guidance for implementing and accomplishing nuclear facility decommissioning. Although it is planned to provide additional guidance through regulatory guides, it is necessary to amend the regulations in order to achieve appropriate assurances that funds for decommissioning will be available.

The major cost impact of the proposed rule would involve proper planning at all stages of nuclear facility operation. Proper planning includes providing for (1) financial assurance that funding will be available for decommissioning, (2) maintenance of records that could affect decommissioning, and (3) careful(cont)

Abstract: The proposed rule would require that the in-house inspection description in a radiography license application specify a method for inspecting each radiographer and radiographer's assistant's knowledge of applicable regulations, license conditions, and performance of established procedures at intervals not exceeding three months. This action is intended to further ensure that radiographic operations are conducted safely.

The cost of performing the inspection is estimated to be \$120.00 per worker or \$432,960 per year for the entire industry. There is no impact on the NRC staff. The proposed rule would also require a licensee to perform and record a radiation survey of a radiographic exposure device made when storing the device after use instead of recording the results of the radiation survey made after the last exposure. This action, which is taken in response to a petition for rulemaking (PRM-34-3) is intended to provide an acceptable procedure for assuring that the sealed source has been properly stored within the device.

Requiring an additional radiation survey at the time of storage provides additional assurance that accidental exposures will not occur to members of the public as well as workers.

The cost of this survey requirement to the entire industry is estimated to be \$541,200 annually (\$150.00 per radiographer). There are no additional recordkeeping costs. Impact on NRC staff is negligible since inspectors will review the time-of-storage survey record rather than the last use survey record. NRC staff time for processing this rule to final publication is estimated to be 0.4 staff years.

Twenty comments were received on the proposed rule, most of which were opposed to the three month inspection of radiographers with a roughly 50-50 split on the storage survey issue.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 35

Abstract: The proposed rule would revise Part 35 to modify the process for licensing and regulating the medical use of radioactive byproduct material. Requirements that apply to medical licensees are scattered in the regulations, license conditions, the individual licensee's application, and licensing branch policy statements. The purpose of the proposed rule is to consolidate and codify the requirements in the regulation. This rule will result in a clearer understanding of NRC requirements for all medical licensees. This revision is necessary in order to

provide a clear consolidated statement of requirement. The only way to impose requirements on all licensees is by license condition or regulation; therefore no alternative action was considered. Because most of the requirements contained in this regulation are currently imposed by regulation or license condition, there will be no significant cost savings or additional burden; the industry and NRC will benefit by having a clear, concise, complete regulation. The Commission approved publication of the proposed revision, but has some comments that need to be resolved before the proposed rule can be published for public comment. (cont)

3835. + LICENSES AND RADIATION SAFETY REQUIREMENTS FOR WELL-LOGGING OPERATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 39

Abstract: The proposed rule would establish specific radiation safety requirements applicable to licensees who perform operations such as well-logging, mineral-logging, and subsurface use of radioactive materials in tracer studies. The proposed rule is necessary because current NRC regulations address these operations in a general way without providing the specific

NRC

Final Rule Stage

guidance necessary to ensure that these operations are performed safely. As an alternative to the status quo, the proposed rule would adopt the requirements similar to those in the suggested State Regulations for Control of Radiation Part W as new NRC regulations. The potential costs for industry to implement these requirements would be about \$1,300,000/yr. However, because most of the requirement is already imposed by license conditions, the net increase in cost would be about \$350,000 per year for the industry or about \$2000 per licensee. The rule would establish a consistent, comprehensive set of the requirements that would minimize the effort required to obtain reciprocity for NRC licensees to operate in Agreement States or vice versa. The rule would require about one staff-year effort.

Abstract: The rule amendments have been revised in response to public comments. The proposal to have licensees check and verify NRC generated inventory reports has been abandoned on the basis of licensee comments that such a system would be more burdensome to licensees and more susceptible to error. The revisions eliminate statements of material balance by licensees of source material unless the licensee possesses source material of foreign origin or reports under the US/IAEA Safeguards Agreement. The revised rules continue to eliminate the requirement for SNM licensees other than reactor licensees and those reporting under the agreement to submit composition of

inventory reports (Form 742c). The reduction in burden for licensees is expected to total 1480 hours per year.

Abstract: At a Commission meeting, October 17, 1984, the Commission directed the staff to draft a policy statement on programs for training and qualification in lieu of publishing this proposed "Fitness for Duty" rule and other proposed training and qualification amendments. On December 10, 1984, the NRC decided to separate the policy statement on fitness for duty from the policy statement on training and qualifications. Therefore, this proposed rule is being withdrawn. The policy is being established to allow power reactor applicants and licensees to develop and implement their own fitness-for-duty programs during a 2-year period. Nothing in the policy statement limits NRC's authority or responsibility to follow up on operational events or its enforcement authority when regulatory requirements are not met.

A proposed policy statement was submitted to the Commission on January 1, 1985, as SECY 85-21. A proposed fitness for duty withdrawal statement was submitted to the Commission on April 12, 1985, as SECY 85-21A. Abstract: When the Commission approved the set of final physical protection requirements for fuel cycle facilities possessing formula quantities (five formula kilograms or more) of strategic special nuclear material (SSNM), they exempted nonpower reactors from these requirements and, instead specified a set of interim requirements. At that time the staff was directed to develop a set of permanent physical protection requirements for this class of nonpower reactors.

This rulemaking is needed: (1) to replace current interim regulations and establish permanent physical security requirements for nonpower reactor licensees who possess a nonexempt formula quantity of SSNM, (2) to provide protection against insiders, and (3) to arrange for a response by local law enforcement or other agencies in time to prevent a theft of a formula quantity.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require an increase in the amount of on-site property damage insurance from the current minimum of \$585 million to \$1.02 billion. The NRC believes that such insurance should be required so that the financing and pace of cleanup following an accident does not become a public health and safety problem. Recent studies indicate that as much \$1.06 billion may be required to cover on-site cleanup of the worst reactor accidents if inflation and other factors are included. Other issues addressed in the proposed rule are whether the Federal government can preempt State law that prohibits certain public utilities from buying insurance offered by mutual companies or requiring payment of a retrospective premium and whether a priority of payment of insurance proceeds for decontamination

and cleanup can be imposed. Action in these areas is required for the same reason as imposition of general insurance requirements, i.e. to remove the financial aspects of recovery after an accident from having an adverse impact on public health and safety.

Additional Information: ABSTRACT CONT: requiring insurance above that currently required but rather allowing the necessity for additional insurance to be determined by economic regulators at the State level.

The impact of the proposed rule on licensees would probably not be large. Most licensees currently purchase insurance in excess of \$1.02 billion. Approximately 10 licensees would be required to carry more insurance than they otherwise would for an annual incremental premium cost of roughly \$1 million per year. Thus the total impact of the rule would be approximately \$10 million per year. The impact on the public would generally be positive in that public health and safety would be better protected. The impact on the NRC would be minimal with respect to increasing the amount of insurance. A decontamination priority, if it were invoked, could require additional hearings with attendant costs. One-half of a staff-year is required by OSP to continue the rulemaking, with minimal impact on other offices expected.

Legal Authority: 42 USC 2201; PL 97-415

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The NRC is publishing a single final rule that combines the two interim final rules implementing, in part, PL 97-415. Modifications to the final rule are based on further staff review and evaluation of public comments received on the two rules. The rules were published on April 6, 1983 (48 FR 14868). They specify criteria for notice and public comment on, procedures for State consultation on, and standards for making determinations about whether amendments to operating licenses for certain facilities involve no significant hazards considerations. In addition, the rules specify procedures for consultation on these determinations with the State in which the facility of the licensee requesting the amendment is located. The rules permit the Commission to act expeditiously if circumstances surrounding a request for an amendment require prompt response and to issue an amendment before holding any required hearing, unless a significant hazards consideration is involved.

NRC has been receiving about 1,000 amendment requests per year. Since promulgation of the two interim final rules, about 98 percent of these have been deemed to involve no significant

Abstract: The Nuclear Regulatory Commission was proposing to amend its regulations to (1) require each holder of and each applicant for a license to operate a commercial nuclear power plant to establish and use a systems approach in developing training programs and establishing qualifications requirements for civilian nuclear power plant operators, supervisors, technicians, and, as appropriate, operating personnel; (2) clarify the regulations for the issuance of licenses to operators and senior operators; (3) revise the requirements and scope of written examinations and operating tests for operators and senior operators; (4) codify procedures for the administration of requalification examinations; and (5) describe the form and content for operator license applications.

The proposed rulemaking was in response to Section 306 of the Nuclear Waste Policy Act of 1982. A regulatory analysis showed a public risk reduction of 268,000 person-rem at a cost of \$240.4 million dollars resulting in a value/impact ratio of 1,100 person-rem/\$million. Additional Information: ABSTRACT CONT: April 9, 1984. Industry requested that the NRC issue a policy statement rather than a rule. Consequently, at an October 17, 1984, Commission meeting, the Commission directed the staff to publish the portion of the proposed rule revising 10 CFR Part 55 "Operators' Licenses," and to draft a Policy Statement on programs for training and qualification of nuclear power plant personnel. The proposed revision was published for comment on November 26, 1984, and the effective Policy Statement was published March 20, 1985.

The Policy Statement replaces the portion of this proposed rule that would have added requirements to 10 CFR Part 50 on training and qualification of plant personnel. The training programs are to be developed and implemented by industry during a two-year period. The policy statement provides guidance regarding NRC's support of the industry-managed training accreditation program and states NRC's continuing responsibility to independently evaluate applicants' and licensees' implementation of training programs.

Abstract: The proposed rule would establish a personnel screening program for individuals requiring unescorted reactor facility access, thus providing increased assurance of the trustworthiness and emotional stability of a reactor site population. Study has indicated that disoriented or disgruntled employees (especially ones who might also be psychotic) at nuclear reactors are of primary safeguards concern because of their inside position. While the Commission has stated that at present it is satisfied with the level of safeguards in place at reactors, it approved publication of the proposed rule for public comment (49 FR 30726) as one means of further assuring

protection of public health and safety. The public comment period concluded March 7, 1985. Extensive comments were received and analyzed.

Alternatives to rulemaking that were investigated, included endorsing an ANSI standard through a regulatory guide, issuing a policy statement that endorses industry developed guidelines, using staff position papers, and implementing license conditions. The proposed regulation will protect against the "insider" threat at reactors through the use of three components: (1) a background investigation to determine past history, (2) a psychological assessment to determine current emotional stability, and (3) a continual behavioral observation program to detect behavioral changes in an individual once granted unescorted access.

Primary benefit to the public and licensees is an increased assurance of the trustworthiness and emotional suitability of individuals working in a nuclear reactor environment. Benefits to the NRC result from the use of a codified program that assures that a uniform approach, meeting minimum requirements, will be applied in screening reactor personnel.

The net increase in cost per applicant and licensee in implementing this requirement is estimated to be \$91,800 initially and \$260,500 per annum thereafter. The net increase in cost to the NRC due to estimated time in reviewing proposed

3843. PROTECTION OF CONTRACTOR EMPLOYEES

Legal Authority: 42 USC 2236; 42 USC 2282; 42 USC 5851

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require 10 CFR Part 50 licensees, permittees, and applicants to ensure that procurement documents they issue or modify, specify that contractors and subcontractors post a notice to employees related to employee protection. The required notice would contain information notifying employees that an employer is prohibited from discriminating against an employee engaging in protected activities and that an employee may seek a remedy for prohibited discrimination by filing a complaint with the Department of Labor.

The proposed amendment would affect licensees, permittees, applicants, and their contractors and subcontractors who are contractually responsible for construction of basic components or production and utilization facilities. Although there is no health and safety reason for addressing the issue, NRC is interested in protecting employees from discrimination. However, because Section 210 of the Energy Reorganization Act does not give the NRC direct authority over contractors and subcontractors and it clearly envisioned that the Department of Labor would be the principal agency in ensuring the rights of nuclear industry

3844. + COMMUNICATIONS PROCEDURES AMENDMENTS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: This proposed rule would amend the regulations which establish the procedures for submitting correspondence, reports, applications, or other written communications pertaining to the domestic licensing of production and utilization facilities.

The proposed amendments are expected to resolve confusion regarding submittal procedures and improve the communication process with the affected applicants and licensees.

The proposed amendments would (1) simplify the procedures for making Part 50 submittals to the NRC; (2) facilitate the timely dissemination of Part 50 submittals to NRC staff; (3) reduce postage and copying costs for applicants and licensees by requiring fewer copies of submittals; (4) establish a central NRC receipt point for Part 50 submittals; (5) include the NRC Resident Inspectors in the formal communications; and (6) supersede all outdated submittal directions contained in other sources of submittal guidance, such as Regulatory Guide 10.1 (Revision 4) and NRR Generic Letter 82-14. Although these documents addressed the problem, they did not entirely resolve the confusion. Moreover, subsequent changes in the (cont)

The current regulations also cause unnecessary delays in the dissemination of information to NRC staff. For example, any document submitted to an NRC Regional Office will not usually be disseminated to NRC Headquarters staff until two weeks later.

These problems can be resolved only by amending 10 CFR Part 50, since the current regulations are the source of the problems. The proposed rule is

expected to reduce postage and copying costs for licensees and applicants subject to 10 CFR Part 50. An annual savings of \$140,000 is estimated. In addition, the NRC is expected to realize a small savings in postage costs. Preparing and publishing this rule would cost NRC approximately 320 hours of staff time at \$60 per hour for a total of \$19,200.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would consider the need to take into account the complicating effects of earthquakes on emergency preparedness. Existing regulations require that nuclear power plants be designed to safely shut down for most earthquakes. The probability of earthquakes large enough to cause major onsite damage that would result in a significant radiological release from the plant is low; and for large earthquakes, offsite damage could make prior offsite emergency plans premised on normal conditions marginally useful.

One alternative to the proposed rule change would be to require that the emergency plans specifically address the impact of earthquakes. Another alternative would be to adjudicate the issue on a case by case basis.

The proposed amendment will not greatly affect the industry since licensees are required to have approve emergency response plans which are flexible enough to assure that appropriate protective measures can be taken to mitigate the consequences of a nuclear emergency. The public will not be affected as adequate emergency preparedness at nuclear reactors will be (cont)

3846. + LIMITED SCOPE MODIFICATION TO GDC 4 REQUIREMENTS FOR PROTECTION AGAINST POSTULATED PIPE RUPTURES

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would permit licensees and applicants to use newly developed analytical methods involving widely accepted advanced fracture mechanics theories for determining that certain pipe ruptures need not be treated in the design basis for dynamic effects. Implementing of the rule would facilitate the removal of unnecessary pipe whip restraints and jet shields from existing nuclear power plants and plants under construction as well as future plant designs. This would reduce inservice inspection cost and, in addition, would reduce inspector radiation exposure.

The need and urgency for addressing the issue stems from the widespread acceptance of the analysis results and the research findings pertaining to pipe rupture coupled with increasing confidence in its applicability.

Prior to the last few years, there was no sound technical basis for excluding certain pipe ruptures from the design basis. Now it is clear that it is possible to defend the exclusion of PWR primary loop double ended guillotine pipe ruptures, and that the scope may be extended to other piping. A benefit derived from the rule would be avoidance of extensive exemptions to General Design

3847. EXPLANATION TO TABLE S-3 URANIUM FUEL CYCLE ENVIRONMENTAL DATA

Legal Authority: 42 USC 2011; 42 USC 4321

CFR Citation: 10 CFR 51

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the use of the table. The narrative explanation also addresses important fuel cycle impacts and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants.

The proposed rule was published for public review and comment (46 FR 15154, March 4, 1981), but the final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v NRC, NO. 74-1486) in the U.S. Court of Appeals. The U.S. Court of Appeals (D.C. Circuit) decision of April 27, 1982, invalidated the entire Table S-3 rule. The Supreme

Court reversed this decision on June 6, 1983. (cont)

CONT:

The proposed rule to provide a narrative explanation for Table S-3 was revised to reflect new developments and the passage of time while the rulemaking was deferred. However, final action on the Table S-3 rule was held in abeyance until new values for radon-222 and technetium-99 can be added to the table and covered in the narrative explanation. On October 7, 1984, EPA promulgated new radon standards for inactive uranium mill sites and in October 1985 NRC published revised uranium milling regulations conforming to the new EPA standards. However, EPA received, in August 1985, a court order requiring them to establish radon standards for active uranium mills. Considering this further delay in making final estimates of total radon releases from uranium milling and the fact that there are no open licensing cases involving issues which would be covered by the narrative explanation of Table S-3 of the new values for radon-222 and technetium-99, the staff is preparing a Commission Paper recommending this rulemaking be withdrawn.

Abstract: The proposed rule would revise procedures regarding NRC reviews of license applications for

disposal of high-level radioactive wastes in geologic repositories. The procedures are being revised principally to conform to the provisions of the Nuclear Waste Policy Act of 1982. Specifically, the proposed rule would clarify that NRC begins its review in this licensing process after DOE provides NRC a site characterization plan and that usual rules of practice apply to licensing of these repositories. It would also provide that the NRC may publish a notice of receipt of a site characterization plan and a notice inviting comments on its analysis of a plan.

The proposed rule would also change some of the procedures for the participation of States and Indian tribes in the licensing process. Without the proposed rule, there would be major incongruities between the Nuclear Waste Policy Act and 10 CFR Part 60. Alternatives to the proposed rule would be changing the Nuclear Waste Policy Act or doing nothing and allowing incongruities to exist, with subsequent risk of litigation against NRC.(cont)

3849. MATERIAL CONTROL AND ACCOUNTING REQUIREMENTS FOR LICENSEES POSSESSING FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The proposed rulemaking would replace existing material control and accounting (MC&A) requirements for fuel cycle facilities that are authorized to possess and use formula quantities of strategic special nuclear material (SSNM).

It would establish a performance oriented regulation that emphasizes timely detection of formula quantity SSNM losses and provides for more conclusive resolution of discrepancies than is currently achievable. Experience with existing regulations has demonstrated weaknesses in the area of alarm resolution principally because of a lack of timely detection of anomalies and poor loss localization capabilities. The rulemaking would alleviate these liabilities by requiring tests on a more timely basis on small plant subdivisions.

An alternative to the rule would be to implement the concepts through license amendments for the four involved licensees; however, such an action would be inconsistent with the Administrative Procedures Act and the direction provided in NRC's Policy and Program Guidance document. The protection of the public health and safety will be enhanced through earlier (cont)

Legal Authority: 42 USC 2101; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would require in Nuclear Power Plants (1) access control to vital areas, (2) the protection of certain physical security equipment, (3) revised requirements for key and lock controls, and (4) revised authority to suspend safeguards measures during emergencies. (Years of operating revealed a need for clarification and refinement.) The requirements will clarify policy in these areas and reduce unnecessary burden on the industry while maintaining plant protection. This rule is a revision of the proposed rule entitled, "Access Controls to Nuclear Power Plant Vital Areas." Initial development of a final rule produced significant changes, particularly in the criteria for personnel access controls to vital areas, resulting in the need to publish a revised rule. This proposed rule and the other components of the insider rule package were reviewed by the NRC Safety/Safeguards Review Committee which considered a number of alternative approaches to vital areas and provided recommendations that are reflected in the proposed rule.

3851. + MODIFICATION OF PROTECTION REQUIREMENTS FOR SPENT FUEL SHIPMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: A proposed rule has been issued to moderate the present interim requirements for the protection of shipments of irradiated reactor fuel cooled for 150 days or more. Recent research shows that the quantity of radioactive material that would be released as a result of successful sabotage is much smaller than was supposed at the time that the interim rule was issued. The alternatives considered during the development of the proposal were: (1) let the current interim requirements continue in force; (2) moderate the current requirements; and (3) eliminate all interim requirements. The alternative of

moderating the requirements was selected. The moderated requirements would provide for (1) shipments to be accompanied by an unarmed escort, who may be driver or carrier employee and may have other duties, (2) on-board communications, and (3) immobilization capability for trucked shipments. Present interim requirements will continue to be effective for shipments of irradiated fuel cooled less than 150 days. The benefit of the proposed rule would be the elimination of unnecessarily strict requirements which presently apply to spent fuel shipments.(cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would revise the search requirements for individuals entering the protected area of nuclear power plants. Under the proposed requirements, all persons would be subject to equipment searches for firearms, explosives and incendiary devices. Physical searches would be required only when search equipment is not working properly or when the licensee suspects that an individual is

attempting to carry into the plant prohibited devices or material. Random searches were considered as an alternative, but were dismissed as being possibly disruptive. Since licensees already possess the necessary equipment, this rule will affect only licensee procedures at negligible additional cost.

Since requirements for searches have been in effect for some time, and modifications to those requirements are needed, alternatives to this rulemaking such as revised guidance would be inappropriate in that they would not carry the force of a regulation.

Abstract: The proposed rule would amend reporting requirements of section 73.71 for reports of unaccounted for shipments, suspected thefts, unlawful diversion, and other safeguards events. (Conforming amendments are included for 10 CFR Parts 70, 72, and 74). The staff has found the present requirements confusing to licensees and therefore,

difficult for licensees to properly implement. These difficulties have contributed to safeguards event reports that lack uniformity and contain insufficient data for analysis.

Safeguards event reporting requirements are necessary to permit timely response by the NRC to safeguards incidents and to identify possible generic deficiencies in safeguards systems. Until the requirements for reporting are clarified and simplified, the problems identified above will continue to exist. This is considered to be a matter of moderate urgency. An alternative to rulemaking is issuance of additional or revised guidance on the present requirement. However, such guidance would lack regulatory authority. Since the problems have arisen over the abstract nature of the present requirement, it appears the best solution is to correct the source of the problem by amending

The proposed amendments redefine, in clearer terms, the events to be reported and classify certain of these events into different reporting categories. The current 24 hour telephonic notification is deleted. All events would be either telephonically reported within one hour or logged in licensee records to be submitted to the NRC quarterly. Concurrent with the rule revision, a revised regulatory guide is being developed which provides a format for reporting to the NRC and gives examples of what types of events should be reported.

There is expected to be no cost impact to the public. Benefits to licensees will be clearer, simpler regulations, and a reduction in telephonic and written report making. While the proposed regulations will require more detailed, standardized written reports, the reduction in the number of telephone and written reports is expected to result in a net cost decrease to industry of \$641,600 incurred on an annual basis.

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Abstract: The proposed rule would revise the criteria the Commission currently follows in determining an extraordinary nuclear occurrence (ENO), in order to overcome the problems that were encountered following the Three Mile Island (TMI) accident when the present criteria were applied. The proposed criteria would focus on items that can be readily counted or estimated within a relatively short time following an accident (i.e., substantial release of radioactive material or radiation offsite and substantial exposure levels). The revised criteria will provide for speedy satisfaction of legitimate claims in the event of an ENO. Because ENO criteria are administrative criteria for use by the Commission, they do not impose any requirement upon a licensee.

CFR Citation: 10 CFR 2; 10 CFR 72

Abstract: The final rule contains two options for implementing the hybrid hearing process in Section 134 of the Nuclear Waste Policy Act of 1982. That section sets forth a hybrid hearing process for certain contested proceedings on applications for a license or a license amendment to expand the spent nuclear fuel storage capacity at the site of a civilian nuclear power reactor. Either version of the final rule would provide for an oral argument in the early stage of the hearing process and would designate only genuine and substantial issues for resolution in an adjudicatory hearing.

Option 1 adds a new Subpart K to Part 2. Subpart K requires the use of hybrid procedures in all proceedings to which section 134 applies. It also changes the initial stages of the existing hearing process by allowing a person whose interest is affected to participate as a party and to obtain discovery without the need to plead contentions. Option 2 permits the use of hybrid procedures at the request of any party to the proceeding. It will be implemented by means of an alternative form of summary disposition under a new Sec. 2.749a.

3860. PRODUCTION OR DISCLOSURE IN RESPONSE TO SUBPOENAS OR DEMANDS OF COURTS OR OTHER AUTHORITIES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

Abstract: The final rule adds Subpart D to 10 CFR Part 9 to prescribe procedures with respect to the production of documents or disclosure of information in response to subpoenas or demands of courts or other judicial or quasi-judicial authorities in state and Federal proceedings. The final rule clarifies the procedures to be followed by Commission employees in responding to demands for testimony, information, or documents and would ensure that the responsibility for determining the response to the demands is placed on the appropriate Commission official. The rule will allow the Office of General Counsel more control over Commission information and documents subpoenaed in litigation to which the NRC is not a party. There is no alternative to rulemaking for this issue. This rule will require those who seek to use current or former NRC

Abstract: The NRC is proposing to amend its regulations pertaining to the availability of records under the Freedom of Information Act to clarify and conform them to existing case law and to reflect long-standing agency practice. In addition, the NRC is proposing to amend its regulations to conform the reproduction costs for Privacy Act records to those currently charged at the NRC's Public Document Room and other NRC offices for publicly available documents.

The amendments are necessary to inform the public of these administrative changes to NRC regulations.

3863. + REVISED CRITERIA AND PROCEDURES FOR DETERMINING ELIGIBILITY FOR ACCESS OR CONTROL OVER SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201(i); 42 USC 5841

CFR Citation: 10 CFR 11

Abstract: The final rule amends the requirements for applications for initial access authorization and for their renewal by allowing utilization of information on file with the government on individuals who possess current active clearances based upon equivalent investigations. The final changes eliminate unnecessary duplication of administrative costs to licensees for individuals who possess comparable clearances and also eliminate certain NRC administrative costs. The objective of this rulemaking action is to provide an effective program for the Commission to grant special nuclear material access authorizations without imposing unnecessary administrative burdens on licensees. This can be achieved by effecting the foregoing changes to the existing rule, which will allow the Commission to grandfather certain cleared licensee employees into the program and to accept application forms and investigative data provided by other Federal agencies, thereby eliminating the \$1580.00 investigation fee.

CFR Citation: 10 CFR 20; 10 CFR 71

Abstract: The unpublished rule is being withdrawn because of a lack of resources to proceed with an administrative rulemaking that is not expected to result in any substantive increase in protection of the the public health and safety. The proposed amendments would have revised the requirement for advance notification of waste shipments to provide a more uniform level of hazard at which the report is required. The proposed level of hazard was expected to conform to the level at which the Department of Transportation imposes motor vehicle routing requirements. The proposed amendments would have also clarified which of the general licenses in 10 CFR Part 71 require quality assurance programs.

3867. CERTIFICATION OF INDUSTRIAL RADIOGRAPHERS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 34

Abstract: The advance notice of proposed rulemaking would have required all individuals who use byproduct material in the conduct of industrial radiography to be certified by a third party. Radiography licensees account for over 60 percent of the reported overexposures greater than five rems to the whole body. NRC regulations permit industrial radiographers to perform radiography independently. The NRC grants radiography licensees the authority to train and designate individuals competent to act as radiographers. The advance notice of proposed rulemaking sought comment on a proposal that would enable NRC to verify the effectiveness of this training, thereby assuring that all radiographers possess adequate training and experience to operate radiographic equipment safely.

Following a series of public meetings, many comments were received. The thrust of the comments was that current training programs and examination procedures administered by licensees were adequate for determining the competence of individuals to be industrial radiographers. An ad hoc Radiography Steering Committee formed to improve radiation safety in the (cont)

3868. PATIENT DOSAGE MEASUREMENT

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: Each specific NRC medical licensee is currently required by license condition to measure radiopharmaceutical dosage before it is administered to a patient. This proposed rule is intended to ensure the consistent application of the requirement and to simplify licensing by replacing the individual license conditions with a single regulatory requirement that would apply to all current and future medical licensees. The proposed rule will require licensees to measure each dosage and make a record of each measurement. Because the requirement is currently imposed by license condition, there will not be cost savings or additional burden; however, the industry and NRC will benefit by having a clear, concise requirement in the regulation.

The proposed rule is being incorporated into a proposed revision of 10 CFR Part 35 (See RIN-3150-AA-73 Medical Use of Byproduct Material).

Legal Authority: 42 USC 2014; 42 USC 2092; 42 USC 2093; 42 USC 2094; 42 USC 2095; 42 USC 2111; 42 USC 2113; 42 USC 2114; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2282; 42 USC 2021; 42 USC 5841

CFR Citation: 10 CFR 40

Abstract: The final rule revises the Nuclear Regulatory Commission's regulations governing the disposal of uranium mill tailings to conform them to regulations recently published by the Environmental Protection Agency that set standards for protecting the environment from these wastes. The final rule would remove inconsistencies between NRC and EPA requirements and incorporate in NRC regulations the stability, radon release, and other provisions of the EPA standard not related to groundwater. This action is necessary to comply with provisions of the Uranium Mill Tailings Radiation Control Act and the NRC Authorization Act for FY 1983; therefore no alternatives to this action need to be considered. EPA has estimated that compliance with their recently published regulations would cost the uranium milling industry from about \$310 million to \$540 million to dispose of all existing tailings and tailings to be generated by the year 2000. This includes the costs of the groundwater protection provisions which are to be addressed in future NRC rule changes. The EPA regulations are binding on NRC licensees in the interim.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The Executive Director for Operation approved the termination of this rule on March 5, 1986. The proposed rule would have amended current regulations pertaining to technical specifications for nuclear power reactors. Specifically, the proposed rule would (1) establish a standard for deciding which items derived from the safety analysis report must be incorporated into technical specifications, (2) modify the definitions of categories of technical specifications to focus more directly on reactor operations, (3) define a new category of requirements that would be of lesser immediate significance to safety than technical specifications, and (4) establish appropriate conditions that must be met by licensees to make changes to the requirements in the new category without prior NRC approval.

3871. DESIGN AND OTHER CHANGES IN NUCLEAR POWER PLANT FACILITIES AFTER ISSUANCE OF CONSTRUCTION PERMIT

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The Executive Director for Operations has decided to discontinue activity on this rulemaking and thus recommends that it be withdrawn. The basis for this recommendation is two-fold. First, the notice of withdrawal would inform the public that comments on the advance notice of proposed rulemaking have been considered in the NRC's decision not to proceed with this rulemaking. Second, it is the NRC's

judgement that completed and proposed rulemakings since 1979, e.g., 10 CFR 50.34 (f) (CP/ML Rule), 10 CFR 50.34 (g) (Conformance with SRP), and 10 CFR 50.55 (f) (QA Commitments), plus cancellations and indefinite postponements of nuclear power plants (all construction permit holders are now operating license applicants), have rendered moot the need for further staff response to the Commission's request for identifying design and other changes that a construction permit holder may make after the NRC issues a construction permit.

The proposed rule would have prescribed improved approaches for reducing and better controlling the level of change in reactor design and construction.

CFR Citation: 10 CFR 50

Abstract: The final rule establishes requirements for long-term management of the Commission's review process for the imposition of new regulatory requirements on power reactors. More specifically, the objective of the rulemaking is to address "backfitting", a process which can include both plant specific changes and generic changes as applied to one or more classes of power reactors. This rulemaking would revise 10 CFR 50.54, 50.109, 2.204, and add a conforming amendment to Appendix O. The rule is intended to reduce costs of "backfitting" for licensees through better management of this review process.

3873. EXTENSION OF CRIMINAL PENALTIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule, in accordance with the provisions of the NRC Authorization Act for Fiscal Year 1980, would extend the application of the criminal penalties provision of the Atomic Energy Act (AEA) of 1954, as amended, to any individual director, officer, or employee of a firm constructing or supplying the components of a nuclear power plant who knowingly and willfully violates any NRC regulation, order, or license condition during construction of a nuclear power plant. Section 223(b) of the AEA essentially directs the Commission to establish a limit for potential unplanned off-site releases of radioactive material which would trigger consideration of possible criminal penalties. As directed in Section 223(b)(3), the proposed rule establishes in its definition of a "basic component," the limits for potential unplanned releases of radioactive material that could trigger application of criminal penalties.

This unpublished rule is being withdrawn because it has been incorporated into a new proposed rule on posting requirements for the protection of contractor employees and extension of criminal penalties.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The final rule incorporates by reference the Winter 1982 Addenda, Summer 1983 Addenda, Winter 1983 Addenda, Summer 1984 Addenda, and the 1983 Edition of Section III, Division I, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), and the Winter 1982 Addenda, Summer 1983 Addenda, and the 1983 Edition of Section XI, Division I, of the ASME Code. The ASME Code sets standards for the construction of light-water-reactor nuclear power plant components in Section III, Division 1, and specifies requirements for the inservice inspection of those components in Section XI, Division I. The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction and inservice inspection of nuclear power plant components.

Incorporating by reference the latest edition and addenda of the ASME Code will save applicants/licensees and the NRC staff both time and effort by providing uniform detailed criteria against which the staff can review any single submission. Abstract: The proposed rule would have amended the Commissions's emergency planning regulations to reflect experience gained since 1980 and reorganize the emergency planning requirements for clarity. Research studies on reactor risk and practical emergency planning experience have led to a refined portrayal of reactor risks and consequences. The proposed rule would have required a graduated emergency response capability to reflect a more realistic program for dealing with radiological emergencies at nuclear power plants.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

Abstract: The final rule requires that non-power reactors use only low-enriched uranium fuel (LEU), with certain exceptions. The final rule reduces the high-enriched uranium fuel (HEU) in the United States and thereby reduces the potential for theft or diversion. The majority of licensees affected by the final rule are universities operating research and training reactors. To date, four of the 25 affected universities have made the decision to curtail the operation of their research/training reactors.

Regulatory Flexibility Agenda and
Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions, pursuant to Chapter Six of the Administrative Procedure Act and Office of Management and Budget Bulletin 86-4. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission is also publishing a list of rule reviews anticipated to be completed during the next twelve months. The Commission invites questions and public comment on individual agenda entries.

DATE: Public Comments are due by June 30, 1986.

ADDRESSES: Persons wishing to submit written views should file three copies with John Wheeler, Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Room 6184, Stop 6-9, Washington, D.C. 20549. All submissions should refer to File No. S7-9-86, and will be available for public inspection at the Commission's Public Reference Room, Room 1024, at the same address.

FOR FURTHER INFORMATION CONTACT: Joseph A. Meiburger, Jr., Directorate of Economic and Policy Analysis, Securities and Exchange Commission, 450 5th Street, N.W., Room 7169, Stop 7-6, Washington, D.C. 20549 (202-272-

7110). Additional names of persons to contact are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each federal agency during April and October of each year to publish in the *Federal Register* a regulatory flexibility agenda identifying rules which the agency expects to propose, adopt or review which are likely to have a significant economic impact on a substantial number of small entities (the "significant impact criterion").¹

The RFA also requires the review of existing rules.² The Commission published in June 1981 a plan for the periodic review of all rules issued by the agency which may meet the significant impact criterion.³ The plan provides for the review of all such rules in effect on January 1, 1981 within ten years of that date and for the review of such rules adopted thereafter within ten years of their adoption as final rules. The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding twelve months.⁴ Part II of the agenda contains four of these entries.

The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be required to be reviewed. The Commission is identifying them here in order to inform the public of its intention to review them. Part III of the agenda identifies the 8 rulemaking actions and 6 rule reviews which have been completed since the last RFA release was approved by the Commission on August 28, 1985.⁵ The agenda relies on the definitions of the term "small entity" for purposes of the RFA which were adopted by the Commission for the various categories of regulated entities.⁶

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included, nor is the

Commission required to consider or act on any matter which is included.⁷ Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities. This preliminary judgment may be changed upon further analysis.

With this issue, the Regulatory Information Service Center is making changes to the format of the Unified Agenda. The entries will now be categorized as "Prerule" on the basis of the characteristics of the next action. The "Prerule" category will now include rule reviews and rulemaking actions where the next action is identified as an Advance Notice of Proposed Rulemaking (or a concept release rather than a rule proposal). The "Proposed" category will contain entries where the next action is expected to be a rule proposal or amendments to an existing rule. The "Final" category will now include both open actions already proposed but not yet adopted as well as completed actions.

Below is an index of the Commission's entries to this April 1986 "Unified Agenda of Federal Regulations." The agenda contains new entries as well as items carried over from the October 1985 publication. New entries are marked with an asterisk. Copies of this preamble and a list of the entries (including next action dates and identifying a staff contact) are available from the Commission's Office of Public Affairs (Room 1015). The entries themselves are also available for inspection and copying in the Public Reference Room (Room 1024) (File S-7-9-86), as noted above.

The Commission invites public comment on the individual entries in its agenda of rulemaking actions and rules scheduled for review in 1986.

By the Commission.

3880. PROPOSED TENDER OFFER RULE AMENDMENTS

Legal Authority: 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78c(b); 15 USC 78n(d); 15 USC 78n(e); 15 USC 78w(a)

CFR Citation: 17 CFR 240.14d-1 to 240.14d-101; 17 CFR 240.14e-1 to 240.14e-3

Abstract: On January 9, 1986, the Commission authorized the staff to draft a release seeking public comment on three concepts relating to the regulatory corporate takeovers: (1) whether substantial acquisitions of securities effects during the pendency of, or subsequent to the termination of, a tender offer for such securities present issues with respect to takeover practice and, if so, whether a regulatory response such as one described herein is appropriate; second, on the need to establish a shareholder approval requirement for the adoption of "poison pill" security plans; (3) whether to establish provisions in the proposed all holders rule or other tender offer rules by which issuers may "opt-out" of the requirements of such rules through the adoption of charter amendments by shareholders. The Commission will review comments made in response to this release with a view towards determining whether future rulemaking or legislative proposals are necessary and appropriate.

Securities Markets and Securities Industry Rules**3881. SHORT SALES**

Legal Authority: 15 USC 78a; 15 USC 78b; 15 USC 78c; 15 USC 78i(a)(6); 15 USC 78j(a); 15 USC 78j(b); 15 USC 78o(c); 15 USC 78w(a)

CFR Citation: 17 CFR 240.10a-1

Abstract: Rule 10a-1 regulates short sales of certain securities. The rule provides generally that short sales of exchange-listed reported securities (i.e., securities as to which last sale information is reported in the consolidated system) may be effected only at a price above the price at which the immediately preceding sale was effected ("plus tick"), or at a price equal to the last sale price if the last preceding transaction at a different price was at a lower price ("zero-plus tick"), established by reference to the last sale price reported from any market in the consolidation system. The general purpose of Rule 10a-1 is to prevent manipulative sales of a security for the purpose of accelerating a decline in the price of such security.

Legal Authority: 15 USC 78c(b); 15 USC 78j(a); 15 USC 78w(a)

CFR Citation: 17 CFR 240.10a-2

Abstract: Rule 10a-2 regulates covering transactions for short sales. If on the due date of delivery of a security sold pursuant to an order marked "long" the broker or dealer has not received the security from the customer, he must cover the open position unless he knows or has been informed by the seller either (1) that the security sold has been forwarded to the account for which the sale was effected; or (2) that the seller owns the security sold, that it is then impracticable to deliver to such account the security owned and that he will deliver such security to such account as soon as is possible without undue inconvenience or expense.

Abstract: The staff is considering whether to propose amendments to Industry Guide 3, statistical disclosure by bank holding companies and Article 9 of Regulation S-X. The formation of savings and loans holding companies has increased during the past several years to the point where approximately 60 savings and loan holding companies file with the Commission. In addition, a number of other registrants own savings institutions. The Commission's regulations do not specifically address the filing requirements for savings and loans, which have certain practices peculiar to the industry. The amendments, if proposed, would focus on disclosure requirements to enhance the comparability among registrants.

CFR Citation: 17 CFR 231; 17 CFR 241

Abstract: The staff is considering whether to propose an amendment to Industry Guide 3, statistical disclosure by bank holding companies. Since 1982, a number of foreign countries have restructured significant portions of their debt owed to multinational consortiums of financial institutions. These restructurings can impact individual bank holding companies differently because of the relative exposures to these foreign countries. The amendment, if proposed, would focus on uniform disclosures of the terms of the restructurings and the impact to the bank holding company. This disclosure

would enhance the comparability between registrants.

Legal Authority: 15 USC 77g; 15 USC 77j; 15 USC 77s(a)

CFR Citation: 17 CFR Not yet determined

Abstract: Currently, there are no disclosure requirements specially tailored for issuers of partnership interests. Thus, they currently must refer to requirements which have been designed for use by corporations. Special disclosure requirements have developed as a matter of administrative practice. These requirements differ depending upon the type of partnership interest involved. This project will involve development of uniform disclosure requirements for all varieties of partnership offerings, with a focus on those characteristics common to all or most limited partnerships, such as tax implications. It also will involve codification of informal practices and streamlining of registration to the extent appropriate. These efforts are expected to facilitate the preparation of registration statements concerning such interests and to improve the disclosure provided to investors.

Legal Authority: 15 USC 77s Securities Act

CFR Citation: 17 CFR 230.100 to 230.180

Abstract: The Commission is conducting a "sunset" review of the thirty-nine rules contained in the "100 series" of general rules under the Securities Act. Generally, these rules define key terms used in the Securities Act. The object of this review is to eliminate any inconsistencies, to delete unnecessary, outmoded or duplicative rules and to update and revise the remaining provisions. This project is in addition to the separate project to review Rules 137, 138 and 139.

Legal Authority: 15 USC 77b(10); 15 USC 77s(a)

Abstract: The rule is being examined in response to informal requests from the public that its scope be broadened. The Commission is considering changes which would permit the inclusion in communications under the rule of information that is relevant in informing investors of the existence of certain

types of securities, while ensuring that any efforts to sell such securities are conducted by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933. In the context of this rule-making action, Rule 134 is being fully reviewed.

Abstract: The Securities Act of 1933 ("Securities Act") requires securities to be registered with the Securities and Exchange Commission ("SEC") prior to an offer or sale unless an appropriate exemption from registration exists. Section 3(b) and 4(2) of the Securities Act provide for exemption from registration and Regulation D was promulgated thereunder. Regulation D requires the filing of a Form D 15 days after the first sale pursuant to the Regulation D exemption. The Commission plans to revise Form D to eliminate certain information currently required by the Form and to clarify other questions therein in order to minimize the filing burdens on issuers using the Regulation. In the context of this rulemaking, Form D will be fully reviewed for purposes of the Regulatory Flexibility Act.

Abstract: As part of its proxy review program, the Commission intends to review the rules governing proxy contests, which are contained in Regulation 14A, promulgated under Section 14(a) of the Exchange Act. Regulation 14A regulates the solicitation of proxies in regard to securities registered under Section 12 of the Exchange Act. In general, Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. This review focuses only on regulations concerning proxy contests. Rules 14a-3 through 14a-10 prescribe certain filing, dissemination and disclosure requirements with respect to all proxy solicitations, including proxy contests. Rule 14a-11 prescribes special requirements relating only to contested elections of directors. The number of

proxy contests has risen in recent years and the rules relating to them have not been reexamined in some time. The Commission's goal in this review is to make sure that the rules pertaining to proxy contests still operate effectively in addressing this dynamic area, thus benefiting shareholders and issuers.

Securities Markets and Securities Industry Rules**3897. EXEMPTION OF SALES OF CERTAIN INTERESTS AND PARTICIPATIONS ISSUED IN CONNECTION WITH H.R. 10 PLANS FROM SECTION 15(A)****Legal Authority:** 15 USC 78c(a)(12); 15 USC 78o; 15 USC 78w; 15 USC 77c(a)(12); 15 USC 77s(a)**CFR Citation:** 17 CFR 240.3a12-10; 17 CFR 230.180

Abstract: The proposed rule would specify certain conditions under which persons engaged in the sale of interests and participation issued in connection with certain tax-qualified retirement plans ("H.R.10" or "Keogh" plans) would not be required to register as broker-dealers under Section 15(a) of the Securities Exchange Act of 1934. In 1981, the Commission adopted Rule 180 under the Securities Act of 1933 exempting from the registration requirements of that Act interests and participations issued in connection with H.R. 10 plans. The proposed rule provides a parallel exemption from broker-dealer registration for sales of such interests and participations in H.R. 10 plans. As an alternative the staff could consider granting no-action or exemptive requests on a case-by-case basis. However, such procedure would be inefficient and needlessly expensive for both the public and the Commission staff. In addition, the Commission is proposing to amend Rule 180 to clarify that, under paragraph (a)(3)(ii) of that Rule, the employer only needs to obtain investment advice prior to the investment of plan assets. This proposal codifies a previous staff position.

Abstract: Rule 15b1-2 requires every broker or dealer who file an application to register on Form BD to include a financial statement disclosing the amount and nature of assets and liabilities and the net worth of the broker-dealer, as well as a computation of aggregate indebtedness and net capital, which generally must comply with Rule 15c3-1. In addition, the Rule states that a schedule of securities which must be furnished with the statement of financial condition will generally be kept confidential if bound separately. The Rule also requires that an applicant for registration provide

representations that capital contributed to the broker-dealer will continue to be devoted to that business and that arrangements have been made to establish and maintain adequate facilities for business, including a discussion of personnel, physical facilities, maintenance and preservation of books and records, procedures to be utilized in supervising associated persons, and a statement describing the source of funds for the operation of the business during its first year.

Abstract: Rule 15c2-4 applies to best-efforts distributions of securities that are conducted on any basis where payment will not be made to the issuer until some further event or contingency occurs. It requires a broker-dealer participant either to promptly deposit investor's funds into a separate bank account, or to promptly transmit such funds to a bank escrow agent, until the contingency occurs. The purpose of the rule is to insulate offering proceeds from unlawful activities by, or the financial reverses of, the broker-dealer, pending the occurrence of the contingency. Amendments to the rule are being considered that would resolve ambiguities and would codify interpretive positions taken by the staff since the rule's adoption in 1962. An interpretive release is being considered as an alternative. Neither action would increase the costs of complying with the rule since either action would simply clarify, not change, the application of the rule. The benefits of either action would be eliminating confusion and ambiguity, more clearly defining a broker-dealer's

Abstract: Currently, Rule 17Ad-1 provides definitions for terms that apply to Rules 17Ad-2 through 17Ad-7, which, among other things, establish minimum performance standards, recordkeeping and record retention requirements for registered transfer agents. The proposed amendments would modify the definition of "item" as that term relates to depository shipment control lists. Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies which issue periodic payment plan certificates or which are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission believes a simplified prospectus is necessary because current prospectuses have become too cumbersome for the average investor to understand and because current requirements result in the disclosure of

much information that is not necessarily material to an investment decision. Simplification will, therefore, make disclosure easier for investors to understand and reduce the costs and burdens of preparing and distributing prospectuses. Accordingly, the Commission is proposing a new form N-2A that most likely would be structured as a three-part form, one part of which would be a new simplified prospectus. Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement

containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing-proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to certain duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. Legal Authority: 15 USC 80a-16(c); 15 USC 80a-35; 15 USC 80a-6(c)

CFR Citation: Not yet determined

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888, (47 FR 56509)) soliciting public comment on whether the Commission should propose rules or recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes. Extension of comment period until April 18, 1983 was announced in Investment Company Act Release No. 13012 (cont)

CFR Citation: 17 CFR 270.3a-4

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) (45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "mini-accounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being formulated.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.3a-5; 17 CFR 270.3a-6

Abstract: Foreign banks and their finance subsidiaries are considered investment companies under the Investment Company Act of 1940. The regulation will provide an exemption from the Act for foreign banks and their finance subsidiaries that issue securities in the United States under certain conditions.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-11(a); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.11a-3; 17 CFR 270.11a-4

Abstract: The Commission is considering whether to propose a Rule 11a-3 and a Rule 11a-4 which would exempt certain persons from the requirements of Section 11(a) of the Investment Company Act. That section generally prohibits any registered open-end investment company and the principal underwriter of its shares from making an offer to a shareholder to exchange his security for another security on any basis other than the net asset values of the securities to be exchanged without approval of the Commission. Section 11(c) extends the prohibitions of Section 11(a) to offers of the securities of unit investment trusts. The Commission has issued numerous orders permitting open-end management companies and the principal underwriter(s) of their shares to make exchange offers on the basis of the relative net asset value of the securities being exchanged plus a sales load equal to the difference between

the sales load which would otherwise be charged on the securities to be acquired and on the securities to be exchanged. The Commission has also issued orders permitting unit investment trusts and their sponsors to make offers of exchange based on the relative net asset (cont)

The proposed rules would codify such orders (Rule 11a-3 for management companies; Rule 11a-4 for unit investment trusts) thereby eliminating the cost for small companies of preparing applications seeking the orders. Thus, the proposed rules would have a beneficial economic impact on such companies. The proposed rules would contain several conditions to assure the protection of investors. Any such conditions would be included in the rule in order to adequately protect investors against the abuses addressed by Section 11.

Abstract: The Commission is considering whether to propose amendments to Rule 12b-1 under the Investment Company Act to redefine the circumstances under which investment companies may pay for distribution expenses out of investment company assets. The Commission is also considering whether to propose Rule 2a35-1 under the Investment Company Act to allow investment companies to charge contingent deferred sales loads and to include such contingent deferred sales loads

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser or of principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an

amendment to this rule which would reduce the reporting requirement for investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered broker-dealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide. The staff is concurrently reviewing similar reporting requirements for investment advisers under Rule 204-2(a)(12) and (13) under the Investment Advisers Act, in order to (cont)

Legal Authority: 15 USC 80a-37; 15 USC 80a-24

CFR Citation: 17 CFR 270.24f-2

Abstract: Rule 24f-2 allows certain investment companies to register an indefinite number of their securities under the Securities Act of 1933. The rule was adopted by the Commission in 1977 in order to address the problem of oversales by investment companies. Although the rule is relied on by unit investment trusts, provisions of the rule regarding the payment of fees and the filing of notices may be unnecessarily burdensome for unit trusts under certain circumstances. The Commission is considering a rule which would

streamline the procedures to be followed by unit investment trusts relying on the indefinite registration provisions of rule 24f-2. Because the proposed rule is in the developmental stages, its potential costs and benefits as a whole and the potential effect on small entities are uncertain at this time.

3918. METHOD FOR COMPLIANCE WITH SECTION 206(3) OF THE INVESTMENT ADVISERS ACT OF 1940 WITH RESPECT TO CERTAIN TRANSACTIONS

Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.206(3)-3

Abstract: Section 206(3) of the Investment Advisers Act of 1940 makes it unlawful for any investment adviser, by use of the mail or any means or instrumentality of interstate commerce, directly or indirectly, knowingly to effect a securities transaction (a) with a client while acting as principal or (b) for a client while acting as broker for a person other than such client, without disclosing in writing to such client before the completion of the transaction the capacity on which he is acting and obtaining the consent of the client to the transaction. The Commission is considering whether to propose a rule that would provide a nonexclusive method for compliance with the provisions of Section 206(3) of the Investment Advisers Act of 1940 in connection with purchases of securities from an underwriting syndicate for an advisory client under specified conditions. Because the proposed rule is still in the developmental stages, its potential effect on small entities and its potential costs and benefits as a whole are unknown at this time.

Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.206(4)-1

Abstract: Rule 206(4)-1 contains a wide range of restrictions on advertising by investment advisers including prohibitions on the use of testimonials. The rule was adopted in 1962 and has not been revised since. The Commission is considering whether to amend the rule in a manner which would permit greater flexibility to

investment advisers in their advertising and protect the investing public from potential abuse. Because the proposed amendments to the rule are still in the developmental stages, the potential effect on small entities and its potential costs and benefits as a whole are uncertain at this time.

3920. DISCLOSURE OF LEGAL AND DISCIPLINARY PROCEEDINGS

Legal Authority: 15 USC 80b-11a

CFR Citation: 17 CFR 275.206(4)-4

Abstract: Section 206 of the Investment Advisers Act of 1940 prohibits a wide range of fraudulent activity by investment advisers. The Commission has interpreted this section to require that advisers disclose disciplinary and legal proceedings in which they have been involved which are material to an evaluation of the adviser's integrity and ability. The Commission is considering proposing a rule under Section 206(4) of the Advisers Act, which would clarify the disclosure requirements of advisers who have been involved in disciplinary and legal proceedings. The Commission also is considering codifying in the rule its interpretation of the adviser's fiduciary duty under Section 206 to disclose serious financial conditions which might impair the ability of the adviser to meet its contractual commitments. Because the rule is in its developmental stages, the potential impact on small entities and its potential costs and benefits as a whole are unknown at this time.

CFR Citation: 17 CFR 210

Abstract: The staff is considering whether to recommend that the Commission propose rules calling for increased disclosure of off-balance sheet financing arrangements. During recent years off-balance sheet financing arrangements have increased in number and complexity, and disclosure of such arrangements may currently appear in various places throughout the financial statement footnotes. The identification and analysis of the aggregate impact of the various types of arrangements may therefore be difficult. The staff is considering various alternatives - including possible centralized footnote disclosure - to provide for improved disclosure of the effects of off-balance sheet financing arrangements. The concept for such improved disclosure was announced in Securities Act Release No. 6514 (49 FR 6737; February 23, 1984).

The release also provides advance notice of possible future rulemaking regarding (1) additional segment reporting disclosures and (2) uniform disclosure of off balance sheet financing arrangements. Legal Authority: 15 USC 77s(a)

CFR Citation: Not yet determined; 17 CFR 230; 17 CFR 240; 17 CFR 244; 17 CFR 260

Abstract: The Securities Exchange Act of 1934 (the "Exchange Act") imposes periodic reporting requirements on companies subject to Sections 13(a) and 15(d) of the Exchange Act. Because these reporting requirements may not be entirely appropriate for companies of all sizes, the Commission has reviewed the Exchange Act reporting system as it pertains to small businesses and has proposed that the total asset reporting threshold be raised from \$3 million to \$5 million, thereby relieving certain small issuers of the burden of complying with such registration and reporting requirements.

Abstract: Proposed Rule 14d-10 under the Securities and Exchange Act of 1934 would make explicit that a bidder's tender offer must be open to all holders of the class of securities subject to the tender offer, and that all security holders must be paid the highest consideration paid to any other security holders. The Commission also proposed to amend Rule 14e-1 under the Act to provide that a tender offer must remain open for ten business days upon the announcement of increase or decrease in the percentage of securities being sought or consideration offered by the offeror. The Commission proposed to amend Rule 14d-7 under the Act in one

of two ways. The first approach provides that, upon announcement of a decrease in the percentage being sought or consideration offered additional withdrawal rights attach for ten business days. The second approach provides that withdrawal rights extend throughout the offer and the extensions of withdrawal rights upon the commencement of a competing bid is eliminated.

Section 16 seeks to deter misuse of inside information by imposing certain periodic and transactional reporting requirements on the officers, directors and principal beneficial shareholders of companies registered under that Act as well as certain limitations on equity transactions by those persons. 3930. RULE 9B-1 OF THE SECURITIES EXCHANGE ACT OF 1934

Legal Authority: 15 USC 77b; 15 USC 78w(a); 15 USC 77g; 15 USC 78i; 15 USC 77j; 15 USC 78o; 15 USC 77s(a)

CFR Citation: 17 CFR 240.9b-1

Abstract: Currently, Rule 9b-1 provides that an options disclosure document containing information specified in paragraph (c) of the Rule must be filed with the Commission by an options market at least 60 days prior to the date definitive copies are furnished to customers. Paragraph (c) of the Rule specifies that the document must contain, among other things, a discussion of the mechanics of buying, writing and exercising the options; the risks of trading, and the uses of, the options; the market for the options; and the tax consequences of options trading. Proposed modifications to the Rule would eliminate the requirement that the document contain a discussion of the uses of options. This modification

is being considered because a discussion of uses is no longer believed to be necessary for the protection of investors, and the projected cost savings by eliminating this discussion from the document is significant. The modification may benefit investors by making the document less lengthy and complex, and thereby focusing attention on the risk disclosure aspects of the document.

CFR Citation: 17 CFR 240.11A-1

Abstract: In connection with the partial removal of exchange off-board trading restrictions through Rule 19c-3, the Commission has proposed a revised rule, Rule 11A-1, to address order exposure concerns. Proposed Rule 11A-1 would require exchange and over-the-counter market makers in Rule 19c-3 securities, prior to executing an order as principal, to hold the order out for 30 seconds, thereby allowing other market makers to compete for that order. Alternatively, the proposed rule would permit the market maker to compete for orders by maintaining competitive quotations in the National Association of Securities Dealers' Computer Assisted Execution System or the Cincinnati Stock Exchange's National Securities Trading System, and routing orders to those systems. The proposed rule also contains a number of specific exceptions to order exposure requirements. The Commission will

Legal Authority: 15 USC 78q-1(d) Exchange Act

CFR Citation: 17 CFR 240.17Ad-5

Abstract: The proposed amendment to Rule 17Ad-5 would require registered transfer agents to respond to securityholder inquiries respecting dividend and interest claims within ten business days of receipt of current claims and within twenty business days of receipt of aged claims. This amendment is designed to accelerate the time frame within which dividend claims are researched and settled. The proposed amendment will be evaluated in light of the relative costs and benefits to the public and the transfer agent industry.

Abstract: On July 10, 1985, the Commission proposed for public comment an amendment to Regulation S-X to require that registered investment companies account for net costs incurred as a result of 12b-1 plan as expenses. The amendment would achieve consistent accounting for 12b-1 expenditures thereby ensuring greater uniformity in the accounting practices of investment companies and allowing investors to more accurately compare investment results among investment companies. Abstract: The Commission is considering publishing for public comment amendments to Rule 134, 436, and 482 under the Securities Act of 1933. The amendments would, if adopted, permit certain investment companies to use in their statutory and omitting prospectuses security ratings assigned by a nationally recognized statistical rating organization (NRSRO) without first obtaining the NRSRO's consent to being named as an expert pursuant to Section 7 of the Securities Act. Without these amendments, eligible investment companies would need to continue to obtain the consent of the NRSRO. NRSRO's have refused to give this consent thereby making the use of ratings prohibitively expensive.

Abstract: Rule 180 provides an exemption from the registration requirements of the Securities Act for

interests and participations issued in connection with certain qualified H.R. 10 plans. In order for interests in funding media issued to plans established by financially inexperienced employers to qualify for the rule's exemption, the rule, as adopted, requires those employers to obtain financial advice from an independent expert prior to adopting the H.R. 10 plan. Among other things, the Commission is considering proposing an amendment to Rule 180 that would codify a present "no-action" position regarding the situation where a financially unsophisticated employer has already established a plan for its employees without obtaining advice from an independent expert, and intends either to change the funding medium or add another funding medium to the choices already available to employees. The issuer of the funding medium in such a case would be in compliance with the rule if the issuer has reasonable grounds to believe and, after having made reasonable inquiry, does believe, that an independent financial expert reviewed the funding medium prior to the investment of the (cont)

Legal Authority: 15 USC 77g; 15 USC 77j; 15 USC 77s

CFR Citation: 17 CFR 239.15A; 17 CFR 274.11A

Abstract: On November 9, 1984, the Commission issued a release (Investment Company Act Release No. 14230; 49 FR 45172) soliciting public comment on proposed revisions to Item 5, Management of the Fund, of Form N-1A, the registration form under the Securities Act of 1933 and the Investment Company Act of 1940 used by open-end, management investment companies other than registered separate accounts of insurance companies. The revised Item 5 would require a consolidation of all narrative information in the prospectus concerning significant expenses of the registrant and would add a tabular presentation setting forth the major types of expenses, the names of the payees, and the amount of the expense, expressed as a percentage of average net assets.

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

CFR Citation: 17 CFR 239.16; 17 CFR 274.12

Abstract: On May 14, 1985, the Commission issued a release (Investment Company Act Release NO.14513 (50 FR 21282) soliciting public comment on proposed Form N-7, a form for registration of unit Investment Trusts and their securities under the Investment Act of 1940 and the Securities Act of 1933, and certain related rules and rule amendments. The Commission also published staff guidelines for the preparation of Form N-7. The proposed form would establish a two-part format for disclosure to prospective investors consisting of a simplified prospectus that can be used to satisfy the prospectus delivery

requirements of the Securities Act of 1933 and a statement of additional information that would be available to prospective investors upon request and without charge. The Commission is proposing Form N-7 in order to (I) integrate the reporting and disclosure requirements of the Securities Act of 1933 and the investment trusts in one document; (II) codify in the form and guidelines the disclosure standards that have been developed for unit investment trusts; and (III) shorten and simplify the prospectus while making available on request more extensive information not of routine(cont)

3939. PROPOSED AMENDMENT TO RULE 17G-1 UNDER THE INVESTMENT COMPANY ACT

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17g-1

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly

requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.
