OAA Technical Memorandum NESS 55

PUBLICATIONS AND FINAL REPORTS ON
CONTRACTS AND GRANTS, 1973 - NESS

Washington, D.C.
April 1974

NATIONAL ENVIRONMENTAL SATELLITE SERVICE

The National Environmental Satellite Service (NESS) is responsible for the establishment and operation of the National Operational Meteorological Satellite System and of the environmental satellite systems of NOAA. The three principal offices of NESS are Operations, Systems Engineering, and Research.

NOAA Technical Memoranda NESS series facilitate rapid distribution of material that may be preliminary in nature and may be published formally elsewhere at a later date. Publications 1 through 20 and 22 through 25 are in the former series, ESSA Technical Memoranda, National Environmental Satellite Center Technical Memoranda (NESCTM). The current series, NOAA Technical Memoranda, National Environmental Satellite Service (NESS), includes 21, 26, and subsequent issuances.

Publications listed below are available from the National Technical Information Service, U.S. Department of Commerce, Sills Bldg., 5285 Port Royal Road, Springfield, Va. 22151. Price: \$3.00 paper copy; \$1.45 microfiche. Order by accession number, when given, in parentheses.

ESSA Technical Memoranda

- NESCTM 17 Vidicon Data Limitations. Arthur Schwalb and James Gross, June 1969. (PB-185-966)
- NESCTM 18 On the Statistical Relation Between Geopotential Height and Temperature-Pressure Profiles. W. L. Smith and S. Fritz, November 1969. (PB-189-276)
- NESCTM 19 Applications of Environmental Satellite Data to Oceanography and Hydrology. E. Paul McClain, January 1970. (PB-190-652)
- NESCTM 20 Mapping of Geostationary Satellite Pictures--An Operational Experiment. R. C. Doolittle, C. L. Bristor, and L. Lauritson, March 1970. (PB-191-189)
- NESCTM 22 Publications and Final Reports on Contracts and Grants, 1969--NESC. January 1970. (PB-190-632)
- NESCTM 23 Estimating Mean Relative Humidity From the Surface to 500 Millibars by Use of Satellite Pictures. Frank J. Smigielski and Lee M. Mace, March 1970. (PB-191-741)
- NESCTM 24 Operational Brightness Normalization of ATS-1 Cloud Pictures. V. R. Taylor, August 1970. (PB-194-638)
- NESCTM 25 Aircraft Microwave Measurements of the Arctic Ice Pack. Alan E. Strong and Michael H. Fleming, August 1970. (PB-194-588)

NOAA Technical Memoranda

- NESS 21 Geostationary Satellite Position and Attitude Determination Using Picture Landmarks. William J. Dambeck, August 1972. (COM-72-10916)
- NESS 26 Potential of Satellite Microwave Sensing for Hydrology and Oceanography Measurements. John C. Alishouse, Donald R. Baker, E. Paul McClain, and Harold W. Yates, March 1971. (COM-71-00544)
- NESS 27 A Review of Passive Microwave Remote Sensing. James J. Whalen, March 1971. (COM-72-10546)
- NESS 28 Calculation of Clear-Column Radiances Using Airborne Infrared Temperature Profile Radiometer Measurements Over Partly Cloudy Areas. William L. Smith, March 1971. (COM-71-00556)
- NESS 29 The Operational Processing of Solar Proton Monitor and Flat Plate Radiometer Data. Henry L. Phillips and Louis Rubin, May 1972. (COM-72-10719)
- NESS 30 Limits on the Accuracy of Infrared Radiation Measurements of Sea-Surface Temperature From a Satellite. Charles Braun, December 1971. (COM-72-10898)
- NESS 31 Publications and Final Reports on Contracts and Grants, 1970--NESS. December 1971. (COM-72-10303)

Booth, Arthur L., "Sea Ice Motion in the Vicinity of the Ross Sea Center Station as Observed by Satellite," Journal of Geophysical Research, Vol. 78, No. 35, Dec. 1973, pp. 8573-8579.

Booth, Arthur L., "Some Seasonal Variations of the Ice Cover in the Ross Sea: Evidence of Macro-Scale Ice Dynamic Phenomena," Journal of Geophysical Research, Vol. 78, No. 14, Feb. 1973, pp. 43-50.

Preface

This memorandum is one of a series containing lists of articles and reports published by or for the National Environmental Satellite Service. To date the series consists of NESC TM 1 (for 1958-66), 2 (1967), 11 (1968), 22 (1969), 31 (1970), 38 (1971), and 46 (1972). This issue lists items published or received during 1973 and includes items omitted from previous issues.

In this memorandum many entries are followed by an identification enclosed in parentheses. Use of these numbers will facilitate ordering copies of a report from the National Technical Information Service (NTIS -- see inside cover) or from the Superintendent of Documents, U.S. Government Printing Office. Items with identification numbers prefaced by PB or COM are ordered from the NTIS; items identified by a number and a price, e.g., (COM-71-00132)(GPO \$0.50) are available in microfiche from NTIS, or in hard copy, at the price shown, from the Superintendent of Documents. Reprint copies of articles listed in publications by Staff Members, NESS, will be furnished free of charge as long as supplies are on hand; copies of books listed must be obtained from the publishers; copies of reports on contracts or grants will be supplied to qualified requesters when available.

- NESS 36 A Technique for the Analysis and Forecasting of Tropical Cyclone Intensities From Satellite Pictures. Vernon F. Dvorak, June 1972. (COM-72-10840)
- NESS 37 Some Preliminary Results of 1971 Aircraft Microwave Measurements of Ice in the Beaufort Sea. Richard J. DeRycke and Alan E. Strong, June 1972. (COM-72-10847)
- NESS 38 Publications and Final Reports on Contracts and Grants, 1971--NESS. June 1972. (COM-72-11115)
- NESS 39 Operational Procedures for Estimating Wind Vectors From Geostationary Satellite Data. Michael T. Young, Russell C. Doolittle, and Lee M. Mace, July 1972. (COM-72-10910)
- NESS 40 Convective Clouds as Tracers of Air Motion. Lester F. Hubert and Andrew Timchalk, August 1972. (COM-72-11421)
- NESS 41 Effect of Orbital Inclination and Spin Axis Attitude on Wind Estimates From Photographs by Geosynchronous Satellites. Linwood F. Whitney, Jr., September 1972. (COM-72-11499)
- NESS 42 Evaluation of a Technique for the Analysis and Forecasting of Tropical Cyclone Intensities From Satellite Pictures. Carl O. Erickson, September 1972. (COM-72-11472)
- NESS 43 Cloud Motions in Baroclinic Zones. Linwood F. Whitney, Jr., October 1972. (COM-73-10029)
- NESS 44 Estimation of Average Daily Rainfall From Satellite Cloud Photographs. Walton A. Follansbee, January 1973. (COM-73-10539)
- NESS 45 A Technique for the Analysis and Forecasting of Tropical Cyclone Intensities From Satellite Pictures. (Revision of NESS 36) Vernon F. Dvorak, February 1973. (COM-73-10675)
- NESS 46 Publications and Final Reports on Contracts and Grants, 1972--NESS. April 1973.
- NESS 47 Stratospheric Photochemistry of Ozone and SST Pollution: An Introduction and Survey of Selected Developments Since 1965. Martin S. Longmire, March 1973. (COM-73-10786)
- NESS 48 Review of Satellite Measurements of Albedo and Outgoing Long-Wave Radiation. Arnold Gruber, July 1973. (COM-73-11443)
- NESS 49 Operational Processing of Solar Proton Monitor Data. Louis Rubin, Henry L. Phillips, and Stanley R. Brown, August 1973. (COM-73-11647-AS)
- NESS 50 An Examination of Tropical Cloud Clusters Using Simultaneously Observed Brightness and High Resolution Infrared Data From Satellites. Arnold Gruber, September 1973. (COM-73-11941/4AS)
- NESS 51 SKYLAB Earth Resources Experiment Package Experiments in Oceanography and Marine Science. A. L. Grabham and John W. Sherman, III, September 1973.
- NESS 52 Operational Products From ITOS Scanning Radiometer Data. Edward F. Conlan, October 1973.
- NESS 53 Catalog of Operational Satellite Products. Eugene R. Hoppe and Abraham L. Ruiz (Editors). In press, 1974.
- NESS 54 A Method of Converting the SMS/GOES WEFAX Frequency (1691 MHz) to the Existing APT/WEFAX Frequency (137 MHz). John J. Nagle, April 1974.
