Contracts and Grants, 1972—NESS

NOAA TECHNICAL MEMORANDA

National Environmental Satellite Service Series

The National Environmental Satellite Service (NESS) is responsible for the establishment and operation of the National Operational Meteorological Satellite System and of the environmental satellite systems of NOAA. The three principal offices of NESS are Operations, Systems Engineering, and Research.

NOAA Technical Memoranda NESS series facilitate rapid distribution of material that may be preliminary in nature and may be published formally elsewhere at a later date. Publications 1 through 20 and 22 through 25 are in the former series, ESSA Technical Memoranda, National Environmental Satellite Center Technical Memoranda (NESCTM). The current series, NOAA Technical Memoranda, National Environmental Satellite Service (NESS), includes 21, 26, and subsequent issuances.

Publications listed below are available from the National Technical Information Service, U.S. Department of Commerce, Sills Bldg., 5285 Port Royal Road, Springfield, Va. 22151. Price: \$3.00 paper copy; \$0.95 microfiche. Order by accession number shown in parentheses at end of each entry.

ESSA Technical Memoranda

- NESCTM 12 Experimental Large-Scale Snow and Ice Mapping With Composite Minimum Brightness Charts. E. Paul McClain and Donald R. Baker, September 1969. (PB-186-362)
- NESCTM 13 Deriving Upper Tropospheric Winds by Computer From Single Image, Digital Satellite Data. Charles S. Novak, June 1969. (PB-185-086)
- NESCTM 14 Study of the Use of Aerial and Satellite Photogrammetry for Surveys in Hydrology. Everett H. Ramey, March 1970. (PB-191-735)
- NESCTM 15 Some Aspects of the Vorticity Structure Associated With Extratropical Cloud Systems. Harold J. Brodrick, Jr., May 1969. (PB-184-178)
- NESCTM 16 The Improvement of Clear Column Radiance Determination With a Supplementary 3.8 μ Window Channel. William L. Smith, July 1969. (PB-185-065)
- NESCTM 17 Vidicon Data Limitations. Arthur Schwalb and James Gross, June 1969. (PB-185-966)
- NESCTM 18 On the Statistical Relation Between Geopotential Height and Temperature-Pressure Profiles. W. L. Smith and S. Fritz, November 1969. (PB-189-276)
- NESCTM 19 Applications of Environmental Satellite Data to Oceanography and Hydrology. E. Paul McClain, January 1970. (PB-190-652)
- NESCTM 20 Mapping of Geostationary Satellite Pictures--An Operational Experiment. C. L. Bristor, and L. Lauritson, March 1970. (PB-191-189)
- NESCTM 22 Publications and Final Reports on Contracts and Grants, 1969--NESC. January 1970. (PB-190-632)
- NESCTM 23 Estimating Mean Relative Humidity From the Surface to 500 Millibars by Use of Satellite Pictures. Frank J. Smigielski and Lee M. Mace, March 1970. (PB-191-741)
- NESCTM 24 Operational Brightness Normalization of ATS-1 Cloud Pictures. V. R. Taylor, August 1970. (PB-194-638)
- NESCTM 25 Aircraft Microwave Measurements of the Arctic Ice Pack. Alan E. Strong and Michael H. Fleming, August 1970. (PB-194-588)

NOAA Technical Memoranda

- NESS 21 Geostationary Satellite Position and Attitude Determination Using Picture Landmarks. William J. Dambeck, August 1972. (COM-72-10916)

Preface..... iv
Publications by Staff Members, NESS, 1972..... 1
Final Reports on Contracts and Grants
Sponsored by the NESS, 1972..... 8

In this memorandum, the enclosed are followed by an identification enclosed in parentheses. Use of these numbers will facilitate ordering copies of a report from the National Technical Information Service (NTIS - see inside cover) or from the Superintendent of Documents, U. S. Government Printing Office. Items with identification numbers prefixed by DT or COM are ordered from the DTIC; items identified by a number and a price, e.g., (COM-VI-00133) (DPO \$1.00) are available in microform from NTIS. Hard copy, if the price shown, from the Superintendent of Documents. Harder copies of articles listed in Publications by Staff Members, NESS, will be furnished free of charge as long as supplies are on hand. Copies of books listed must be obtained from the publisher; copies of reports on contracts or grants will be supplied to qualified researchers when available.

Preface

This memorandum is one of a series containing lists of articles and reports published by or for the National Environmental Satellite Service. To date the series consists of NESCTM - 1, 2, 11, and 22, and NESSTM - 31 and 38, for 1958-66, 1967, 1968, 1969, 1970, and 1971, respectively. The current issuance lists items published or received during 1972. In addition, the current issue includes items omitted from previous issues.

In this memorandum many entries are followed by an identification enclosed in parentheses. Use of these numbers will facilitate ordering copies of a report from the National Technical Information Service (NTIS -- see inside cover) or from the Superintendent of Documents, U. S. Government Printing Office. Items with identification numbers prefixed by PB or COM are ordered from the NTIS; items identified by a number and a price, e.g., (COM-71-00132) (GPO \$.50) are available in microfiche from NTIS, or in hard copy, at the price shown, from the Superintendent of Documents. Reprint copies of articles listed in Publications by Staff Members, NESS, will be furnished free of charge as long as supplies are on hand; copies of books listed must be obtained from the publishers; copies of reports on contracts or grants will be supplied to qualified requesters when available.
