## NOAA TECHNICAL MEMORANDUMS

### National Environmental Satellite, Data, and Information Service

The National Environmental Satellite, Data, and Information Service (NESDIS) is responsible for the establishment and operation of NOAA's environmental satellite systems.

NOAA Technical Memorandums facilitate rapid distribution of material that may be preliminary in nature and so may be published formally elsewhere at a later date. Publications 1 to 20 and 22 to 25 are in the earlier ESSA National Environmental Satellite Center Technical Memorandum (NESCTM) series. The NOAA Technical Memorandum NESS series includes 21 and 26, through NESS 119.

Publications listed below are available (also in microfiche form) from the National Technical Information Service, U.S. Department of Commerce, Sills Bldg., 5285 Port Royal Road, Springfield, VA 22161. Prices on request. Order by accession number (given in parentheses). Information on memorandums not listed below can be obtained from the Assessment and Information Services Center (E/AI13), 3300 Whitehaven Street, N.W., Washington DC 20235.

- NESS 66 A Summary of the Radiometric Technology Model of the Ocean Surface in the Microwave Region. John C. Alishouse, March 1975, 24 pp. (COM-75-10849/AS)
- NESS 67 Data Collection System Geostationary Operational Environmental Satellite: Preliminary Report. Merle L. Nelson, March 1975, 48 pp. (COM-75-10679/AS)
- NESS 68 Atlantic Tropical Cyclone Classifications for 1974. Donald C. Gaby, Donald R. Cochran, James B. Lushine, Samuel C. Pearce, Arthur C. Pike, and Kenneth O. Poteat, April 1975, 6 pp. (COM-75-10676/AS)
- NESS 69 Publications and Final Reports on Contracts and Grants, NESS-1974. April 1975, 7 pp. (COM-75-10850/AS)
- NESS 70 Dependence of VTPR Transmittance Profiles and Observed Radiances on Spectral Line Shape Parameters. Charles Braun, July 1975, 17 pp. (COM-75-11234/AS)
- NESS 71 Nimbus-5 Sounder Data Processing System, Part II: Results. W. L. Smith, H. M. Woolf, C. M. Hayden, and W. C. Shen, July 1975, 102 pp. (COM-75-11334/AS)
- NESS 72 Radiation Budget Data From the Meteorological Satellites, ITOS 1 and NOAA 1. Donald H. Flanders and William L. Smith, August 1975, 20 pp. (PB-246-877/AS)
- NESS 73 Operational Processing of Solar Proton Monitor Data (Revision of NOAA TM NESS 49). Stanley R. Brown, September 1975, 15 pp. (COM-73-11647)
- NESS 74 Monthly Winter Snowline Variation in the Northern Hemisphere From Satellite Records, 1966-75. Donald R. Wiesnet and Michael Matson, November 1975, 21 pp. (PB-248-437/6ST)
- NESS 75 Atlantic Tropical and Subtropical Cyclone Classifications for 1975. D. C. Gaby, J. B. Lushine, B. M. Mayfield, S. C. Pearce, and K.O. Poteat, March 1976, 14 pp. (PB-253-968/AS)
- NESS 76 The Use of the Radiosonde in Deriving Temperature Soundings From the Nimbus and NOAA Satellite Data. Christopher M. Hayden, April 1976, 19 pp. (PB-256-755/AS)
- NESS 77 Algorithm for Correcting the VHRR Imagery for Geometric Distortions Due to the Earth Curvature, Earth Rotation, and Spacecraft Roll Attitude Errors. Richard Legeckis and John Pritchard, April 1976, 31 pp. (PB-258-027/AS)
- NESS 78 Satellite Derived Sea-Surface Temperatures From NOAA Spacecraft. Robert L. Brower, Hilda S. Gohrband, William G. Pichel, T. L. Signore, and Charles C. Walton, June 1976, 74 pp. (PB-258-026/AS)
- NESS 79 Publications and Final Reports on Contracts and Grants, NESS-1975. National Environmental Satellite Service, June 1976, 10 pp. (PB-258-450/AS)
- NESS 80 Satellite Images of Lake Erie Ice: January-March 1975. Michael C. McMillan and David Forsyth, June 1976, 15 pp. (PB-258-458/AS)
- NESS 81 Estimation of Daily Precipitation Over China and the USSR Using Satellite Imagery. Walton A. Follansbee, September 1976, 30 pp. (PB-261-970/AS)
- NESS 82 The GOES Data Collection System Platform Address Code. Wilfred E. Mazur, Jr., October 1976, 26 pp. (PB-261-968/AS)
- NESS 83 River Basin Snow Mapping at the National Environmental Satellite Service. Stanley R. Schneider, Donald R. Wiesnet, and Michael C. McMillan, November, 1976, 19 pp. (PB-263-816/AS)
- NESS 84 Winter Snow-Cover Maps of North America and Eurasia From Satellite Records, 1966-1976. Michael Matson, March 1977, 28 pp. (PB-267-393/AS)
- NESS 85 A Relationship Between Weakening of Tropical Cyclone Cloud Patterns and Lessening of Wind Speed. James B. Lushine, March 1977, 12 pp. (PB-267-392/AS)
- NESS 86 A Scheme for Estimating Convective Rainfall From Satellite Imagery. Roderick A. Scofield and Vincent J. Oliver, April 1977, 47 pp. (PB-270-762/AS)

Preface.....ii  
Publications by NESDIS staff member, 1982.....1  
Final reports on contracts and grants sponsored by NESDIS, 1982.....11

PREFACE

This technical memorandum is one of a series (see inside covers) containing lists of articles and reports published by or for the National Environmental Satellite, Data and Information Services (NESDIS). To date, the series consists of NESCTM 1 (for 1958-1966), 2 (1967), 11 (1968), and 22 (1969); NOAA TM NESS 31 (1970), 38 (1971), 46 (1972), 55 (1973), 69 (1974), 79 (1975), 92 (1976), 97 (1977), 104 (1978), 108 (1979), 115 (1980), and 117 (1981).

This issue lists items published or received during 1982 and includes items omitted from the previous issue.

In this memorandum, several entries (most of which are also listed on the inside cover) are followed by parentheses enclosing numbers prefaced by PB or COM. Use of these numbers will facilitate ordering copies. Reprints of articles listed in Publications by Staff Members will be furnished free of charge as long as supplies last, the books listed must be obtained from the publishers, and copies of reports on contracts or grants will be supplied to qualified requestors when available.

Mention of a commercial company or product does not constitute an endorsement by the NESDIS. Use for publicity or advertising purposes of information from this publication concerning proprietary products or the tests of such products is not authorized.

## NOAA SCIENTIFIC AND TECHNICAL PUBLICATIONS

*The National Oceanic and Atmospheric Administration* was established as part of the Department of Commerce on October 3, 1970. The mission responsibilities of NOAA are to assess the socioeconomic impact of natural and technological changes in the environment and to monitor and predict the state of the solid Earth, the oceans and their living resources, the atmosphere, and the space environment of the Earth.

The major components of NOAA regularly produce various types of scientific and technical information in the following kinds of publications:

**PROFESSIONAL PAPERS**—Important definitive research results, major techniques, and special investigations.

**CONTRACT AND GRANT REPORTS**—Reports prepared by contractors or grantees under NOAA sponsorship.

**ATLAS**—Presentation of analyzed data generally in the form of maps showing distribution of rainfall, chemical and physical conditions of oceans and atmosphere, distribution of fishes and marine mammals, ionospheric conditions, etc.

**TECHNICAL SERVICE PUBLICATIONS**—Reports containing data, observations, instructions, etc. A partial listing includes data serials; prediction and outlook periodicals; technical manuals, training papers, planning reports, and information serials; and miscellaneous technical publications.

**TECHNICAL REPORTS**—Journal quality with extensive details, mathematical developments, or data listings.

**TECHNICAL MEMORANDUMS**—Reports of preliminary, partial, or negative research or technology results, interim instructions, and the like.

*Information on availability of NOAA publications can be obtained from:*
