and Information Service

NOAA TECHNICAL MEMORANDUMS

National Environmental Satellite, Data, and Information Service

The National Environmental Satellite, Data, and Information Service (NESDIS) manages the Nation's civil Earth-observing satellite systems, as well as global national data bases for meteorology, oceanography, geophysics, and solar-terrestrial sciences. From these sources, it develops and disseminates environmental data and information products critical to the protection of life and property, national defense, the national economy, energy development and distribution, global food supplies, and the development of natural resources.

Publication in the NOAA Technical Memorandum series does not preclude later publication in scientific journals in expanded or modified form. The NESDIS series of NOAA Technical Memorandums is a continuation of the former NESS and EDIS series of NOAA Technical Memorandums and the NESC and EDS series of the Environmental Science Services Administration (ESSA) Technical Memorandums.

These memorandums are available from the National Technical Information Service (NTIS), U.S. Department of Commerce, Sills Bldg., 5285 Port Royal, Springfield, VA 22161 (prices on request for paper copies or microfiche, please refer to PB number when ordering) or by contacting Nancy Everson, NOAA/NESDIS, 5200 Auth Road, Washington, DC 20233 (when extra copies are available). A partial listing of more recent memorandums appear below:

- NESS 113 Satellite Identification of Surface Radiant Temperature Fields of Subpixel Resolution. Jeff Dozier, December 1980. (PB81 184038)
- NESS 114 An Attitude Predictor/Target Selector. Bruce M. Sharts, February 1981. (PB81 200479)
- NESS 115 Publications and Final Reports on Contracts and Grants, 1980. Nancy Everson, June 1981. (PB82 103219)
- NESS 116 Modified Version of the TIROS N/NOAA A-G Satellite Series (NOAA E-J) - Advanced TIROS-N (TN). Arthur Schwalb, February 1982. (PB82 194044)
- NESS 117 Publications and Final Reports on Contracts and Grants, 1981. Nancy Everson, April 1982. (PB82 229204)
- NESS 118 Satellite Observation of Great Lakes Ice - Winter 1979-80. Sharolyn Reed Young, July 1983. (PB84 101054)
- NESS 119 Satellite Observation of Great Lakes Ice: 1980-81. A.L. Bell, December 1982. (PB83 156877)
- NESDIS 1 Publications and Final Reports on Contracts and Grants, 1982. Nancy Everson, March 1983. (PB83 252528)
- NESDIS 2 The Geostationary Operational Environmental Satellite Data Collection System. D.H. MacCallum and M.J. Nestlebusch, June 1983. (PB83 257634)
- NESDIS 3 Nimbus-7 ERB Sub-Target Radiance Tape (STRT) Data Base. L.L. Stowe and M.D. Fromm, November 1983. (PB84 149921)
- NESDIS 4 Publications and Final Reports on Contracts and Grants, 1983. Nancy Everson, April 1984. (PB84 192301)
- NESDIS 5 A Tropical Cyclone Precipitation Estimation Technique Using Geostationary Satellite Data. Leroy E. Spayd Jr. and Roderick A. Scofield, July 1984. (PB84 226703)
- NESIDS 6 The Advantages of Sounding with the Smaller Detectors of the VISSR Atmospheric Sounder. W. Paul Menzel, Thomas H. Achtor, Christopher M. Hayden and William L. Smith, July 1984. (PB851518/AS)
- NESDIS 7 Surface Soil Moisture Measurements of the White Sands, New Mexico. G.R. Smith, September 1984. (PB85 135754)

PREFACE

This technical memorandum is one of a series (see inside covers) containing lists of articles and reports published by or for the National Environmental Satellite, Data and Information Service (NESDIS). To date, the series consists of NESC TM 1 (for 1958-1966), 2, (1967), 11 (1968), and 22 (1969), NOAA TM NESS 31 (1979), 38 (1971), 46 (1972), 55 (1973), 69 (1975), 79 (1976), 97 (1977), 104 (1978), 108 (1979), 115 (1980), 117 (1981), NOAA TM NESDIS 1 (1982), 4 (1984), 11 (1985), 14 (1986) and 22 (1987).

This issue lists items published or received during 1987 and includes items omitted from the previous issue.

The technical reports and technical memorandums listed in this report are available from National Technical Information Service (NTIS), U.S. Department of Commerce, Sills Bldg., 5285 Port Royal Road, Springfield, VA 22161 (prices on request for paper copies or microfiche), or by contacting Nancy Everson, NOAA/NESDIS, 5200 Auth Road, Washington, DC 20233 (when extra copies are available).

Mention of a commercial company or product does not constitute an endorsement by the NESDIS. Use for publicity or advertising purposes of information from this publication concerning proprietary products or the tests of such products is not authorized.

PUBLICATIONS BY NESDIS STAFF MEMBERS, 1987

- Audet, J., 1987: Resolving marine pollution data and information needs with a federal network. Proceedings of the Coastal Zone '87, May 26-29, 1987, Seattle, WA, American Society of Civil Engineers, New York, NY, 979-992.

NESDIS SATELLITE TRAINING MATERIALS

FILMS/VIDEOTAPES

- WAB 376: Advances in the Understanding of Weather Systems
(Sound film - 12 minutes)
- WAB 390: Oceanic and Related Atmospheric Phenomena as Viewed from Environmental Satellites
(Silent film - 20 minutes)
- WAB 447: The Global Weather Experiment - North Atlantic Hurricanes
(Silent film - 16 minutes)
- WAB 456: The Importance of Thunderstorm Outflow Boundaries in the Development of Deep Convection
(Sound film - 29 minutes)
- WAB 467: El Chichon/Volcanic Eruption
(Silent Film - 10 minutes)
- WAB 477: The Extraordinary El Nino Event of 1982-83 Equatorial Pacific
(Silent film - 12 minutes)
- WAB 492: Fog Identification and Interpretation
(Sound film - 24 minutes)

These films were developed in conjunction with the Walter A. Bohan Company (WAB) and the Satellite Applications Laboratory (NOAA/NESDIS) for the purpose of providing training in the interpretation of satellite imagery in motion.

U.S. Federal agencies requesting to borrow films at no cost for viewing may contact:

Nancy Everson, E/RA22
World Weather Building, Room 703
Washington, DC 20233
Phone (301) 763-8204

Others within the United States (e.g. universities) wishing to view these films should contact:

NOAA/NESDIS/Satellite Data Services Division
World Weather Building, Room 100
Washington, DC 20233
Phone (301) 763-8111

A nominal \$35.00 fee (not including handling cost) is charged for one week rentals. Due to projected high demand and limited supply for films, please request films as far in advance as possible.

Films/videotapes can also be purchased directly from:

The Walter Bohan Company
2024 Oakton Street
P.O. Box 736
Park Ridge, IL 60068 U.S.A.
Phone (312) 825-3677

NOAA SCIENTIFIC AND TECHNICAL PUBLICATIONS

The National Oceanic and Atmospheric Administration was established as part of the Department of Commerce on October 3, 1970. The mission responsibilities of NOAA are to assess the socioeconomic impact of natural and technological changes in the environment and to monitor and predict the state of the solid Earth, the oceans and their living resources, the atmosphere, and the space environment of the Earth.

The major components of NOAA regularly produce various types of scientific and technical information in the following kinds of publications:

PROFESSIONAL PAPERS—Important definitive research results, major techniques, and special investigations.

CONTRACT AND GRANT REPORTS—Reports prepared by contractors or grantees under NOAA sponsorship.

ATLAS—Presentation of analyzed data generally in the form of maps showing distribution of rainfall, chemical and physical conditions of oceans and atmosphere, distribution of fishes and marine mammals, ionospheric conditions, etc.

TECHNICAL SERVICE PUBLICATIONS—Reports containing data, observations, instructions, etc. A partial listing includes data serials; prediction and outlook periodicals; technical manuals, training papers, planning reports, and information serials; and miscellaneous technical publications.

TECHNICAL REPORTS—Journal quality with extensive details, mathematical developments, or data listings.

TECHNICAL MEMORANDUMS—Reports of preliminary, partial, or negative research or technology results, interim instructions, and the like.
