Memo To: Jon Hare  
Mike Jech

From: Cristina Bascuñán (x2243)

Re: HydroAcoustic Survey - DEL0710

CTD data from the HydroAcoustic Survey have been processed and are now available. There were 78 casts done, including 15 for calibrations.

Please note there is no data for cast 003.

Hydrographic data for this cruise may be found in the following location:

- /ftp/pub/hydro/del0710.dat (NODC file)
- octemps

Please call if you have any questions.

**DEL0710**  
**HydroAcoustic Survey**  
**8 September - 26 October, 2007**

"CRUISE", the code name for a cruise: "CD", the calendar mid-date of all the stations within a region for a cruise:

"#obs", the number of observations include in each average: "T/S", the areal average temp/salt: "Anomaly", the areal average temp/salt anomaly:

"SDV1", the standard deviation associated with the average temp/salt anomaly: "SDV2", the standard deviation of the individual anomalies from which the average anomaly was derived

"Flag", a value of "1" indicates that a true areal average could not be calculated due to poor station coverage. The areal averages listed were derived from a simple average of the observations within the region.

"Purpose", 2 digit code assigned by DMS to identify a unique NEFSC program survey.
