

Hawaii Island Sea Turtle Stranding by Location and Species

Shawn K. K. Murakawa

Protected Species Division, Marine Turtle Biology and Assessment Program
NOAA Fisheries, Pacific Islands Fisheries Science Center

Requesting Agency/Entity:

Haunani Kane

University of Hawaii, NSF Postdoctoral Research Fellow in Biology

Purpose:

Inquiring about the availability of data for marine turtle presence in the nearshore area between Mahukona Beach Park and Kapaa Beach Park on Hawaii Island.

Assisting Shae Kamakaala from the Hawaii Island Land Trust and the community to secure this aina. We are researching the presence of endangered, threatened, native, and endemic species in hopes of getting a better understanding of Mahukona.

Data Source(s):

From where were the data retrieved?

Oracle Turtle Data Processing System

Excel spreadsheet

Attached File(s):

MTBAP_DataRequest_UnivOfHawaii_HawaiiIslStrandings_1990-1998_2018-2019.xlsx

These data are valid for one year from receipt and are non-transferable. If the data are needed after one year, another data request must be submitted. If you receive a request for the data, please redirect the person to contact me. Please use the internal report number when citing these data. Thank you.
