**CHESAPEAKE BAY:
BIBLIOGRAPHY OF USE, LAW, AND
MANAGEMENT-RELATED MATERIALS**

The preparation of this bibliography is part of the "Social Science/
Law Curriculum Division: Coastal Resources, Law and Management"
project, number 04-8-M01-73, of the University of Maryland Sea Grant
Program. Principal Investigators Robert L. Bish, Patricia S. Florestano,
and Garrett Power.

VI. BIBLIOGRAPHIES	22
INDEX	23

PREFACE

This bibliography lists materials on the uses, management, and legal aspects of the Chesapeake Bay. Additional items are included in separate categories if they are of general interest or treat natural science pertaining directly to management issues. The keywords shown with each entry give an idea of the contents of the item; the index gives a listing of all documents pertaining to each subject area.

This bibliography was prepared as part of the development of a social science/law curriculum on Chesapeake Bay Resource Use, Law and Management in the Institute for Urban Studies and School of Law of the University of Maryland.

Most of the items listed are in the collection of Chesapeake Bay materials at the Institute or at the University of Maryland Library. The Institute for Urban Studies would like to keep the bibliography and collection up-to-date. Additional references and copies of new materials can be sent to Dr. Robert Bish at the Institute.
