Agriculture Cropland				
Image	State/National	Title	Weblink	Features
	NC	Neuse River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nitrogen Reduction Strategy	http://portal.ncdenr.org/c/document_library/get_file?p_l_id=38446&folderId=209713&name=DLFE-15352.pdf	<ul style="list-style-type: none"> • Targeted toward agricultural operations: production of crops, livestock, and poultry. • Specifies control strategies for reducing nitrogen loading to coastal estuary from agricultural activity to meet a state mandated nitrogen reduction goal. • Requires an annual report on BMP implementation for cropland, livestock, and poultry activities. For each of these agricultural operations, the annual report documents the BMPs implemented, their costs, estimated nitrogen net loading reduction as a result of BMPs, the effect of land use changes on nitrogen loading, the operation and maintenance of BMPs, and an accounting methodology to track nitrogen reduction loading.
	SC	Farming for Clean Water in South Carolina	info@dhec.sc.gov	<ul style="list-style-type: none"> • Targeted primarily towards the family farmer. • Provides basic, common sense practices and solutions to many aspects of farming. • Well photographed.
	GA	Best Management Practices for Georgia Agriculture: Conservation Practices to Protect Surface Water Quality	http://gaswcc.georgia.gov/best-management-practices-georgia-agriculture	<ul style="list-style-type: none"> • Comprehensive BMP guidance includes chapters covering management planning on general farm, animal waste, irrigation water, row crops, and wetlands and stream protection. • Contains a NPS pollution and control BMP flow chart for each BMP subject chapter that helps guide reader to practices that address specific pollutant issues. • Provides individual BMP profiles within each chapter covering water quality benefits, when to use, how to establish, costs and considerations and effectiveness of BMPs. • Includes BMP index, resourceful nonpoint source pollution and control chart which IDs all of BMPs covered in guidance document under four basic BMP components: sediment, fecal coliform, pesticide and nutrient control. • Contains pesticide handling, disposal and emergency information and federal BMPs for roads in wetlands.
	FL	Water Quality and Quantity Management Practices for Florida Vegetable and Agronomic Crops	http://www.freshfromflorida.com/content/download/32110/789059/Bmp_VeggieAgroCrops2005.pdf	<ul style="list-style-type: none"> • Provides relationship of BMPs to State and Federal Regulatory programs. • Contains dos and don'ts for pesticide management. • Topic related references in each section including some internet links. • Very comprehensive, 147 pages. • Includes techniques for irrigation water reuse. • Describes BMP incentive programs.
	FL	Water Quality and Quantity Management for Florida's Specialty Fruit and Nut Crops	http://freshfromflorida.s3.amazonaws.com/Bmp_FloridaSpecialtyFruitNut2011.pdf	<ul style="list-style-type: none"> • Describes the potential waterquality impacts from these specific ag practices. • Recommends planting practices that minimize future erosion problems. • Recommends wildlife management measures. • Detailed plant specific fertilization recommendations. • Well referenced with web links and academic sources. • Detailed guidance on irrigation techniques. • Glossary of terms.

Governors' South Atlantic Alliance Coastal Water Quality Best Management Practices

	FL	Water Quality and Quantity Management Practices for Florida Citrus	http://freshfromflorida.s3.amazonaws.com/Bmp_FloridaCitrus2012.pdf	<ul style="list-style-type: none"> •Specifically for Citrus. •Detailed plant specific fertilization recommendations. •Well referenced with web links and academic sources. •Detailed guidance on irrigation techniques. •Section on drainage management. •Specific citrus nitrogen fertilizer guidance.
	FL	Water Quality and Quantity Management Measures for Florida Nurseries	http://www.floridaagwaterpolicy.com/PDF/Bmps/Bmp_FloridaContainerNurseries2007.pdf	<ul style="list-style-type: none"> •Part of a series of ag sector specific BMP manuals. •Published 2014. •Has QR code links to videos detailing some issues. •Describes BMPs for the variety of nursery production methods eg. In ground vs above ground container vs greenhouse
	National	National Management Measures to Control NPS from Agricultural Sources	http://water.epa.gov/polwaste/nps/agriculture/agmm_index.cfm	<ul style="list-style-type: none"> •EPA's main web resource for agriculture nonpoint source control. •Very detailed. •Narrative literature review for agricultural sources.
	National	Agricultural Best Management Practices: Phase 1 Literature Review	http://www.bmpdatabase.org/Docs/Phase1AgriculturalBMPDatabaseLiteratureReview.pdf	<ul style="list-style-type: none"> •Extensive literature review for the ultimate publication in the International Stormwater Database. •Emphasis on pollutant removal efficiencies. •Includes well organized citations in table format. Current as of Oct 2012.
	National	Production Practices for an Environmentally Friendly Nursery Industry	http://www.clemson.edu/extension/horticulture/nursery/images/sustainable_production_prac.pdf	<ul style="list-style-type: none"> •Provides low impact crop production information for the commercial nursery industry. •Details technical basis for recommendations. •Concise, only 22 pages. •High quality photos of some practices. •Section by section bibliography.

	NC	Animal Feeding Operations Branch: Animal Waste Management Permits	https://deq.nc.gov/about/divisions/water-resources/water-resources-permits/wastewater-branch/animal-feeding-operation-permits/permits	<ul style="list-style-type: none"> Provides links to State and NPDES permits for animal waste management permits for farms across North Carolina related to swine, cattle, and poultry. Permits contain information on the structures and nonstructural practices to be included in an animal waste management plan for a farm to collect, treat, store, and land apply animal waste. Animal waste management plans include, but are not limited to, provisions for performance standards, operation and maintenance, monitoring and reporting, and inspecting.
	SC	Farming for Clean Water in South Carolina	info@dhec.sc.gov	<ul style="list-style-type: none"> Targeted towards the family farmer. Provides basic, common sense practices and solutions to many aspects of farming. Well photographed.
	GA	Small Farm Nutrient Management Primer: For Unpermitted Animal Feeding Operations	http://coastalgadnr.org/sites/uploads/crd/	<ul style="list-style-type: none"> Comprehensive small farm nutrient management primer to assist un-permitted animal feeding operations. Includes the following chapter topics: environmental stewardship, water quality and nutrient balance; farm and homestead maps, manure storage and treatment; nutrient budgeting, land application of manure and fertilizers; grazing land; pesticide and chemical management for water quality; mortality management; record keeping; and emergency action plans and resources. Includes information on common BMPs for land application of manure and BMP summary guide. Provides examples of nutrient management plans, submission forms for manure application, field assessments for manure applications, manure storage facility checklists and sample field record forms.
	GA	Best Management Practices for Storing and Applying Poultry Litter	http://extension.uga.edu/publications/files/pdf/B%201230_4.PDF	<ul style="list-style-type: none"> Intended for poultry farmers and producers. Provides basic, practical descriptions and guidance on primary nutrients of concern, BMPs for storing and applying poultry litter, nutrient management plans, calibrations, application rate chart and summary.
	GA	Best Management Practices for Florida Dairy Operations	http://freshfromflorida.s3.amazonaws.com/Media%2FFiles%2FAgricultural-Water-Policy-Files%2FBest-Management-Practices%2FdairyBMPFinal.pdf	<ul style="list-style-type: none"> 2015 Edition Includes both Quality and Quantity considerations

Governors' South Atlantic Alliance Coastal Water Quality Best Management Practices

	FL	Water Quality /Quantity Best Management Practices for Florida Equine Operations	http://www.freshfromflorida.com/content/download/30687/760953/Equine_Update.pdf	<ul style="list-style-type: none"> •Well organized, detailed information on runoff minimization from Equine operations. •Experts from many fields were involved in the publication including, academia, veterinary, water management , and ag industry. •Introduction includes rationale for how and why BMPs are needed to protect water quality in the context of equine operations. •Attractive layout.
	FL	Water Quality Best Management Practices for Florida Cow/CalF Operations	http://freshfromflorida.s3.amazonaws.com/Bmp_FloridaCowCalF2008.pdf	<ul style="list-style-type: none"> •Summarizes basic livestock BMPs in 10 keys to pollution prevention then provides details of each. •Provides guidance on optimal heights for different grass types. •Details how to manage a variety of ranch wastes such as pesticides, fuels, and compostables. •Good basic instructions on prescribed grazing with references to more details. •Includes sections on: Water resources management, fencing, heavy use areas, animal mortality, and well head protection.
	National	EPA Animal Feeding Operations: BMPs	http://epa.gov/agriculture/anafobmp.html	<ul style="list-style-type: none"> • EPA webportal to Animal Feeding Operations (AFO) BMPs. • Includes a specific link to coastal measures as well as links to state manure and animal waste program websites.
Other States				
	MN	The Agricultural BMP Handbook for Minnesota	http://www.mda.state.mn.us/protecting/cleanwaterfund/research/agbmphandbook.aspx	<ul style="list-style-type: none"> •Published by Minnesota Dept of Ag. •Individual and detailed Ag Practice descriptions. •Includes extensive pollutant removal efficiency information for most BMPs.
	TX	Lone Star Healthy Stream Program	http://lshs.tamu.edu/publications	<ul style="list-style-type: none"> •Series of detailed publications specializing in environmental aspects of range land and livestock management. •Includes, dairy cattle, Beef, horse, poultry. Also includes wildlife management including feral hogs. •Good information on bacterial inputs and best management practices. •Includes videos.

	NC	North Carolina Stormwater Best Management Practices Manual	http://deq.nc.gov/about/divisions/energy-mineral-land-resources/energy-mineral-land-permit-guidance/stormwater-bmp-manual	<ul style="list-style-type: none"> • North Carolina's official stormwater manual. • Primarily targeted towards designers, developers, contractors and local communities – may also be of some benefit to homeowners. • Contains design criteria, guidance, and O&M to meet North Carolina stormwater management requirements. • Contains figures, example calculations, operation and maintenance items, pollutant removal efficiencies for nutrients and sediments, etc., to aid professional decision making. • Includes low impact development practices and design criteria. • Includes guidance on practices, design criteria, and O&M for stormwater management on airports to minimize potential hazards from birds and other wild life. • Information contained in manual are based on research and guidance from professionals in academia, research organizations, and design practitioners from across the state of North Carolina. 	
	NC	NC Erosion and Sediment Control Planning and Design Manual	http://deq.nc.gov/about/divisions/energy-mineral-land-resources/energy-mineral-land-permit-guidance/erosion-sediment-control-planning-design-manual	<ul style="list-style-type: none"> • North Carolina's official Erosion and Sediment Control Planning and Design Manual. • Provides detailed information for the planning, designing, construction and maintaining of erosion and sedimentation control practices including but not limited to runoff control and stream protection. • Provides sample erosion and sedimentation control plan. • Entire manual last revised in 2009 - the chapter on runoff control measures updated in 2013. 	
	SC	SC BMP Handbook	http://www.scdhec.gov/environment/water/swater/docs/BMP-handbook.pdf	<ul style="list-style-type: none"> • Referenced in South Carolina's DHEC construction permit guidance. • Includes post construction BMPs. • Detailed guidance on vegetative site stabilization. • Mathematical design formulas. • Photos of BMPs. 	
	GA	Georgia Stormwater Management Manual	http://atlantaregional.com/environment/georgia-stormwater-manual	<ul style="list-style-type: none"> • Official GA stormwater manual consists of comprehensive three volume set on stormwater management policy (Vol 1), technical design standards (Vol 2), and pollution prevention (Vol 3). • Stormwater Policy Guidebook provides guidance for local jurisdictions on the basic principles of effective urban stormwater management including regulatory requirements, local programs, implementing requirements for development, watershed-based and floodplain planning, stormwater operations and maintenance, pollution prevention, and information tools. • Technical Handbook provides guidance on techniques and measures that can be implemented to meet a set of stormwater management minimum standards for new development and redevelopment including sustainable site design and stormwater management BMPs (planning and design, hydrology, structural control, drainage system design, and numerous appendices). Vol. 2 is intended for site planners, engineers, contractors, local plan reviewers and inspectors on required on-site measures. • The Pollution Prevention Guidebook is a compendium of stormwater pollution prevention and control measures for use by local jurisdictions, business, industry, institutions and the public. 	

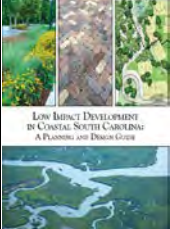

Governors' South Atlantic Alliance Coastal Water Quality Best Management Practices

 <p>Coastal Stormwater Supplement Georgia Stormwater Management Manual Revised April 2017</p>	GA	Coastal Stormwater Supplement to the Georgia Stormwater Management Manual	http://epd.georgia.gov/georgia-epd-coastal-stormwater-supplement-stormwater-management-manual	<ul style="list-style-type: none"> • Provides Georgia's 24 coastal counties with comprehensive guidance on an integrated, green infrastructure-based approach to natural resource protection, stormwater management, and site planning and design. • Provides guidance for watershed and site-scale natural resource protection and shifts post-construction stormwater management efforts to prevention of stormwater runoff from new and existing development. • Prevents and reduces post-construction stormwater runoff rates and volumes through the use of better site planning techniques, better site design techniques, and low impact development (LID) practices. • Advances protection of coastal GA's state-designated high priority terrestrial and aquatic habitats and animals from negative impacts of land development and nonpoint source pollution. • Primarily targeted to managers, professionals, developers, contractors and local communities in implementing coastal stormwater management programs for polluted runoff.
 <p>MANUAL FOR EROSION AND SEDIMENT CONTROL IN GEORGIA 2014 GASWCC</p>	GA	Manual for Sediment and Erosion Control in Georgia	http://gaswcc.georgia.gov/technical-guidance-0	<ul style="list-style-type: none"> • Covers state of Georgia construction site sediment and erosion control BMPs that are not covered in the Georgia Stormwater Management Manual. • 2014 revisions include the addition of new Best Management Practices (BMPs), as well as benchmark standards for most new and existing BMPs. • Includes the current plan review checklists with guidance documents. • The criteria, standards and specifications contained in Chapter 6 must be incorporated into all local erosion and sediment control programs. • The remaining chapters and sections contain guidelines and support materials to assist users in implementation of BMPs. Website maintains updates and additional resources and guidance.
 <p>STATE OF FLORIDA EROSION AND SEDIMENT CONTROL DESIGNER AND REVIEWER MANUAL 2014</p>	FL	Florida Sediment and Erosion Control: Designer and Reviewer Manual	http://www.dot.state.fl.us/rddesign/Drainage/files/Erosion-Sediment-Control.pdf	<ul style="list-style-type: none"> • Florida's sediment and erosion control manual. • Produced by both FL DOT and FLDEP. • Links to FL stormwater NPDES requirements. • Provides detailed guidance specific to FL's stormwater permitting. • Has narrative rationale for the reasons for installing each BMP. • Detailed BMP design schematics as well as photos. • There is a special appendix for Coastal considerations.
 <p>How to Conserve Natural Resources on Construction Sites</p>	National	How to Conserve Natural Resources on Construction Sites	www.gfc.state.ga.us/resources/publications/HowtoConserveNaturalResourcesonConstructionSites.pdf	<ul style="list-style-type: none"> • Well organized and practical guidance manual emphasizing preservation and restoration of onsite natural vegetation on construction sites. • Intended for home builders. • BMPs include erosion control, protective vegetation, stone check dams, drainage, construction debris, energy conservation, conserving trees, restoring vegetation (using native plants), planting trees, and planning and scheduling. • Provides helpful resources such as well-designed diagrams, state laws, and appendices including seeding rates for temporary and permanent cover, recommended overstory and understory trees, native plants for revegetation, mulching for erosion control, and references.

	NC	An Assessment of Outer Banks Coastal Environmental Conditions, Existing Stormwater Management Strategies, and the Local and State Regulatory Context to Help Communities Effectively Implement Low Impact Development-Outer Banks NC	http://csi.northcarolina.edu/content/Final_Report_-_LID_Implementation_on_OBX.pdf	<ul style="list-style-type: none"> Primarily targeted toward persons engaged in real estate development such as administrators, designers, builders, and certifiers. Contains a feasibility assessment concerning Low Impact Development (LID) Methods & stormwater management for real estate development in the Outer Banks of North Carolina. Information on the impediments to LID is contained in this assessment. Contains non-technical descriptions and photos of recommended LID stormwater management measures, draft model ordinance for post construction stormwater management, and references to white papers and handbooks, analysis and design models on LID relevant topics.
	SC	Low Impact Development in Coastal South Carolina; A Planning and Design Guide	http://www.northinlet.sc.edu/LID/FinalDocument/loRes/LID%20in%20Coastal%20SC_low%20res.pdf	<ul style="list-style-type: none"> Introduces low impact development as well as the principles of site design and BMP design for coastal South Carolina. For 11 BMPs, this guidebook provides engineering calculations, specifications for design and maintenance, and a regulatory compliance calculator.
	SC	Community Associations and Stormwater Management: A SC Coastal Perspective	http://www.clemson.edu/cafls/safes/faculty_staff/research/hitchcock/9_community_associations_and_stormwater_management_v_1%200.pdf	<ul style="list-style-type: none"> Targeted mainly toward homeowners and HOAs. Provides information on BMPs at the site and development level. Includes BMPs that the owner can implement on their own such as backyard buffers.
	GA	GA Riparian Buffer Guidance Manual	http://www.rivercenter.uga.edu/research/coastal/documents/coastal_guidance_manual_2007_03_21.pdf	<ul style="list-style-type: none"> Serves as companion to Model Coastal Buffer Ordinance developed for coastal communities. Establishes BMPs for building in and around riparian buffers and discussion on BMPs in adjacent upland areas. Provides information to landowners about how to best preserve or enhance the ecological functions of the buffer and solutions for minimizing impacts of common encroachments into riparian buffers. Photos, schematics, diagrams, tables, references, resources, and native and non-native invasive plant species list appendices provide additional visual and technical resources.
	GA	BMPs for Landscape Water Conservation	http://www.commodities.caes.uga.edu/turfgrass/georgiaturf/Water/Articles/B1329.pdf	<ul style="list-style-type: none"> Provides comprehensive BMP guidance to conserve water in landscape design, installation and maintenance, irrigation systems, and turfgrass; Intended primarily for homeowners, but can also assist municipalities, irrigation professionals, landscape architects, and landscape professionals. Contains photos and charts regarding drought tolerant species, irrigation schedules by grass, regional considerations and appropriate fertilization rates. Includes new and emerging irrigation practices for turf grass including environmental guided irrigation.

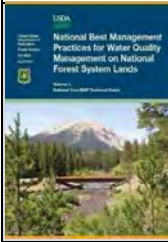

**Governors' South Atlantic Alliance
Coastal Water Quality Best Management Practices**

	GA	A Guide to Planting and Caring for Trees in Coastal Georgia: Savannah Tree Foundation	http://www.savannatree.com/learn/how-to-plant-care-for-trees/	<ul style="list-style-type: none"> • Practical guide intended for homeowners, public, landscape professionals, and county and municipal grounds personnel. • Provides basic and sound BMP guidance on tree planting, maintenance, preservation of trees during construction and other pertinent BMPs to conserve and protect trees in coastal Georgia. • Also provides diagrams, charts and guidance on choosing the right tree for the right location, energy efficiency and conservation tree placement, basic spacing guides, and other.
	FL	Suwannee River Partnership	http://www.suwannee.org/bmps.html	<ul style="list-style-type: none"> • Website of a River basin partnership. • Describes cost share programs available for basin residents. • Has links to local surface and groundwater data. • Discusses ongoing BMP effectiveness research in the watershed.
	FL	Stormwater Management Academy	http://www.stormwater.ucf.edu/	<ul style="list-style-type: none"> • Extensive source of information related to stormwater management. • Provides links to research publications, presentations, and information on a myriad subjects related to stormwater management: greenroof, pervious pavements, pollution control using Biosorption Activated Media, soil erosion and sedimentation control, financing stormwater management and other topics.
	National	Handbook for Developing Watershed Plans to Protect and Restore Our Waters	http://water.epa.gov/polwaste/nps/upload/2008_04_18_NPS_watershed_handbook_handbook-2.pdf	<ul style="list-style-type: none"> • Provides detailed step by step guidance to develop a watershed based plan for stormwater pollution abatement. • Aid for 319 grant proposals.

Forestry				
Image	State/National	Title	Weblink	Features
	NC	North Carolina Forestry Best Management Practices Manual to Protect Water Quality	http://ncforests-service.gov/publications/WQ0107/BMP_manual.pdf	<ul style="list-style-type: none"> • Provides a comprehensive collection of BMP recommendations for forestry activities (timber harvesting, site prep/tree planting, herbicide and fertilizer application, prescribed burnings, and burning) to achieve water quality goals (control & capture runoff, keep soil in place [reduce erosion], filter excess nutrients, and protect water quality conditions). • Contains specifications and references related to forestry BMPs.
	SC	SC BMPs for Forestry	http://www.state.sc.us/forest/bmpmanual.pdf	<ul style="list-style-type: none"> • Contains information on ways to minimize impacts from all aspects of forestry in SC. • Emphasizes reduced impacts to headwater streams. • Well organized with simple but effective visuals. • Includes identification of especially sensitive waters such as trout streams.
	GA	Georgia BMP for Forestry Manual	http://www.gfc.state.ga.us/resources/publications/BMPManualGA0609.pdf	<ul style="list-style-type: none"> • Targeted for landowners, foresters, timber buyers, loggers, site preparation and reforestation contractors, and others involved with silvicultural operations. • Provides comprehensive collection of BMP recommendations for forestry activities including planning for water quality, streamside management zones and special management areas; road location, construction, stream crossings maintenance, and retirement; timber harvesting; site prep and reforestation; management and protection; and additional management objectives. • Emphasizes protection of state's water resources through BMPs in controlling or minimizing soil erosion and stream sedimentation. • Provides extensive diagrams, photos and design and installation schematics. • Some chapters include BMP summaries, BMP decision trees, recommended measurements and spacing, and other resources.
	GA	Best Management Practices for Community Trees	http://athensclarkecounty.com/DocumentCenter/Home/View/280	<ul style="list-style-type: none"> • A technical guide intended for professional arborists, urban and community foresters, landscape architects, communities, homeowners, and tree care and landscape professionals involved with community tree management programs. • Comprehensive BMP guidance with diagrams, tables, figures and schematics on selection, placement, conservation, protection, maintenance, establishment, removal and replacement of trees. • Contains BMP chapters for tree selection and placement, tree care, and tree species selection. For each of these basic topics, site situations, tree care activities, benefits, and common mistakes are addressed and publications are provided. • Can be used as a project planning and implementation tool, a community education tool, and standards for community tree care.
	FL	Agricultural BMPs: Florida Dept of Ag	http://www.freshfromflorida.com/Divisions-Offices/Florida-Forest-Service/Our-Forests/Best-Management-Practices-BMP/Silviculture-BMP-Courtesy-Checks	<ul style="list-style-type: none"> • Excellent graphics describing best forestry practices. • Geared to the forestry professional. • Includes an appendix with technical measurement procedures. • Provides a list of places and the water quality standards that apply, including outstanding resource waters.

General				
Image	State/National	Title	Weblink	Features
	NC	A Boaters Guide for Protection North Carolinas Coastal Resources	http://portal.ncdenr.org/c/document_library/get_file?uuid=1fcce0b0-739d-4d25-8cc2-e883c4ffb66a&groupId=38319	<ul style="list-style-type: none"> • Features tips for recreational boaters on how to handle their trash, cleaners, sewage, and petroleum and oil, and operate their boats in a way to protect coastal waters. Also, contains information on aquatic invasive species prevention.
	SC	A Citizen's guide to Stormwater Pond Maintenance	http://www.scdhec.gov/HomeAndEnvironment/Docs/ponds.pdf	<ul style="list-style-type: none"> • A stormwater pond maintenance guide for coastal homeowners. • Gives recommendations for nutrient control, buffers, and aquatic plant management.
	GA	Manual for On-site Sewage Management Systems	http://dph.georgia.gov/sites/dph.georgia.gov/files/EnvHealth/Sewage/Manual/CompleteOnsiteManual.pdf	<ul style="list-style-type: none"> • Provides a comprehensive technical BMP reference to enhance public health protection regarding on-site sewage management systems. • Provides guidance on the following subjects: Department of Human Resources Public Health rules, general soil provisions, role and use of soils, technical design standards, site modifications, septage removal and disposal procedures, sewage flow schedules, field inspections, operation and maintenance, lot sizing, certification procedures, permits, and references. • Serves as an excellent source of information for professionals and individuals interested in the on-site sewage management program including health professionals, engineers, scientists, environmentalists, septic system installers and septic tank pumpers, soil consultants, home builders and land developers, and the public. • Each detailed section consists of numerous figures, diagrams, worksheets, checklists, tables and other resources and an extensive appendix with various resources and documents.
	GA	Hydromodification Best Management Practices for Coastal Georgia	http://marex.uga.edu/uploads/documents/Hydromod_Manual_Sept_2009.pdf	<ul style="list-style-type: none"> • Contains comprehensive BMP guidance and hydromodification challenges on three coastal water body types: shorelines and streambank stabilization, canals and ditches, and ponds, dams and impoundments. • BMPs address the following components: vegetative practices, engineered practices, integrated practices, riparian/vegetated buffer considerations, and maintenance. • Provides specifications for each recommended BMP, BMP summaries and recommended vegetation tables, photos, and regulatory program recommendations that summarize permitting considerations. • Serves as an addendum to the USEPA's National Management Measures to Control Nonpoint Source Pollution from Hydromodification guidance document and was coordinated in development with the Georgia Stormwater Management Manual (GSMM) and the Coastal Stormwater Supplement to the GSMM (CSS).
	FL	Florida Nonpoint Source: Best Management Practices, Public Information and Environmental Education Resources	http://www.dep.state.fl.us/water/nonpoint/pubs.htm	<ul style="list-style-type: none"> • Provides in electronic form publications on BMPs for urban and golf pollution prevention, agricultural, and silviculture. • BMPs address the following subjects residential landscapes, golf course maintenance, small-scale horse operations, application of livestock waste, agricultural handling and farm equipment maintenance, blended fertilizer industry, hazardous waste management for agricultural pesticides.

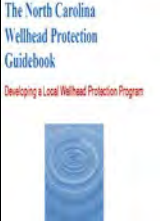

Governors' South Atlantic Alliance Coastal Water Quality Best Management Practices

	National	International Stormwater Database	http://www.bmpdatabase.org/	<ul style="list-style-type: none"> • Authoritative source for BMP pollutant removal assessment. • Comprehensive for urban BMPs. Agricultural will be added. • Tools provided to enhance database searches
	National	USEPA National Management Measures to Control Nonpoint Source Pollution from Hydromodification	http://water.epa.gov/polwaste/nps/upload/Hydromod_all_web.pdf	<ul style="list-style-type: none"> • Developed to provide extensive guidance, techniques and tools for better, less intrusive BMP methods of implementing and maintaining hydromodification projects and activities while reducing associated nonpoint source pollution. • Covers technical information on types of NPS pollution, watershed-level assessment and application, and BMP practices on channelization and channel modification, dams, and streambank and shoreline erosion. • Discusses available models and assessment approaches and additional dam removal information (including permitting requirements, process, and techniques for dam removal).
	National	USEPA National Management Measures to Protect and Restore Wetlands and Riparian Areas for the Abatement of Nonpoint Source Pollution	http://water.epa.gov/polwaste/nps/wetmeasures/	<ul style="list-style-type: none"> • Gives guidance and techniques to protect and/or restore wetlands and riparian areas to help better protect water quality. • Provides for links to EPA wetlands and state wetland managers.
Other States				
	VA	Chesapeake Bay Program: Watershed Implementation Plan Tools	http://www.chesapeakebay.net/about/programs/watershed_implementation_plan_tools/	<ul style="list-style-type: none"> • Emphasis is on regional watershed management. • Emphasis on nutrient control in the Chesapeake Watershed. • Includes modeling tools, and detailed BMP efficiency evaluations.
	CA	California Coastal Commission's Resources for Local Governments Home	http://www.coastal.ca.gov/la/water_quality.html	<ul style="list-style-type: none"> • California Coastal Commission's hot topics webpage related to water quality. It contains links to publications, policies and ordinances, and resources that focus on local coastal nonpoint source programs in California. The links provide information on a model urban runoff program California municipalities with populations under 10,000; California's nonpoint source program strategy and implementation plan; a review of the implementation of a local coastal program; and BMPs and other water quality resources.

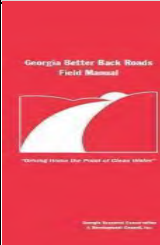

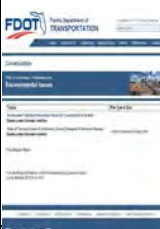

Governors' South Atlantic Alliance Coastal Water Quality Best Management Practices

Golf Course				
Image	State/National	Title	Weblink	Features
	NC	Stormwater Wetlands for Golf Courses	http://www.bae.ncsu.edu/extension/extensionpublications/water/protecting/ag-765-stormwater-golf-course.pdf	<ul style="list-style-type: none"> • A North Carolina Cooperative Extension Service publication targeted toward golf course designers and superintendents involved in golf course wetlands projects. • Discusses wetland planning, hydrologic considerations, and design recommendations for constructing stormwater wetlands. • Describes a stormwater wetlands demonstration project on a golf course near the Albemarle Sound in North Carolina to show the effect of these wetlands nutrient loading and stormwater runoff volumes. • Provides frequently asked questions, references, companion fact sheets, and related websites.
	GA	Best Management Practices and Water Use Efficiency/Conservation Plan for Golf Courses: Template and Guidelines	www.commodities.caes.uga.edu/turfgrass/georgiaturf/Water/Articles/BMPs_Water_Cons_09.pdf	<ul style="list-style-type: none"> • Provides a detailed template for golf course superintendents and club officials to develop a site-specific BMP plan for water-use efficiency and water conservation for their golf course facility. • Provides a step-by-step process with concepts and background information to review current water management practices and identify opportunities for improvement in water-use efficiency/conservation for the club facility, including course, general grounds, clubhouse, maintenance facility, etc. • Includes BMP guidance on setting the goal, planning process, water conservation approach, site assessment/information collection for informed decision-making and BMPs for water-efficiency and conservation. • Provides cost and benefit review and statement and numerous appendices covering outline of planning process and components, state or water district BMPs, drought characteristics of turfgrass, and benefits of turfgrass and turfgrass sites.
	FL	Best Management Practices for the Enhancement of Environmental Quality on Florida's Golf Courses	http://www.dep.state.fl.us/water/nonpoint/docs/nonpoint/gfbmp07.pdf	<ul style="list-style-type: none"> •Very comprehensive, 136 pages •Chapter 1: Environmental Concepts •Chapter 2: Environmental Monitoring •Chapter 3: Design and Construction •Chapter 4: Irrigation •Chapter 5: Nutrition and Fertilization •Chapter 6: Cultural Practices for Golf Turf •Chapter 7: Lake and Aquatic Plant Management •Chapter 8: Turfgrass Pest Management •Chapter 9: Pesticide Management •Chapter 10: Maintenance Operations
Other States				
	VA	Environmental Best Management Practices for Virginia's Golf Courses	http://www.vgcsa.org/sites/images/373/VirginiaBMP.pdf	<ul style="list-style-type: none"> •Attractive well organized layout. •Detailed guidance on irrigation rates with evapotranspiration factors. •Provides guidance for monitoring course waterbodies. •Adoption may be enhanced due to publication by the trade organization. •Very detailed info on fertilizer attributes as well as application rates. •Cites regulations where required advises BMPs even if not required by regulations.
	TN	Tennessee Handbook for Golf Course Environmental Management	http://tennesseeturf.utk.edu/pdffiles/golfcourseenvironmentgmt.pdf	<ul style="list-style-type: none"> • Provides multi-disciplinary information, data, and references for golf course fertility and pesticide operations in Tennessee. • Contains chapters on environmental management issues for golf course management, recommended management practices for topics such as hazardous and operational waste, materials, stormwater, turfgrass, wildlife habitat and water quality buffers.
