Q2 The purpose of the Education/Outreach booths was to help the community learn about our fresh and marine water systems and the role that all of us play in preserving and enhancing these resources. How effective do you think this venue was in helping your organization communicate the work you do?

1	The interactive booths are incredibly effective. People were amazed at holding a live sand dollar in their hands and feeling the tiny legs moving. The toy wooden boat building booth is a big hit with the children.	10/13/2018 7:24 AM
2	Passports distributed at each end of the row of booths (could be a WWIN booth or just extra passports for each booth, especially ones on the ends); rain/wind back-up plan more solidified- the urgent morning-of email was clunky and I can't imagine everyone saw it prior to arriving; a summary report/recap of the event would be nice as well (total number of participants, number of outreach booths/orgs, etc.)	10/10/2018 4:07 PM
3	No	10/10/2018 11:35 AM
4	More sunshine :) but honestly, we had a great time!	10/10/2018 9:42 AM
5	The new location within the festival seemed conducive to channeling a thicker and more consistent stream of festival attendees through the education booth Explore Some More area. I recommend keeping the education booths in the same area for next year.	10/9/2018 1:38 PM
6	I think that there were some really good outreach opportunities and the passport ensured that we got a lot of traffic. The onus was on us to make sure that we made good use of that opportunity. Ideally, there'd be coordination so that different booths are complementing each others messaging and not being redundant. A challenge for us was having materials/activities for all different ages. We had the touch tank from Shannon Point with us and that was awesome at bringing people in - the smaller touch tank next door (Whatcom MRC) was seeming pretty insignificant in comparison to the big one until the big one left.	10/9/2018 12:20 PM
7	Better signage to direct visitors to the outreach booths and indicate the presence of the passport program.	10/8/2018 3:59 PM
8	Shorter day required for the E&O booths. 8 hours is WAY too long.	10/8/2018 12:50 PM
9	Unsure, however we'd love to brainstorm and help find ways Western can expand it's presence and help develop a broader partnership! :)	10/8/2018 12:39 PM
10	All went smoothly from my perspective - Ingrid	10/8/2018 12:24 PM

Q5 Do you have any other comments or suggestions for us to consider?

1	We still need to address the paying method for the food booths. It sounded like the ticket booth was at one end of the event and the booths at the other. I asked one of the attendants what the process was for paying and he said to just give the food truck the cash and they will gladly take it.	10/13/2018 7:24 AM
2	We found that buying food from the vendors was easier this year. Much appreciated!	10/10/2018 2:55 PM
3	A map with water access and garbage cans would be helpful	10/10/2018 11:35 AM
4	Not at this time	10/10/2018 9:42 AM
5	Perhaps increasing the number of beer gardens and stage areas, to allow festival attendees to congregate in more than a couple areas. This would increase traffic between the stages/beer gardens, and improve overall flow over the festival grounds. A very cool stage area would be one of the fishing warehouse overhangs.	10/9/2018 1:38 PM
6	nope - it went really well for us!	10/8/2018 2:48 PM
7	Thanks so much for reaching out to us. The touch tank was a huge hit and we enjoyed being a part of such a wonderful community event.	10/8/2018 12:39 PM

Q6 Would you like to be contacted to participate in Bellingham SeaFeast next year?
