ORDERING INFORMATION

Unless otherwise indicated, a single reprint or photocopy of a listed publication, report, or abstract is available free of charge from the sole/senior Northeast Fisheries Science Center author of the work (*i.e.*, as depicted by all capital letters in the bibliographic entry). The correct mailing address for the sole/senior Center author is indicated by a two-letter code at the end of the bibliographic entry. The key to the codes is as follows:

- MF = National Marine Fisheries Service, 212 Rogers Ave., Milford, CT 06460-6435
- MS = NOAA/University of Massachusetts Cooperative Marine Education and Research Program, c/o Environmental Institute, Blaisdell House, University of Massachusetts, Amherst, MA 01003-0040
- NG = National Marine Fisheries Service, 28 Tarzwell Dr., Narragansett, RI 02882-1199
- NS = National Marine Fisheries Service, National Systematics Laboratory, National Museum of Natural History, 10th & Constitution Ave., N.W., MRC 153, Washington, DC 20560-0153
- SH = National Marine Fisheries Service, 74 Magruder Rd., Highlands, NJ 07732
- WH = National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026

INTRODUCTION

The following bibliography consists of three sections: 1) anonymously peer-reviewed publications ("publications"), 2) transparently (*i.e.*, not anonymously) peer-reviewed and non-peer-reviewed publications ("reports"), and 3) abstracts for oral presentations & poster displays ("abstracts"). The bibliography covers those works which were prepared by Northeast Fisheries Science Center (NEFSC) employees, and which have a 1998 publication date. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 1998, are denoted in the list by all capital letters.

Editorial treatment of bibliographic entries is largely based on the Council of Biology Editors style manual, fifth edition¹. Special treatment includes the use of the abbreviation "n.p." throughout the "Abstracts" section of the bibliography to indicate that an abstract is not paginated. Also, there are foreign recipients of the issues of this series, many of whom do not use English as a primary language. Consequently, because English-language-based acronyms are particularly difficult to comprehend by non-English-using readers, the standardized abbreviations of these acronyms have been included within squared brackets immediately following the acronyms.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. **UNDER ALL CIRCUMSTANCES, THOUGH, ANY INITIAL REQUEST FOR A REPRINT OR PHOTOCOPY SHOULD BE DIRECTED TO THE SOLE/SENIOR NEFSC AUTHOR OF THE WORK. SEE PAGE ii FOR DETAILS.** The NEFSC's Woods Hole Laboratory Library maintains an extensive, although not complete, archive for publications and reports by NEFSC authors, and may be able to supply a reprint or photocopy if the author cannot do so. Secondary requests to the library for a publication or report should be in writing (National Marine Fisheries Service, Northeast Fisheries Science Center, Wood Hole Laboratory Library, 166 Water St., Woods Hole, MA 02543-1026). Expect a significant delay in receiving a reprint or photocopy when requesting it from the library rather than from the author.
