

Correction

EARTH, ATMOSPHERIC, AND PLANETARY SCIENCES

Correction for “Majority of US urban natural gas emissions unaccounted for in inventories,” by Maryann R. Sargent, Cody Floerchinger, Kathryn McKain, John Budney, Elaine W. Gottlieb, Lucy R. Hutyra, Joseph Rudek, and Steven C. Wofsy, which published October 25, 2021; 10.1073/pnas.2105804118 (*Proc. Natl. Acad. Sci. U.S.A.* **118**, e2105804118).

The authors note that three values in the article text are incorrect due to a unit conversion error. On page 1, in the Abstract, lines 9–10, “methane emissions of 76 ± 18 Gg/yr, with 49 ± 9 Gg/yr attributed to NG losses” should instead appear as “methane emissions of 198 ± 47 Gg/yr, with 127 ± 24 Gg/yr attributed to NG losses.” Additionally, on page 3, left column, first paragraph of *Results*, lines 4–5, “corresponding to total emission of 49 Gg/yr of NG methane from this region” should instead appear as “corresponding to total emission of 127 Gg/yr of NG methane from this region.” The online version has been corrected.
