Recent Issues in This Series

- 03-16 **Report of the 37th Northeast Regional Stock Assessment Workshop (37th SAW): Stock Assessment Review Committee (SARC) Consensus Summary of Assessments.** [By Northeast Regional Stock Assessment Workshop No. 37.] September 2003.
- 03-17 **Report of the 37th Northeast Regional Stock Assessment Workshop (37th SAW): Advisory Report.** [By Northeast Regional Stock Assessment Workshop No. 37.] September 2003.
- 03-18 **Estimates of Marine Mammal Bycatch in the Northeast (New England) Multispecies Sink Gillnet Fishery in 1996.** By K.D. Bisack. September 2003.
- 04-01 **Current Fisheries Research and Future Ecosystems Science in the Northeast Center: Collected Abstracts of the Northeast Fisheries Science Center's Eighth Science Symposium, Atlantic City, New Jersey, February 3-5, 2004.** By D.L. Johnson, T.W. Finneran, B.A. Phelan, A.D. Deshpande, C.L. Noonan, S. Fromm, and D.M. Dowds. January 2004.
- 04-02 **Salmon PVA: A Population Viability Analysis Model for Atlantic Salmon in the Maine Distinct Population Segment.** By C.M. Legault. January 2004.
- 04-03 **Report of the 38th Northeast Regional Stock Assessment Workshop (38th SAW): Stock Assessment Review Committee (SARC) Consensus Summary of Assessments.** [By Northeast Regional Stock Assessment Workshop No. 38.] January 2004.
- 04-04 **Report of the 38th Northeast Regional Stock Assessment Workshop (38th SAW): Advisory Report.** [By Northeast Regional Stock Assessment Workshop No. 38.] January 2004.
- 04-05 **Proceedings of the Seventh Meeting of the Transboundary Resources Assessment Committee (TRAC), Woods Hole, Massachusetts, May 27-29, 2003.** By W.J. Overholtz, TRAC chairman. [A report of Transboundary Resources Assessment Committee Meeting No. 7]. February 2004.
- 04-06 **Stock Assessment of the Gulf of Maine - Georges Bank Atlantic Herring Complex, 2003.** By W.J. Overholtz, L.D. Jacobson, G.D. Melvin, M. Cieri, M. Power, D. Libby, and K. Clark. February 2004.
- 04-07 **Identification and Description of the Common Sponges of Jeffreys Ledge as an Aid in Field Operations.** By K. McCarthy. April 2004.
- 04-08 **Revised Procedures for Calculating Regional Average Water Properties for Northeast Fisheries Science Center Cruises.** By D.G. Mountain, M.H. Taylor, and C. Bascuñán. April 2004.
- 04-09 **Estimation of Striped Bass Discards in the Multispecies Groundfish Fishery during the 2002 Fishing Year (May 2002 - April 2003).** By G.R. Shepherd. June 2004.
- 04-10a **39th Northeast Regional Stock Assessment Workshop (39th SAW) Assessment Summary Report.** [By Northeast Regional Stock Assessment Workshop No. 39.] July 2004.
- 04-10b **39th Northeast Regional Stock Assessment Workshop (39th SAW) Assessment Report.** [By Northeast Regional Stock Assessment Workshop No. 39.] July 2004.
- 04-11 **Bycatch of Sea Turtles in the Mid-Atlantic Sea Scallop (*Placopecten magellanicus*) Dredge Fishery during 2003.** By K.T. Murray. August 2004.
- 04-12 **Description of the 2003 Oceanographic Conditions on the Northeast Continental Shelf.** By C. Bascuñán, M.H. Taylor, and J.P. Manning. September 2004.
- 04-13 **Ninth Flatfish Biology Conference, December 1-2, 2004, Water's Edge Resort, Westbrook, Connecticut.** By R. Mercaldo-Allen (chair), A. Calabrese, D.J. Danila, M.S. Dixon, A. Jearld, D.J. Pacileo, C. Powell, and S.J. Sutherland, steering committee members. November 2004.

Northeast Fisheries Science Center Reference Documents

This series is a secondary scientific series designed to assure the long-term documentation and to enable the timely transmission of research results by Center and/or non-Center researchers, where such results bear upon the research mission of the Center (see the outside back cover for the mission statement). These documents receive internal scientific review but no technical or copy editing. The National Marine Fisheries Service does not endorse any proprietary material, process, or product mentioned in these documents.

All documents issued in this series since April 2001, and several documents issued prior to that date, have been copublished in both paper and electronic versions. To access the electronic version of a document in this series, go to <http://www.nefsc.noaa.gov/nefsc/publications/series/crdlist.htm>. The electronic version will be available in PDF format to permit printing of a paper copy directly from the Internet. If you do not have Internet access, or if a desired document is one of the pre-April 2001 documents available only in the paper version, you can obtain a paper copy by contacting the senior Center author of the desired document. Refer to the title page of the desired document for the senior Center author's name and mailing address. If there is no Center author, or if there is corporate (*i.e.*, non-individualized) authorship, then contact the Center's Woods Hole Laboratory Library (166 Water St., Woods Hole, MA 02543-1026).

This document's publication history is as follows: manuscript submitted for review -- September 1, 2004; manuscript accepted through technical review -- November 8, 2004; manuscript accepted through policy review -- November 16, 2004; and final copy submitted for publication -- November 18, 2004. This document may be cited as:

Garner, L. 2004. Northeast Fisheries Science Center publications, reports, and abstracts for Calendar Year 2003. *U.S. Dep. Commer., Northeast Fish. Sci. Cent. Ref. Doc.* 04-14; 21 p. Available from: National Marine Fisheries Service, 166 Water Street, Woods Hole, MA 02543-1026.

ORDERING INFORMATION

The online version of this document links each bibliographic entry to an e-mail request to the senior NEFSC author or a contact acting in his/her stead. Requesting a copy of a work via e-mail is recommended.

Should you want to request a copy of a work by postal mail, the postal address for the senior NEFSC author or contact is associated with the two-letter code at the end of the bibliographic entry. The key to the codes is as follows:

- MF = National Marine Fisheries Service, 212 Rogers Ave., Milford, CT 06460-6435
- MS = NOAA/University of Massachusetts Cooperative Marine Education and Research Program, c/o Environmental Institute, Blaisdell House, University of Massachusetts, Amherst, MA 01003-0040
- NG = National Marine Fisheries Service, 28 Tarzwell Dr., Narragansett, RI 02882-1199
- NS = National Marine Fisheries Service, National Systematics Laboratory, Smithsonian Institution, P.O. Box 37012, National Museum of Natural History, Room 57WC, MRC 0153, Washington, DC 20013-7012
- OR = National Marine Fisheries Service, ASRC Field Station, P.O. Box 190, Orono, ME 04473
- RG = NOAA/Rutgers University Cooperative Marine Education and Research Program, c/o Institute of Marine and Coastal Sciences, P.O. Box 231, New Brunswick, NJ 08903-0231
- RI = NOAA/University of Rhode Island Cooperative Marine Education and Research Program, c/o Graduate School of Oceanography, Narragansett Bay Campus, Narragansett, RI 02882-1197
- SH = National Marine Fisheries Service, 74 Magruder Rd., Highlands, NJ 07732
- VA = NOAA/Virginia Cooperative Marine Education and Research Program, Virginia Institute of Marine Science, Gloucester Point, VA 23062
- WH = National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026

INTRODUCTION

The following bibliography consists of three sections: 1) anonymously peer-reviewed publications ("publications"), 2) transparently (*i.e.*, not anonymously) peer-reviewed and non-peer-reviewed publications ("reports"), and 3) abstracts for oral presentations and poster displays ("abstracts"). The bibliography covers those works which were prepared by Northeast Fisheries Science Center (NEFSC) employees, and which have a 2003 publication date. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 2003, are denoted in the list by capital letters.

Works which have a pre-2003 publication date but which were not released until 2003, or which have a 2003 publication date but had not been released at the time this list was published, have been included in this issue. They are noted by an asterisk (*) next to the publication date.

Editorial treatment of bibliographic entries is largely based on the Council of Biology Editors style manuals, fifth¹ and sixth² editions. Special treatment includes the use of the abbreviations "pnk" and "np" throughout the "Abstracts" section of this bibliography to indicate, respectively, that the pagination is not known or the document is not paginated. Also, there are foreign recipients of the issues of this series, many of whom do not use English as a primary language. Consequently, because English-language-based acronyms are particularly difficult to comprehend by non-English-using readers, the standardized abbreviations of these acronyms – when such acronyms appear in serial titles – have been included within square brackets immediately following the acronyms.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. **UNDER ALL CIRCUMSTANCES, THOUGH, ANY INITIAL REQUEST FOR A REPRINT OR PHOTOCOPY SHOULD BE DIRECTED TO THE SOLE/SENIOR NEFSC AUTHOR OF THE WORK. SEE "ORDERING INFORMATION" FOR DETAILS.** The NEFSC's Woods Hole Laboratory Library maintains an extensive, although not complete, archive for publications and reports by NEFSC authors, and may be able to supply a reprint or photocopy if the author cannot do so. Secondary requests to the library for a publication or report should be in writing (National Marine Fisheries Service, Northeast Fisheries Science Center, Woods Hole Laboratory Library, 166 Water St., Woods Hole, MA 02543-1026). Expect a significant delay in receiving a reprint or photocopy when requesting it from the library rather than from the author.

Bibliographies of publications, reports, and abstracts for earlier years are available online at <http://www.nefsc.noaa.gov/nefsc/publications/list/lists.htm>.

ACKNOWLEDGMENT

I would like to thank Jon Gibson for the years he put into singlehandedly building, refining, and maintaining the Center publications lists. His attention to detail and interest in keeping up-to-date on ever-changing bibliographic techniques made this annual volume a comprehensive and very useful document, and greatly eased the transition from paper to internet.

PUBLICATIONS

- Allcock, AL; Collins, MA; VECCHIONE, M. 2003. A redescription of *Graneledone verrucosa* (Verrill, 1881) (Octopoda: Octopodidae). *J. Molluscan Stud.* 69(Part 2):135-143. Postal address code: NS.

Procedures for Issuing Manuscripts in the *Northeast Fisheries Science Center Reference Document (CRD) Series*

Clearance: All manuscripts submitted for issuance as CRDs must have cleared the NEFSC's manuscript/abstract/webpage review process. If any author is not a federal employee, he/she will be required to sign an "NEFSC Release-of-Copyright Form." If your manuscript includes material lifted from another work which has been copyrighted, then you will need to work with the NEFSC's Editorial Office to arrange for permission to use that material by securing release signatures on the "NEFSC Use-of-Copyrighted-Work Permission Form."

Organization: Manuscripts must have an abstract and table of contents, and — if applicable — lists of figures and tables. As much as possible, use traditional scientific manuscript organization for sections: "Introduction," "Study Area"/"Experimental Apparatus," "Methods," "Results," "Discussion" and/or "Conclusions," "Acknowledgments," and "Literature/References Cited."

Style: The CRD series is obligated to conform with the style contained in the current edition of the *United States Government Printing Office Style Manual*. That style manual is silent on many aspects of scientific manuscripts. The CRD series relies more on the *CBE Style Manual*. Manuscripts should be prepared to conform with these style manuals.

The CRD series uses the American Fisheries Society's guides to names of fishes, mollusks, and decapod crustaceans, the Society for Marine Mammalogy's guide to names of marine mammals, the Biosciences Information Service's guide to serial title abbreviations, and the International Standardization Organization's guide to statistical terms.

For in-text citation, use the name-date system. A special effort should be made to ensure that all necessary bibliographic information is included in the list of cited works. Personal communications must include date, full name, and full mailing address of the contact.

Preparation: Type a clean/neat, single-spaced version of the document. The document must be paginated continuously from beginning to end and must have a "Table of Contents." Begin the preliminary pages of the document — always the "Table of Contents" — with page "iii." Begin the body of the document — normally the "Introduction" — with page "1," and continuously paginate all pages including tables, figures, appendices, and indices. You can insert blank pages as appropriate throughout the document, but account for them in your pagination (*e.g.*, if your last figure ends on an odd-numbered/right-hand page such as "75," and if your next page is the first page of an appendix, then you would normally insert a blank page after the last figure, and paginate the first page of the appendix as "77" to make it begin on an odd-numbered/right-hand page also). Forward the final version to the Editorial Office as both a paper copy and electronically (*i.e.*, e-mail attachment, 3.5-inch floppy disk, high-density zip disk, or CD). For purposes of publishing the CRD series only, the use of Microsoft Word is preferable to the use of Corel WordPerfect.

Production and Distribution: The Editorial Office will develop the inside and outside front covers, the inside and outside back covers, and the title and bibliographic control pages (pages "i" and "ii") of the document, then combine those covers and preliminary pages with the text that you have supplied. The document will then be issued online.

Paper copies of the four covers and two preliminary pages will be sent to the sole/senior NEFSC author should he/she wish to prepare some paper copies of the overall document as well. The Editorial Office will only produce three paper copies (*i.e.*, two copies for the NEFSC's libraries and one copy for its own archives) of the overall document.

A number of organizations and individuals in the Northeast Region will be notified by e-mail of the availability of the online version of the document. The sole/senior NEFSC author of the document will receive a list of those so notified.

Publications and Reports of the Northeast Fisheries Science Center

The mission of NOAA's National Marine Fisheries Service (NMFS) is "stewardship of living marine resources for the benefit of the nation through their science-based conservation and management and promotion of the health of their environment." As the research arm of the NMFS's Northeast Region, the Northeast Fisheries Science Center (NEFSC) supports the NMFS mission by "conducting ecosystem-based research and assessments of living marine resources, with a focus on the Northeast Shelf, to promote the recovery and long-term sustainability of these resources and to generate social and economic opportunities and benefits from their use." Results of NEFSC research are largely reported in primary scientific media (*e.g.*, anonymously-peer-reviewed scientific journals). However, to assist itself in providing data, information, and advice to its constituents, the NEFSC occasionally releases its results in its own media. Currently, there are three such media:

NOAA Technical Memorandum NMFS-NE -- This series is issued irregularly. The series typically includes: data reports of long-term field or lab studies of important species or habitats; synthesis reports for important species or habitats; annual reports of overall assessment or monitoring programs; manuals describing program-wide surveying or experimental techniques; literature surveys of important species or habitat topics; proceedings and collected papers of scientific meetings; and indexed and/or annotated bibliographies. All issues receive internal scientific review and most issues receive technical and copy editing.

Northeast Fisheries Science Center Reference Document -- This series is issued irregularly. The series typically includes: data reports on field and lab studies; progress reports on experiments, monitoring, and assessments; background papers for, collected abstracts of, and/or summary reports of scientific meetings; and simple bibliographies. Issues receive internal scientific review, but no technical or copy editing.

Resource Survey Report (formerly *Fishermen's Report*) -- This information report is a quick-turnaround report on the distribution and relative abundance of selected living marine resources as derived from each of the NEFSC's periodic research vessel surveys of the Northeast's continental shelf. There is no scientific review, nor any technical or copy editing, of this report.

OBTAINING A COPY: To obtain a copy of a *NOAA Technical Memorandum NMFS-NE* or a *Northeast Fisheries Science Center Reference Document*, or to subscribe to the *Resource Survey Report*, either contact the NEFSC Editorial Office (166 Water St., Woods Hole, MA 02543-1026; 508-495-2228) or consult the NEFSC webpage on "Reports and Publications" (<http://www.nefsc.noaa.gov/nefsc/publications/>).

ANY USE OF TRADE OR BRAND NAMES IN ANY NEFSC PUBLICATION OR REPORT DOES NOT IMPLY ENDORSEMENT.
