

EDITORIAL

10.1029/2022JD036900

Key Point:

- The editors thank the 2021 peer reviewers
- The journal received 1581 submitted manuscripts
- 2510 scientists reviewed for the journal in 2021

Correspondence to:

The editors of *Journal of Geophysical Research (JGR): Atmospheres* wish to sincerely thank the 2,510 outstanding scientists who reviewed manuscripts for the journal in 2021. Peer review is a crucial process to ensure the integrity and rigor of science. Your reviews have helped to improve the quality of papers in the journal, stimulated new ideas, and advanced the careers of many young scientists. They contributed to the high quality of JGR-Atmospheres and the standard of science in our discipline. Of the 2510 reviewers listed below for the 1,581 submitted papers to the journal, 535 people reviewed three or more papers. On behalf of the journal, the authors, and the community, we thank all reviewers for your selfless service and dedication to the scientific community. We look forward to your continuing support!

Individuals in italics provided three or more reviews for JGR-Atmospheres during the year.
