MEMORANDUM FOR: Max Mayfield, Deputy Director
Tropical Prediction Center

FROM: Joe Arellano, Jr., Meteorologist In Charge

SUBJECT: **Hurricane Bret Storm Report**

The storm report for Hurricane Bret as it affected the WFO Corpus Christi County Warning Area is enclosed for your review. As required in the WSOM Chapter C-41, a copy of the storm report was also submitted to WSH, W/OM12 and also SRH. A copy of the Preliminary Storm Report for Bret transmitted via AWIPS at 200 PM CDT on August 26 is also included in the report.

WS-F60 forms have been sent to local officials and emergency managers in the affected counties to assess final damage and dollar amounts. Once these forms are returned, we will submit an updated report within 30 days.

Enclosure

OTHER RAINFALL REPORTS (STORM TOTAL)
ARANSAS PASS...12.60

D. STORM TIDES...

MAXIMUM STORM TIDE LEVELS:

BOB HALL PIER: 2.6 FEET AT 0800 UTC 8/23/99
ROCKPORT: 1.8 FEET AT 1200 UTC 8/23/99

E. BEACH EROSION...

SAN PATRICIO COUNTY...VERY MINOR BEACH EROSION REPORTED.

NUECES COUNTY...CORPUS CHRISTI NORTH BEACH LOST 20 TO 40 CUBIC FEET OF BEACH IN SOME PLACES. LITTLE OR NO BEACH EROSION ON BARRIER ISLANDS.

KLEBERG...MINOR BEACH EROSION REPORTED ALONG THE NATIONAL SEASHORE ON NORTH PADRE ISLAND. SOME PIERS WERE DESTROYED ON RIVIERA BEACH ON THE TIP OF BAFFIN BAY.

FOR NORTH PADRE ISLAND SOUTH OF BAFFIN BAY...SEE REPORT BELOW UNDER OTHER STORM EFFECTS.

NO SIGNIFICANT BEACH EROSION REPORTED IN ARANSAS...CALHOUN AND REFUGIO COUNTIES.

F. FLOODING...

COASTAL FLOODING...NO SIGNIFICANT COASTAL FLOODING WAS REPORTED.

FLASH FLOODING...WIDESPREAD FLASH FLOODING WAS OBSERVED OVER ARANSAS...REFUGIO...SAN PATRICIO...NUECES...BEE...LIVE OAK AND KLEBERG COUNTIES. BANDS OF RAIN WERE LESS NUMEROUS FURTHER WEST...BUT LOCALLY HEAVY RAINFALL PRODUCED FLASH FLOODING OVER PARTS OF MCMULLEN AND WEBB COUNTIES.

RIVER FLOODING...HEAVY RAINS CONTINUED TO SPREAD WESTWARD TO THE LAREDO AND COTULLA AREAS AS BRET PROGRESSED INLAND. HEAVY RAINFALL OVER THE UPPER NUECES AND RIO GRANDE BASIN WILL LIKELY LEAD MINOR FLOODING DOWNSTREAM. THE ARANSAS RIVER (AT SKIDMORE) AND OSO CREEK NEAR CORPUS CHRISTI REACHED FLOOD STAGE RAPIDLY AND ARE CURRENTLY FALLING.

G. TORNADOES...

ARANSAS COUNTY 8/22/99 2145 UTC...A TORNADO DESTROYED A RECREATIONAL VEHICLE...A BARN AND A SHED. ALSO...SEVERAL TREES UPROOTED.

KLEBERG COUNTY 8/22/99 2245 UTC...TORNADO IN KINGSVILLE. MINOR DAMAGE AND A FEW POWER LINES DOWN.

JIM WELLS COUNTY 08/23/99 0020 UTC....TORNADO IN ALICE. NO REPORTS OF DAMAGE.

H. STORM EFFECTS...

FATALITIES: NONE.

EVACUATIONS: RECOMMENDATIONS FOR VOLUNTARY EVACUATIONS WERE ISSUED BY PUBLIC OFFICIALS FOR SEVERAL COASTAL COUNTIES. THE FOLLOWING IS A LIST OF COUNTIES AND AN APPROXIMATION (ACTUAL NUMBERS AND/OR PERCENTAGE) OF THE NUMBER OF THOSE WHO EVACUATED:

SAN PATRICIO.....35,000-40,000 (50-60%)
KLEBERG.....17,500
ARANSAS.....15,000 (70%)
CALHOUN.....8,000-9,000 (30-40%)
NUECES.....70,000-100,000

NAS CORPUS CHRISTI....5,300 MILITARY AND CIVILIAN EVACUATED
US COAST GUARD 300

DAMAGE AMOUNTS: IN THE CORPUS CHRISTI AREA...DAMAGE TO HOMES AND BUSINESSES WAS REPORTED BETWEEN 400,000 AND 500,000 DOLLARS. OVERALL DAMAGE AMOUNTS IN THE CORPUS CHRISTI AREA TOTALED ABOUT ONE MILLION DOLLARS WITH THE NAVAL AIR STATION IN CRP ALSO REPORTING AN ADDITIONAL ONE MILLION IN DAMAGES. NO DOLLAR AMOUNT ON DAMAGE FROM THE KINGSVILLE AREA WAS AVAILABLE AT THIS TIME.

OTHER EFFECTS...BRET PRODUCED 12 NEW CUTS ACROSS PADRE ISLAND NATIONAL SEASHORE WHERE WATERS FROM THE GULF OF MEXICO NOW CONNECT TO THE LAGUNA MADRE. ABOUT 29 MILES SOUTH OF THE NATIONAL SEASHORE HEADQUARTERS...SIGNIFICANT TO MAJOR BEACH EROSION BEGINS AND CONTINUES TO THE PORT MANSFIELD PASS. THE FIRST MAJOR CUT IS AT MILE MARKER 40 AND IS ABOUT 150 FEET ACROSS WITH WATER ESTIMATED AT THREE TO FIVE FEET DEEP. FURTHER SOUTH NEAR MILE MARKER 50 AND CLOSE TO WHERE THE EYE CAME ASHORE...THE LARGEST CUT IS SO WIDE THAT AIRCREWS FLYING OVER THE AREA INITIALLY MISTOOK THE LARGE CUT AS THE MANSFIELD PASS. ABOUT 20 MILES EITHER SIDE OF WHERE THE EYE CAME ASHORE...DAMAGE SURVEY TEAMS REPORTED THE DUNES WERE SHEARED IN HALF.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
500 PM CDT SAT AUG 21 1999

...HURRICANE BRET CONTINUES MOVING NORTH-NORTHWEST...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF ARANSAS...SAN PATRICIO...NUECES AND KLEBERG COUNTIES.

...A TROPICAL STORM WARNING AND HURRICANE WATCH IS IN EFFECT FROM BAFFIN BAY TO PORT ARANSAS...

...A HURRICANE WARNING REMAINS IN EFFECT FROM BAFFIN BAY TO LA PESCA MEXICO...

AT 400 PM CDT HURRICANE BRET WAS LOCATED NEAR LATITUDE 24.1 NORTH AND LONGITUDE 95.1 WEST...MOVING NORTH NORTHWEST AT 8 MPH. ESTIMATED MINIMUM CENTRAL PRESSURE IS 976 MB WITH MAXIMUM SUSTAINED WINDS OF 105 MPH.

RESIDENTS IN THE TROPICAL STORM WARNING AND HURRICANE WATCH AREA ARE URGED TO TAKE THE FOLLOWING ACTIONS TO PROTECT LIFE AND PROPERTY.

...PREPAREDNESS ACTIONS...
PERSONS LOCATED IN AND NEAR THE POSTED WATCH AND WARNING AREA SHOULD PREPARE FOR HIGH WINDS...SQUALLS AND COASTAL FLOODING. RESIDENTS LIVING ON PADRE AND MUSTANG ISLANDS SHOULD MAKE PREPARATIONS AND BE PREPARED TO EVACUATE IF ORDERED BY LOCAL OFFICALS.

MAKE SURE YOU HAVE PLENTY OF CANNED FOOD...INCLUDING PET FOOD...AND A NON-ELECTRIC CAN OPENER. CHECK EMERGENCY SUPPLIES SUCH AS BATTERIES FOR RADIOS AND FLASHLIGHTS...FIRST AID KITS...AND NECESSARY MEDICAL SUPPLIES.

SECURE LAWN FURNITURE AND OTHER LOOSE MATERIALS OUTSIDE YOUR HOME AS THESE MAY BECOME FLYING MISSILES. BOARD YOUR WINDOWS TO PREVENT GLASS FROM SHATTERING. FUEL YOUR CAR AND KEEP EXTRA CANISTERS OF FUEL ON HAND FOR USE AFTER THE STORM.

REVIEW THE ELEVATION OF YOUR HOME AND POSSIBLE EVACUATION ROUTES. WHEN STORM SURGE WATER LEVELS ARE BROADCAST IN THE EVENT A WARNINGIS ISSUED...YOU WILL BE ABLE TO QUICKLY DECIDE IF YOUR HOME IS IN DANGER OF FLOODING.

MARINERS SHOULD PREPARE BOATS FOR SAFE DOCKING. SMALL CRAFT ARE URGED TO REMAIN IN PORT UNTIL WINDS AND SEAS SUBSIDE.

YOUR LOCAL EMERGENCY MANAGEMENT OFFICIALS OR RED CROSS CAN GIVE YOU THE LOCATION OF THE SHELTER NEAREST YOUR HOME...AND EXPLAIN WHAT YOU SHOULD BRING WITH YOU. YOU MAY WANT TO CONTACT RELATIVES OR FRIENDS WHO LIVE INLAND IN CASE YOU HAVE TO STAY WITH THEM. KNOW HOW TO CONTACT FAMILY MEMBERS SHOULD THE NEED ARISE.

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI ADVISES RESIDENTS IN THE AFFECTED AREA TO CONTINUE MONITORING THIS WEATHER SITUATION FOR UPDATES ON HURRICANE BRET. ADDITIONAL INFORMATION CAN BE FOUND ON THE FOLLOWING INTERNET SITES...

NATIONAL WEATHER SERVICE CORPUS CHRISTI...WWW.SRH.NOAA.GOV/CRP/

NATIONAL HURRICANE CENTER...WWW.NHC.NOAA.GOV

TEXAS ROAD INFORMATION...WWW.DOT.STATE.TX.US/HCR/MAIN.HTM

TEXAS ROAD INFORMATION PHONE...1-800-452-9292

ALSO ADDITIONAL INFORMATION CAN BE FOUND IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER...AND PUBLIC INFORMATION STATEMENTS AND SHORT TERM FORECASTS ISSUED BY THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI.

THE NEXT SCHEDULED LOCAL STATEMENT WILL BE ISSUED AT 11 PM CDT UNLESS CONDITIONS WARRENT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1110 PM CDT SAT AUG 21 1999

...EXTREMELY DANGEROUS HURRICANE BRET TAKING AIM ON SOUTH TEXAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...JIM WELLS...ARANSAS...SAN PATRICIO... REFUGIO...NUECES AND KLEBERG COUNTIES.

...HURRICANE WARNINGS ARE IN EFFECT FROM LA PESCA MEXICO TO PORT OCONNOR TEXAS...

AT 10 PM CDT HURRICANE BRET WAS LOCATED NEAR LATITUDE 25.2 NORTH AND LONGITUDE 95.1 WEST...MOVING NORTH AT 10 MPH. ESTIMATED MINIMUM CENTRAL PRESSURE IS 953 MB WITH MAXIMUM SUSTAINED WINDS OF 135 MPH...WITH HIGHER GUSTS. THIS MAKES HURRICANE BRET A CATEGORY FOUR ON THE SAFFIR SIMPSON HURRICANE SCALE...AN EXTREMELY DANGEROUS STORM.

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI URGES RESIDENTS TO RUSH HURRICANE PREPARATIONS TO COMPLETION. RESIDENTS IN THE HURRICANE WARNING AREA MUST TAKE IMMEDIATE ACTION TO PROTECT LIFE AND PROPERTY. EMERGENCY MANAGEMENT...LOCAL... AND COUNTY OFFICIALS HAVE ORDERED A VOLUNTARY EVACUATION OF ALL LOW LYING AREAS IN NUECES...ARANSAS...KLEBERG...AND CALHOUN COUNTIES. THIS INCLUDES THE CITIES OF CORPUS CHRISTI AND KINGSVILLE. SPECIFICALLY THIS RECOMMENDED EVACUATION INCLUDES THE CORPUS CHRISTI NORTH BEACH AREA...PADRE ISLAND AND WARD ISLAND. ALSO...THIS RECOMMENDED EVACUATION INCLUDES AREAS ALONG THE NUECES RIVER AND THOSE AREAS CONSIDERED TO BE BOTTOM LAND.

...STORM SURGE...
THE THREAT OF STORM SURGE WILL BE ON THE INCREASE AS TIDAL SURGES OF 10 TO 12 FEET ABOVE NORMAL SPREAD INLAND NEAR AND NORTH OF LANDFALL. STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...
AT CORPUS CHRISTI...332 AM ON SUNDAY AND 403 AM ON MONDAY MORNING.
AT PORT OCONNOR...848 AM ON SUNDAY AND 932 AM ON MONDAY MORNING.

WITH A STORM SURGE OF 12 FEET...MOST AREAS OF MUSTANG...MATAGORDA AND NORTHERN PADRE ISLANDS WILL BE UNDERWATER. MANY COASTAL CITIES...INCLUDING LAMAR...ROCKPORT...PALO ALTO...POST OCONNOR...INDIANOLA...AND FULTON WILL BE UNDERWATER. ARANSAS PASS WILL BE FLOODED 3 TO 6 BLOCKS WEST OF MAIN STREET. WATER MOVING INTO INGLESIDE. IN CORPUS CHRISTI...ALL OF NORTH BEACH...THE T-HEADS...WILL BE UNDERWATER AND AREAS NEAR THE TANK FARM...RAILROAD TRACKS...AND DOCKS...BECOMING FLOODED IF PROTECTION DIKES HAVE NOT BEEN INSTALLED. WARD ISLAND WILL BE ALMOST ENTIRELY UNDERWATER. FLOODING 2 FEET DEEP IN PLACES AT RIVERIA BEACH AND LOYOLA BEACH. MANY PART OF FLOUR BLUFF WILL BE FLOODED. THE PADRE ISLAND AND NUECES BAY CAUSEWAYS AS WELL AS MANY ROADWAYS IN LOW LYING AREAS WILL BE FLOODED AND IMPASSABLE.

...WIND INFORMATION...
HURRICANE FORCE WINDS WILL BEGIN AFFECTING THE TEXAS COAST ON SUNDAY. HURRICANE FORCE WINDS WILL SPREAD INLAND AS HURRICANE BRET MOVES INLAND. SECURE LOOSE OBJECTS BEFORE THE STRONG WINDS ARRIVE. PERSONS LIVING IN MOBILE HOMES SHOULD MOVE AS SOON AS POSSIBLE TO A SAFER PLACE.

THE NATIONAL WEATHER SERVICE ADVISES RESIDENTS IN THE AFFECTED AREAS TO CONTINUE MONITORING THE PROGRESS OF HURRICANE BRET.

ADDITIONAL INFORMATION CAN BE FOUND IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER AND PUBLIC INFORMATION AND SHORT TERM FORECASTS ISSUED BY THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI.

THE NEXT SCHEDULED LOCAL STATEMENT WILL BE ISSUED AT 4 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
445 AM CDT SUN AUG 22 1999

...EXTREMELY DANGEROUS HURRICANE BRET TAKING AIM ON THE COASTAL BEND AREA OF SOUTH TEXAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...JIM WELLS...ARANSAS...SAN PATRICIO... REFUGIO...NUECES AND KLEBERG COUNTIES.

...HURRICANE WARNINGS ARE IN EFFECT FOR THE TEXAS COAST FROM BROWNSVILLE TO PORT OCONNOR...

AREA RESIDENTS SHOULD MONITOR THE PROGRESS OF HURRICANE BRET AND TAKE IMMEDIATE ACTION TO PROTECT LIFE AND PROPERTY. ALL PREPARATIONS SHOULD BE COMPLETED AND ALL EVACUATIONS AS RECOMMENDED BY LOCAL OFFICIALS SHOULD BE RUSHED TO COMPLETION.

AT 4 AM CDT HURRICANE BRET WAS LOCATED ABOUT 185 MILES SOUTHEAST OF CORPUS CHRISTI NEAR LATITUDE 26.0 NORTH AND LONGITUDE 95.7 WEST. BRET WAS MOVING NORTHWEST AT 10 MPH WITH A GRADUAL TURN TO THE WEST NORTHWEST AND A DECREASE IN FORWARD SPEED DURING THE NEXT 24 HOURS. MAXIMUM SUSTAINED WINDS HAVE NOW INCREASED TO 140 MPH WITH HIGHER GUSTS. THIS MAKES BRET A STRONG CATEGORY FOUR STORM AND EXTREMELY DANGEROUS.

EMERGENCY MANAGEMENT AND LOCAL OFFICIALS HAVE ORDERED A VOLUNTARY EVACUATION OF LOW LYING AREAS IN NUECES...ARANSAS...KLEBERG...AND CALHOUN COUNTIES...INCLUDING THOSE AREAS IN THE CITIES OF CORPUS CHRISTI AND KINGSVILLE. THIS RECOMMENDED EVACUATION INCLUDES THE CORPUS CHRISTI NORTH BEACH AREA...PADRE ISLAND...WARD ISLAND...AND AREAS ALONG THE NUECES RIVER. ADDITIONAL RECOMMENDED EVACUATIONS ARE EXPECTED LATER TODAY.

...STORM SURGE AND TIDES...
THE THREAT OF STORM SURGE WILL BE INCREASING AS TIDAL SURGES OF 10 TO 15 FEET ABOVE NORMAL SPREAD INLAND NEAR WHERE THE CENTER MAKES LANDFALL. STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...
AT CORPUS CHRISTI...403 AM MONDAY MORNING.
AT PORT OCONNOR...848 AM TODAY AND 932 AM MONDAY MORNING.
CURRENTLY...THE TIDES ARE RUNNING 1 TO 2 FEET ABOVE NORMAL.

WITH A STORM SURGE OF 12 TO 15 FEET...MUSTANG ISLAND AND NORTH PADRE ISLAND WILL BE UNDERWATER...AS WELL AS THE CITIES OF ROCKPORT...FULTON...AND PORT ARANSAS. MANY AREAS IN ARANSAS PASS AND INGLESIDE WILL ALSO BE FLOODED. A SURGE OF 15 FEET WILL BRING WATER LEVELS OVER THE CORPUS CHRISTI SEAWALL AND OVER THE PROTECTION DIKE. NORTH BEACH COULD BE FLOODED WITH WATER 10 TO 13 FEET DEEP AND WATER COULD BE MORE THAN 5 FEET DEEP IN LOWER SECTIONS OF FLOUR BLUFF NEAR THE CAUSEWAY. UNIVERSITY HEIGHTS AT TEXAS A & M UNIVERSITY IN CORPUS CHRISTI WILL BE UNDERWATER. THE TANK FARM AND RAILROAD AREAS SOUTH OF THE TURNING BASIN WILL BE FLOODED.

...WIND INFORMATION...
HURRICANE BRET...IF IT REMAINS ON ITS CURRENTLY FORECASTED TRACK...IS EXPECTED TO MAKE LANDFALL JUST SOUTH OF CORPUS CHRISTI BAY MONDAY MORNING. WINDS ARE EXPECTED TO INCREASE TO TROPICAL STORM STRENGTH...39 TO 73 MPH...LATE THIS AFTERNOON...WITH HURRICANE FORCE WINDS BEGINNING TO AFFECT THE TEXAS COAST TONIGHT. HURRICANE FORCE WINDS WILL SPREAD INLAND AS THE HURRICANE MOVES ONSHORE.

...HEAVY RAINS...
TORRENTIAL RAINS OF 8 TO 12 INCHES ARE EXPECTED ALONG THE TRACK OF THE HURRICANE WHICH WILL PRODUCE WIDESPREAD FLOODING OVER INLAND AREAS...IN ADDITION TO THE STORM SURGE FLOODING NEAR THE COAST.

THE NATIONAL WEATHER SERVICE STRONGLY URGES ALL RESIDENTS IN THE COASTAL BEND AREA TO TAKE ALL NECESSARY PREPARATIONS TO PROTECT LIFE AND PROPERTY NOW BEFORE THE STRONG WINDS AND HEAVY RAINS ARRIVE LATE TODAY.

ADDITIONAL INFORMATION CAN BE FOUND IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER AND PUBLIC INFORMATION AND SHORT TERM FORECASTS ISSUED BY THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI.

THE NEXT SCHEDULED LOCAL STATEMENT WILL BE ISSUED AT 8 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
835 AM CDT SUN AUG 22 1999

...EXTREMELY DANGEROUS HURRICANE BRET CONTINUES TO TAKE AIM ON THE COASTAL BEND AREA OF SOUTH TEXAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...JIM WELLS...ARANSAS...SAN PATRICIO... REFUGIO...NUECES AND KLEBERG COUNTIES.

...HURRICANE WARNINGS ARE IN EFFECT FOR THE TEXAS COAST FROM BROWNSVILLE TO PORT OCONNOR...

AREA RESIDENTS SHOULD MONITOR THE PROGRESS OF HURRICANE BRET AND TAKE IMMEDIATE ACTION TO PROTECT LIFE AND PROPERTY. ALL PREPARATIONS SHOULD BE COMPLETED AND ALL EVACUATIONS AS RECOMMENDED BY LOCAL OFFICIALS SHOULD BE RUSHED TO COMPLETION.

AT 8 AM CDT HURRICANE BRET WAS LOCATED ABOUT 125 MILES SOUTHEAST OF CORPUS CHRISTI NEAR LATITUDE 26.3 NORTH AND LONGITUDE 96.2 WEST. BRET WAS MOVING TO THE NORTHWEST NEAR 10 MPH. A GRADUAL TURN TO THE WEST NORTHWEST AND A DECREASE IN FORWARD SPEED IS EXPECTED DURING THE NEXT 24 HOURS. MAXIMUM SUSTAINED WINDS REMAIN NEAR 140 MPH WITH HIGHER GUSTS. THIS MAKES BRET A DANGEROUS CATEGORY FOUR STORM.

SEAS ALSO CONTINUE TO BUILD ACROSS THE OFFSHORE WATERS. AT 8 AM CDT...THE BUOY LOCATED 45 NAUTICAL MILES TO THE SOUTHEAST OF BAFFIN BAY HAD 20 FOOT SEAS. THESE HIGH SWELLS WILL CONTINUE TO MAKE THEIR WAY TOWARDS THE TEXAS COAST TODAY AND TONIGHT AND INCREASE THE THREAT FOR COASTAL FLOODING AND BEACH EROSION.

EMERGENCY MANAGEMENT AND LOCAL OFFICIALS HAVE ORDERED A VOLUNTARY EVACUATION OF LOW LYING AREAS IN NUECES...ARANSAS...KLEBERG...AND CALHOUN COUNTIES...INCLUDING THOSE AREAS IN THE CITIES OF CORPUS CHRISTI AND KINGSVILLE. THIS RECOMMENDED EVACUATION INCLUDES THE CORPUS CHRISTI NORTH BEACH AREA...PADRE ISLAND...MUSTANG ISLAND... WARD ISLAND...AND AREAS ALONG THE NUECES RIVER. A MANDATORY EVACUATION HAS BEEN ISSUED FOR THE ARANSAS PASS AREA. ADDITIONAL RECOMMENDED EVACUATIONS ARE EXPECTED LATER TODAY.

...STORM SURGE AND TIDES...
THE THREAT OF THE STORM SURGE WILL BE INCREASING TODAY AND TONIGHT AS TIDAL SURGES OF 10 TO 15 FEET ABOVE NORMAL SPREAD INLAND ALONG AND JUST TO THE RIGHT OF WHERE THE EYE MAKES LANDFALL. STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...

AT CORPUS CHRISTI...403 AM MONDAY MORNING.
AT PORT OCONNOR...848 AM TODAY AND 932 AM MONDAY MORNING.
CURRENTLY...THE TIDES ARE RUNNING AROUND 1 FOOT ABOVE NORMAL.

WITH A STORM SURGE OF 12 TO 15 FEET...MUSTANG ISLAND AND NORTH PADRE ISLAND WILL BE UNDERWATER...AS WELL AS THE CITIES OF ROCKPORT...FULTON...AND PORT ARANSAS. MANY AREAS IN ARANSAS PASS AND INGLESIDE WILL ALSO BE FLOODED. A SURGE OF 15 FEET WILL BRING WATER LEVELS OVER THE CORPUS CHRISTI SEAWALL AND OVER THE PROTECTION DIKE. NORTH BEACH COULD BE FLOODED WITH WATER 10 TO 13 FEET DEEP AND WATER COULD BE MORE THAN 5 FEET DEEP IN LOWER SECTIONS OF FLOUR BLUFF NEAR THE CAUSEWAY. UNIVERSITY HEIGHTS AT TEXAS A & M UNIVERSITY IN CORPUS CHRISTI WILL BE UNDERWATER. THE TANK FARM AND RAILROAD AREAS SOUTH OF THE TURNING BASIN WILL BE FLOODED.

...WIND INFORMATION...
HURRICANE BRET...IF IT REMAINS ON ITS CURRENTLY FORECASTED TRACK...IS EXPECTED TO MAKE LANDFALL JUST SOUTH OF CORPUS CHRISTI BAY MONDAY MORNING. WINDS ARE EXPECTED TO INCREASE TO TROPICAL STORM STRENGTH...39 TO 73 MPH...LATE THIS AFTERNOON...WITH HURRICANE FORCE WINDS BEGINNING TO AFFECT THE TEXAS COAST TONIGHT. HURRICANE FORCE WINDS WILL SPREAD INLAND AS THE HURRICANE MOVES ONSHORE.

...HEAVY RAINS...
TORRENTIAL RAINS OF 10 TO 12 INCHES ARE EXPECTED ALONG AND JUST TO THE NORTH OF THE TRACK OF THE HURRICANE. THIS AMOUNT OF RAIN WILL

PRODUCE WIDESPREAD FLOODING. AS A RESULT...A FLASH FLOOD WATCH REMAINS IN EFFECT FOR THE ENTIRE REGION THROUGH MONDAY.

...TORNADO THREAT...
THERE IS THE THREAT FOR ISOLATED TORNADOES AS THE RAIN BANDS FROM BRET MAKE THEIR WAY TOWARDS THE COAST. THE GREATEST THREAT FROM TORNADOES WILL EXIST ACROSS THE NORTHEAST SECTOR OF THIS STORM.

THE NATIONAL WEATHER SERVICE STRONGLY URGES ALL RESIDENTS IN THE COASTAL BEND AREA TO TAKE ALL NECESSARY PREPARATIONS TO PROTECT LIFE AND PROPERTY NOW BEFORE THE STRONG WINDS AND HEAVY RAINS ARRIVE LATER TODAY AND TONIGHT. THIS IS A DANGEROUS STORM!

ADDITIONAL INFORMATION CAN BE FOUND IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER AND PUBLIC INFORMATION AND SHORT TERM FORECASTS ISSUED BY THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI.

THE NEXT SCHEDULED LOCAL STATEMENT WILL BE ISSUED AROUND 10 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1035 AM CDT SUN AUG 22 1999

...EXTREMELY DANGEROUS HURRICANE BRET CONTINUES TO TAKE AIM ON THE COASTAL BEND AREA OF SOUTH TEXAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

...HURRICANE WARNINGS ARE IN EFFECT FOR THE TEXAS COAST FROM BROWNSVILLE TO PORT OCONNOR...

AREA RESIDENTS SHOULD MONITOR THE PROGRESS OF HURRICANE BRET AND TAKE IMMEDIATE ACTION TO PROTECT LIFE AND PROPERTY. ALL PREPARATIONS SHOULD BE COMPLETED AND ALL EVACUATIONS AS RECOMMENDED BY LOCAL OFFICIALS SHOULD BE RUSHED TO COMPLETION.

AT 10 AM CDT HURRICANE BRET WAS LOCATED ABOUT 105 MILES SOUTHEAST OF CORPUS CHRISTI NEAR LATITUDE 26.5 NORTH AND LONGITUDE 96.5 WEST. BRET WAS MOVING TO THE NORTHWEST NEAR 10 MPH. A GRADUAL TURN TO THE WEST NORTHWEST AND A DECREASE IN FORWARD SPEED IS EXPECTED DURING THE NEXT 24 HOURS. MAXIMUM SUSTAINED WINDS REMAIN NEAR 140 MPH WITH HIGHER GUSTS. THIS MAKES BRET A DANGEROUS CATEGORY FOUR HURRICANE.

SEAS ALSO CONTINUE TO BUILD ACROSS THE OFFSHORE WATERS. AT 9 AM CDT...THE BUOY LOCATED 45 NAUTICAL MILES TO THE SOUTHEAST OF BAFFIN BAY HAD 21 FOOT SEAS. THESE HIGH SWELLS WILL CONTINUE TO MAKE THEIR WAY TOWARDS THE TEXAS COAST TODAY AND TONIGHT AND INCREASE THE THREAT FOR COASTAL FLOODING AND BEACH EROSION.

A MANDATORY EVACUATION HAS BEEN ISSUED FOR THE CITY OF INGLESIDE AND ARANSAS PASS AREA. EMERGENCY MANAGEMENT AND LOCAL OFFICIALS HAVE ORDERED VOLUNTARY EVACUATION OF LOW LYING AREAS IN NUECES ARANSAS...REFUGIO...KLEBERG...AND CALHOUN COUNTIES...INCLUDING THOSE AREAS IN THE CITIES OF CORPUS CHRISTI...REFUGIO AND KINGSVILLE.
THIS RECOMMENDED EVACUATION INCLUDES THE CORPUS CHRISTI NORTH BEACH AREA...PADRE ISLAND...MUSTANG ISLAND... WARD ISLAND...AND AREAS ALONG THE NUECES RIVER.

BETWEEN 11 AM AND NOON...THE CORPUS CHRISTI POLICE DEPARTMENT WILL BE CLOSING THE EAST BOUND LANE OF THE JFK CAUSEWAY LEADING TO THE ISLAND.

...STORM SURGE AND TIDES...
THE THREAT OF THE STORM SURGE WILL BE INCREASING TODAY AND TONIGHT AS TIDAL SURGES OF 10 TO 15 FEET ABOVE NORMAL SPREAD INLAND ALONG AND JUST TO THE RIGHT OF WHERE THE EYE MAKES LANDFALL. STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...

AT CORPUS CHRISTI...403 AM MONDAY MORNING.
AT PORT OCONNOR...932 AM MONDAY MORNING. CURRENTLY...THE TIDES ARE RUNNING AROUND 1 FOOT ABOVE NORMAL.

A STORM SURGE OF 10 TO 15 FEET IS EXPECTED...WITH HIGHER VALUES AT THE HEADS OF BAYS. AT THESE LEVELS...MUSTANG ISLAND AND NORTH PADRE ISLAND WILL BE UNDERWATER...AS WELL AS THE CITIES OF ROCKPORT...FULTON AND PORT ARANSAS. MANY AREAS IN ARANSAS PASS AND INGLESIDE WILL ALSO BE FLOODED. A SURGE OF 15 FEET WILL BRING WATER LEVELS OVER THE CORPUS CHRISTI SEAWALL AND OVER THE PROTECTION DIKE. NORTH BEACH COULD BE FLOODED WITH WATER 10 TO 13 FEET DEEP AND WATER COULD BE MORE THAN 5 FEET DEEP IN LOWER SECTIONS OF FLOUR BLUFF NEAR THE CAUSEWAY. UNIVERSITY HEIGHTS AT TEXAS A & M UNIVERSITY IN CORPUS CHRISTI WILL BE UNDERWATER. THE TANK FARM AND RAILROAD AREAS SOUTH OF THE TURNING BASIN WILL BE FLOODED.

...WIND INFORMATION...
HURRICANE BRET...IF IT REMAINS ON ITS CURRENTLY FORECASTED TRACK...IS EXPECTED TO MAKE LANDFALL NEAR BAFFIN BAY THIS EVENING. WINDS ARE EXPECTED TO INCREASE TO TROPICAL STORM STRENGTH...39 TO 73 MPH...THIS AFTERNOON...WITH HURRICANE FORCE WINDS BEGINNING TO AFFECT THE TEXAS COAST LATE THIS AFTERNOON. HURRICANE FORCE WINDS WILL SPREAD INLAND AS THE HURRICANE MOVES ONSHORE. A HIGH WIND WARNING HAS BEEN ISSUED FOR INLAND COUNTIES WHICH INCLUDES THE CITIES OF LAREDO AND COTULLA.

...HEAVY RAINS...
TORRENTIAL RAINS OF 8 TO 12 INCHES ARE EXPECTED ALONG AND JUST TO THE NORTH OF THE TRACK OF THE HURRICANE. THIS AMOUNT OF RAIN WILL PRODUCE WIDESPREAD FLOODING. AS A RESULT...A FLASH FLOOD WATCH REMAINS IN EFFECT FOR THE ENTIRE REGION THROUGH MONDAY.

...TORNADO THREAT...
THERE IS THE THREAT FOR ISOLATED TORNADOES AS THE RAIN BANDS FROM BRET MAKE THEIR WAY TOWARDS THE COAST. THE GREATEST THREAT FROM TORNADOES WILL EXIST ACROSS THE NORTHEAST SECTOR OF THIS STORM.

THE NATIONAL WEATHER SERVICE STRONGLY URGES ALL RESIDENTS IN THE COASTAL BEND AREA TO TAKE ALL NECESSARY PREPARATIONS TO PROTECT LIFE AND PROPERTY NOW BEFORE THE STRONG WINDS AND HEAVY RAINS ARRIVE LATER TODAY AND TONIGHT. THIS IS A DANGEROUS STORM!

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
425 PM CDT SUN AUG 22 1999

...EXTREMELY DANGEROUS HURRICANE BRET CONTINUES TO APPROACH THE SOUTH TEXAS COAST...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

...HURRICANE WARNINGS ARE IN EFFECT FOR THE TEXAS COAST FROM BROWNSVILLE TO PORT OCONNOR...

AREA RESIDENTS SHOULD MONITOR THE PROGRESS OF HURRICANE BRET AND TAKE IMMEDIATE ACTION TO PROTECT LIFE AND PROPERTY. ALL PREPARATIONS AND EVACUATIONS SHOULD BE COMPLETED.

AT 4 PM CDT HURRICANE BRET WAS LOCATED ABOUT 80 MILES SOUTH SOUTHEAST OF CORPUS CHRISTI NEAR LATITUDE 26.7 NORTH AND LONGITUDE 97.1 WEST. HURRICANE BRET IS MOVING TOWARD THE WEST NORTHWEST AT 8 MPH. A TURN TOWARD THE WEST IS EXPECTED TONIGHT AND MONDAY. THE CENTER OF THE HURRICANE IS EXPECTED TO MOVE ONSHORE SOUTH OF BAFFIN BAY IN THE NEXT FEW HOURS. MAXIMUM SUSTAINED WINDS REMAIN NEAR 140 MPH WITH HIGHER GUSTS. THIS MAKES BRET A DANGEROUS CATEGORY FOUR HURRICANE.

SEAS ALSO CONTINUE TO BUILD ACROSS THE OFFSHORE WATERS. AT 3 PM CDT...THE BUOY LOCATED 45 NAUTICAL MILES TO THE SOUTHEAST OF BAFFIN BAY HAD 26 FOOT SEAS. THESE HIGH SWELLS WILL CONTINUE TO MAKE THEIR WAY TOWARD THE TEXAS COAST THIS AFTERNOON AND TONIGHT AND INCREASE THE THREAT FOR COASTAL FLOODING AND BEACH EROSION.

THE CORPUS CHRISTI POLICE DEPARTMENT HAS CLOSED THE JFK CAUSEWAY.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL INCREASE THIS AFTERNOON AND TONIGHT AS TIDAL SURGES RISE TO 8 TO 12 FEET ABOVE NORMAL FOR THE COASTAL BEND SOUTH OF PORT ARANSAS. THIS STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...

AT CORPUS CHRISTI...403 AM MONDAY MORNING.
AT PORT OCONNOR...932 AM MONDAY MORNING.

CURRENTLY...THE TIDES ARE RUNNING AROUND 3 FEET ABOVE NORMAL.

A STORM SURGE OF 10 TO 15 FEET IS EXPECTED FROM SOUTH OF CORPUS CHRISTI BAY TO BAFFIN BAY WITH HIGHER VALUES AT THE HEADS OF BAYS. AT THESE LEVELS...FLOODING IS LIKELY FOR RIVIERA...RICARDO...AND KINGSVILLE AS WELL AS THE BEACHES ALONG BAFFIN BAY.

A STORM SURGE OF 8 TO 12 FEET IS EXPECTED FROM CORPUS CHRISTI BAY NORTHWARD TO PORT ARANSAS...WITH DECREASING EFFECTS FARTHER NORTH. AT THESE LEVELS...PORT ARANSAS AND ROCKPORT WILL BE UNDERWATER UP TO 6 FEET DEEP IN PLACES. OTHER CITIES THAT WILL BE PARTLY UNDERWATER INCLUDE...ARANSAS PASS. ALSO...LOW SPOTS IN THE PORT AREA OF CORPUS CHRISTI WILL FLOOD. WATER WILL BE UP TO THE NORTHERN OUTSKIRTS OF INGLESIDE AND OVER ONE THIRD OF WARD ISLAND.

...WIND INFORMATION...
HURRICANE BRET...IF IT REMAINS ON ITS CURRENTLY FORECASTED TRACK...IS EXPECTED TO MAKE LANDFALL SOUTH OF BAFFIN BAY THIS EVENING. WINDS ARE EXPECTED TO INCREASE TO TROPICAL STORM STRENGTH...39 TO 73 MPH...WITHIN THE NEXT COUPLE OF HOURS...ESPECIALLY FROM CORPUS CHRISTI SOUTHWARD TO KINGSVILLE AND BAFFIN BAY. WINDS WILL INCREASE TO HURRICANE FORCE IN THE NEXT FEW HOURS. HURRICANE FORCE WINDS WILL SPREAD INLAND AS THE HURRICANE MOVES ONSHORE. A HIGH WIND WARNING IS IN EFFECT FOR INLAND COUNTIES WHICH INCLUDES THE CITIES OF COTULLA...FREER...LAREDO...TILDEN... BEEVILLE...GEORGE WEST...AND GOLIAD.

...HEAVY RAINS...
TORRENTIAL RAINS OF 8 TO 12 INCHES...WITH ISOLATED HIGHER AMOUNTS...ARE EXPECTED ALONG AND JUST TO THE NORTH OF THE TRACK OF HURRICANE BRET. THIS AMOUNT OF RAIN WILL PRODUCE WIDESPREAD FLOODING. AS A RESULT...A FLASH FLOOD WATCH AND RIVER FLOOD WATCH ARE IN EFFECT FOR THE ENTIRE REGION THROUGH MONDAY.

...TORNADO THREAT...
THERE IS THE THREAT FOR TORNADOES AS RAIN BANDS FROM HURRICANE BRET MOVE INLAND. THE GREATEST THREAT FROM TORNADOES WILL EXIST ACROSS THE NORTHEAST SECTOR OF THIS STORM. A TORNADO WATCH IS IN EFFECT UNTIL 2 AM MONDAY MORNING FOR THE CROSSROADS AND COASTAL BEND AREAS AND EASTERN PORTIONS OF THE RIO GRANDE PLAINS.

THE NATIONAL WEATHER SERVICE STRONGLY URGES ALL RESIDENTS TO REMAIN SHELTERED IN PLACE UNTIL THREATENING WINDS FROM HURRICANE BRET SUBSIDE. HEAVY RAINS AND FLOODING AS WELL AS COASTAL FLOODING WILL CONTINUE TO BE A THREAT THROUGH MONDAY. THIS IS A DANGEROUS...LIFE THREATENING... STORM!

LOOK FOR ADDITIONAL INFORMATION IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER AS WELL AS PUBLIC INFORMATION STATEMENTS AND SHORT TERM FORECASTS THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI ISSUES.

THE NEXT SCHEDULED LOCAL STATEMENT ON HURRICANE BRET WILL BE ISSUED AROUND 630 PM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
630 PM CDT SUN AUG 22 1999

...EXTREMELY DANGEROUS HURRICANE BRET BATTERING THE PADRE ISLAND NATIONAL SEASHORE SOUTH OF BAFFIN BAY AS IT MAKES LANDFALL...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

...HURRICANE WARNINGS REMAIN IN EFFECT FOR THE TEXAS COAST FROM BROWNSVILLE TO PORT OCONNOR...

AREA RESIDENTS SHOULD CONTINUE TO MONITOR THE PROGRESS OF HURRICANE BRET. ALL PREPARATIONS AND EVACUATIONS SHOULD HAVE ALREADY BEEN COMPLETED.

AT 6 PM CDT HURRICANE BRET WAS LOCATED ABOUT 70 MILES SOUTH OF

CORPUS CHRISTI NEAR LATITUDE 26.8 NORTH AND LONGITUDE 97.3 WEST.
HURRICANE BRET IS MOVING TOWARD THE WEST NORTHWEST AT 8 MPH.
WEAKENING IS FORECAST DURING THE NEXT 24 HOURS AS BRET MOVES INLAND.
MAXIMUM SUSTAINED WINDS ARE NEAR 125 MPH WITH HIGHER GUSTS.

...WIND INFORMATION...
HURRICANE BRET HAS MADE LANDFALL BETWEEN BAFFIN BAY AND PORT MANSFIELD. TROPICAL STORM STRENGTH WINDS...39 TO 73 MPH...NOW EXTEND FROM SOUTH OF ROCKPORT TO NEAR BAFFIN BAY AND EXTENDING INLAND APPROXIMATELY 20 MILES. WINDS ARE NEARING HURRICANE FORCE FROM BAFFIN BAY SOUTHWARD. HURRICANE FORCE WINDS WILL SPREAD INLAND AS THE HURRICANE MOVES INLAND. A HIGH WIND WARNING IS IN EFFECT FOR INLAND COUNTIES WHICH INCLUDES THE CITIES OF COTULLA...FREER...LAREDO... TILDEN... BEEVILLE...GEORGE WEST...AND GOLIAD.

...HEAVY RAINS...
TORRENTIAL RAINS OF 10 TO 15 INCHES CAN BE EXPECTED AS HURRICANE BRET CONTINUES TO MOVE INLAND. THIS AMOUNT OF RAIN WILL PRODUCE WIDESPREAD FLOODING. A FLASH FLOOD WATCH AND RIVER FLOOD WATCH ARE IN EFFECT FOR THE ENTIRE REGION THROUGH MONDAY.

SEAS ALSO CONTINUE TO BUILD ACROSS THE OFFSHORE WATERS. AT 5 PM CDT...THE BUOY LOCATED 45 NAUTICAL MILES TO THE SOUTHEAST OF BAFFIN BAY HAD 25 FOOT SEAS. THESE HIGH SWELLS WILL CONTINUE TO MAKE THEIR WAY TOWARD THE TEXAS COAST THROUGH TONIGHT AND MONDAY...INCREASING THE THREAT FOR COASTAL FLOODING AND BEACH EROSION.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL INCREASE THROUGH TONIGHT AS TIDAL SURGES RISE ABOVE NORMAL. THIS STORM SURGE WILL BE IN ADDITION TO THE ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR AT THE FOLLOWING TIMES...

AT CORPUS CHRISTI...403 AM MONDAY MORNING.
AT PORT OCONNOR...932 AM MONDAY MORNING.

CURRENTLY...THE TIDES ARE RUNNING AROUND 3 AND A HALF FEET ABOVE NORMAL.

A STORM SURGE OF 10 TO 15 FEET IS EXPECTED FROM SOUTH OF CORPUS CHRISTI BAY TO BAFFIN BAY WITH HIGHER VALUES AT THE HEADS OF BAYS. AT THESE LEVELS...FLOODING IS LIKELY FOR RIVIERA...RICARDO...AND KINGSVILLE AS WELL AS THE BEACHES ALONG BAFFIN BAY.

A STORM SURGE OF 8 TO 12 FEET IS EXPECTED FROM CORPUS CHRISTI BAY NORTHWARD TO PORT ARANSAS...WITH DECREASING EFFECTS FARTHER NORTH. AT THESE LEVELS...PORT ARANSAS AND ROCKPORT WILL BE UNDERWATER UP TO 6 FEET DEEP IN PLACES. OTHER CITIES THAT WILL BE PARTLY UNDERWATER INCLUDE...ARANSAS PASS. ALSO...LOW SPOTS IN THE PORT AREA OF CORPUS CHRISTI WILL FLOOD. WATER WILL BE UP TO THE NORTHERN OUTSKIRTS OF INGLESIDE AND OVER ONE THIRD OF WARD ISLAND.

...TORNADO THREAT...
THERE IS THE THREAT FOR TORNADOES AS RAIN BANDS FROM HURRICANE BRET MOVE INLAND. THE GREATEST THREAT FROM TORNADOES WILL EXIST ACROSS THE NORTHEAST SECTOR OF THIS STORM. A TORNADO WATCH IS IN EFFECT UNTIL 2 AM MONDAY MORNING FOR THE CROSSROADS AND COASTAL BEND AREAS AND EASTERN PORTIONS OF THE RIO GRANDE PLAINS.

THE NATIONAL WEATHER SERVICE STRONGLY URGES ALL RESIDENTS TO REMAIN SHELTERED IN PLACE UNTIL THREATENING WINDS FROM HURRICANE BRET SUBSIDE. HEAVY RAINS AND FLOODING AS WELL AS COASTAL FLOODING WILL CONTINUE TO BE A THREAT THROUGH MONDAY. THIS IS STILL A DANGEROUS...LIFE THREATENING...STORM!

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1230 AM CDT MON AUG 23 1999

...DANGEROUS HURRICANE BRET CONTINUES TO PUSH INLAND ACROSS SOUTH TEXAS...

...A HURRICANE WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

...A TROPICAL STORM WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM PORT ARANSAS TO PORT OCONNOR...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AREA RESIDENTS SHOULD CONTINUE TO MONITOR THE PROGRESS OF HURRICANE BRET. THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI STRONGLY URGES ALL RESIDENTS TO REMAIN SHELTERED IN PLACE UNTIL THREATENING WINDS FROM HURRICANE BRET SUBSIDE LATER TODAY. HEAVY RAINS AND FLOODING AS WELL AS COASTAL FLOODING WILL CONTINUE TO BE A THREAT THROUGH MONDAY. HURRICANE BRET CONTINUES TO BE A DANGEROUS...LIFE THREATENING... STORM!

AT 12 AM CDT HURRICANE BRET WAS LOCATED ABOUT 55 MILES SOUTH OF CORPUS CHRISTI NEAR LATITUDE 27.0 NORTH AND LONGITUDE 97.8 WEST. HURRICANE BRET IS MOVING TOWARD THE WEST AT 7 MPH. MAXIMUM SUSTAINED WINDS HAVE DECREASED TO 105 MPH WITH HIGHER GUSTS. ADDITIONAL WEAKENING IS FORECAST DURING THE NEXT 24 HOURS AS BRET MOVES FARTHER INLAND.

...WIND INFORMATION...
HURRICANE BRET CONTINUES TO MOVE INLAND THROUGH THE CENTER OF KENEDY COUNTY. HURRICANE FORCE WINDS CONTINUE ACROSS MOST OF KENEDY COUNTY AND BROOKS COUNTY. EXPECT HURRICANE FORCE WINDS TO SPREAD FURTHER INLAND AS BRET MOVES WEST. A HIGH WIND WARNING REMAINS IN EFFECT FOR INLAND COUNTIES WHICH INCLUDE THE CITIES OF COTULLA...FREER... LAREDO...AND TILDEN.

...HEAVY RAINS...
EXPECT TORRENTIAL RAINS OF 10 TO 15 INCHES HURRICANE BRET CONTINUES TO MOVE INLAND. THIS AMOUNT OF RAIN WILL PRODUCE WIDESPREAD FLOODING. A FLASH FLOOD WATCH AND RIVER FLOOD WATCH ARE IN EFFECT FOR THE ENTIRE REGION THROUGH MONDAY.

HIGH SEAS WILL SLOWLY SUBSIDE ACROSS OFFSHORE WATERS TODAY. AT 11 PM CDT...THE BUOY LOCATED 45 NAUTICAL MILES TO THE SOUTHEAST OF BAFFIN BAY HAD DECREASED TO 10 FOOT SEAS. AS THESE HIGH SWELLS DECREASE TODAY...THE THREAT FOR COASTAL FLOODING AND BEACH EROSION WILL DECREASE AS WELL.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL CONTINUOUSLY DECREASE TODAY. THE GREATEST THREAT FROM STORM SURGE WILL BE DURING THE TIMES FOR ASTRONOMICAL HIGH TIDE WHICH WILL OCCUR...

AT CORPUS CHRISTI...AT 403 AM THIS MORNING.
AT PORT OCONNOR...AT 932 AM THIS MORNING.

CURRENTLY...THE TIDES ARE RUNNING AROUND 3 FEET ABOVE NORMAL.

...TORNADO THREAT...
THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI HAS RECEIVED SEVERAL REPORTS OF TORNADOES AND FUNNEL CLOUDS THIS EVENING. THERE IS A CONTINUED THREAT OF TORNADOES AS RAIN BANDS FROM HURRICANE BRET MOVE ACROSS SOUTH TEXAS. A TORNADO WATCH REMAINS IN EFFECT UNTIL 2 AM MONDAY MORNING FOR THE CROSSROADS AREA...THE COASTAL BEND AREA...AND EASTERN PORTIONS OF THE RIO GRANDE PLAINS.

LOOK FOR ADDITIONAL INFORMATION IN ADVISORIES FROM THE NATIONAL HURRICANE CENTER AS WELL AS PUBLIC INFORMATION STATEMENTS AND SHORT TERM FORECASTS FROM THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI.

THE NEXT SCHEDULED LOCAL STATEMENT ON HURRICANE BRET WILL BE ISSUED AROUND 0230 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
230 AM CDT MON AUG 23 1999

...HURRICANE BRET CONTINUES TO PUSH INLAND ACROSS SOUTH TEXAS...

...A HURRICANE WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

...A TROPICAL STORM WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM PORT ARANSAS TO PORT OCONNOR...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AT 2 AM CDT...HURRICANE BRET WAS LOCATED ABOUT 60 MILES SOUTH-SOUTHWEST OF CORPUS CHRISTI NEAR LATITUDE 27.0 NORTH AND LONGITUDE 98.0 WEST. HURRICANE BRET IS MOVING TOWARD THE WEST NEAR 6 MPH. MAXIMUM SUSTAINED WINDS HAVE DECREASED TO 90 MPH WITH HIGHER GUSTS. ADDITIONAL WEAKENING IS FORECAST DURING THE NEXT 24 HOURS AS BRET MOVES FARTHER INLAND.

...WIND INFORMATION...
WINDS ACROSS SOUTH TEXAS HAVE BEEN AVERAGING BETWEEN 30 AND 40 MPH SINCE MIDNIGHT. WINDS HAVE GUSTED TO 55 MPH AT THE CORPUS CHRISTI INTERNATIONAL AIRPORT AT 100 AM CDT. 90 MPH WIND GUSTS HAVE BEEN REPORTED BY A SPOTTER IN PORTLAND AT 120 AM. 70 MPH WIND GUSTS HAVE BEEN REPORTED IN PREMONT BY THE JIM WELLS SHERIFFS OFFICE AT 135 AM. SOUTH TEXAS WILL CONTINUE TO HAVE WIND GUSTS UP TO HURRICANE FORCE THROUGH THE EARLY MORNING HOURS.

...HEAVY RAINS...
TOTAL RAINFALL AMOUNTS OF 10 TO 15 INCHES ALONG AND JUST TO THE NORTH OF THE PATH OF BRET WILL BE POSSIBLE. EVEN HIGHER AMOUNTS WILL BE POSSIBLE IN ISOLATED AREAS GIVEN THE SLOW MOVEMENT OF BRET. AS OF 200 AM...FLASH FLOODING WAS ALREADY OCCURRING ACROSS PORTIONS OF SOUTH TEXAS...MAINLY TO THE SOUTH OF A ROCKPORT TO ALICE LINE. RESIDENTS LIVING IN THESE AREAS SHOULD TAKE NECESSARY PRECAUTIONS NOW TO PROTECT LIFE AND PROPERTY FROM THE HIGH WATER. REMEMBER A FLASH FLOOD WATCH AND A RIVER FLOOD WATCH REMAIN IN EFFECT FOR ALL OF SOUTH TEXAS.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL CONTINUE TO DIMINISH THIS MORNING. AS OF 200 AM...THE TIDES WERE RUNNING AROUND 2 FEET ABOVE NORMAL. THIS LEVEL HAS CONTINUED TO COME DOWN SINCE BRET HAS BEEN INLAND NOW SINCE 600 PM SUNDAY EVENING. THE THREAT FOR COASTAL FLOODING WILL CONTINUE TO DIMINISH THIS MORNING.

THE HIGH TIDES FOE THE REGION ARE AS FOLLOWS...

AT CORPUS CHRISTI...AT 403 AM THIS MORNING.
AT PORT OCONNOR...AT 932 AM THIS MORNING.

...TORNADO THREAT...
THERE WILL CONTINUE TO BE THE THREAT FOR ISOLATED TORNADOES ACROSS SOUTH TEXAS THROUGH 400 PM TODAY. AS THE SQUALLS FROM BRET MAKE THEIR WAY ACROSS SOUTH TEXAS...A BRIEF TORNADO WILL BE POSSIBLE. HOWEVER...THE THREAT WILL REMAIN ISOLATED AND NOT WIDESPREAD AT THIS TIME. RESIDENTS SHOULD ACT QUICKLY IF A TORNADO IS OBSERVED OR IF A WARNING IS ISSUED.

THE NEXT SCHEDULED LOCAL STATEMENT ON HURRICANE BRET WILL BE ISSUED AROUND 430 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

HURRICANE BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
430 AM CDT MON AUG 23 1999

...HURRICANE BRET CONTINUES TO WEAKEN...

...A TROPICAL STORM WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AT 4 AM CDT...HURRICANE BRET WAS LOCATED ABOUT 60 MILES SOUTHWEST OF CORPUS CHRISTI NEAR LATITUDE 27.1 NORTH AND LONGITUDE 98.2 WEST. HURRICANE BRET IS MOVING TOWARD THE WEST NEAR 6 MPH. MAXIMUM SUSTAINED WINDS HAVE DECREASED TO NEAR 85 MPH WITH HIGHER GUSTS. ADDITIONAL WEAKENING IS FORECAST DURING THE NEXT 24 HOURS AS BRET REMAINS OVER LAND.

...WIND INFORMATION...
STRONG WINDS WILL CONTINUE ACROSS MAINLY SOUTHERN PORTIONS OF THE COASTAL BEND AND RIO GRANDE PLAINS THIS MORNING. THESE AREAS WILL BE CLOSER TO THE PATH OF HURRICANE BRET. WINDS HAVE CONTINUED TO GUST BETWEEN 45 AND 55 MPH ACROSS NUECES COUNTY AND JIM WELLS COUNTY THIS MORNING. AT 400 AM...ALICE REPORTED A WIND GUST TO 51 MPH WHILE CORPUS CHRISTI REPORTED A 45 MPH WIND GUST. DOPPLER RADAR INDICATES THAT WIND GUSTS BETWEEN 50 AND 65 MPH WILL BE POSSIBLE ACROSS KLEBERG AND SOUTHERN DUVAL COUNTIES. A HIGH WIND WARNING WILL REMAIN IN EFFECT TODAY FOR THE INLAND COUNTIES.

...HEAVY RAINS...
FLASH FLOODING FROM VERY HEAVY TROPICAL RAINS WILL CONTINUE TO BE A MAJOR PROBLEM ACROSS SOUTH TEXAS TODAY. TOTAL RAINFALL AMOUNTS OF 10 TO 15 INCHES ALONG AND JUST TO THE NORTH OF THE PATH OF BRET WILL BE POSSIBLE. EVEN HIGHER AMOUNTS WILL BE POSSIBLE IN ISOLATED AREAS GIVEN THE SLOW MOVEMENT OF BRET. AS OF 400 AM...FLASH FLOODING WAS ALREADY OCCURRING ACROSS PORTIONS OF SOUTH TEXAS...MAINLY TO THE SOUTH OF A ROCKPORT TO ALICE LINE. RESIDENTS LIVING IN THESE AREAS SHOULD TAKE NECESSARY PRECAUTIONS NOW TO PROTECT LIFE AND PROPERTY FROM THE HIGH WATER. REMEMBER A FLASH FLOOD WATCH AND A RIVER FLOOD WATCH REMAIN IN EFFECT FOR ALL OF SOUTH TEXAS.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL CONTINUE TO DIMINISH THIS MORNING. AS OF 400 AM...THE TIDES WERE RUNNING AROUND 1.5 FEET ABOVE NORMAL. THIS LEVEL HAS CONTINUED TO COME DOWN SINCE BRET MOVED INLAND YESTERDAY EVENING. AS A RESULT...THE THREAT FOR COASTAL FLOODING WILL CONTINUE TO DIMINISH THIS MORNING.

THE HIGH TIDES FOR THE REGION ARE AS FOLLOWS...

AT CORPUS CHRISTI...AT 403 AM THIS MORNING.
AT PORT OCONNOR...AT 932 AM THIS MORNING.

...WAVES...
THE WAVES GENERATED BY HURRICANE BRET WILL CONTINUE TO SLOWLY DIMINISH NOW THAT THE STORM HAS MOVED INLAND. AT 400 AM...THE BUOY LOCATED 90 MILES EAST OF PORT ARANSAS REPORTED SIGNIFICANT WAVE HEIGHTS AROUND 8 FEET. THE BUOY LOCATED 45 MILES SOUTHEAST OF BAFFIN BAY ALSO HAD 8 FOOT SEAS. THE SEAS HAVE CONTINUED TO DIMINISH OVER THE PAST SEVERAL HOURS AND WILL CONTINUE TO DO SO AS BRET WEAKENS OVER LAND. HOWEVER...THE WATERS WILL CONTINUE TO BE QUITE TURBULENT AND WILL TAKE SOME TIME FOR THE WATERS TO QUIET DOWN.

...TORNADO THREAT...
THERE WILL CONTINUE TO BE THE THREAT FOR ISOLATED TORNADOES ACROSS SOUTH TEXAS THROUGH 400 PM TODAY. AS THE SQUALLS FROM BRET CONTINUE TO MAKE THEIR WAY ACROSS SOUTH TEXAS...A BRIEF TORNADO MAY BE POSSIBLE. HOWEVER...THE THREAT WILL REMAIN ISOLATED AND NOT BE WIDESPREAD AT THIS TIME. RESIDENTS SHOULD ACT QUICKLY IF A TORNADO IS OBSERVED OR IF A WARNING IS ISSUED.

THE NEXT SCHEDULED LOCAL STATEMENT ON HURRICANE BRET WILL BE ISSUED AROUND 630 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
630 AM CDT MON AUG 23 1999

...HURRICANE BRET CONTINUES TO WEAKEN AND PRODUCE HEAVY RAIN...

...A TROPICAL STORM WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AT 600 AM CDT...HURRICANE BRET WAS LOCATED ABOUT 30 MILES SOUTH-SOUTHWEST OF ALICE NEAR LATITUDE 27.2 NORTH AND LONGITUDE 98.3 WEST. HURRICANE BRET HAS MOVED TOWARD THE NORTHWEST NEAR 5 MPH FOR THE PAST FEW HOURS. A SLOW WESTWARD MOTION IS EXPECTED TO RESUME LATER TODAY. MAXIMUM SUSTAINED WINDS HAVE DECREASED TO NEAR 80 MPH WITH HIGHER GUSTS. ADDITIONAL WEAKENING IS FORECAST DURING THE NEXT 24 HOURS AS BRET REMAINS OVER LAND.

...WIND INFORMATION...
STRONG WINDS WILL CONTINUE ACROSS MAINLY SOUTHERN PORTIONS OF THE COASTAL BEND AND RIO GRANDE PLAINS THIS MORNING. THE STRONGEST WINDS WILL AFFECT KLEBERG...NUECES...JIM WELLS...SAN PATRICIO AND DUVAL COUNTIES. THESE AREAS WILL BE CLOSER TO THE PATH OF HURRICANE BRET. WINDS WILL CONTINUE TO GUST BETWEEN 45 AND 55 MPH ACROSS THESE AREAS THIS MORNING. AT 500 AM...ALICE REPORTED A WIND GUST TO 54 MPH. AT 600 AM...CORPUS CHRISTI REPORTED A 49 MPH WIND GUST. DOPPLER RADAR INDICATES THAT WIND GUSTS BETWEEN 50 AND 65 MPH WILL BE POSSIBLE ACROSS KLEBERG...NUECES...JIM WELLS...DUVAL AND SAN PATRICIO COUNTIES. A HIGH WIND WARNING WILL REMAIN IN EFFECT TODAY FOR THE INLAND COUNTIES.

...HEAVY RAINS...
FLASH FLOODING FROM VERY HEAVY TROPICAL RAINS WILL CONTINUE TO BE A MAJOR PROBLEM ACROSS SOUTH TEXAS TODAY. TOTAL RAINFALL AMOUNTS OF 10 TO 15 INCHES ALONG AND JUST TO THE NORTH OF THE PATH OF BRET WILL BE POSSIBLE. EVEN HIGHER AMOUNTS WILL BE POSSIBLE IN ISOLATED AREAS GIVEN THE SLOW MOVEMENT OF BRET. AS OF 600 AM...FLASH FLOODING WAS NOT BEING REPORTED IN SOUTH TEXAS. HOWEVER...FLASH FLOOD WARNINGS MAY BECOME NECESSARY ACROSS ARANSAS...SAN PATRICIO AND NUECES COUNTIES. REMEMBER A FLASH FLOOD WATCH AND A RIVER FLOOD WATCH REMAIN IN EFFECT FOR ALL OF SOUTH TEXAS TODAY.

...STORM SURGE AND TIDES...
THE STORM SURGE THREAT WILL CONTINUE TO DIMINISH THIS MORNING. AS OF 600 AM...THE TIDES WERE RUNNING BETWEEN 1 AND 1.5 FEET ABOVE NORMAL. THIS LEVEL HAS CONTINUED TO COME DOWN SINCE BRET MOVED INLAND YESTERDAY EVENING. AS A RESULT...THE THREAT FOR COASTAL FLOODING WILL CONTINUE TO DIMINISH THIS MORNING.

...WAVES...
THE WAVES GENERATED BY HURRICANE BRET WILL CONTINUE TO SLOWLY DIMINISH NOW THAT THE STORM HAS MOVED INLAND. THE SEAS WILL DROP BELOW 10 FEET BY LATER TODAY ACROSS THE TEXAS COASTAL WATERS. THIS TREND WILL CONTINUE AS BRET WEAKENS OVER LAND. HOWEVER...THE WATERS WILL CONTINUE TO BE QUITE TURBULENT AND WILL TAKE SOME TIME FOR THE WATERS TO QUIET DOWN. AS A RESULT...MARINERS SHOULD REMAIN IN PORT.

...TORNADO THREAT...
THERE WILL CONTINUE TO BE THE THREAT FOR ISOLATED TORNADOES ACROSS SOUTH TEXAS THROUGH 400 PM TODAY. AS THE SQUALLS FROM BRET CONTINUE TO MAKE THEIR WAY ACROSS SOUTH TEXAS...A BRIEF TORNADO MAY BE POSSIBLE. HOWEVER...THE THREAT WILL REMAIN ISOLATED AND NOT BE WIDESPREAD AT THIS TIME. RESIDENTS SHOULD ACT QUICKLY IF A TORNADO IS OBSERVED OR IF A WARNING IS ISSUED.

THE NEXT SCHEDULED LOCAL STATEMENT ON HURRICANE BRET WILL BE ISSUED AROUND 830 AM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

TROPICAL STORM BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
140 PM CDT MON AUG 23 1999

...BRET CONTINUES TO WEAKEN BUT PRODUCE VERY HEAVY RAIN...

...A TROPICAL STORM WARNING REMAINS IN EFFECT ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AT 100 PM CDT...TROPICAL STORM BRET WAS LOCATED ABOUT 45 MILES EAST OF LAREDO NEAR LATITUDE 27.6 NORTH AND LONGITUDE 98.6 WEST. BRET CONTINUES TO MOVE WEST NORTHWEST NEAR 6 MPH...AND THIS MOTION IS EXPECTED TO CONTINUE THIS AFTERNOON. MAXIMUM SUSTAINED WINDS HAVE DECREASED TO NEAR 40 MPH WITH HIGHER GUSTS. WEAKENING IS FORECAST TO CONTINUE...AS THE STORM MOVES FURTHER INLAND THIS AFTERNOON AND EVENING.

THE CORPUS CHRISTI POLICE DEPARTMENT HAS REPORTED THAT THE JFK CAUSEWAY IS NOW OPEN TO RESIDENTS OF PADRE ISLAND ONLY.

...WIND INFORMATION...
STRONG WINDS WILL CONTINUE ACROSS MAINLY SOUTHERN PORTIONS OF THE COASTAL BEND AND RIO GRANDE PLAINS THIS AFTERNOON. EXPECT WIND GUSTS BETWEEN 45 AND 55 MPH ACROSS THESE AREAS. A HIGH WIND WARNING WILL REMAIN IN EFFECT TODAY FOR THE COUNTIES OF WEBB...DUVAL...AND JIM WELLS WITH A WIND ADVISORY IN EFFECT FOR ALL REMAINING AREAS.

...HEAVY RAINS...
FLASH FLOODING FROM VERY HEAVY TROPICAL RAINS WILL CONTINUE TO BE A MAJOR THREAT TO LIFE AND PROPERTY ACROSS SOUTH TEXAS TODAY. ADDITIONAL RAINFALL AMOUNTS OF 10 TO 15 INCHES ALONG AND JUST TO THE NORTH OF THE PATH OF BRET ARE POSSIBLE. EVEN HIGHER AMOUNTS ARE POSSIBLE IN ISOLATED AREAS GIVEN THE SLOW MOVEMENT OF BRET. AT 100 PM...FLASH FLOODING... ESPECIALLY THROUGHOUT LOW LYING AREAS...CONTINUED ACROSS MUCH OF THE COASTAL BEND INCLUDING THE CORPUS CHRISTI METROPOLITAN AREA. REMEMBER...A FLASH FLOOD WATCH AND A RIVER FLOOD WATCH REMAIN IN EFFECT FOR ALL OF SOUTH TEXAS TODAY.

...TIDES...
AS OF 100 PM...TIDES WERE RUNNING AROUND 1 FEET ABOVE NORMAL. THIS LEVEL HAS CONTINUED TO DECREASE SINCE BRET MOVED INLAND. AS A RESULT...THE THREAT FOR COASTAL FLOODING WILL CONTINUE TO DIMINISH.

...WAVES...
THE WAVES GENERATED BY TROPICAL STORM BRET WILL CONTINUE TO SLOWLY DIMINISH. SEAS ARE EXPECTED TO DROP BELOW 8 FEET LATER THIS AFTERNOON ACROSS THE TEXAS COASTAL WATERS. THIS TREND WILL CONTINUE AS BRET WEAKENS OVER LAND. HOWEVER...THE WATERS WILL CONTINUE TO BE QUITE TURBULENT AND WILL TAKE SOME TIME CALM. AS A RESULT... MARINERS SHOULD REMAIN IN PORT.

...TORNADO THREAT...
THE THREAT OF ISOLATED TORNADOES CONTINUES ACROSS SOUTH TEXAS THROUGH 400 PM TODAY. AS THE SQUALLS FROM BRET CONTINUE TO MAKE THEIR WAY ACROSS SOUTH TEXAS...A BRIEF TORNADO MAY BE POSSIBLE. HOWEVER...THE THREAT WILL REMAIN ISOLATED AND WILL CONTINUE TO DIMINISH THIS AFTERNOON AND EVENING. RESIDENTS SHOULD ACT QUICKLY IF A TORNADO IS OBSERVED...OR IF THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI ISSUES A TORNADO WARNING.

THE NEXT SCHEDULED LOCAL STATEMENT ON TROPICAL STORM BRET WILL BE ISSUED AROUND 430 PM CDT UNLESS CONDITIONS WARRANT EARLIER RELEASES.

TROPICAL STORM BRET LOCAL STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
440 PM CDT MON AUG 23 1999

...TROPICAL STORM BRET CONTINUES TO PRODUCE VERY HEAVY RAIN...

...TROPICAL STORM WARNINGS HAVE BEEN DISCONTINUED ALONG THE TEXAS COAST FROM BROWNSVILLE TO PORT ARANSAS...

ALTHOUGH TROPICAL STORM WARNINGS ARE DISCONTINUED FOR THE SOUTH TEXAS COAST...YOUR NATIONAL WEATHER SERVICE OFFICE IN CORPUS CHRISTI URGES ALL INTEREST TO EXERCISE CAUTION UNTIL WINDS AND SEAS SUBSIDE.

THIS STATEMENT RECOMMENDS SPECIFIC ACTIONS TO BE TAKEN BY RESIDENTS OF BEE...CALHOUN...VICTORIA...LIVE OAK...WEBB...GOLIAD...JIM WELLS...ARANSAS...SAN PATRICIO...LA SALLE...DUVAL...REFUGIO NUECES...MCMULLEN AND KLEBERG COUNTIES.

AT 400 PM CDT...TROPICAL STORM BRET WAS LOCATED ABOUT 30 MILES NORTHEAST OF LAREDO NEAR LATITUDE 27.8 NORTH AND LONGITUDE 99.1 WEST. TROPICAL STORM BRET CONTINUES TO MOVE NORTHWEST NEAR 6 MPH...A TURN TOWARD THE WEST IS EXPECTED DURING THE NEXT 24 HOURS. MAXIMUM SUSTAINED WINDS ARE NEAR 40 MPH WITH HIGHER GUSTS. TROPICAL STORM BRET IS EXPECTED TO WEAKEN TO A TROPICAL DEPRESSION LATER TONIGHT.

...WIND INFORMATION...
STRONG WINDS WILL CONTINUE MAINLY ACROSS THE WESTERN PORTIONS OF THE COASTAL BEND AND ACROSS THE RIO GRANDE PLAINS. EXPECT WIND GUSTS BETWEEN 45 AND 55 MPH THROUGHOUT THESE AREAS. A HIGH WIND WARNING

REMAINS IN EFFECT TODAY FOR THE COUNTIES OF WEBB AND LASALLE WITH A WIND ADVISORY IN EFFECT FOR ALL REMAINING AREAS EXCEPT THE COUNTIES OF GOLIAD...VICTORIA...AND CALHOUN.

...HEAVY RAINS...
FLASH FLOODING FROM VERY HEAVY TROPICAL RAINS WILL CONTINUE TO BE A MAJOR THREAT TO LIFE AND PROPERTY ACROSS SOUTH TEXAS. ADDITIONAL RAINFALL AMOUNTS OF 8 TO 12 INCHES ARE POSSIBLE TONIGHT WITH HIGHER AMOUNTS POSSIBLE IN ISOLATED AREAS. AT 400 PM...FLASH FLOODING... ESPECIALLY THROUGHOUT LOW LYING AREAS...CONTINUED ACROSS MUCH OF THE COASTAL BEND INCLUDING THE CORPUS CHRISTI METROPOLITAN AREA. REMEMBER...A FLASH FLOOD WATCH AND A RIVER FLOOD WATCH REMAIN IN EFFECT FOR ALL OF SOUTH TEXAS TODAY.

...TIDES...
AS OF 400 PM...TIDES WERE RUNNING AROUND 1 FEET ABOVE NORMAL. THIS LEVEL HAS CONTINUED TO DECREASE SINCE BRET MOVED INLAND. AS A RESULT...THE THREAT FOR COASTAL FLOODING WILL CONTINUE TO DIMINISH.

...WAVES...
THE WAVES GENERATED BY TROPICAL STORM BRET WILL CONTINUE TO SLOWLY DIMINISH. SEAS ARE EXPECTED TO DROP BELOW 8 FEET LATER THIS EVENING ACROSS THE TEXAS COASTAL WATERS. HOWEVER...THE WATERS WILL CONTINUE TO BE QUITE TURBULENT AND WILL TAKE SOME TIME TO SUBSIDE. AS A RESULT... MARINERS SHOULD EXERCISE EXTREME CAUTION.

...TORNADO THREAT...
THE THREAT OF ISOLATED TORNADOES CONTINUES ACROSS SOUTH TEXAS THROUGH THIS EVENING. AS THE SQUALLS FROM BRET CONTINUE TO MAKE THEIR WAY ACROSS SOUTH TEXAS...A BRIEF TORNADO MAY BE POSSIBLE. HOWEVER...THE THREAT WILL REMAIN ISOLATED AND WILL CONTINUE TO DIMINISH THIS EVENING AND TONIGHT. RESIDENTS SHOULD ACT QUICKLY IF A TORNADO IS OBSERVED...OR IF THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI ISSUES A TORNADO WARNING.

THIS WILL BE THE LAST SCHEDULED TROPICAL STORM LOCAL STATEMENT ON TROPICAL STORM BRET UNLESS CONDITIONS WARRANT ADDITIONAL RELEASES.

* UNTIL 530 AM CDT

* AT 121 AM CDT...WEATHER SERVICE DOPPLER RADAR INDICATED SQUALLS OF HEAVY RAIN AND EMBEDDED THUNDERSTORMS CONTINUING ACROSS MOST OF KLEBERG...NUECES...SAN PATRICIO AND ARANSAS COUNTIES. THESE SQUALLS WERE MOVING TO THE WEST AND NORTHWEST AT 40 TO 50 MILES AN HOUR. ADDITIONAL RAINFALL AMOUNTS OF 1 TO 3 INCHES WILL BE POSSIBLE IN THESE SQUALLS. AS A RESULT...FLASH FLOODING WILL BE POSSIBLE ACROSS THESE COUNTIES.

BE ESPECIALLY CAUTIOUS AT NIGHT WHEN IT IS HARDER TO RECOGNIZE THE DANGERS OF FLOODS AND FLASH FLOODS. IF FLASH FLOODING IS OBSERVED ACT QUICKLY. MOVE UP TO HIGHER GROUND TO ESCAPE FLOOD WATERS. DO NOT STAY IN AREAS SUBJECT TO FLOODING WHEN WATER BEGINS RISING.

DO NOT DRIVE YOUR VEHICLE INTO AREAS WHERE THE WATER COVERS THE ROADWAY. THE WATER DEPTH MAY BE TOO GREAT TO ALLOW YOUR CAR TO CROSS SAFELY. VEHICLES CAUGHT IN RISING WATER SHOULD BE ABANDONED QUICKLY. MOVE TO HIGHER GROUND.

A FLASH FLOOD WARNING MEANS THAT FLOODING IS IMMINENT OR OCCURRING. IF YOU ARE IN THE WARNING AREA MOVE TO HIGHER GROUND IMMEDIATELY. RESIDENTS LIVING ALONG STREAMS AND CREEKS SHOULD TAKE IMMEDIATE PRECAUTIONS TO PROTECT LIFE AND PROPERTY. DO NOT ATTEMPT TO CROSS SWIFTLY FLOWING WATERS OR WATERS OF UNKNOWN DEPTH BY FOOT OR BY AUTOMOBILE. IF YOUR VEHICLE STALLS, ABANDON IT IMMEDIATELY AND SEEK HIGHER GROUND.

TO REPORT SEVERE WEATHER HAVE THE NEAREST LAW ENFORCEMENT AGENCY RELAY YOUR REPORT TO THE NATIONAL WEATHER SERVICE FORECAST OFFICE IN CORPUS CHRISTI.

FLASH FLOOD WARNING
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
145 AM CDT MON AUG 23 1999

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI HAS ISSUED A

* FLASH FLOOD WARNING FOR...
SOUTHERN BEE COUNTY IN TEXAS
THIS INCLUDES THE CITY OF SKIDMORE
JIM WELLS COUNTY IN TEXAS
THIS INCLUDES THE CITY OF ALICE
SOUTHERN LIVE OAK COUNTY IN TEXAS
THIS INCLUDES THE CITY OF LAKE CORPUS CHRISTI
SOUTHERN REFUGIO COUNTY IN TEXAS

* UNTIL 545 AM CDT

* AT 145 AM CDT...WEATHER SERVICE DOPPLER RADAR INDICATED SQUALLS OF VERY HEAVY RAIN MOVING ACROSS JIM WELLS COUNTY AND THE SOUTHERN PORTIONS OF REFUGIO...BEE AND LIVE OAK COUNTIES. REPORTS OF STANDING WATER WERE OCCURRING IN JIM WELLS COUNTY ACCORDING TO THE LOCAL SHERIFF. ALSO WITH THE CENTER OF BRET MOVING JUST TO THE SOUTH OF JIM WELLS COUNTY...THERE WILL CONTINUE TO BE THE THREAT FOR ADDITIONAL HEAVY RAIN AND THE POTENTIAL FOR FLASH FLOODING. ACROSS THE SOUTHERN PORTIONS OF REFUGIO...BEE AND LIVE OAK COUNTIES...A SQUALL WITH VERY RAIN IN EXCESS OF 2 INCHES AN HOUR WILL CONTINUE TO AFFECT THIS REGION. FLASH FLOODING WILL BE POSSIBLE WITH THIS PARTICULAR SQUALL.

BE ESPECIALLY CAUTIOUS AT NIGHT WHEN IT IS HARDER TO RECOGNIZE THE DANGERS OF FLOODS AND FLASH FLOODS. IF FLASH FLOODING IS OBSERVED ACT QUICKLY. MOVE UP TO HIGHER GROUND TO ESCAPE FLOOD WATERS. DO NOT STAY IN AREAS SUBJECT TO FLOODING WHEN WATER BEGINS RISING.

DO NOT DRIVE YOUR VEHICLE INTO AREAS WHERE THE WATER COVERS THE ROADWAY. THE WATER DEPTH MAY BE TOO GREAT TO ALLOW YOUR CAR TO CROSS SAFELY. VEHICLES CAUGHT IN RISING WATER SHOULD BE ABANDONED QUICKLY. MOVE TO HIGHER GROUND.

EXCESSIVE RUNOFF FROM THIS STORM WILL CAUSE FLASH FLOODING OF SMALL CREEKS AND STREAMS...HIGHWAYS AND UNDERPASSES. ADDITIONALLY...COUNTRY ROADS AND FARMLANDS ALONG THE BANKS OF CREEKS AND STREAMS AND OTHER LOW LYING AREAS ARE SUBJECT TO FLASH FLOODING.

DO NOT DRIVE YOUR VEHICLE INTO AREAS WHERE THE WATER COVERS THE ROADWAY. THE WATER DEPTH MAY BE TOO GREAT TO ALLOW YOUR CAR TO CROSS SAFELY. VEHICLES CAUGHT IN RISING WATER SHOULD BE ABANDONED QUICKLY. MOVE TO HIGHER GROUND.

A FLASH FLOOD WARNING MEANS THAT FLOODING IS IMMINENT OR OCCURRING. IF YOU ARE IN THE WARNING AREA MOVE TO HIGHER GROUND IMMEDIATELY. RESIDENTS LIVING ALONG STREAMS AND CREEKS SHOULD TAKE IMMEDIATE PRECAUTIONS TO PROTECT LIFE AND PROPERTY. DO NOT ATTEMPT TO CROSS SWIFTLY FLOWING WATERS OR WATERS OF UNKNOWN DEPTH BY FOOT OR BY AUTOMOBILE. IF YOUR VEHICLE STALLS, ABANDON IT IMMEDIATELY AND SEEK HIGHER GROUND.

TO REPORT SEVERE WEATHER HAVE THE NEAREST LAW ENFORCEMENT AGENCY RELAY YOUR REPORT TO THE NATIONAL WEATHER SERVICE FORECAST OFFICE IN CORPUS CHRISTI.

River Flood Warnings

FLWCRP
RIVER FLOOD WARNING
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1150 PM CDT MON AUG 23 1999

...FLOOD WARNING...
FOR THE ATASCOSA RIVER AT WHITSETT...

DUE TO HEAVY RAINS FROM HURRICANE BRET...THE ATASCOSA RIVER AT WHITSETT IS FORECAST TO RISE TO NEAR FLOOD STAGE BY WEDNESDAY AFTERNOON.

THE 800 PM STAGE WAS 2.07 FEET. BANKFULL AND FLOOD STAGE ARE 20 FEET. THE RIVER IS FORECAST TO RISE AND CREST NEAR 20 FEET BY WEDNESDAY AFTERNOON. MINOR LOWLAND FLOODING CAN BE EXPECTED AT THIS LEVEL.

SCATTERED SHOWERS AND THUNDERSTORMS ARE EXPECTED OVER THE REGION THROUGH WEDNESDAY. ADDITIONAL RAINFALL MAY ALTER RIVER FORECASTS. RESIDENTS ARE URGED TO MONITOR WEATHER CONDITIONS AND BE PREPARED TO TAKE APPROPRIATE ACTION.

MJG

FLWCRP
RIVER FLOOD WARNING
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
725 PM CDT TUE AUG 24 1999

...FLOOD WARNING...
FOR THE RIO GRANDE RIVER AT LAREDO...

THE REMNANTS OF BRET HAVE MOVED INTO MEXICO TODAY. HEAVY RAINS ACROSS THE BORDER IN MEXICO HAVE CAUSED THE RIO GRANDE RIVER IN LAREDO TO RISE TO ABOVE FLOOD STAGE.

THE 630 PM STAGE WAS 8.43 FEET. BANKFULL IS 7 FEET. FLOOD STAGE IS 8 FEET. THE RIVER IS FORECAST TO CONTINUE TO RISE SLOWLY AS HEAVY RAINS CONTINUE IN MEXICO. ACTUAL RIVER FORECAST VALUES WILL BE PROVIDED IN A STATEMENT LATER THIS EVENING. AT 8 FEET MODERATE LOWLAND FLOODING OCCURS AND THE LOWEST PORTION OF THE CUSTOMS PARKING LOT IS FLOODED.

SHOWERS AND THUNDERSTORMS WILL CONTINUE OVER NIGHT NEAR THE BORDER AND IN MEXICO. RESIDENTS ARE URGED TO MONITOR WEATHER CONDITIONS AND BE PREPARED TO TAKE APPROPRIATE ACTION. STAY TUNED TO LOCAL MEDIA AND NOAA WEATHER RADIO FOR FURTHER RIVER FLOOD STATEMENTS.

MAIFELD

FLWCRP
RIVER FLOOD WARNING
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
640 AM CDT WED AUG 25 1999

...FLOOD WARNING...

FOR THE RIO GRANDE RIVER AT THE COLUMBIA BRIDGE...

THE REMNANTS OF BRET MOVED INTO MEXICO ON TUESDAY. HEAVY RAINS ACROSS THE BORDER IN MEXICO HAVE CAUSED A RISE ON THE RIO GRANDE AT THE COLUMBIA BRIDGE. THE RIVER IS EXPECTED TO RISE ABOVE FLOOD STAGE BY LATE WEDNESDAY MORNING.

THE 600 AM STAGE WAS 16.4 FEET (5.0 METERS). ACTION STAGE IS 10 FEET (3.1 METERS). FLOOD STAGE IS 18 FEET (5.5 METERS) ON THE RIGHT BANK AND 28 FEET (8.6 METERS) ON THE LEFT BANK. THE RIVER IS FORECAST TO CONTINUE RISING THIS MORNING AND CREST NEAR 19 FEET (5.8 METERS) BY LATE MORNING. MODERATE LOWLAND FLOODING IS EXPECTED AS THE RIVER RISES THROUGH THE MORNING...ESPECIALLY ON THE RIGHT BANK.

SHOWERS AND THUNDERSTORMS HAVE DECREASED OVER MEXICO THIS MORNING. HOWEVER...THE RUNOFF WILL CONTINUE TO SEND WATER INTO THE RIO GRANDE. IT IS VERY DIFFICULT TO MEASURE THE AMOUNT OF RAINFALL AND RUNOFF INTO THE RIO GRANDE THAT IS OCCURRING IN MEXICO. THEREFORE... FLOOD FORECASTS MAY BE UPDATED VERY QUICKLY AND YOU MAY ONLY HAVE A SHORT PERIOD OF TIME TO PROTECT LIFE AND PROPERTY. RESIDENTS ARE URGED TO TAKE APPROPRIATE ACTION TO PROTECT LIVESTOCK OR PERSONAL PROPERTY.

STAY TUNED TO LOCAL MEDIA AND NOAA WEATHER RADIO FOR ADDITIONAL UPDATES ON THIS RIVER FLOODING.

NUECES AND SAN PATRICIO COUNTIES UNTIL 530 AM...

...FLASH FLOOD WARNINGS REMAIN IN EFFECT FOR JIM WELLS...SOUTHERN
BEE...SOUTHERN LIVE OAK AND SOUTHERN REFUGIO COUNTIES UNTIL 545 AM...

...A FLASH FLOOD WATCH REMAINS IN EFFECT FOR ALL OF SOUTH TEXAS
TODAY...

AT 330 AM CDT...HURRICANE BRET WAS LOCATED ABOUT 58 MILES TO THE
SOUTHWEST OF CORPUS CHRISTI. IT WAS MOVING VERY SLOWLY TO THE WEST.
NUMEROUS SPIRAL RAIN BANDS WITH EMBEDDED THUNDERSTORMS CONTINUED TO
ROTATE AROUND BRET ACROSS SOUTH TEXAS. SOME OF THESE RAIN BANDS
CONTAIN VERY HEAVY RAINFALL BETWEEN 1 AND 2 INCHES AN HOUR. ISOLATED
RAINFALL RATES OF EVEN 3 TO 4 INCHES AN HOUR EXIST...MAINLY OFFSHORE.

DUE TO THE CONTINUING HEAVY RAIN ACROSS THE AREA AND THE HEAVY RAIN
THAT HAS ALREADY FALLEN...THE THREAT FOR ADDITIONAL FLOODING WILL
CONTINUE THROUGH THE MORNING HOURS FOR PORTIONS OF SOUTH TEXAS.
THE GREATEST RISK AREA WILL BE ACROSS JIM WELLS...KLEBERG...
NUECES...SAN PATRICIO...ARANSAS...REFUGIO...BEE AND LIVE OAK
COUNTIES. THESE COUNTIES HAVE EITHER PART OF OR ALL OF THEIR AREA
UNDER A FLASH FLOOD WARNING. THESE FLASH FLOOD WARNINGS MAY NEED TO
BE CONTINUED DUE TO THE SLOW MOVEMENT OF HURRICANE BRET AND THE
NUMEROUS HEAVY RAIN BANDS AFFECTING THE REGION.

MOTORISTS PLANNING ON RETURNING TO THEIR HOMES THIS MORNING NEED TO
EXERCISE CAUTION. DO NOT ATTEMPT TO CROSS WATER OF UNKNOWN DEPTH.
IF FLOODING IS OBSERVED THEN MOVE TO HIGHER GROUND AND WAIT UNTIL
THE WATER RECEDES.

STAY TUNED FOR LATER STATEMENTS OR ADDITIONAL WARNINGS CONCERNING
BRET FROM YOUR NATIONAL WEATHER SERVICE OFFICE IN CORPUS CHRISTI.

RIVER FLOOD WATCH
NATIONAL WEATHER SERVICE
WEST GULF RIVER FORECAST CENTER (WGRFC), FORT WORTH, TX
915 AM CDT SUN AUG 22 1999

THE NATIONAL WEATHER SERVICE WEST GULF RIVER FORECAST CENTER AND THE WEATHER SERVICE OFFICE IN CORPUS CHRISTI HAVE ISSUED A RIVER FLOOD WATCH FOR PORTIONS OF SOUTH TEXAS THROUGH MONDAY MORNING.

HEAVY RAINFALL THROUGH 7 AM MONDAY MORNING ASSOCIATED WITH HURRICANE BRET WILL LIKELY PRODUCE FLOODING ALONG RIVERS IN SOUTH TEXAS. WIDESPREAD BASIN AVERAGE AMOUNTS IN EXCESS OF 5.00 INCHES, ALONG WITH POSSIBLE POINT TOTALS IN EXCESS OF 10.00 INCHES, COULD CAUSE RIVERS AND STREAMS TO RISE TO LEVELS THAT WILL AFFECT INTERESTS NEAR THEM.

THE RIVER FLOOD WATCH WILL LIKELY BE EXPANDED WESTWARD MONDAY AS THE RAINFALL FROM BRET CONTINUES TO MOVE INLAND.

THE AREAS AFFECTED BY THIS RIVER FLOOD WATCH ARE RIVERS AND TRIBUTARIES AND THE COASTAL PLAINS IN SOUTH TEXAS. THIS INCLUDES AREAS:

ALONG THE LOWER GUADALUPE RIVER FROM VICTORIA TO THE GULF OF MEXICO INCLUDING THE COUNTIES OF VICTORIA AND CALHOUN.

ALONG THE LOWER SAN ANTONIO RIVER AND ITS TRIBUTARIES FROM GOLIAD TO THE GULF OF MEXICO INCLUDING THE COUNTIES OF GOLIAD, REFUGIO, AND ARANSAS.

ALONG THE NUECES RIVER AND ITS TRIBUTARIES FROM THREE RIVERS TO THE GULF OF MEXICO INCLUDING THE COUNTIES OF LIVE OAK, BEE, SAN PATRICIO, AND NUECES COUNTIES.

A RIVER FLOOD WATCH MEANS MODERATE TO HEAVY RAINFALL MAY CAUSE RIVERS AND STREAMS TO RISE TO CRITICAL STAGES OR INCREASE FLOODING FOR THOSE STREAMS ALREADY UNDER A SPECIFIC FLOOD WARNING. PERSONS WITH INTERESTS IN THE AREAS MENTIONED ABOVE SHOULD REMAIN INFORMED OF THE LATEST WEATHER AND RIVER INFORMATION AND BE PREPARED TO TAKE ACTION AS NECESSARY. PLEASE REFER TO NATIONAL WEATHER SERVICE CORPUS CHRISTI OFFICE RIVER FLOOD WARNINGS AND STATEMENTS FOR THE LATEST INFORMATION IN YOUR AREA.

THIS IS NOT A FLASH FLOOD WATCH. FLASH FLOOD WATCHES ARE ISSUED SEPARATELY FOR SHORTER TIME PERIODS AND SMALLER STREAMS OR URBAN AREAS FOR IMMEDIATE PUBLIC ATTENTION.

FGUS84 KCRP 230039
RVSCRP
RIVER STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
738 PM CDT SUN AUG 22 1999

...RIVER STATEMENT...

FOR THE SAN DIEGO CREEK NEAR ALICE...AND FOR THE SAN FERNANDO CREEK AT ALICE.

HURRICANE BRET IS NOW MOVING INLAND OVER CENTRAL KENEDY COUNTY... ABOUT 40 MILES SOUTH OF BAFFIN BAY. RAIN BANDS AND SQUALLS FROM BRET ARE MOVING INLAND OVER THE COASTAL BEND...AND WILL CONTINUE TO DO SO TONIGHT AND AT LEAST THROUGH MONDAY. THESE RAIN BANDS AND SQUALLS WILL PRODUCE TORRENTIAL RAINFALL...WITH RAINFALL INTENSITIES OF 3 OR MORE INCHES PER HOUR AT TIMES.

DUE TO THE EXPECTED SLOW MOVEMENT OF BRET...THE POTENTIAL EXISTS FOR FLOODING OF THE SAN DIEGO CREEK NEAR ALICE AND THE SAN FERNANDO CREEK AT ALICE...TONIGHT THROUGH MONDAY. TOTAL RAINFALL AMOUNTS BETWEEN 7 AND 9 INCHES ARE LIKELY BEFORE BRET DISSIPATES.

HOWEVER...RAINFALL TOTAL OF 10 TO 15 INCHES ARE POSSIBLE...WITH EVEN HIGHER AMOUNTS IF BRET DECIDES TO BECOME STATIONARY INLAND. LOCALIZED FLASH FLOODING WILL LIKELY OCCUR BETWEEN TONIGHT AND THROUGH AT LEAST MONDAY NIGHT.

HOWEVER...THE FLOODING OF THE SAN DIEGO CREEK AND SAN FERNANDO CREEK WILL LIKELY OCCUR WHEN TOTAL RAINFALL AMOUNTS OF MORE THAN 15 INCHES OCCUR. WHEN OVER 15 INCHES OF RAINFALL OCCURS OVER THE AREA...WATER WILL LIKELY FLOW OVER THE RETENTION DAMS.

DURING HURRICANE BEULA ON SEPTEMBER 23 1967...15.9 INCHES OF RAIN OCCURRED. THIS RESULTED IN EXTENSIVE FLOODING OF THE BASIN. AS A RESULT OF THIS...THE RETENTION DAMS WERE BUILT OVER THE AREA.

RESIDENTS SHOULD CONTINUE TO MONITOR CONDITIONS OVER THE AREA DURING THE NEXT FEW DAYS. BE PREPARED...AND KNOW WHERE TO GO IF A RIVER FLOOD WARNING IS ISSUED OR IF FLOODING IS OBSERVED.

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI WILL CONTINUE TO MONITOR CONDITIONS UNTIL THE THREAT OF HEAVY RAIN FROM BRET ENDS.

ZCZC SATRVSCRP DEF
TTAA00 KCRP DDHHMM
RIVER STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
758 PM CDT SUN AUG 22 1999

...RIVER STATEMENT...

FOR OSO CREEK.

HURRICANE BRET IS NOW MOVING INLAND OVER CENTRAL KENEDY COUNTY... ABOUT 40 MILES SOUTH OF BAFFIN BAY. RAIN BANDS AND SQUALLS FROM BRET ARE MOVING INLAND OVER THE COASTAL BEND...AND WILL CONTINUE TO DO SO TONIGHT AND AT LEAST THROUGH MONDAY. THESE RAIN BANDS AND SQUALLS WILL PRODUCE TORRENTIAL RAINFALL...WITH RAINFALL INTENSITIES OF 3 OR MORE INCHES PER HOUR AT TIMES.

DUE TO THE EXPECTED SLOW MOVEMENT OF BRET...THE POTENTIAL EXISTS FOR FLOODING OF OSO CREEK TONIGHT THROUGH MONDAY. TOTAL RAINFALL AMOUNTS BETWEEN 7 AND 9 INCHES ARE LIKELY BEFORE BRET DISSIPATES.

HOWEVER...RAINFALL TOTALS OF 10 TO 15 INCHES ARE POSSIBLE...WITH EVEN HIGHER AMOUNTS IF BRET DECIDES TO BECOME STATIONARY INLAND. LOCALIZED FLASH FLOODING WILL LIKELY OCCUR BETWEEN TONIGHT AND THROUGH AT LEAST MONDAY EVENING.

BANKFUL STAGE FOR OSO CREEK IS 11 FEET. TORRENTIAL RAINS FROM BRET WILL LIKELY BRING OSO CREEK WELL ABOVE BANKFUL STAGE FOR THE NEXT DAY OR TWO. AT 11 FEET...MINOR LOWLAND FLOODING OVER THE RIGHT AND LEFT BANKS OCCUR...BUT NO SIGNIFICANT FLOOD DAMAGE OCCURS.

HOWEVER...THE POTENTIAL EXISTS FOR OSO CREEK TO EXCEED FLOOD STAGE DURING THE NEXT DAY OR TWO. FLOOD STAGE IS AT 20 FEET...AND THIS RESULTS IN MODERATE LOWLAND FLOODING FROM THE HEADWATERS NEAR SAN JUAN TO BARNEY DAVIS RESEVOIR. ALSO...FLOODING OCCURS OVER SECONDARY ROADS AND LOW BRIDGES NEAR THE CREEK.

RESIDENTS NEAR OSO CREEK SHOULD CONTINUE TO MONITOR CONDITIONS OVER THE AREA DURING THE NEXT FEW DAYS. BE PREPARED...AND KNOW WHERE TO GO IF A RIVER FLOOD WARNING IS ISSUED OR IF FLOODING IS OBSERVED.

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI WILL CONTINUE TO MONITOR CONDITIONS UNTIL THE THREAT OF HEAVY RAIN FROM BRET ENDS.

RIVER FLOOD WATCH
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
750 AM CDT MON AUG 23 1999

THE NATIONAL WEATHER SERVICE WEST GULF RIVER FORECAST CENTER AND THE WEATHER SERVICE OFFICE IN CORPUS CHRISTI HAVE ISSUED A RIVER FLOOD WATCH FOR PORTIONS OF SOUTH TEXAS THROUGH TUESDAY MORNING.

HEAVY RAINFALL THROUGH 7 AM TUESDAY MORNING ASSOCIATED WITH HURRICANE BRET WILL LIKELY PRODUCE FLOODING ALONG RIVERS IN SOUTH TEXAS. WIDESPREAD BASIN AVERAGE AMOUNTS IN EXCESS OF 5.00 INCHES, ALONG WITH POSSIBLE POINT TOTALS IN EXCESS OF 15.00 INCHES, COULD CAUSE RIVERS AND STREAMS TO RISE TO LEVELS THAT WILL AFFECT INTERESTS NEAR THEM.

THE AREAS AFFECTED BY THIS RIVER FLOOD WATCH ARE RIVERS AND TRIBUTARIES AND THE COASTAL PLAINS IN SOUTH TEXAS. THIS INCLUDES AREAS:

ALONG THE NUECES RIVER AND ITS TRIBUTARIES FROM COTULLA TO THE GULF OF MEXICO INCLUDING THE COUNTIES OF WEBB, DUVAL, LA SALLE, MCMULLEN, LIVE OAK, BEE, SAN PATRICIO AND NUECES.

ALONG THE FRIO RIVER AND ITS TRIBUTARIES FROM DERBY TO ITS CONFLUENCE WITH THE NUECES RIVER AT THREE RIVERS INCLUDING THE COUNTIES OF LA SALLE, MCMULLEN AND LIVE OAK.

ALONG THE RIO GRANDE AND ITS TRIBUTARIES FROM LAREDO TO FALCON RESERVOIR IN WEBB COUNTY.

ALONG THE MISSION RIVER AND THE ARANSAS RIVER INCLUDING THE COUNTIES OF REFUGIO AND SAN PATRICIO.

ALONG THE COASTAL PLAINS INCLUDING THE COUNTIES OF DUVAL, JIM WELLS, NUECES AND KLEBERG.

A RIVER FLOOD WATCH MEANS MODERATE TO HEAVY RAINFALL MAY CAUSE RIVERS AND STREAMS TO RISE TO CRITICAL STAGES OR INCREASE FLOODING FOR THOSE STREAMS ALREADY UNDER A SPECIFIC FLOOD WARNING. PERSONS WITH INTERESTS IN THE AREAS MENTIONED ABOVE SHOULD REMAIN INFORMED OF THE LATEST WEATHER AND RIVER INFORMATION AND BE PREPARED TO TAKE ACTION AS NECESSARY. PLEASE REFER TO NATIONAL WEATHER SERVICE CORPUS CHRISTI OFFICE RIVER FLOOD WARNINGS AND STATEMENTS FOR THE LATEST INFORMATION IN YOUR AREA.

RIVER FLOOD STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
445 PM CDT MON AUG 23 1999

...RIVER FLOOD STATEMENT...

FOR THE NUECES RIVER NEAR MATHIS...
FOR THE NUECES RIVER AT CALALLEN...
FOR THE ARANSAS RIVER NEAR SKIDMORE...
FOR THE OSO CREEK...
FOR THE SAN FERNANDO CREEK NEAR ALICE...

RAIN BANDS ASSOCIATED WITH TROPICAL STORM BRET CONTINUE TO MOVE
NORTHWARD ACROSS THE AREA...PRODUCING LOCALLY HEAVY RAIN AND STRONG
THUNDERSTORMS. SOME AREAS OVER THE NUECES RIVER BASIN MAY RECEIVE AN
ADDITIONAL 1 TO 3 INCHES OF PRECIPITATION IN A SHORT
PERIOD...AFFECTING CURRENT RIVER LEVELS.

ADDITIONALLY...RECENT INFORMATION AND NEW HYDROLOGIC MODEL
CALCULATIONS HAVE RESULTED IN CHANGES TO PREVIOUS FORECAST RIVER
LEVELS. PLEASE CONSULT THE FOLLOWING INFORMATION CAREFULLY.

NUECES RIVER NEAR MATHIS...
    THE 4 PM STAGE WAS 1.96 FEET. BANKFULL IS 16 FEET. NO FURTHER
    RISES IN RIVER LEVELS ARE EXPECTED FOR THE NEXT 12 TO 24 HOURS.

NUECES RIVER AT CALALLEN...
    THE 4 PM STAGE WAS 6.00 FEET. BANKFULL IS 6 FEET...FLOOD STAGE
    IS 7 FEET. THE RIVER IS NOT EXPECTED TO RISE MUCH ABOVE BANKFULL
    THROUGH THE OVERNIGHT HOURS. WATER WILL BEGIN REACHING SOME
    HOMES IF THE RIVER HAS AN UNEXPECTED RISE TO ABOVE 7 FEET...WITH
    SOME ROADS BECOME FLOODED.

ARANSAS RIVER NEAR SKIDMORE...
    THE 4 PM STAGE WAS 8.70 FEET. BANKFULL IS 7 FEET...FLOOD STAGE
    IS 13 FEET. THE RIVER WILL BE RISING SLOWLY TO A CREST BETWEEN 8
    AND 9 FEET LATE MONDAY NIGHT. MINOR LOWLAND FLOODING CAN BE
    EXPECTED.

OSO CREEK...
    THE 4 PM STAGE WAS 20.13 FEET. BANKFULL IS 11 FEET...FLOOD STAGE
    IS 20 FEET. THE RIVER IS EXPECTED TO CONTINUE RISING SLOWLY
    ABOVE FLOOD STAGE THIS EVENING AND CREST NEAR 23 FEET BY LATE
    MONDAY EVENING. AT 20 FEET...MODERATE LOWLAND FLOODING CAN BE
    EXPECTED WITH SECONDARY ROADS AND LOW BRIDGES NEAR THE CREEK
    AFFECTED.

RIVER FLOOD STATEMENTS...

SAN FERNANDO CREEK...
    THE 4 PM STAGE WAS 3.30 FEET. BANKFULL IS 4 FEET. THE RIVER WILL
    CREST BETWEEN 3 AND 4 FEET MONDAY EVENING. MINOR LOWLAND IS NOT
    EXPECTED AT THIS LEVEL.

AS THE TROPICAL STORM BRET CONTINUES TO MOVE FARTHER INLAND DURING
THE OVERNIGHT HOURS...WEATHER CONDITIONS ARE EXPECTED TO IMPROVE
GRADUALLY. HOWEVER...RESIDENTS ARE URGED TO MONITOR WEATHER
CONDITIONS AND BE PREPARED TO TAKE APPROPRIATE ACTION AS THE
SITUATION WARRANTS.

RIVER FLOOD STATEMENT...UPDATED
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
455 PM CDT MON AUG 23 1999

...RIVER FLOOD STATEMENT...

FOR THE NUECES RIVER NEAR MATHIS...
FOR THE NUECES RIVER AT CALALLEN...
FOR THE ARANSAS RIVER NEAR SKIDMORE...
FOR THE OSO CREEK...
FOR THE SAN FERNANDO CREEK NEAR ALICE...

***NOTE CHANGES IN 4PM STAGES***

RAIN BANDS ASSOCIATED WITH TROPICAL STORM BRET CONTINUE TO MOVE
NORTHWARD ACROSS THE AREA...PRODUCING LOCALLY HEAVY RAIN AND STRONG
THUNDERSTORMS. SOME AREAS OVER THE NUECES RIVER BASIN MAY RECEIVE AN
ADDITIONAL 1 TO 3 INCHES OF PRECIPITATION IN A SHORT
PERIOD...AFFECTING CURRENT RIVER LEVELS.

ADDITIONALLY...RECENT INFORMATION AND NEW HYDROLOGIC MODEL
CALCULATIONS HAVE RESULTED IN CHANGES TO PREVIOUS FORECAST RIVER
LEVELS.  PLEASE CONSULT THE FOLLOWING INFORMATION CAREFULLY.

NUECES RIVER NEAR MATHIS...
    THE 4 PM STAGE WAS 1.96 FEET. BANKFULL IS 16 FEET. NO FURTHER
    RISES IN RIVER LEVELS ARE EXPECTED FOR THE NEXT 12 TO 24 HOURS.

NUECES RIVER AT CALALLEN...
    THE 4 PM STAGE WAS 5.23 FEET. BANKFULL IS 6 FEET...FLOOD STAGE
    IS 7 FEET. THE RIVER IS NOT EXPECTED TO RISE MUCH ABOVE BANKFULL
    THROUGH THE OVERNIGHT HOURS. WATER WILL BEGIN REACHING SOME
    HOMES IF THE RIVER HAS AN UNEXPECTED RISE TO ABOVE 7 FEET...WITH
    SOME ROADS BECOME FLOODED.

ARANSAS RIVER NEAR SKIDMORE...
    THE 4 PM STAGE WAS 1.57 FEET. BANKFULL IS 7 FEET. THE RIVER WILL
    BE RISING SLOWLY TO A CREST BETWEEN 8 AND 9 FEET LATE MONDAY
    NIGHT...REMAINING ABOVE BANKFUL BUT WELL BELOW FLOOD STAGE.

OSO CREEK...
    THE 4 PM STAGE WAS 20.22 FEET. BANKFULL IS 11 FEET...FLOOD STAGE
    IS 20 FEET. THE RIVER IS EXPECTED TO CONTINUE RISING SLOWLY
    ABOVE FLOOD STAGE THIS EVENING AND CREST NEAR 23 FEET BY LATE
    MONDAY EVENING. AT 20 FEET...MODERATE LOWLAND FLOODING CAN BE
    EXPECTED WITH SECONDARY ROADS AND LOW BRIDGES NEAR THE CREEK
    AFFECTED.

RIVER FLOOD STATEMENTS...

SAN FERNANDO CREEK...
    THE 4 PM STAGE WAS 1.40 FEET. BANKFULL IS 4 FEET. THE RIVER WILL
    CREST BETWEEN 3 AND 4 FEET MONDAY EVENING.  MINOR LOWLAND IS
    NOT EXPECTED AT THIS LEVEL.

AS THE TROPICAL STORM BRET CONTINUES TO MOVE FARTHER INLAND DURING
THE OVERNIGHT HOURS...WEATHER CONDITIONS ARE EXPECTED TO IMPROVE
GRADUALLY. HOWEVER...RESIDENTS ARE URGED TO MONITOR WEATHER
CONDITIONS AND BE PREPARED TO TAKE APPROPRIATE ACTION AS THE
SITUATION WARRANTS.

1130 PM CDT MON AUG 23 1999

...RIVER FLOOD STATEMENT...

FOR THE NUECES RIVER NEAR COTULLA...
FOR THE NUECES RIVER NEAR TILDEN...
FOR THE NUECES RIVER NEAR MATHIS...
FOR THE NUECES RIVER AT CALALLEN...
FOR THE FRIO RIVER NEAR TILDEN...
FOR THE SAN MIGUEL CREEK NEAR TILDEN...
FOR THE ARANSAS RIVER NEAR SKIDMORE...
FOR THE OSO CREEK...

NUECES RIVER NEAR COTULLA...
THE 900 PM STAGE WAS 9.10 FEET. BANKFULL IS 9 FEET. FLOOD STAGE IS 15 FEET. THE RIVER IS FORECAST TO CREST BETWEEN 9 AND 10 FEET ON FRIDAY. SOME LIVESTOCK MAY BE CUT OFF DOWNSTREAM AT 9 FEET.

NUECES NEAR TILDEN...
THE 845 PM STAGE WAS 2.57 FEET. BANKFULL IS 11 FEET. FLOOD STAGE IS 14 FEET. THE RIVER IS FORECAST TO RISE SLOWLY AND CREST NEAR 11 FEET ON SATURDAY.

NUECES RIVER NEAR MATHIS...
THE 845 PM STAGE WAS 2.00 FEET. BANKFULL IS 16 FEET. NO RELEASES ARE CURRENTLY EXPECTED FROM LAKE CORPUS CHRISTI...THEREFORE NO FURTHER RISES IN RIVER LEVELS ARE EXPECTED FOR THE NEXT 12 TO 24 HOURS.

NUECES RIVER AT CALALLEN...
THE 845 PM STAGE WAS 5.46 FEET. BANKFULL IS 6 FEET...FLOOD STAGE IS 7 FEET. THE RIVER IS EXPECTED TO CREST AT NEAR 7 FEET TOMORROW AFTERNOON.

SAN MIGUEL CREEK NEAR TILDEN...
THE 845 PM STAGE WAS 3.24 FEET. BANKFULL IS 12 FEET. FLOOD STAGE IS 25 FEET. THE CREEK IS FORECAST TO CREST BETWEEN 11 AND 12 FEET TUESDAY AFTERNOON.

FRIO RIVER NEAR TILDEN...
THE 845 PM STAGE WAS 2.59 FEET. BANKFULL IS 12 FEET. FLOOD STAGE IS 27 FEET. THE RIVER IS FORECAST TO RISE SLOWLY AND CREST AT 11 TO 12 FEET BY FRIDAY.

ARANSAS RIVER NEAR SKIDMORE...
THE 845 PM STAGE WAS 4.25 FEET. BANKFULL IS 7 FEET. FLOOD STAGE IS 13 FEET. THE RIVER WILL BE RISE AND CREST AT 8 TO 9 FEET LATE TONIGHT.

OSO CREEK...
THE 845 PM STAGE WAS 21.33 FEET. BANKFULL IS 11 FEET...FLOOD STAGE IS 20 FEET. THE RIVER IS EXPECTED TO CREST NEAR 23 FEET BY TUESDAY MORNING. AT 20 FEET...MODERATE LOWLAND FLOODING CAN BE EXPECTED WITH SECONDARY ROADS AND LOW BRIDGES NEAR THE CREEK AFFECTED.

REMNANTS OF BRET HAVE SLOWED NEAR THE RIO GRANDE RIVER. SOME RAIN BANDS WILL CONTINUE TO REGENERATE MONDAY NIGHT AND SCATTERED SHOWERS AND THUNDERSTORMS ARE EXPECTED THROUGH TUESDAY NIGHT. WEATHER CONDITIONS ARE EXPECTED TO IMPROVE GRADUALLY. HOWEVER...RESIDENTS ARE URGED TO MONITOR WEATHER CONDITIONS AND BE PREPARED TO TAKE APPROPRIATE ACTION AS THE SITUATION WARRANTS.

RIVER FLOOD STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1000 PM CDT TUE AUG 24 1999

...RIVER FLOOD STATEMENT...

FOR THE RIO GRANDE RIVER AT COLUMBIA BRIDGE...
FOR THE RIO GRANDE RIVER AT LAREDO...

...RIO GRANDE RIVER AT COLUMBIA BRIDGE...
THE 900 PM CDT STAGE WAS 13.44 FEET (4.1 METERS). BANKFULL IS 28 FEET (8.5 METERS) ON THE LEFT BANK AND 18 FEET (5.5 METERS) ON THE RIGHT BANK. THE RIVER IS EXPECTED TO RISE TO 15 FEET (4.6 METERS) BY MIDNIGHT TONIGHT. THIS IS ABOVE THE WARNING STAGE OF 10 FEET (3 METERS) AND WILL CAUSE PROBLEMS FOR PUMPING OPERATIONS AND LIVESTOCK. THE RIVER IS EXPECTED TO CONTINUE TO RISE DUE TO ADDITIONAL RAINFALL ON THE MEXICO SIDE OF THE RIO GRANDE RIVER.

...RIO GRANDE RIVER IN LAREDO...
THE 800 PM CDT STAGE WAS 8.62 FEET (2.6 METERS). FLOOD STAGE IS 10 FEET (3 METERS). THE RIVER IS EXPECTED TO RISE TO AROUND 10 FEET (3 METERS) BY MIDNIGHT TONIGHT AND THIS WILL CAUSE FLOODING OF THE CUSTOMS PARKING LOT. THE RIVER IS EXPECTED TO CONTINUE RISING AFTER MIDNIGHT AND MAY BEGIN TO THREATEN THE LOWER SECTIONS OF THE MALL PARKING LOT BY MORNING...WHERE THE FLOOD STAGE IS 13 FEET (4 METERS)

ALL INTERESTS ALONG THE RIO GRANDE RIVER IN WEBB COUNTY ARE URGED TO MONITOR THIS SITUATION CLOSELY. THUNDERSTORMS AND VERY HEAVY RAIN ARE EXPECTED TO CONTINUE ON THE MEXICO SIDE OF THE RIO GRANDE RIVER TONIGHT. IT IS VERY DIFFICULT TO MEASURE THE AMOUNT OF RAINFALL AND THE RUNOFF INTO THE RIO GRANDE THAT IS OCCURING IN MEXICO. THEREFORE...FLOOD FORECASTS MAY BE UPDATED VERY QUICKLY AND YOU MAY ONLY HAVE A SHORT PERIOD OF TIME TO PROTECT LIFE AND PROPERTY. IF YOU HAVE LIVESTOCK OR PERSONAL PROPERTY NEAR THE RIVER...YOU SHOULD TAKE ACTION NOW TO PROTECT IT.

COASTAL FLOOD WATCH
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
1050 AM CDT SAT AUG 21 1999

...A COASTAL FLOOD WATCH IS IN EFFECT THROUGH SUNDAY...

THE NATIONAL WEATHER SERVICE IN CORPUS CHRISTI HAS ISSUED A COASTAL FLOOD WATCH FOR ALL COASTAL INTERESTS FROM BAFFIN BAY TO PORT OCONNOR THROUGH SUNDAY.

HURRICANE BRET CONTINUES TO DRIFT SLOWLY TO THE NORTH NORTHWEST. AT THIS TIME BRET IS EXPECTED TO MAKE LANDFALL EARLY MONDAY MORNING SOUTH OF BROWNSVILLE. BEFORE MAKING LANDFALL...BRET WILL CONTINUE TO INTENSIFY AS IT HEADS TOWARD THE EXTREME NORTHEAST MEXICAN COAST.

WIND AND SEAS NORTH OF BRET ARE ALREADY BEGINNING TO INCREASE. SWELLS FROM BRET WILL LIKELY MOVE TOWARD THE COASTAL WATERS LATER TONIGHT AND THROUGH SUNDAY. AS A RESULT...WATER LEVELS ALONG THE COAST WILL BEGIN TO RISE...WHICH MAY RESULT IN COASTAL FLOODING IN LATE SUNDAY AFTERNOON AND INTO SUNDAY NIGHT. ANY FLOODING WHICH OCCURS CAN RESULT IN BEACH EROSION...AS WELL AS FLOODING ALONG BEACHES AND BEACH ACCESS ROADS.

A COASTAL FLOOD WATCH MEANS THAT FLOODING IS POSSIBLE ALONG COASTAL COMMUNITIES...BEACHES...AND COASTAL ROADS. HIKERS AND CAMPERS SHOULD CONTINUE TO MONITOR THE WEATHER THROUGH THE WEEKEND...AND DO NOT STRAY FAR FROM BEACH ACCESS ROADS.

RESIDENTS ARE URGED TO CLOSELY MONITOR THE CURRENT AND FORECAST TRACK OF HURRICANE BRET THROUGH THE WEEKEND. LISTEN TO NOAA WEATHER RADIO FOR THE LATEST ADVISORIES ON HURRICANE BRET FROM THE NATIONAL HURRICANE CENTER AND FROM YOUR NATIONAL WEATHER SERVICE IN CORPUS CHRISTI CONCERNING THIS DEVELOPING WEATHER SITUATION.

COASTAL FLOOD STATEMENT
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
450 PM CDT SAT AUG 21 1999

...A COASTAL FLOOD WATCH IS IN EFFECT THROUGH SUNDAY NIGHT...

A COASTAL FLOOD WATCH REMAINS IN EFFECT FOR ALL COASTAL INTERESTS FROM BAFFIN BAY TO PORT OCONNOR THROUGH SUNDAY NIGHT.

HURRICANE BRET CONTINUES TO DRIFT SLOWLY TO THE NORTH NORTHWEST. AT THIS TIME BRET IS EXPECTED TO MAKE LANDFALL SUNDAY NIGHT...NEAR BROWNSVILLE ALONG THE TEXAS-MEXICAN BORDER. BEFORE MAKING LANDFALL...BRET WILL CONTINUE TO INTENSIFY AS IT BEGINS TO TAKE A MORE WESTERLY TRACK BY SUNDAY MORNING.

WIND AND SEAS NORTH OF BRET HAVE ALREADY INCREASED SINCE SATURDAY MORNING. SIGNIFICANT WAVES 200 MILES EAST OF PORT ISABEL HAVE RISEN FROM 3 FEET EARLY SATURDAY MORNING TO AROUND 7 FEET SATURDAY AFTERNOON. THESE HIGH WAVES AND SWELLS...LIKELY TO BECOME EVEN HIGHER BY SUNDAY...WILL LIKELY MOVE TOWARD THE COAST AND THE WATCH AREA THROUGH SUNDAY NIGHT.

AS A RESULT...WATER LEVELS ALONG THE COAST WILL BEGIN TO RISE...WHICH MAY RESULT IN COASTAL FLOODING LATE SUNDAY AFTERNOON AND SUNDAY NIGHT. ANY COASTAL FLOODING WHICH OCCURS CAN RESULT IN BEACH EROSION...AS WELL AS FLOODING ALONG BEACHES AND BEACH ACCESS ROADS.

HIGH TIDE SUNDAY MORNING AT PORT ARANSAS WILL OCCUR AT 332 AM...WITH ANOTHER HIGH TIDE AT 403 AM MONDAY MORNING. HIGH TIDES AT PORT OCONNOR WILL OCCUR AT 848 AM SUNDAY AND 932 AM MONDAY. DEPENDING ON WHERE BRET MAKES LANDFALL AND HOW LONG IT REMAINS OVER THE GULF WATERS...TIDES MAY RISE TO TWO OR MORE FEET ABOVE THEIR MEAN ASTRONOMICAL LEVELS...ESPECIALLY SUNDAY NIGHT.

Forecast Discussions

AFDCRP
COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
245 PM CDT SAT AUG 21 1999

WILL ISSUE THIS AFD AT THIS TIME...THEN LIKELY ISSUE UPDATED ONE AFTER COORDINATION CALL WITH NHC. SATELLITE INDICATE BRET IS NOT MOVING VERY MUCH WEST. OBVIOUSLY...THE MORE NORTH IT GOES...THE GREATER IMPACT BRET WILL HAVE ON THE CWFA. AT THIS TIME...WILL ASSUME BRET'S EFFECTS WILL INCREASE OVER THE CWFA. AS A RESULT...WILL GO WITH CHANCE POPS TONIGHT...LIKELY POPS SOUTH AND COASTAL FOR SUNDAY...AND LIKELY POPS SUNDAY NIGHT AND MONDAY NEARLY EVERYWHERE. WITH LIKLIHOOD OF HEAVY RAIN AND FLOODING FROM BRET BEING AFTER 1ST PERIOD...MAY HOLD OFF ON THE FFA TIL NEXT SHIFT...DEPENDING ON WHAT NHC SAYS. STILL HAVE COASTAL FLOOD WATCH GOING. WILL CONTINUE RAIN THROUGH THE EXTENDED...WITH AT LEAST CHANCE POPS IN 3RD PERIOD...PERHAPS LATER. TEMPS OBVIOUSLY LOWER FOR HIGHS.

FOR MARINE...WILL DEPEND ON WHAT HPC SAYS...BUT WILL DEFINITELY HAVE WINDS HIGH IN SEAS AND SQUALLS.

PRELIMS...SUBJECT TO CHANGE. WILL LIKELY ISSUED UPDATED AFD AFTER COORDINATION CALL.

COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
830 PM CDT SAT AUG 21 1999

MUCH OF THIS UPDATED DEPENDS ON TPC/NHC CONFERENCE CALL AT 9 PM. LAST FEW VOLUME SCANS FROM KBRO 88D INDICATE THAT SOME KIND OF LEFT TURN COULD BE UNDERWAY. HOWEVER...IT IS TOO EARLY TO TELL IF IT WILL CONTINUE DOING THIS GIVEN THIS STORMS PAST HISTORY. IF BRET CONTINUES N/NNW MOVEMENT...WILL HAVE TO EXTEND FFA INTO KVCT AREA. ALSO WILL HAVE TO BE CONCERNED ABOUT BARRIER ISLANDS AND TIDAL SURGE. WILL NOT SAY ANYMORE UNTIL CALL WITH NHC.

FOR MARINE...WILL DEPEND ON WHAT TPC SAYS...BUT WILL DEFINITELY HAVE WINDS HIGH IN SEAS AND SQUALLS.

COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
335 AM CDT SUN AUG 22 1999

BRET APPEARS TO HAVE FINALLY MADE ITS TURN MORE TOWARDS THE NORTHWEST. THIS DOES NOT BODE WELL FOR THE COASTAL BEND. CONVECTION CONTINUES TO INTENSIFY AROUND THE EYEWALL. THE AVN SOLUTION IS HANDLING THIS SYSTEM THE BEST OVERALL. THE 06Z AVN LOCATION WAS VERY GOOD. THE AVN TAKES BRET IN AROUND BAFFIN BAY...CLOSE TO THE OFFICIAL NHC FORECAST. HOWEVER THE AVN IS ALOT FASTER WITH LANDFALL THAN THE OFFICIAL NHC FORECAST. THE AVN HAS LANDFALL AROUND 00Z.

EITHER WAY...IT LOOKS LIKE BRET IS GOING TO HAVE A SIGNIFICANT IMPACT ON OUR CWFA. IMMEDIATE CONCERNS WILL BE THE WIND AND FLOOD THREAT. AS FOR THE WIND...I WILL BE POSTING A HIGH WIND WATCH FOR ALL THE INLAND COUNTIES FOR TONIGHT. TROPICAL FORCE WINDS ARE EXPECTED TONIGHT ACROSS THE INLAND COUNTIES. AS FOR THE FLOOD THREAT...THE MAIN CHANGE FROM THE PREVIOUS PACKAGE IS TO INCLUDE THE FAR WESTERN COUNTIES AND TO EXTEND THE WATCH INTO MONDAY. THE GREATEST POTENTIAL FOR FLOODING WILL LIKELY BE TONIGHT INTO MONDAY. THE POSSIBILITY OF 10 OR MORE INCHES WILL BE LIKELY... GIVEN ITS CURRENT FORWARD SPEED.

ANOTHER CONCERN WILL BE THE POTENTIAL FOR TORNADOES. IF THE CURRENT TRACK HOLDS TRUE...THEN THE EASTERN AND ESPECIALLY NORTHEASTERN PARTS OF THE CWFA WILL BE WITHIN THE FAVORED NORTHEAST QUADRANT FOR HURRICANE-SPAWNED TORNADOES. LOW LEVEL HELICITIES WILL BE QUITE LARGE IN THIS AREA.

GIVEN ITS SLOW MOVEMENT...WE WILL BE DEALING WITH BRET MOST LIKELY PAST MONDAY AS WELL. THUS THE EXTENDED FORECAST WILL REFLECT THIS.

MARINE: COMBINED SEAS WILL CONTINUE TO BUILD TODAY AND TONIGHT. WILL BE QUITE PESSIMISTIC AND GO WITH SEAS AT LEAST 15 FEET. WINDS WILL INCREASE TO HURRICANE FORCE TONIGHT ACROSS THE WATERS.

COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
300 PM CDT SUN AUG 22 1999

BEST FORECAST TOOL RIGHT NOW IS RADAR...FORGET THE SHORT-TERM MODELS. AT THIS TIME...IT APPEARS THAT BRET WILL SPARE CORPUS WITH A DIRECT HIT. MAY GO AS FAR NORTH AS BAFFIN BAY...BUT LOOKS EVEN SOUTH OF THAT. WILL WAIT FOR HPC ON WIND FORECAST...BUT IT LOOKS LIKE WINDS CAN BE DECREASED AT THIS TIME. WILL LIKELY NEED THE HURRICANE WARNING THOUGH FOR THIS EVENING...ESPECIALLY FOR THE SOUTH. EXPECT CATAGOICAL RAINS THROUGH 1ST TWO PERIODS...WITH POPS ONLY SLIGHTLY LOWER EAST AS BRET MOVES INLAND. BRET WILL LIKELY BE AROUND AT LEAST THROUGH WEDNESDAY NIGHT OVER THE WEST...SO WILL ONLY LOWER POPS EASTERN SECTIONS. WILL LIKELY KEEP THE FORECAST DRY FOR NOW ON SUNDAY.

MARINE...WILL FOLLOW CLOSLY WITH HPC'S WIND FORECAST...DIMINISHING WINDS THROUGH THE PERIOD.

UPDATE ON AFD WILL ONLY OCCUR IF CHANGE IS MADE TO WARNINGS/WATCHES.

COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
930 AM CDT MON AUG 23 1999

DISCUSSION...VISIBLE SATELLITE IMAGERY COMBINED WITH DOPPLER RADAR REFLECTIVITY DATA CLEARLY ILLUSTRATES THE WELL-DEFINED CYCLONIC CIRCULATION ASSOCIATED WITH TROPICAL STORM BRET..CENTERED OVER SOUTH CENTRAL DUVAL COUNTY. WIND PROFILER DATA FROM KCRP DEPICTS 45 TO 55 KNOTS IN THE LOWER BOUNDARY LAYER (1-2KFT). ADDITIONAL FEEDER BANDS ARE DEVELOPING TO THE SOUTHEAST OF THE REGION OVER THE COASTAL LOCATIONS AND THESE WILL ROTATE INLAND TDY RESULTING IN A DOWNWARD TRANSFER OF HIGHER WINDSPEEDS WITHIN THE CONVECTION.

TPC/HPC CONFERENCE CALL FOR BRET IS NOW COMPLETE..AND HAVE LOWERED THE AVERAGE ADDITIONAL RAFL TOTALS BASED ON PAST REPORTS WITH PREVIOUS BANDS..AND THE DOPPLER ESTIMATES..10 TO 15 INCHES IS THE COMPROMISE RANGE. TROPICAL STORM WARNINGS WILL REMAIN IN PLACE AS WELL AS THE FLOOD/FLASH FLOOD WATCH. VAD WIND PROFILE DATA INDICATES A UNIFORM SELY COMPONENT..LIMITED SHEAR..HOWEVER AS CONVECTIVE BANDS APPROACH THE COASTLINE..WEAK LOW-LEVEL FRICTIONAL SHEAR WILL BE SUFFICIENT TO MAINTAIN THE TORNADO WATCH..HOWEVER POTENTIAL WILL DIMINISH LATER TODAY.

THE CORE OF HIGHEST WINDSPEEDS WILL CONTINUE TO TRANSLATE WESTWARD WITH THE CENTER AND WILL MAINTAIN THE HIGH WIND WARNING FOR THIS AREA..WITH A STRONG WIND ADVISORY IN PLACE FOR THE REMAINDER OF THE FA. ACROSS THE UPPER MARINE ZONES..WHERE TROPICAL STORM WARNINGS ARE NOT IN PLACE..THE SCA WILL BE IN EFFECT...GUSTS TO NEAR TROPICAL STORM FORCE ARE EXPECTED. WIND AND SEA CONDITIONS WILL GRADUALLY SUBSIDE TONIGHT.

BML.76

AFDCRP
COASTAL BEND FORECAST DISCUSSION
NATIONAL WEATHER SERVICE CORPUS CHRISTI TX
330 PM CDT MON AUG 23 1999

DISCUSSION...VIS SATELLITE DATA DEPICTS NUMEROUS BREAKS IN THE OVERCAST OVER THE EASTERN FA WHERE DESTABILIZATION IS LENDING TO INTENSIFICATION OF THE FEEDER BAND OVER THE COASTAL LOCATIONS ASSOCIATED WITH BRETS ERN CIRCULATION. AFTER COORD WITH SPC..WEAK TORNADIC POTENTIAL EXISTS IN THE LINE..HOWEVER WILL LOCALLY EXTEND THE TORNADO WATCH FOR KLEBERG..NUECES..SAN PATRICIO..JIM WELLS..AND LIVE OAK COUNTIES THROUGH 7PM..AFTER WHICH TIME DIURNAL HTG WILL FURTHER SUPPRESS THREAT.

LOWER BOUNDARY LAYER WINDS AT CRP (IN THE 1-2KFT LAYER) HAVE DIMINISHED FROM 45 TO 55KT THIS MORNING TO 35 TO 45KT THIS AFTN AND FRICTIONAL SHEAR EFFECTS WILL BE LESSENED AS ROTATIONAL/DIRECTIONAL SHEAR COMPONENT IS WEAKENING WITH THE DEPARTURE OF BRET.

OTHER CONCERNS WILL BE THE PLACEMENT/REALIGNMENT OF THE FLASH FLOOD WATCH AND THE HIGH WIND WARNING/WIND ADVISORY. THREE DEFINE BANDS WILL AFFECT THE ERN HALF OF THE CWA WITH THE CORE OVER THE WRN HALF. AS A RESULT..WILL EXTEND THE FLOOD WATCH FOR TONIGHT OVER THE ENTIRE AREA.

BOUNDARY LAYER WIND AND CENTER OF BRET WILL KEEP A HIGH WIND WARNING OVER WEBB/LASALLE COUNTIES TONIGHT WITH WIND ADVISORY POSTED FOR THE REMAINDER OF THE CWA...EXCEPT VCT REGION.

SEA AND WIND CONDITIONS AT THE BUOY LOCATIONS HAVE RELAXED SIGNIFICANTLY..HOWEVER TIGHT GRADIENT AND CONVECTION OVER THE BAYS AND COASTAL SECTIONS WILL WARRANT A STRONGLY WORDED SCA FCST.

HPC/TPC CONFERENCE CALL HAS ENDED..AND TROPICAL STORM WARNINGS HAVE BEEN LIFTED FROM THE COASTAL LOCATIONS.

EXTENDED..WILL KEEP A DRY FCST AS SOUTH TEXAS RESIDES WITHIN A LIMITED MOISTURE PROFILE BETWEEN THE GULF HIGH AND SRN ROCKIES RIDGE. A WEAK TROF/SHEAR AXIS OVER THE STATE IS ASSOCIATED WITH A MID-LEVEL LOW OVER THE OHIO VALLEY..HOWEVER PCPN POTENTIAL WILL BE MINIMAL AS PWAT VALUES LOWER BEYOND WED.

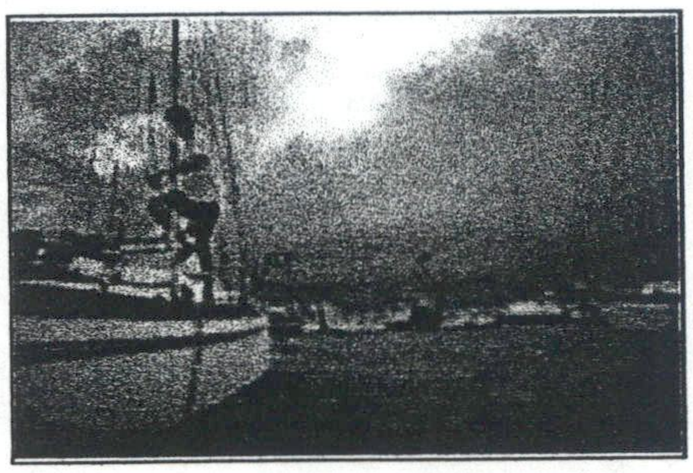
Bret drenches South Texas

Electricity, water cut on Island

By Heather Howard
Caller-Times

With the fiercest storm in more than three decades bearing down on the Coastal Bend Sunday, frenzied residents scrambled to secure their homes and stock pantries, and city officials helped usher thousands of evacuees north, out of Bret's path and into safer spots.



John Kennedy/Caller-Times

As black rainclouds loom in the background, a sailboat owner fastens down his craft after it was placed in a cutout ditch on the median along Ocean Drive on Sunday.

The storm aimed at Baffin Bay - the same spot where a storm that killed nearly 300 people made landfall 80 years ago.

The Federal Emergency Management Agency will send workers, cots, portable toilets, water, ice, blankets and tents to areas hard hit by the storm.

"There's always life or death when there's a storm - not just during the storm, but after the storm, too," said Red Cross Director Judy Oestreich. "People drown after a storm, have a heart attack after a storm. It's important that people not be careless or reckless. When people dare, or take risks, that's when they get hurt."

Early power outages

As rain moved in, Central Power and Light estimated more than 2,000 power outage calls, mostly farther south, toward South Padre Island, spokeswoman Jessica Mahaffey said. The power company reported about 300 outages in the Corpus Christi area, she said.

At mid-morning Sunday, an outage affected about 2,900 customers in Port Aransas and north Padre Island after the wind battered a tower and caused it to lean, Mahaffey said.

Workers restored power to Port Aransas and Mustang Island, but the company decided to cut power to north Padre because the tower was unstable.

"That area should be evacuated," Mahaffey said. "We just can't get in there because of where it's located."

City officials have cut off water supplies to Padre Island and North Beach, officials said.

Water problems

Also on Sunday, several city water mains broke, including a 20-inch cast iron water main in the Up River Road area where problems have been reported throughout the week.

Water Superintendent Danny Ybarra said crews would fix the mains when Bret had blown over. The main breaks weren't caused by the storm, he said.

Ybarra said the department is getting water storage facilities prepared for Bret's aftermath.

"Fixing a main like that takes time - time that we don't have," Ybarra said. "Right now all we've done is isolated it, and when the storm blows through, we'll go back and fix it."

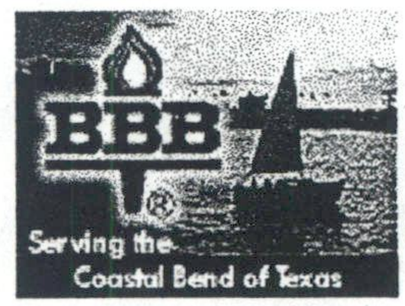
Assistant City Manager Ogilvie Gericke said he doesn't expect Bret will force the city to shut off the water supply, thanks to the Mary Rhodes Pipeline.

In previous years, even a moderate storm surge could force salt water over a barrier dam on the Nueces River, infiltrating

Closings and road conditions

School closings

- Corpus Christi Independent School District will be closed Monday
- Taft Independent School District will be closed Monday
- Texas A&M University-Corpus Christi has evacuated students from the campus. All university and South Texas Institute for the Arts activities are cancelled for Monday
- Robstown Independent School District will be closed until further notice.
- The Texas A&M University-Kingsville campus has been evacuated



the city's freshwater supply and forcing the city to rely on a short-term supply in the sediment basins at the O.N. Stevens Water Treatment Plant that would last about three days.

"But if it comes over the dam, we'll just switch to the water from the Texana pipeline this time," Gericke said.

Getting prepared

As Bret was gaining strength, residents scrambled to area grocery stores and gas pumps to prepare for a possible pounding.

At the Wal-Mart on Greenwood Drive, customers stood in lines 10 shoppers deep, even at 2 a.m. Sunday. Just before 1 a.m. Sunday, lines at the Super K-Mart in Moore Plaza had 30-minute waits, and canned food was disappearing. By that time, many shoppers at an Alameda Street H-E-B searched in vain for batteries and bottled water, coveted crisis supplies that had long since been snatched up in the pre-Bret buying binge.

And as many residents who stayed in the Coastal Bend Sunday continued to shop for provisions throughout the morning, Corpus Christi officials issued an order forbidding price gouging - a directive meant to keep residents from having, for example, to pay $4 for a gallon of gas.

Officials forbade businesses and residents to take advantage of the storm by selling or leasing fuel, food, medicine or other necessities at an exorbitant price.

Area homeless shelters saw a brisk business as residents - those without homes and those who didn't think their homes would be safe - looked for a place to stay, Salvation Army officials said.

Getting out of town

By 8 a.m. Sunday, Corpus Christi officials had declared a state of emergency and asked residents to evacuate.

Thousands packed gas lines and then fled to higher ground and the numerous shelters that were setting up in San Antonio, Austin and Victoria.

Kingsville, Port Aransas and Mustang Island residents left under mandatory evacuation orders, and the Port

and closed. All offices will be closed Monday
- Del Mar College has canceled convocation for Monday and both campuses will be closed until further notice.

General closings

- City of Alice facilities and offices will be closed until further notice.
- Road Conditions For information on road conditions statewide, call the Texas Department of Transportation at 1-800-452-9292.

Aransas ferries shut down about 11:30 a.m. Sunday.

Downtown Corpus Christi became a ghost town as businesses boarded and taped windows and boats evacuated from the marina.

Traffic on major roadways crept, making a more than six-hour trip out of the normally two-hour drive to San Antonio for some drivers.

By early afternoon the Corpus Christi International Airport had closed, and the Texas Department of Transportation had closed State Highway 361 from Aransas Pass to the ferry landing at Port Aransas, highway officials said.

Park Road 22 to Padre Island also had been closed. However, cars still were being allowed to travel from the island to the mainland, officials said.

The Port of Corpus Christi tied down vessels in preparation for the hurricane, said Ray Harrison, traffic control chief at the Harbormaster's Office. Workers tied the larger vessels against the docks and tied the smaller crafts to the bigger boats. The largest vessel in port was the 771-foot, 79,993-ton Eagle Corona, which had delivered crude oil to Citgo from Venezuela. Harrison did not know of any ships offshore waiting to come in.

Cancellations

Officials at Texas A&M University-Corpus Christi evacuated the waterfront campus, which was expected Sunday to suffer flooding. The school also canceled Monday classes, as did Texas A&M University-Kingsville, which also evacuated. Del Mar College and the Corpus Christi and Taft independent school districts will not have class today, either.

And refineries also began shutting down by early afternoon.

"We will have operations curtailed by this evening," Koch spokesman Rich Tuttle said Sunday afternoon from his home, where he was boarding up windows.

Strongest storm since '80s

Hurricane Bret is the first major storm to menace the lower Texas coast since Hurricane Gilbert caused flooding when it hit 80 miles south of Brownsville in September 1988. Hurricane Jerry killed three along the upper coast as it sloshed ashore in October 1989. Since then, the state has enjoyed the longest period without hurricanes since record-keeping began in 1871.

In 1970, Hurricane Celia brought 180-mph gusts, killed 11, damaged 60,000 homes and caused $500 million in destruction.

Hurricane Allen slammed into the lower coast in 1980, killing two and causing $55 million in damage.

In September 1967 Hurricane Beulah, a Category 4 storm, hit Brownsville, killing 13 and causing $150 million in damage.

Texas' 367-mile coast has also been assaulted by storms with winds just below the 74 mph required for hurricane status.

In August 1998, Tropical Storm Charley dumped 18 inches of rain that killed 19 people in flooding from Del

Rio across South Texas.

One month later, Tropical Storm Frances caused major flooding across southeast Texas and southern Louisiana.

At the time, Texas had gone an unprecedented eight years without a hurricane.

Although Bret initially was traveling west toward the Texas-Mexico border, the storm on Saturday started moving north into a hole in a high-pressure system that has covered the state for most of the summer, hurricane center forecaster said.

The same system that has kept Texas sweltering under high temperatures has been weakened in the past few days by a cold front moving from the north, forecasters said.

The cold front created a hole in the high pressure, splitting it toward the East and West coasts and opening a path for the storm to travel north.

On Sunday, the storm turned back west as the high pressure reinforced itself, said Jeremy Pennington, a hurricane center meteorologist.

Throughout the morning Sunday, the storm turned slowly and moved slightly north of due west, he said.

The storm was traveling 8 mph toward west, northwest Sunday afternoon and slowing its speed. Forecasters expected that the storm could continue slowing into the night, Pennington said.

Because the storm traveled so far north, it had, by Sunday, become a greater threat to the Texas Coast than originally anticipated.

"(Tide surges) could compare to 1919 storm, which made landfall near Baffin Bay," said Mike Coyne, a meteorologist with the National Weather Service in Corpus Christi. "We had 16-foot storm surges in Corpus Christi because the storm made landfall a little south of the city and pushed water up. When a storm makes landfall to the south, it really causes problems."

Damage depends on factors

The damage that a hurricane does depends largely on the speed of the storm and on how much rain it dumps, weather officials said.

Tide surges, which are caused by winds, depend on the speed of the hurricane and angle of its attack. But stronger storms don't necessarily bring heavier rainfall.

Typically, hurricanes that move slowly or stall bring heavier rains than rapidly moving storms.

To prepare for whatever might blow in, Dr. Karen and James Chaney spent Sunday boarding up their windows, putting furniture and valuables above ground level and making sure their neighbors in the Country Club area also had what they needed to weather the storm.

"To say that I feel very comfortable and all is not true," Karen Chaney said. "I'm actually kind of scared. I think the mood is one of seriousness. We're not taking this lightly."

Neither were their neighbors.

Throughout the day Sunday, the Chaneys heard neighbors sawing and nailing as Country Club residents prepared for Bret's arrival.

By early afternoon, the Chaney family had secured their home and settled in front of The Weather Channel to wait, with plenty of candles and with fingers crossed.

"We've been watching television all afternoon long," she said. "Every once in a while, we just shut it off to take a breather, and then we check it again."

Staff writers Tracey Cooper, Mack Harrison, Stephanie Jordan, Dan Parker, Novelda Sommers and Ana Tamez and Jen Deselms contributed to this report. Staff writer Heather Howard can be reached at 886-3767 or by e-mail at howardh@caller.com

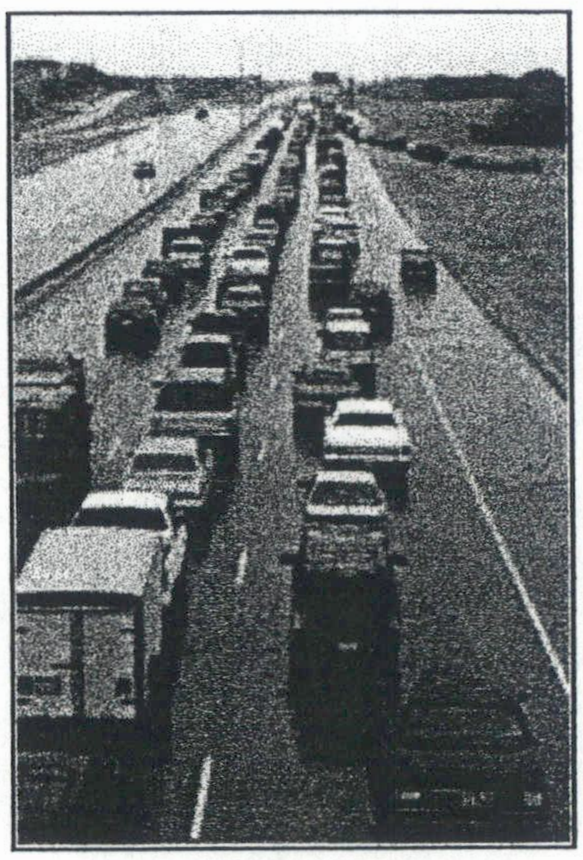
What to do after Bret leaves town

Precautions and patience are the key to surviving after the storm has passed

By Jonathan Osborne
Caller-Times

If Hurricane Bret proves as devastating as other hurricanes that have slammed into the Texas coast, and you wake up without power, water or even a house, it's critical to know what to do.

When Hurricane Beulah waded ashore near Brownsville in 1967, with winds up to 100 miles per hour, touching off tornadoes, extensive flooding and torrential rains that claimed 15 lives, bridges and roads proved impassable. Schools and colleges were closed and, according to the 1988 Hurricane Almanac, mail and garbage pickup services ceased.



George Gongora/Caller-Times

Traffic was bumper-to-bumper on northbound Interstate 37 as residents of the Corpus Christi area evacuated.

More than 15,000 homes lost power and more than 25,000 lost phone service.

When a storm the size of an Allen, Beulah, Celia or Bert hits, the most important thing to remember is to be

goshop CorpusChristi

Search

Don Lowrance, MS, DDS, CCN

Adam & Eve's Garden of Eden
Flowers for Today

patient, said Judi Oestreich, general manager of the Coastal Bend Chapter of the American Red Cross.

"It is a slow recovery process in the first couple of days," Oestreich said. "People should be patient with their own selves, city officials and their neighbors."

Foremost, Oestreich said, make sure that all your family members, including pets, are accounted for and OK.

If there is damage, Oestreich said, people should immediately pick up belongings off the floor.

"You can salvage clothing," she said. "Lots of stuff can dry out and be washed up later."

Patience above all

At least one grocery chain, H-E-B stores, plan to be open today. An H-E-B spokeswoman said additional water, ice and other goods will be shipped to Corpus Christi stores as soon as roads are clear.

"Stores will be open as soon as feasible after the weather," said Debbie Lindsey-Opel an H-E-B spokeswoman. "We have a plan of action in anticipation of these types of natural disasters. We will be bringing in supplies, non-perishable types of foods and other storm-related products."

If Bret hits as predicted, chances are many Corpus Christi residents may be without power.

Jessica Mahaffey, spokesperson for Central Power and Light, said the most important thing, again, is patience.

"If they don't have power, first they need to go check all their fuses and breakers in their homes," Mahaffey said. "If that's not helping, they need to contact Central Power and Light."

But Mahaffey requested customers only call once.

CPL, she said, first will clear fallen power lines and power poles, and then begin to restore power first to community services, such as the police and the fire department, and then to residences.

Mahaffey said CPL's sister companies - West Texas Utility Co. and Southwestern Electric Power Co. - already are mobilizing, and their help hopefully would speed up the recovery process.

Precautions

For those who have evacuated, the Red Cross has issued the following precautions:

- Wait until municipal authorities tell you it is safe before returning home.
- When driving, avoid flood situations. Eighty-percent of flood deaths happen to people in vehicles.
- If floodwaters follow a hurricane, turn around, avoid them, and go to higher ground.
- Bring necessities, such as food and water, with you when you return.

Mahaffey recommended that people be mindful of their children and their pets, and keep them away from

South Park Tire
Special Internet Pricing
& Auto Center

You Could Win A LAPTOP

debris.

Also, watch for broken glass, Oestreich said, and be careful of broken tree limbs and torn up shrubbery.

Another dangerous situation could be fallen power lines.

"If you see lines down, don't try to help out," Mahaffey said. "Stay away from them and call us to report any downed power lines or power poles. Treat all lines like they're energized."

But mainly, watch out for your own health, she said. Just because the storm is over doesn't mean the dangers are too, she said.

"Many times, more people are hurt after storms than during storms," Oestreich said. "Don't go out at noon and climb into a tree with a chainsaw when you haven't had exercise in six months."

The U.S. Army Corps of Engineers and the American Red Cross both are mobilizing and said they will be on hand with supplies, including power generators, drinking water and ice.

Advocate Staff and Wire Report

Texans streamed back to their mostly unscathed homes Monday after Hurricane Bret threaded the needle between Corpus Christi and Brownsville and pushed through open ranch land without causing a single death.

By morning, the strongest hurricane to hit Texas in nearly 20 years had weakened into a tropical storm, but the danger hadn't entirely passed.

Residents to the west in Laredo braced for flooding as Bret moved slowly across Texas' tip with drenching rain of 8 to 12 inches. About 3,500 people on both sides of the U.S.-Mexico border left their homes for higher ground.

All Laredo businesses were ordered to close, said Jack Cooley, assistant state coordinator for the Division of Emergency Management.

The Laredo International Airport and all three bridges linking Texas with Mexico were closed.

An estimated 421 evacuees who had fled to Victoria began to return home Sunday night and Monday morning.

The Red Cross opened shelters Sunday morning at Patti Welder school, First Baptist Church and Victoria High School.

Late Sunday, the VHS shelter was closed because it held too few people. The evacuees there were sent to Patti Welder, said Katy Ford, Executive Director of the Crossroads Chapter of the American Red Cross.

Some of the evacuees began leaving Victoria's shelters Sunday about 8:30 p.m., when they heard it was safe to return to Calhoun County, she said.

Others stayed until noon Monday, when the shelters closed.

Ford said most of the evacuees were from Corpus Christi. Others were from Port Lavaca, Aransas Pass and other coastal towns.

The Victoria area also appears to have escaped any serious effects from Bret, although heavy rain did fall in the region Monday.

"You guys have been fairly lucky not to get any of the rain bands," said Brian Brong of the National Weather Service office in Corpus Christi.

He said there were no reports of tornadoes or high winds in the area.

Radar estimates for Sunday and Monday indicate up to 3 inches of rain fell in northwest Victoria County and up to 4 inches in southern Refugio County. Radar also indicated 6 inches fell in southern Bee County.

The weather service recorded .85 of an inch Sunday and Monday at the Victoria Regional Airport. The highest wind gust was 32 mph Monday afternoon.

The Advocate weather station recorded .11 of an inch over the two-day period, with a peak wind gust of 25 mph Monday morning.

Wendy Wong of the Houston-Galveston weather office said winds only gusted to about 22 mph at Palacios on Sunday. She said similar winds occurred Monday.

Joe Baskin of the San Antonio-Austin weather office said radar showed 4 to 6 inches of rain fell over a small swath between Cuero and Inez. He said there were no reports of flooding.

Forecasters said to expect mostly cloudy skies today with a 60 percent chance of showers or

thunderstorms. Winds should be out of the southeast at 15 to 25 mph, with a high temperature near 90 degrees.

The chance of rain drops to 40 percent tonight as the temperatures fall to the mid-70s under mostly cloudy skies.

Late Monday night, Bret edged closer to Laredo and its top winds had decreased to near 40 mph with higher gusts. It was expected to weaken further as it continued its inland trek toward the Rio Grande and Mexico.

Thirty South Texas counties were under a flash flood watch and nine were under a flood warning Monday, Cooley said.

Bret had been rated a potent Category 4 storm when it approached over the Gulf of Mexico with 140 mph winds, and the National Weather Service had likened it to Hurricane Andrew, which devastated heavily populated south Florida in 1992. Thousands of tourists and residents fled inland.

But when Bret finally came ashore at 6 p.m. Sunday, its winds were down to 125 mph. And instead of hitting Corpus Christi (population of 300,000) or Brownsville (132,000), which are 160 miles apart, it crossed midway between the two cities like a football sailing through the goalposts.

Bret hit sparsely populated Kenedy County, which is the home of the storied King Ranch and has far more cows (tens of thousands) than people (458).

Mayor Fil Esquivel of Kingsville said the storm "kicked a field goal."

Widespread power outages were reported, but damage was considered light in many places.

"You might call it the great escape. I think the city of Corpus Christi is very fortunate," said Mayor Loyd Neal.

Ralph Huff, who defied an evacuation order and stayed in his cinder block home overlooking Baffin Bay south of Corpus Christi, said: "I think it was

overpublicized."

The King Ranch reported downed trees but no livestock losses on one of the country's largest cattle operations, founded in 1853 by riverboat captain Richard King. Ranch President Jack Hunt said all 300 people who live and work on 825,000 acres tending 60,000 head of cattle were evacuated before the storm hit. The cattle were left to fend for themselves.

"About all you can do is open the gates and make sure the cattle can go where they need to go," Hunt said.

Hurricane damage was substantial in Falfurrias, a town of 5,800 about 60 miles southwest of Corpus Christi, Mayor Michael Guerra said.

The wind ripped roofs from homes and businesses, and up to 90 percent of the town had no electricity.

Three of the four downed high voltage lines that bring electricity to South Texas were functioning again Monday, and the fourth was expected to resume operation Tuesday. The number of customers without electricity dropped from 16,000 Monday morning to 11,000 in the afternoon, the Public Utility Commission reported.

Major damage also was reported in Port Mansfield, about 50 miles north of Brownsville, especially to mobile homes.

A tornado that was spun off by Bret between Rockport and Aransas Pass destroyed a mobile home and damaged several other buildings.

In Premont in Jim Wells County, the roof blew off an elementary school but no one was injured.

President Clinton issued a disaster declaration Sunday night for seven counties, freeing money to help local governments with emergency supplies and debris removal. Hurricane Allen, another Category 4 storm, struck roughly the same area in 1980, causing $55 million in damage.

On Padre Island, lumber was found blown around

from construction sites along with a barbecue pit and lawn furniture. Some street signs were bent, and tree limbs and shingles lay on the ground.

Susie and Carl Tennison returned to find the only damage to their home was a cracked mesquite tree.

"I expected the tidal surge to be more. I expected to find flooded carpet," said Scott Belcher, who lives on Padre Island and returned to discover his home was just fine.

Damage costs stemming from Bret could be millions

Officials still are assessing damage; cities will be reimbursed for some costs

By James A. Suydam
Caller-Times

The total cost for Hurricane Bret still is being tallied, but officials across South Texas say the bill will be in the millions.

Preliminary property damage reports observed by 27 city damage assessment teams in Corpus Christi documented less than $100,000, said City Manager David Garcia said. But overtime and contract help to clean up downed brush and debris already are expected to top $200,000, said Assistant City Manager Ogilvie Gericke.

And city damage estimates don't account for the hundreds of thousands in damages Central Power and Light officials have sustained.

"It's really too early to give any damage estimates," said Juan Ortiz, city emergency management coordinator. "It all appears to be relatively minor, but I'd hate to give you a number right now because we're still working to determine that."

Still, based on that preliminary property damage assessment, Corpus Christi residents shouldn't expect to see any individual federal aid coming from the storm.

"Most of the damage that we saw was to trailer parks and roofs," Garcia said. "Unless there's more damage than we've seen, we just don't qualify (for

individual federal disaster assistance)."

Garcia said that more property damage likely will be reported as residents come back home and have a chance to look over their property.

And while 75 percent of the city's costs to clean up after the storm are reimbursable by the federal government, the cost of actually determining that damage with the 27 damage assessment teams - about $9,000 - will be borne by the city.

Central Power and Light President Gonzalo Sandoval said the cost of Bret is likely to be in the millions for company stock holders.

"Incrementally, the effort to get power back to everyone is costing us hundreds of thousands of dollars a day," Sandoval said.

Overtime for both local crews and 100 workers brought in from Central and South West Corp. sister companies, plus costs for another 125 workers contracted with CPL make up the bulk of the costs, Sandoval said.

"By the time this is over, it could cost us millions," he said. "But we really don't know yet what it will be."

'We were lucky'

Duval County sustained wind and water damage near San Diego and Benavides, said Duval County Judge E.B. Garcia. Preliminary reports showed almost $2 million in damage to farm structures and crops and about 200 homes were damaged. The damage still is being assessed.

Garcia will write the governor Wednesday to inform him of the damage and ask for state assistance to the residents and ranchers, he said.

"We were lucky here because there was not that much damage," Garcia said. "We also were lucky because we got some much-needed rain."

Brooks County officials are estimating $10 million in damage from the hurricane, with $1 million of that needed for cleanup. Falfurrias continues to be hit hard with creek flooding that sent dozens of residents to a shelter Tuesday night.

In Alice, officials estimate that damages and cleanup, as well as overtime for emergency personnel could cost as much as $50,000.

"It might be around the same as when (Hurricane) Allen hit in 1980, and that was roughly in the neighborhood of $50,000," Alice Mayor Fidel Rul Jr. said Tuesday. "We have found some structures with damages, there were a great number of power outages and there was street damage from flooding."

Rul said city officials will meet with Jim Wells County officials this morning to estimate damages across the county and begin preparing a request for aid from the Federal Emergency Management Agency.

Some federal assistance

President Clinton has declared seven South Texas counties disaster areas, with government officials still assessing the storm's damage to roads, property and infrastructure. The seven affected counties are Aransas, Cameron, Kenedy, Kleberg, Nueces, San Patricio and Willacy.

Crews from the Federal Emergency Management Agency and the American Red Cross have started their surveys of the affected counties.

The federal government has pledged to pay for 75 percent of debris removal and overtime of emergency workers. After a more detailed assessment is complete, the federal government likely will pay 75 percent of whatever infrastructure damage occurred during Bret. State and local officials will team up to pay the remaining 25 percent.

Port Aransas City Manager Tom Brooks estimated Hurricane Bret cost the city $8,000 to $10,000. The costs were run up by overtime for city workers dealing with the hurricane and use of equipment for hurricane-related operations such as debris removal.

The upper Coastal Bend counties of San Patricio, Aransas, Refugio and Bee suffered very minor wind damage, reporting mostly fallen trees and some power outages and a few damaged roofs. Some city officials were still assessing the damage, but most reported no interruptions in city services. Some cities that rely on garbage pickup contractors did not have regular service on Monday.

Aransas Pass, Ingleside and Sinton experienced some power outages, officials there said, but a majority of city officials reported nothing more than rain and fallen trees.

Portland city manager Mike Tanner that storm had marginal impact on the city.

"We suffered little or no damage," Tanner said. "City services are unaffected at this time."

No city officials had calculated the damage amount.

100,000 evacuate 7-county disaster area

Highway department counted more than 30,000 vehicles headed to San Antonio

By Novelda Sommers
Caller-Times

Witnesses described it as an exodus of seemingly biblical proportions.

Thousands upon thousands of motorists traveled the state's highways north Sunday to escape the reach of Hurricane Bret, which struck the South Texas coast about 5:45 p.m.

In all, state highway officials said, 30,393 northbound vehicles on Sunday crossed a vehicle counter on Interstate 37's northbound lanes where the highway intersects U.S. Highway 59 at George West. That's compared with 7,070 vehicles on the same day last year.

"It was a very anxious, terrifying experience," said Mary Alice Gonzales, who fled to San Antonio with her mother, sister, sister-in-law and 17-month-old granddaughter.

Gonzales said she left her brother's house on Everhart Road at 10 a.m. and reached Calallen almost two hours later. It took about six hours longer to reach Austin because of the traffic, she said.

And on Monday, 23,561 vehicles were counted headed toward Corpus Christi on Interstate 37, said Cliff Bost, a Texas Department of Transportation spokesman. On the same date last year, 4,590 traveled south.

City Manager David Garcia estimated that about

100,000 people evacuated the seven-county disaster area. He said the figure is based on traffic flow and police estimates.

Despite the heavy traffic, no major accidents were reported during the evacuation, said Tom Vinger, a Texas Department of Public Safety spokesman.

State troopers considered temporarily turning Interstate 37's southbound lanes into northbound lanes, but decided not to because of the speed at which the storm was approaching and the risk that emergency workers from the north would be cut off.

There is no official count of fender-benders and minor accidents, Vinger said, but DPS officials know that no one suffered life-threatening injuries during the evacuation.

Officials closed rest areas between Corpus Christi and San Antonio because drivers were using the entrances and exits as passing lanes and because cars re-entering the roadway were causing traffic tie-ups, Vinger said.

Vinger described the northbound exodus as surreal, with both lanes of Interstate 37 clogged with steady traffic headed toward San Antonio. Alternate routes, including State Highway 44 to U.S. Highway 281, were not much better, he said.

"It was a line of lights as far as you could see," he said. "It was like the whole world was on vacation when you pulled into a rest stop or a gas station."

DPS Trooper Travis Hall, who patrols San Antonio, said Bret caused the largest evacuation of any of the three hurricane evacuations he has experienced since 1983.

Hall said he responded to few accidents.

"Most everyone was driving sensibly and safely," Hall said. "We did have reports that some were not. And some of them, we were able to stop and visit with."

The American Red Cross housed 3,258 people in 10 shelters in San Antonio, he said.

Although the Corpus Christi area was spared this time, leaving was the right thing to do, Vinger said, given the size and unpredictability of the storm.

"We were actually thrilled that people evacuated in the numbers that they did, and we are urging that they not get complacent the second time around," he said. "Anybody that thinks they shouldn't have left, they are kidding themselves."

Callers share their memorable experiences of Hurricane Bret

Among thoughts: San Antonio shelters, neighbors' generosity, radio station updates, weathermen

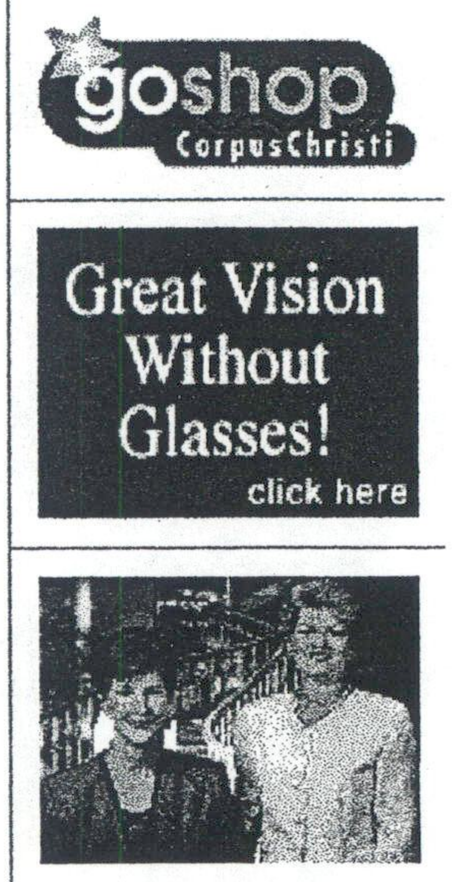
One neighbor helping another board up a home. A distant city, welcoming another city's evacuating residents with shelters. A line of cars stretching as far as the eye can see, turning Interstate 37 into one big parking lot.

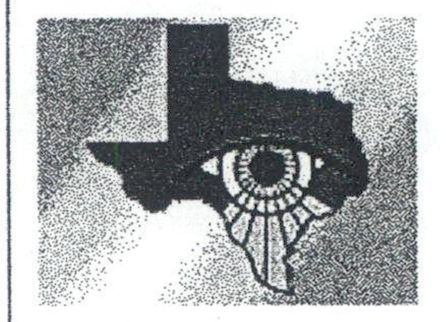
These are some of the images that Corpus Christi residents will remember about Hurricane Bret.

A Caller-Times Sound Off question asked, "Tell us your most memorable experiences from Hurricane Bret. Did you see any examples of people helping people?"

Here are some of the responses:

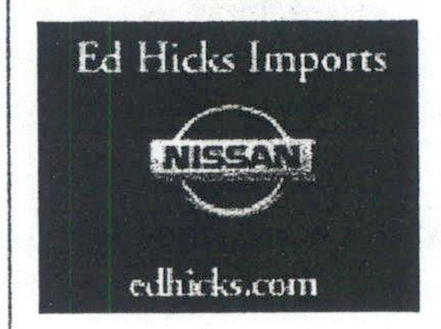
My neighbor has been an angel to us. She has all my frozen foods in her freezer. She's been helping the young couple next door, letting their kids go to her house to take a bath there to go to school. And, to me, I think she has been our guardian angel. We have neighbors across the street who have light, but not one of them has come over to see if we need ice or anything. But that lady, to me she has been an angel.





SEARCH
Corpus Christi online

Search



The people of San Antonio helping us, the people of Corpus, to have shelters and food. That is something else. Thank you, San Antonio.

My husband just had surgery on Thursday. We were without boards, without everything, and our neighborsand their son and our other neighbors helped us. (One) went to the store and bought the lumber and the tape and sawed it and fit it to our windows. And the next day, they came and took the wood down. I just didn't know there were neighbors like that.

Waking up in San Antonio Sunday morning and finding out about it and having to drive back to Corpus Christi because I didn't have anything ready. And seeing all those thousands of cars leaving Corpus. I almost turned around and went back to San Antonio, but I went ahead and stayed in Corpus and got ready and everything went fine.

I saw one man in our neighborhood who spent four hours Saturday cutting plywood for a woman whose three sons were away and her husband out of town on business. She was alone and this was her first hurricane. She's from the Midwest. He spent all that time measuring each window, cutting her plywood and fitting the wood to her windows. And yet when it came time for him to do his own house, he was just too tired. He just put up some tape and left. This man went out of his way to help a neighbor.

I happened to be volunteering at Heartland of Corpus Christi, where residents couldn't tell the difference. They kept Bingo and having their gospel singing while staff and volunteers were taking care of all kinds of care needs.

I think the Caller-Times did a great job on their Web coverage of Bret. We were up in San Antonio. Phone services were difficult, and the state services were not really as up-to-date, and you folks just gave us super service. I think whatever article you write, I think you ought to pat yourself on the back for your Web folks. The news was concise, you got what you needed to know, you knew when the Causeway was open, just bam, bam, bam. Thank you.

I was coming back from San Antonio because I hadn't boarded up my house on Sunday at noon, and I saw thousands of cars going north. It made me feel good because all along the road, I could see people helping each other, get their cars started for something or another. Everywhere I went coming in on Interstate 37, people were helping one another.

The only thing I saw was the greed of people, like raising the price of water. Like those windmill places are usually five gallons for a dollar or actually two gallons for a dollar.

My most memorable experience was listening to my battery-operated radio, listening to Channel 6 people talking about how CPL was so worried about getting power restored to the people on Padre Island because, for goodness sake, they were returning home and finding that they had no power. And this was on Monday, and the power had been out since Monday morning. Well, we had power outages since Sunday and nobody was rushing to tell us how to get CPL out here to get our power back on. We kept calling and calling and the line was forever busy. We had no power for more than 24 hours. And how about the people with CCISD and the city get shelters and the rest of us get nothing? What's wrong with the people in Corpus?

My most memorable experiences during Hurricane Bret were when Bill Elias confirmed what I had hoped would happen, that the hurricane made a left turn to the lower Texas coast where there would be less damage. The second was the comment by Maclovio Perez on radio station KEYS 1440, when he said, "It looks like it's over for us in Corpus Christi." I think those were two of the most memorable for all of us. I would like to thank all of the TV stations, 1440 KEYS, Maclovio Perez, Bill Vessey and Bill Elias for making this a very safe and informed hurricane season.

Unfortunately, I saw examples of people's stupidity. I was driving back from San Antonio on Monday and of course the highway was very crowded. It didn't help matters that people would get in the left lane and go slow and yak on their cell phones in their prestige sports utility vehicles.

"Good Work," "Great Job" to all emergency personnel, officials, and the citizens of the South Texas counties that were asked to evacuate, for the tremendous cooperative efforts in the evacuation process. Watching from San Antonio on TV and seeing relatives and friends being spared from harm's way re-affirmed to me that in spite of criticism of our public servants, when it comes to preserving lives and property, the strong prevail. Better safe than sorry. Good work to all individuals responsible for their great efforts and a sincere "thank you" to their families who had to do without them while their loved ones were all working to protect the lives of others. God spared many lives and property this past weekend, but He was not working alone.

I don't think I will ever forget how the Navy evacuated us! First comes sirens and then someone on an intercom says it is mandatory to leave the base by 4 a.m. After putting everyone into a panic, they come back around stating it was just 'recommended'! So we travel two hours to Lackland Air Force Base, arriving at 2 a.m., to find they had no idea why we were there! One gentleman asked, 'Why such a panic? It's only a tropical storm!' Then, after shuffling us from one place to another, they said there were no rooms available. Then waiting in line for four hours to get a place to sleep, just to have them take people from the back of the line, who arrived hours after us to give them a room at the same place we were told they had no rooms earlier! Then, if you didn't have a credit card, you couldn't have a room. We were told we had to buy our food and come to find out that on Monday morning, they had free food across the base, after paying for our meals the whole time.

But from what I understand, I guess I got the best part of the deal. Another military friend, who later left that night when the base came around again stating its mandatory this time to leave, arrived at Lackland. The base wanted them to surrender their vehicle and load up on a bus to get shuttled to a shelter with only one cot per family. They also would be restricted to the base, having to get shuttled around everywhere.

So my memories of Bret would be how unorganized the military was and how we were treated when we arrived at Lackland!

I live in Calallen and had very little damage. Some fences leaning, tree limbs broken and debris in the yards. I registered four inches of rain at my house.

In 1988, we were spared from truly devastating Hurricane Gilbert. I remember standing on the T-Heads, watching all of the satellite trucks and the boats buried up around Shoreline. Everybody just waited. Then Gilbert changed course, and history shows all of us how lucky we were. How Corpus got lucky again, only God knows, but we are all thankful, except maybe a few national reporters. On the whole, everybody fared well, and it once again shows just how much God truly likes the Sparkling City By The Sea. I just hope we are as lucky here in North Carolina, but after Bonnie last year, I am not so sure. Best of luck, Corpus, and bye-bye, Bret!

After Bret: It's business as usual in Port A

Shops, restaurants welcome tourists back to the island

By Dan Parker
Caller-Times

PORT ARANSAS - The boats weren't running at Fisherman's Wharf Tuesday.

But the phones were working just fine.

"They're ringing off the hook," said Linda Mastropole, an employee at the waterfront business that takes anglers deep-sea fishing. "It's constant."

Tourist traffic was slow two days after Hurricane Bret struck, but owners of souvenir shops, restaurants and other businesses threw open their doors anyway and said they believe the island community's economy soon will bounce back to its normal summertime boom state.

Fisherman's Wharf wasn't sending its boats to sea because deckhands still were coming back from having evacuated, , and the boats needed checking out and refueling, Mastropole said.

But Mastropole said the boats start running again today, and she expected plenty of business soon. During her first hour at work Tuesday, she fielded more than 20 phone calls from people wanting to go fishing when the boats get going again.

In the hurricane's aftermath, police allowed only residents into Port Aransas until 4 p.m. Monday to give them a chance to secure any property that may have been blown into public view. But city officials reported little damage in town aside from a severe leak that heavily damaged the interior of Port Aransas High

School.

The high school students will return to school today, but classes will be held in the nearby intermediate and elementary schools while contractors clean up the high school. Part of the cleanup will mean removing every book from the library so water can be cleaned from beneath the shelves.

By midday Tuesday, city crews had cleaned debris that littered Port Aransas streets. Except for high water in ditches, few signs remained of Hurricane Bret.

But only a slow trickle of tourists flowed into town.

Kurtis and Laura Tomlin of San Antonio said they had planned a vacation in Port Aransas a long time ago, and they weren't going to let Bret mess up their plans. The couple could have gone someplace else, but decided against it after phoning ahead and learning the island was in one piece.

Tuesday afternoon, the Tomlins were shopping for clothes at Pat Magee's Surf Shop.

"We like it down here," said Kurtis Tomlin, a linen company truck driver who has been visiting Port Aransas regularly for 27 years. "People are so friendly."

A few tourists bought T-shirts, floats and jewelry at The Islander, said Emmie Bridges, assistant manager at the tourist shop.

"We were surprised. When we opened this morning, some people came in shortly afterward," Bridges said.

The Port Aransas Chamber of Commerce Tourist and Convention Bureau received many calls Tuesday from people asking if hurricane damage would prevent them from vacationing in Port Aransas, said Ann Vaughan, executive director.

"We are telling people it's business as usual, and come on down," Vaughan said.

Vaughan said she knew of no hotels that were closed Tuesday.

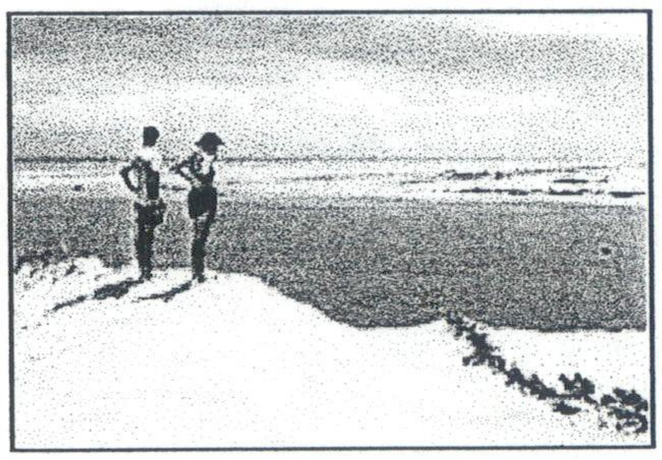
Padre Island changed by storm's fury

Expert: Hurricane effects beneficial to ecosystem

By Jennifer Stump
Caller-Times



David Adame

Tourists from San Antonio survey a new channel dug by Bret. The Gulf of Mexico now connects to the Laguna Madre in 12 new places along Padre Island National Seashore.

PADRE ISLAND NATIONAL SEASHORE - This barrier island has vanished in places, swallowed by the waters of the Gulf of Mexico.

If Hurricane Bret left South Texas cities largely unscathed, the evidence of its fury and power can be found on the far reaches of the nation's longest segment of undeveloped barrier island, where the Gulf of Mexico now connects to the Laguna Madre in 12 new places.

"The hurricane has literally wiped out part of the island," said Jock Whitworth, superintendent of Padre Island National Seashore. "It's a huge natural phenomenon. That's what barrier islands do for us is dissipate part of that energy. It's kind of exciting."

It is a lonely place where the eye of Hurricane Bret first slammed into South Texas - 50 miles south of the park's beach driving entrance and 10 miles north of Mansfield Channel, which divides North and South Padre islands.

The eye of the storm left a path so wide and deep that

park rangers on a Navy helicopter Wednesday thought they had reached Port Mansfield when they saw it. A swath of murky blue water marks the place where milepost 50 used to orient campers to how far they had removed themselves from civilization.

"The channels get bigger and deeper the further you go south," Whitworth said. "It's a really pretty feature."

The only channel within reach of drivers is at the 40-mile marker. It takes a four-wheel drive vehicle 1 hours to reach the waist-to-chest-high stream of water that stretches 50 yards across.

A trail of freshly deposited seashells leads the way to the pass, where small fish leap and the water is as calm as a slow-moving stream. The sand is so soft and damp that it instantly swallows footprints.

The channel is so deep it makes driving impossible. And the lack of vehicle access from the Port Mansfield side of the island means that only a combination of hiking and boating will take visitors beyond that 40-mile marker, Whitworth said. Before Bret hit, visitors with four-wheel drives could travel the entire 72-mile-long park to Mansfield Channel.

In addition to the 12 new channels to the Laguna Madre, there are another six washout areas visible from the air where water completely covered the island during the height of the storm and later retreated, he said.

The storm surge also sheared the front line of sand dunes in half for 20 miles on either side of where the eye made landfall, Whitworth said.

Old planks and buried soda bottles are exposed by the erosion, along with the vine system of the sea grasses that hold the dunes in place.

Good for the ecosystem

Although the far southern section of the seashore is no longer accessible by vehicle, the opening of channels through the island is part of a natural process that benefits the Gulf Coast, he said.

"A hurricane is part of the ecosystem," Whitworth said. "It keeps everything in balance. It's good for the Laguna Madre because it lessens the salinity."

Native vegetation that is not highly tolerant to salt will die back because of the wash-over, he said. That means that species like cattails, which can tend to overrun the island, will be cleared out to make room for other plants. It's a process that ultimately benefits the birds, jackrabbits, lizards and other animals that call the island home, he said.

"Saltwater is good for creating a mosaic of vegetation," Whitworth said.

Although it could take years, eventually the passes will silt up and close, he said.

Bret's storm surge was estimated at 13-18 feet. A buoy 45 miles southeast of Baffin Bay was reporting waves twice that size.

Terry Huber, warning coordination meteorologist with the National Weather Service, said waves pushed across the island to cut the new channels.

"A wall of water gets pushed ahead of hurricane and that surge moved over the dunes," Huber said. "On top of the storm surge, you have 25-foot waves. I'm sure that's what cut the dunes in half."

Remnants of Bret

The National Seashore is familiar territory for hurricane landfalls. Hurricane Allen also passed over at about the same spot in 1980, leaving more than 100 open channels between the Gulf and Laguna Madre. While it was also a category four hurricane, Allen was a larger storm that covered the entire gulf at one point, Huber said.

"I guess that's the good news," he said. "Bret didn't have the time over the gulf to intensify day after day."

The damage on the National Seashore shows how fortunate Corpus Christi residents are that Bret made landfall so far to the south, Huber said. It would be hard to estimate the potential damage of Bret had the eye hit land over North Padre Island or downtown Corpus Christi.

"It would have been terribly devastating," Huber said. "There would have been a lot of lives lost."

Beaches at the national seashore are often cluttered with debris, brought in by converging currents from all over the Gulf of Mexico.

The tangible evidence of Hurricane Bret is small, however: chunks of tar, tangled lumps of sea grass, plastic bags, foam, rope, bottles and caulking tubes. A few skeletons of palm trees washed up, along with pieces of buoys. A large orange craft mired in the shallow water may be a floatation device from an offshore oil rig, parks officials said, while a front-end loader abandoned on the shore is now half-buried in the sand.

John Gibson, facility manager at the National Seashore, said that about 10,000 square feet of roof was lost at different parks buildings, although workers are still assessing damage. At least two turtle stations, empty of wildlife, were washed away.

Parks officials marveled, though, at how such a strong storm could be so compact. Although Bret changed the face of the National Seashore, it also left much of the 130,434-acre park untouched.

"I don't think we lost as much as we did during Tropical Storm Francis last year," Gibson said. "This was really localized. Our structures, as you go further south, are more damaged. It's interesting you can see it in such a small area."

Four more counties to receive disaster help

Brooks, Jim Wells, Webb and Duval bring aid list up to 11

By Jessica Wehrman
Scipps Howard News Service

Four South Texas counties Wednesday were added to the list of those eligible for federal disaster assistance from Hurricane Bret.

Texas Gov. George W. Bush late Tuesday requested Brooks, Jim Wells, Webb and Duval counties be added to the seven counties already eligible for aid. The request was approved late Wednesday afternoon by the Federal Emergency Management Agency.

Texas Sens. Kay Bailey Hutchison, R-Texas, and Phil Gramm, R-Texas, sent a letter to President Clinton on Tuesday night asking him to support any requests by Bush on behalf of the counties.

"This additional designation of counties located in South Texas will go a long way toward helping these communities efficiently and promptly respond to our constituents' needs that follow in the aftermath of Hurricane Bret," the letter read in part.

All four counties received rainfall of two to four inches per hour Sunday and Monday, and some areas received up to 20 inches of rain overall.

Falfurrias, in Brooks County, was particularly hard hit by the storm.

In all, the price tag for insured losses in Texas caused by Hurricane Bret could reach as high as $75 million, one insurance industry spokesman said Wednesday.

"It is still far too early to estimate precisely what total

South Texas Retina Consultants

insured losses will be until people return to their homes and businesses and survey them for damage," said Sandra Ray, spokesman for Southwestern Insurance Information Service.

The $50-75 million damage estimate does not include losses from flood damage, she said.

"Texans were very fortunate to be spared major losses," she said. "The estimated insured losses from Hurricane Bret will be a fraction of what they could have been had the storm hit a highly populated area."

More may be added

Jo Moss, a spokeswoman for the Texas Division of Emergency Management, said other South Texas counties may also be listed for federal disaster relief in the coming days.

On Sunday, President Clinton named seven counties eligible for federal aid: Aransas, Cameron, Kenedy, Kleberg, Nueces, San Patricio and Willacy.

Initial federal aid for all 11 counties will pay for emergency services and debris removal. Later assessments will determine if or how much property, road, and infrastructure damage will be paid for by federal funds.

The federal government has pledged to pay for 75 percent of debris removal and overtime for emergency workers. After a more detailed assessment is complete, the federal government likely will pay 75 percent of whatever infrastructure damage occurred during Bret if the state and local government decides federal help is necessary. In both cases, state and local governments will team up to pay the remaining 25 percent.

Less damage than expected

Moss said initial assessments have showed less damage than expected.

"If the storm had continued on its path toward Corpus Christi, we could've lost 80,000 houses," she said. "Right now, we're looking at 80 houses."

But she said of the counties surveyed so far, hundreds of homes were affected in some way, either minor damage to the house, damage to the yards or roof damage.

Now, Moss said, the focus is on getting those who evacuated before the storm back in their homes, and getting utilities restored.

The Public Utility Commission of Texas reported 1,400 people in Corpus Christi, the Rio Grande Valley, Kingsville and Alice still remain without power, but likely will have power restored Thursday night or Friday morning, according to FEMA, which has been collecting data on the storm's damage.

Determining the cost

Local governments are responsible for helping to determine the cost of damage to property and infrastructure. Moss recommended that those with property damage not covered by insurance tell their mayor or county judge.

"We do not try to put things back the way they were before," she said. "We try to do things that help people

get back on their feet and keep going."

It could be months before an official price tag is attached to Bret's damage, Moss said. Some damage won't be seen at least until the floodwaters completely dry up.

Sam Logan of the Federal Emergency Management Agency, which coordinates with different government agencies and works closely with the Red Cross, said early Red Cross estimates were that three dozen homes had been destroyed. Less than a hundred saw major damages, and several hundred homes saw minor damages.

Jessica Wehrman is a reporter for Scripps Howard News Service.

Food is scarce for those living in Kenedy County

Water contamination is a possibility; people still experiencing power outages

By Mary Lee Grant
Caller-Times

SARITA - Some residents of this small community near where the eye of Hurricane Bret passed say they are hungry, and have had very little food for several days.

"It's been a few days since I have eaten," Felix Herrera, 73, said, welcoming a Meals on Wheels truck Wednesday, which had been out of commission during the storm.

He said the meat in his freezer had spoiled, and that the food in his refrigerator had gone bad. Dressed in shorts and cowboy boots, he crawled under a tree that blocked his front doorway, and spent most of Wednesday repairing damage to his house.

Other residents in Kenedy County said Bret also has left them hungry and with no way to get food.

Anita Gonzales, 38, said she had no food at all to give to her four children.

"Everything is spoiled, and I have no way to get to town to buy food," she said.

Sarita has no grocery or convenience stores, and residents have to drive 20 miles north to Kingsville to go grocery shopping.

Gonzales said she will have little money this week, because she missed three days of work at the Dairy Queen in Riviera, which was closed because of the storm.

SEARCH Corpus Christi online

Search

Don Lowrance, MS, DDS, CCN

Caring For The Eyes Of South Texas

Maria Elena Urbina, 56, said she, too, had little food, and no money to buy any.

"We spent our money on a hotel room for the night when we evacuated to Hebbronville," she said. "Then our truck got flooded and broke down."

Red Cross damage assessment teams were in Sarita on Wednesday, and said they plan to bring a truck with food as soon as possible.

As of Wednesday afternoon, Central Power and Light estimated that 850 customers were still without power. Of that number, 750 were in the Falfurrias and Premont areas and about 100 were in the Alice, Kingsville, San Diego, Benavides, Orange Grove, Sandia, Rivera and Armstrong areas.

Officials said many septic tanks in the area are underwater, and Kenedy County commissioner Leonard May said there is concern that Kenedy County's water may be contaminated. He said the water will be tested today.

May, who is a Coors Beer wholesaler in Corpus Christi, said he will bring ice and water to Sarita residents. Kenedy County Sheriff Rafael Cuellar said the 28 inches of rain the county received has created two large standing bodies of water, each about 15 acres wide and 20 feet deep, which are inching their way toward town as water runs off area ranchland.

To avoid flooding, he was pumping water from the standing water on the west side of U.S. Highway 77 to the east side through culverts under the road.

In Falfurrias, officials who expected flooding Tuesday said creeks had receded and there had been no flood damage.

Anne Armstrong, owner of the 50,000-acre Armstrong ranch, said the eye of the storm passed half a mile north of her house.

She said she lost some sheds and other structures, and that windows were broken in the house, but she said neither her house nor the workers' houses were seriously damaged.

"It broke our heart to lose some of our big, old trees," she said. "But we were happily surprised that the damage wasn't worse. South Texas was very lucky."

Bret drenches King Ranch cotton

Rain-damaged product will bring lower prices; some harvested cotton soaked

By Ruth Cochran-Escamilla
Caller-Times

As might be expected, what happened to South Texas cotton farmers during Hurricane Bret affected the King Ranch on a grand scale. Ranch officials reported that 19,000 unharvested acres were soaked.

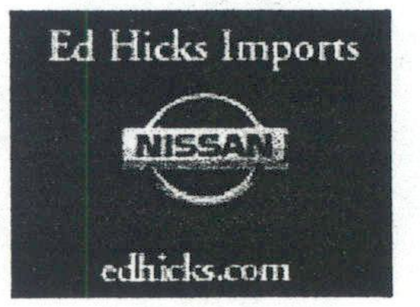
So, instead of an abundant harvest, like many cotton farmers, the King Ranch is evaluating whether harvesting the rain-damaged cotton will be worth the cost. The ranch harvested 9,000 acres before the hurricane struck Sunday.

In Nueces County, 58 percent of the county's 105,000 acres of cotton had been harvested. County agricultural extension agent Harvey Buehring has estimated losses to county farmers of at least $18.5 million.

Farmers had been harvesting a record crop, averaging 2.25 bales per acre. Buehring expects the rain-damaged acres to average one bale, an estimated loss of 54,000 bales.

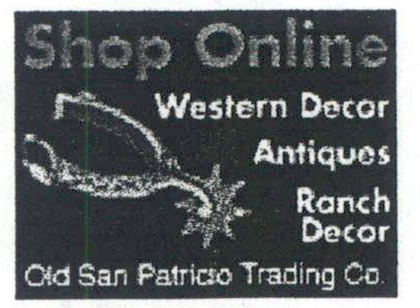
San Patricio County cotton farmers escaped the storm's wrath because 98 percent of the crop had been harvested, county extension agent Jeffrey Stapper said.

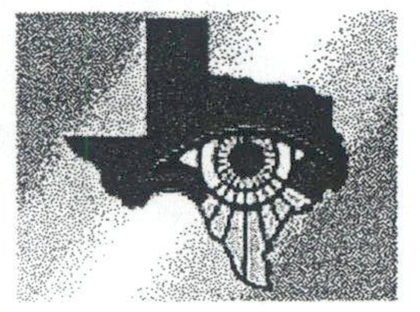
"We had about 105,000 acres of cotton and as a whole we're probably looking at maybe 900 pounds (1.8 bales) per acres," Stapper said. "This was a record-setting year. We have a lot of guys over here who are feeling mighty lucky."



SEARCH
Corpus Christi online

Search





At King Ranch, though, Robert Underbrink, a ranch vice president, said he expects losses because rain and wind knocked bolls off plants, which will reduce the yield of almost two bales per acre that the ranch had been expecting. He also expects the remaining cotton to bring a lower price because rain lowered its grade by leaching oils from the fiber and discoloring it.

"We had anywhere between six and 12 inches of rain," Underbrink said Thursday from San Antonio, where he was attending an agricultural conference. "It's too early to assess how we'll do. We're not sure of the total yield or the quality, but it's disappointing with the record yields in front of you.

"Now you end up with average yields plus depressed prices."

Adding to their problems, 300 modules of cotton waiting to be ginned sustained some water damage. Covers on 10 of the modules, which contain about 13 bales of cotton, were blown off and rain penetrated those modules, soaking more fiber.

Underbrink said it would take the ranch about two weeks to assess the remaining crop and estimate losses.

Buehring said the reduced yield in Nueces County means that farmers will lose $360 on each acre of cotton. Additionally, he said, ginning costs will rise because the rain-washed cotton is more difficult to gin.

After Hurricane Allen in 1980, Buehring said, ginning costs increased by $30 per module. That damaged cotton also fetched 7.22 cents less per pound than cotton harvested before the rain. Net return to growers was reduced $562 per module, he said.

Adding insult to injury, in 1980 farmers were paid 60 cents per pound of cotton. Before Hurricane Bret this year, area farmers were receiving approximately 52 cents per pound.

And, Buehring said, losses go beyond farmers to gins, truckers and merchandisers because less cotton will be handled. With an estimated 54,000 fewer bales, the negative economic impact to the county rises from $18.5 million for farmers to $53.64 million overall, he said.

Area farmers, including the King Ranch, will get no help from crop insurance. Yields typically must be reduced from 35 percent to 50 percent from the historic yield average before insurance will pay, Buehring said. Because the past decade has been ravaged by drought, historic yields in the area are one bale per acre - exactly what the rain soaked fields are expected to yield.

"Sunday and Monday of this week negated a bumper crop," Buehring said, "and reduced it down to not much better than where we were in drought years. Our blessing that was saving us from depressed prices was we had a bumper crop. Now a storm comes and takes that away."

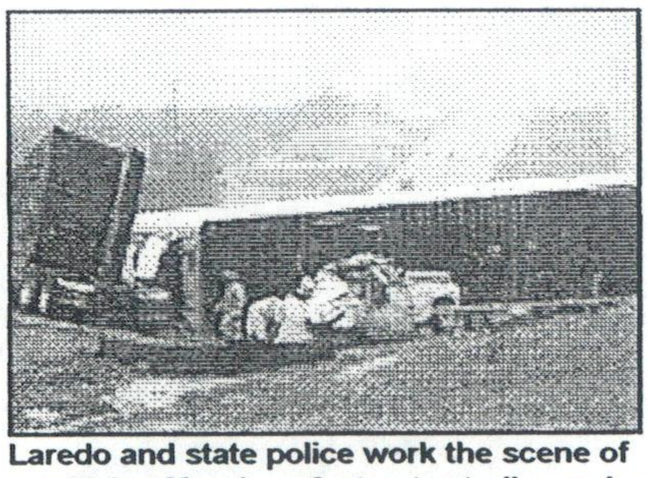
Bret claims four lives in Laredo

By Dane Schiller
Express-News Border Bureau

LAREDO — The first deaths attributed to Tropical Storm Bret were tallied here Monday, more than 150 miles from where it slammed into the Texas coast a day earlier as a full-blown hurricane.

Bret, the worst storm to hit Texas in two decades, led officials to declare a state of emergency here and in surrounding Webb County.



Laredo and state police work the scene of a collision Monday of a tractor-trailer and a pickup. The accident was blamed on a rain-slick highway in the wake of Tropical Storm Bret. The trucker was killed, as were the three people in the pickup.
Photo by Jerry Lara/Staff

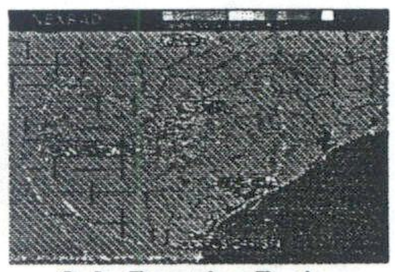
The busiest commercial crossing point on the U.S.-Mexico border came to a halt at 5 p.m. when officials closed the three bridges linking this city and neighboring Nuevo Laredo, Mexico.

Four people were killed when a tractor-trailer rig jack-knifed on a windy, rain-slick highway and crushed a pickup, Laredo police said.

The truck's driver was killed, as were the three people in the pickup, who were thought to be from the nearby town of Zapata.

The accident, still under investigation late Monday afternoon, appeared to have been caused by the

Tracking Chart



S.A. Doppler Radar

Forum

Special coverage

Slideshows
- Aug. 23, 1999
- Aug. 22, 1999

weather, Laredo police Lt. Victor Villarreal said.

"The truck could have hydro-planed and jack-knifed due to the water," Villarreal said as crews cleared debris from U.S. 83.

About 6 inches of rain had fallen here since Sunday afternoon, and more was expected overnight.

The slow-moving storm was doing about 6 mph when it weakened to a tropical depression Monday night, and it had dropped up to a foot of rain in its path.

A half-dozen brief tornadoes were reported from the coast to as far north as Burnet County in Central Texas.

Gulf of Mexico moisture still was trailing the storm. Brief, heavy rainfall from bands of moisture associated with the storm were expected overnight to drench areas of South Texas from Victoria to San Antonio to Del Rio.

Forecasters predicted the center of the dying storm would cross into Mexico northwest of Laredo by daybreak today, leaving Laredo with a 70 percent chance of possibly flooding rain.

The closing of the international bridges left some people stranded. Among those trapped on the Laredo side of the border was Ramon Guevara, 48, from Chicago.

Guevara and two friends had driven 24 hours non-stop only to be stalled here on their way to Guanajato.

"It's crazy," he complained. "We have worse conditions with snow in Chicago. We could teach them (officials) how to drive."

Another Guanajato-bound traveler, who wouldn't give his name, had driven for three days with his wife and two daughters from Chicago only to be frustrated by the closed bridges.

"I have things to do in Mexico. I don't have much vacation time," he said.

Sheets of rain blew through abandoned streets as

downtown Laredo, normally full of shoppers, took on the feel of a ghost town.

Most businesses, including malls and banks, schools and government offices, were closed at city officials' request.

"People should stay off the streets," Mayor Betty Flores said from emergency operations center.

"The fear we have is (Bret) will not only pass over Laredo, but it will stall," Flores said.

Meanwhile in Austin, state health officials warned of the further spread of dengue fever in Laredo, which experienced a recent outbreak of the disease.

With the expected heavy rains from Bret, mosquitoes carrying the disease will have more places to breed, Texas Health Commissioner William Archer III said.

He advised residents in the Laredo area to empty all small containers of standing water and to seek medical attention at the first sign of severe flu-like symptoms.

"We want to be sure that people are aware of the concern and take precautions," said Archer, who added that there has been one confirmed, severe case of dengue which can cause hemorrhaging.

Earlier this month, health officials reported 15 people in Laredo contracted dengue fever, and 106 other cases have been confirmed across the Rio Grande in Nuevo Laredo.

The National Guard is standing by in Laredo to help with the evacuation of hundreds of families from low-lying areas if necessary.

As of late Monday, more than 200 people had sought refuge at the Laredo Civic Center.

"It's best to seek shelter and leave voluntarily," Webb County Judge Mercurio Martinez cautioned.

Across the Rio Grande in Nuevo Laredo, more than 1,500 people had been evacuated from low-lying, mud-bogged neighborhoods, civil defense spokesman Ramiro Perez Salazar said.

"It is raining ugly," he said.

By late Monday, many Nuevo Laredo streets had been transformed into canals that strangled traffic and slowly flowed over curbs.

"The drainage is slow, but it usually works," Ana Laura Ipiña, a mother of three, said as water creeped toward her downtown apartment.

Although many parts of Laredo are considered low-lying, the main problem was expected to be faced by colonias — sprawling impoverished communities in nearby rural areas.

While officials urged caution, radar indicated the worst of Bret likely would avoid the populated areas of Webb County and move northwest toward Dimmit and Maverick counties.

"I think we are going to miss out on the worst of Bret," said Richard "Heatwave" Berler, a meteorologist with KGNS-TV. "We are going to get away as good as we could."

As Brett's center passed over Encinal, a tiny community 40 miles north of here, winds and rain whipped through the streets.

"The winds have been very strong," retired schoolteacher Margarito Flores said by phone. "It is like the coast: all the trees are bent in the same direction."

Officials in Rio Bravo, a city of about 8,000 people a few miles south of Laredo, expected a long night of people fleeing rising waters.

"It is going to get bad," City Administrator Jorge Benavides predicted.

"People do not move until the water is to their door step," he said.

Volunteer firefighters, EMS personnel and sheriff's deputies were standing by in that community, a former colonia.
