**Abstract** The editorial board of JGR Atmospheres thanks reviewers who refereed papers in 2022.

**Plain Language Summary** The editorial board of JGR Atmospheres thanks reviewers who refereed papers in 2022.

The editors of *Journal of Geophysical Research (JGR): Atmospheres* wish to sincerely thank the 2565 outstanding scientists who reviewed manuscripts for the journal in 2022. Peer review is a crucial process to ensure the integrity and rigor of science. Your reviews have helped to improve the quality of papers in the journal, stimulated new ideas, and advanced the careers of many young scientists. They contributed to the high quality of JGR-Atmospheres and the standard of science in our discipline. Of the 2565 reviewers listed below for the 1368 submitted papers to the journal, 501 people reviewed three or more papers. On behalf of the journal, the authors, and the community, we thank all reviewers for your selfless service and dedication to the scientific community. We look forward to your continuing support!

Individuals in *italics* provided three or more reviews for JGR-Atmospheres during the year.
